2023

WATER

Our business operations are water management under high-quality International standards, ensuring **Cleanliness, Sufficiency, and Continuity.**

ENERGY

We acknowledge the importance of alternative environmentally friendly technologies such as **Solar, Wind and Biomass energy** for sustainable renewable energy and environmental conservation.

ENVIRONMENT

Our business operations prioritize **Environmentally Friendly** practices, ensuring **Effective Planning and Control of Natural Resource use** while remaining conscious of environmental issues.

Message from the Chairman TTW Board of Directors

“ In the previous year, TTW Public Company Limited has been trusted by the Provincial Waterworks Authority (PWA) to manage the operations and maintenance of water supply production process (O&M) of Pathum Thani Water Treatment Plant to solve the problem of water shortage in the PWA region which is under the responsibility of Pathum Thani branch, Rangsit branch (special area) and Klong Luang branch for another 10 years, starting from 15 October 2023. The confidence TTW received from PWA not only reaffirms the fact that *“TTW is a leading expert in a completely integrated water production supply chain to deliver superior quality water and services for a better quality of lives in a sustainable society”* ”

If we look back at several decades of Thailand in the past, the country had encountered accumulatively several problems of different dimensions, no whether they are political, economic or social. However, the country has been able to overcome the problems. From our efforts, the country continues to prosper. The year 2023 was no exception. Thailand has been able to overcome political conflict, pandemic, economic problems, etc. Even though it was a rather difficult pace, we have attempted to survive the situation with all helping hands.

In the previous year, **TTW Public Company Limited** has been trusted by the Provincial Waterworks Authority (PWA) to manage the operations and maintenance of the water supply production process (O&M) of Pathum Thani Water Treatment Plant to solve the problem of water shortage in the PWA region which is under the responsibility of Pathum Thani branch, Rangsit branch (special area) and Klong Luang branch for another 10 years, starting from 15 October 2023. The confidence TTW received from PWA not only reaffirms the fact that TTW is a leading expert in a completely integrated water production supply chain to deliver superior quality water and services for a better quality of lives in a sustainable society which has distributed “quality water supply” to water users of all sectors “adequately” and “continuously”, but also helps to promote and support business, industry, tourism and small and medium enterprises (SMEs) to move ahead together, to build competitiveness, to generate income and to support economic recovery. The achievements of TTW which reflected through the indicators received from the organizations concerned are as follows:

In **Corporate Governance**, according to the evaluation of the Thai Institute of Directors (IOD) in the “Corporate Governance Report of Thai Listed Companies 2023”, TTW has been evaluated as “excellent” for the 5th consecutive year. Moreover, in the “AGM Checklist 2023”, the Company was assessed by the Thai Investors Association (TIA) to have 100 scores (5 medals).

In **Financial** matters, TRIS Rating Co., Ltd. assigned “AA-” with a stable outlook to the Company for the financial strength and ability to generate cash flow. In the event of SET Awards 2023, TTW was granted Outstanding Company Performance Awards in the category of “Business Excellence” which has the market value of 30,000-100,000 million Baht. Furthermore, repayment of principal according to the loan contract, redemption of matured loan and reduction of unnecessary expenses helped the Company to manage financial costs more effectively. In addition, the profit share from investment in the associate company has supported the overall operations to be more stable for another year.

In **Sustainability**, TTW has been included in the SETESG Index and was assessed for the “SETESG Rating” by the Stock Exchange of Thailand (SET) to be at AA level. Moreover, TTW has received the “Sustainability Disclosure Award 2023” from Thaipat Institute for the 5th consecutive year. TTW was certified Carbon Footprint for Organization (CFO) for the greenhouse gas emissions directly and indirectly from its activities. The achievements reflect another step of the Company’s role in all dimensions of sustainable development, namely, environment, society and governance (ESG).

In the area of environment, the Company has set its goal in reducing the greenhouse gas emissions and electricity use to be not less than 0.03 percent and 1 percent respectively. Part of electricity energy will be from clean energy such as from solar rooftop. For water, the proportion of water to be reused will be not less than 2 percent of the total amount of water in the water supply production process. Our determined goal is in line with the goal of the country and international goal. With our full and upgraded attempt to solve the climate problem, TTW aims to achieve clean energy, net zero emissions and carbon neutrality in 2050 and 2065 respectively. Our objective is in line with the fact that a higher proportion of consumers are increasingly inclined to use products and services of the companies which fight against climate change.

In 2024, Thailand still has to face the continued economic fluctuation particularly the recovery from the COVID-19 pandemic and the exponential technological development which all sectors have to adapt themselves to be able to overcome the challenges that arise and to be competitive in the international forum.

For TTW, as a leading expert in a completely integrated water production supply chain, we are well-prepared to cope with all situation which may occur. Being confident in our potential and readiness in the business operations to support all sectors according to our mission, we will “grow stably, continuously and sustainably to achieve our vision on the basis of balance among customers, employees, trading partners, shareholders, community and environment”.

On behalf of the Board of Directors of TTW Public Company Limited, executives and employees, I would like to convey my gratitude to the shareholders, business allies, trading partners, community and supporters of all sectors who have always given confidence and trust in the operations of the Company. I believe that the golden opportunity for Thailand has arrived which will help the country to move forward with the happiness and smiles of all Thai people who have truly better lives. I am certain that my wish will be realized.

TTW Business

1 Water Management

- Produces and Distributes tap water
- Operates of water treatment and maintenance to the Provincial Waterworks Authority

TTW Business

2 Fully-integrated Water Management Bang Pa-in Industrial Estate

TTW PCL has already acquired the water production and wastewater treatment rights for Bang Pa-In Industrial Estate (BIE), Phra Nakhon Sri Ayutthaya, Bang Pa-In Land Development Co., Ltd. for 30 years from August 2009 onwards. The water production system in Bang Pa-In Industrial Estate uses water from surface water sources, with a maximum production capacity of 48,000 cubic meters per day. Raw water is supplied from the Chao Phraya River, with an average water production capacity of 18,000 cubic meters per day.

TTW Business

3 Investment in Other Businesses

In 2011, TTW purchased the common stocks of CK Power Public Company Limited (CKP) which operates the main business as a holding company. CKP invests in companies operating the business of production and distribution of electricity in 3 types of power plants.

● Hydro Power Business

● Co-Generation Power Business

● Solar Power Business

1 Business Operations and Operating Performance

1. Structure and Operation of the Company

1.1 Business Policy and Overview

TTW Public Company Limited (TTW) operates the business of production and distribution of tap water to the Provincial Waterworks Authority (PWA) in the vicinity of West Bangkok, covering the areas of two provinces, namely, Nakhon Pathom Province in three districts, i.e., Amphoe Nakhon Chai Si, Amphoe Sam Phran, and Amphoe Phutthamonthon, and Samut Sakhon Province in two districts, i.e., Amphoe Krathum Baen and Amphoe Mueang Samut Sakhon. TTW has executed the Water Purchase Agreement with the Provincial Waterworks Authority (PWA) for a period of 30 years on a Build-Own-Operate (BOO) basis and TTW was granted a concession for the tap water business operation to use water from the Tha Chin River for producing tap water by the Ministry of Natural Resources and Environment.

Moreover, TTW also invested in subsidiaries companies related to tap water management business for PWA, including the acquisition of rights in Industrial Estate in order to conduct business related to tap water production and wastewater treatment together with holds shares in common stocks of Holding Company that operates the business of production and distribution of electricity from various kinds of energy both domestically and internationally.

1.1.1 Vision, Mission, Goals and Business Strategies

TTW is a leading expert in a completely integrated water production supply chain to deliver superior quality water and services for better quality of lives in a sustainable society, determined to seek opportunities and possibilities to expand the water supply business in neighboring countries, as well as expand operation in energy and environment business, the Company has the vision, mission and corporate value as follows:

Vision To be Thailand's leading company in Water, Energy, and Eco-Friendly Businesses.

Mission To grow on a firm, continuous and sustainable basis in order to accomplish our vision through the balance of interests among customers, employees, business partners, shareholders, communities and environments.

Corporate Value Running business to fulfill our vision and mission on the basis of sharing highest satisfaction and benefits among stakeholders by means of:

- Continuous Improvement
- Proactive & Initiative
- Teamwork

Goals and Business Strategies

TTW places great importance on the tap water business both domestically and internationally, collaborating with the Provincial Waterworks Authority (PWA) to develop a variety of tap water supply projects. At present, within the country, tap water service providers are still operated and serviced by the public sector, which includes the Provincial Waterworks Authority (PWA), the Metropolitan Waterworks Authority (MWA), the

Subdistrict Administrative Organization (SAO), and the Local Administrative Organizations (LAOs). The production capacity of PWA remains the largest in the country and it continues producing its own tap water, with only certain specific areas open to private investment, while the SAO and LAOs operate tap water production and management at the local level with a low production capacity. However, the public sector allows private investors to invest in new projects such as the Eastern Economic Corridor (EEC) with attractive conditions, the Company is ready to participate in the auction. The tap water business is considered to be capital intensive at the beginning of any new venture, as a result, the Company must consider the water distribution volume necessary to provide returns. If the initial sales volume and those of the following years do not meet expectations, this can result in a risk which may not make it worth the investment. As such, the tap water supply business must rely on the Minimum Order Quantity (MOQ) agreed upon with the public sector in order to reduce said risks.

In terms of the wastewater treatment business, the Company has a great interest in the construction of a wastewater treatment plant and/or a contract to operate public sector wastewater treatment systems already in operation. However, wastewater treatment service rates are presently still under consideration from the government as to how much water users should be billed, as is the factor of from where funding should be allocated for the hiring of private sector entities in said operations.

In terms of foreign investment, the Company continues examining business opportunities in ASEAN and other regions of interest. However, due to the individual risks of each country, the Company must exercise caution when investing in order to reduce any possible future risks that may occur, such as exchange rates, security factors, revenue collection from customers, natural disasters, raw water sources, etc., to ensure profitability and that such investments are worthwhile.

The Company's operational strategies include:

(1) Business Strategies

Tap water is a primary consumer product that is essential for life. In 2023, the country's largest tap water producer, the Metropolitan Waterworks Authority (MWA), supplied a total of 2,087 million cubic meters of tap water, while the Provincial Waterworks Authority (PWA) had a water supply volume of 2,061 million cubic meters. TTW and PTW are considered the largest private tap water production and distribution contract parties. In 2023, the amount of tap water produced and distributed by TTW and PTW to PWA was 278 million cubic meters or 14% of PWA's total water supply volume, or 74% of the total supply volume of tap water produced by PWA's all private producers, which has a total production volume of approximately 378 million cubic meters per year.

The Company formulated its business strategy as a framework to deliver products and services in response to customer demand and enhancement of competitive advantage and sustainable growth. The company divides its business strategy into 6 categories as follows:

a. Production Strategy

TTW employs foreign-imported tap water production technology which is efficient and modern. The “Leopold” filters are installed, making the filter tank durable than the sand filter tanks that are generally used. This filter system also helped save water, required for washing the filter tanks. The use of the Leopold filter in place of gravel filter and nozzle made the distribution of water and air circulation more thoroughly while filtering from the top layer and in the backwash process. Also, the use of Leopold helped gotten rid of the sand and gravel mix issue during backwash and the need to change sand and gravel layers. The use of Leopold also helped save more water and air during the backwash than the use of sand and gravel filters. All of TTW’s water production and distribution activities are controlled by the Supervisory Control and Data Acquisition (SCADA) System which is a modern and efficient computerized management system. TTW also assigned personnel to control production activities 24 hours to ensure that the production process is operated continually and efficiently. TTW also built the Krathumbaen Water Treatment Plant to prevent the risk that may occur and in case that the Banglen plant is unable to produce the water, the Krathumbaen plant could be used as the backup plant to produce tap water for PWA. This plant is located in Krathumbaen District of Samut Sakhon Province, which the production capacity of 100,000 cubic meters/day with an Ultra-Filtration system that could be able to support the need of water in the Samut Sakhon-Nakhon Pathom area sufficiently and continuously.

PTW used the SCADA system to control all production and water transmission similar to TTW. The filter system of PTW uses sand as a filter (media), there was sand washing or backwash by injecting air through the Air Nozzle head spreading the entire area of the filter tank under the sand layer. PTW assigned personnel to control production activities 24 hours to ensure that the production process is operated continually and efficiently same as TTW.

b. Service Area Expansion Strategy

TTW builds a tap water distribution main network that covers main streets in its tap water distribution areas and major communities with high demand for tap water. When combining with PWA’s water distribution network, the TTW network covers a large economic area. Moreover, TTW also joined hands with PWA to survey many areas in order to plan for the improvement of tap water distribution efficiency in areas where tap water pressure is low and where the water demand is high. In 2023, the company supported the PWA in transferring of groundwater users from Rai Khing Municipality (Moo 2, 5, 9, and 10) to use tap water from the Provincial Waterworks Authority, Om Noi and Sampran branches, totaling 864 cases. In addition, the company also supported PWA’s Om Noi branch in installing pipes to enhance the efficiency of water distribution in the area of Salaya subdistrict and Provincial Waterworks Authority Samut Sakhon Branch in the area of Khok Krabue subdistrict and Phanthai Norasing subdistrict, to enhance the water supply pressure, solve the problem of shortages and support the increasing demand for water in those areas.

PTW is a potential area, which is an area adjacent to Bangkok that is developing into a dense community in terms of trade, business, industry, educational institutions, and residences, with a tendency for

water demand to continuously increase. The Company has discussed with PWA continuous pressure management in order to increase efficiency in providing water supply services efficiently.

c. Communication and Public Relations Strategy

The Customer (Provincial Waterworks Authority), TTW recognizes the importance of its business processes and contract management, as well as of good cooperation in the carrying out of a variety of activities. Therefore, TTW currently focuses on the communication of necessary information between the Company, PWA, and water users by the process as follows:

- Meeting with customers by setting up a meeting circle to acknowledge the performance of the company and PWA, including problems and obstacles in the water supply service that occur in the service area, in order to plan to solve the problems.
- Meeting with water users and target customers who are new water users and tend to use large quantities of tap water in the future, both in the industrial and commercial sectors, in order to build confidence and emphasize on the quality of tap water that is clean, adequate, and continuous, as well as to acknowledge problems associated with tap water use.
- Public relations through communication channels that are rapid and appropriate, such as electronic mail (email) or Line group (Line), to PWA or industrial users in order to provide quick access to information in the event of a water supply interruption due to the repair of pipes and equipment in the water supply system or during the time of high tide, to reduce the impact that will occur in the production of goods or services.
- Support the activities of PWA's service area expansion to new water users, that PWA provides off-site services to various target communities in order to facilitate the water users, such as registration of new water users, inspection of pipe leaks in houses or buildings, etc.

Other stakeholders, the company arranges various activities to build good relations with the mass media, such as journalists in order to disseminate the company's information to the public, shareholders, and investors so that they can acknowledge the company's information and activities accurately and rapidly. The New media technology has been selected to communicate rapidly for social groups and communities both inside and outside the service area. The company conducts communication and public relations through joint activities in the form of an exhibitions, public relations documents, and lectures to provide knowledge and understanding of the company's business properly.

d. Service Quality Creating Strategy

TTW strongly believes that tap water operator should not only produce good quality tap water but also provide good service which includes the distribution of tap water in adequate quantity and with proper pressure as well as continuity of services. Followings are some of the good quality services provided by TTW in 2023.

(1) The quality and cleanliness of the tap water met the Industrial Standard 257, Part 1-2521, 100%.

(2) Sufficient water pressure at the end of tap water distribution pipes at not less than 27 meters water, 100%

(3) The continuous flow of tap water distribution is not less than 99.99%

Moreover, TTW also cooperated with PWA to organize meetings with large industrial and commercial tap water users regularly in order to get views and recommendations to improve the quality of goods and services, build trust, increase total sales of tap water in service areas, and build good relations between the company, PWA, and water users.

e. Quality Control and Examination Strategy

TTW regards the importance of the good quality of tap water and services that we provide to PWA and tap water consumers. Apart from close control on the quality of water at all steps of production, TTW also provided cooperation to PWA in the examination of water samples, collected from water users in each service areas in TLAA laboratories to ensure that the quality of tap water, distributed to downstream users is consistent with that of the water produced by TTW. At the same time, TTW also provided advice to the water users who requested us to examine the quality of downstream water free of charge. This is because we believe that “Good Quality Tap Water Brings a Better Quality of Life”.

f. Cost Management Strategy

With modern production technology installed, TTW is able to efficiently produce tap water by using Ultra-Filtration system technology and gravity to help the sedimentation process without using electrical power to circulate the water so that TTW is able to effectively maintain the cost of production at a manageable level. In addition, the company has a maintenance unit, a subsidiary (TWO) that specializes in maintaining water production and distribution systems without employing outsiders.

(2) Human Resources Strategy

The company's employees are significant resources, and they are also the key to supporting the business operations to achieve the goals. Therefore, the company establishes the strategic goals and operational guidelines as follows:

1. Develop and enhance employees' knowledge and abilities continuously and consistently, including organizing the organizational structure and career development plans to prepare employees for higher positions.
2. Perform fair employment without the discrimination based on gender, race, or religion in the consideration of promotions and transfers, including providing the opportunity for employees who have good performance and can develop their potential according to the position to be considered as a candidate for appointment by the management in a transparent and fair manner.
3. Provide welfare as required by law and additional welfare to meet the employees' needs, such as medical expenses, life insurance, health insurance, provident fund, and scholarships for employees' children, etc.
4. Focus on the employee's safety by providing training on safety in various fields.
5. Manage compensation in accordance with individual performance, as well as annually study, compare, and improve the compensation management with other companies in the same industry to ensure that the compensation is at a competitive level in accordance with the company's performance.

1.1.2 Significant Change and Developments

TTW Public Company Limited was incorporated as a limited company on 11 September 2000 under the name “Thai Tap Water Company Limited” to operate the project for producing and distributing water supply in the vicinity of West Bangkok, details of the Company’s significant changes and development can be summarized as follows:

- 21 September 2000 The Company signed a water purchase agreement with the Provincial Waterworks Authority (PWA) on a Build-Own-Operate (BOO) for a period of 30 years.
- 5 January 2004 Produced tap water for distribution to the Provincial Waterworks Authority before starting operation.
- 21 July 2004 Started selling tap water according to the terms of the water purchase agreement with the Provincial Waterworks Authority.
- 11 March 2005 TTW was granted a concession to engage in tap water production business from the Ministry of Natural Resources and Environment for 25 years to produce and distribute tap water for the areas of Nakhon Pathom Province in three districts, i.e., Amphoe Nakhon Chai Si, Amphoe Sam Phran, and Amphoe Phutthamonthon, and Samut Sakhon Province
- 6 July 2006 The Company has registered as a public company by the name of Thai Tap Water Company Limited.
- 29 June 2007 The Company entered into an agreement to purchase ordinary shares of Pathum Thani Water Company Limited (PTW) amount of 10,698,283 shares or 89.15 percent of total paid-up shares.
- 18 December 2007 The Company entered into an agreement to purchase an additional shares of Pathum Thani Water Company Limited amount of 1,061,452 shares or 8.85 percent of total paid-up shares (as of 31 December, 2007, the company has had a total shareholding in PTW of 98 percent, 2 percent is owned by the Provincial Waterworks Authority).
- 22 May 2008 The Company was converted into a listed company on the Stock Exchange of Thailand (SET) with the registered capital of 3,990,000,000 Baht, comprising 3,990,000,000 ordinary shares at the par value of 1 Baht per share, TTW has been classified into Energy and Utilities Business in Resource Sectors.
- 7 August 2009 TTW has signed an agreement to acquire the right to produce tap water and wastewater treatment in Bang Pa-in Industrial Estate from Bang Pa-in Land Development Company Limited (BLDC) for a period of 30 years (ended on 6 August 2039).
- 8 January 2010 Waterflow Company Limited merged with BJT Water Company Limited to establish Thai Water Operations Company Limited, staked by TTW 68 percent and PTW 32 percent.

- 1 September 2010 TTW expanded the capacity from 320,000 cubic meters per day to 440,000 cubic meters per day and started selling tap water according to the terms of the water purchase agreement with PWA (expansion), as a result, the company's minimum purchase volume of water has been increased to 309,000 cubic meters per day.
- 13 September 2011 TTW purchased ordinary shares of CK Power Company Limited (CKP).
- 10 May 2012 TTW paid CKP's capital increased (from 100 million shares to 9,200 million shares) in proportion to the shareholder's equity of 2,730 million baht, totaling 276 million shares or equaled to 30 percent.
- 14 March 2014 The 2014 Annual General Meeting of Shareholders approved the Company changed its name to TTW Public Company Limited.
- 22 May 2015 TTW purchased 467.50 million shares in CKP according to the rights and the premium of 23,144,123 shares at a par value of 3 Baht per share, totaling 1,471.90 million baht, resulting in the company having a 25.31 percent stake in CKP.
- 19 June 2017 TTW accepted the construction works from Ch.Karnchang PLC, including; Krathumbaen Water Treatment Plant, Rai Khing Raw Water Pumping Station, Pipe laying of raw water, and the renovation work of a booster station to a water distribution station, including the construction work under the conditions of the government agency license.
- 28 June 2019 Ch.Karnchang PLC has exercised the warrants to purchase ordinary shares (CKP-W1) and shareholding in CKP increased to 32.56 percent, resulting in TTW's shareholding in CKP decreased to 23.43 percent (Dilute Effect).
- 19 September 2019 The Board of Directors has approved TTW to gradually exercise the rights of warrants purchased ordinary shares (CKP-W1) at the sum of 490,644,424 units, in which, 1 unit of the warrant could be converted to 1.0007 new ordinary shares of CKP, TTW could exercise the warrants purchased CKP's shares up to 490,987,875 shares at 6.00 baht per share. The total amount would be 2,945,927,250 Baht.
- 24 September 2019 TTW issued a bill of exchange (B/E) 1,000 million baht of unsecured senior debentures, with no trustees, as an investment to converting warrants into ordinary shares of CKP by private placement offering with a 1.73 percent discounted rate of return, maturity date on 24 December 2019.
- 4 October 2019 CKP received the additional shares from the exercise of the warrants to purchase ordinary shares (CKP-W1) amount of 165,115,000 shares that trade on 4 October 2019, resulting TTW's stake in CKP 24.98 percent.
- 20 December 2019 TTW issued and offered for sale debentures with a maturity of 7 years 2 months, in the total amount of 1,000 million baht, at the fixed interest rate of 2.41 percent per annum, proceeded of which would be used for repayment of the matured existing debentures.

- 30 July 2020 The Board of Directors has approved the change of sub-committee structure from 5 to 4 to make the work of each sub-committee much more compact by combining the Corporate Governance Committee and the Risk Management Committee to the Risk Management and Corporate Governance Committee.
- 10 June 2021 The Board of Directors meeting no.2/2021 has approved TTW to enter into the Engineering, procurement and construction (EPC) contract with Ch.Karnchang Public Company Limited (CK) for improvement for water supply and distribution systems at Banglen Water Treatment Plant with the project cost of 330.87 million baht (excluded VAT) and the project period was 540 days.
- 29 June 2021 TTW received the construction work of Renovation of Water Treatment and Transmission Distribution Systems of Pathum Thani Water Treatment Plant Project from Ch.Karnchang Public Company Limited (CK).
- 22 February 2022 TTW redeemed the debentures of Thai Tap Water Supply Public Company Limited No. 1/2012 valued at 2,000 million baht.
- 29 April 2022 TTW makes a loan from the financial institutions (Bank of Ayudhaya) in the amount of 1,000 million for the matured debentures redemption.

Significant Changes and Developments of the Company in 2023

- 1 February 2023 TTW redeemed the debentures of Thai Tap Water Supply Public Company Limited No.1/2018 valued at 1,000 million baht.
- 16 June 2023 TTW was selected into the “SETTHSI Index” for calculating the index during 1 July – 31 December 2023.
- 8 August 2023 The Thai Investors Association (TIA) announced that TTW received 100 points (Full score) in the quality assessment by the 2023 Annual General Meeting of Shareholders.
- 3 October 2023 PWA has signed the contract to allow PTW to operate the water treatment and maintenance to solve the water shortage problem in the area under PWA's Pathumthani Branch, Rangsit Branch (S) and Klongluang Branch for 10 years since 15 October 2023, by operate the water treatment and maintenance of the system, Pathumthani Water Treatment Plant with the Minimum Offtake Quantity: 358,000 cubic meters / day.
- 14 October 2023 The end of the Granting Rights to Treat and Sell Water Agreement (Rights Agreement) and Water Purchase and Sell Agreement between Pathum Thani Water Company Limited (PTW) and the Provincial Waterworks Authority (PWA).
- 31 October 2023 The Thai Institute of Directors (IOD) announced the results of the Corporate Governance Report of Thai Listed Companies for 2023 (CGR), TTW received a rating of "excellent".
- 6 November 2023 TTW was rated at “AA” on the “SET ESG Rating 2023” by the Stock Exchange of Thailand

- 21 November 2023 TTW received a plaque for a listed company with Outstanding Company Performance Awards in the Business Excellence category. with a market capitalization exceeding THB 30,000 million but not exceeding THB 100,000 million. at the SET Awards 2023
- 29 November 2023 TRIS Rating Co., Ltd. reaffirmed the Company's rating at "AA-", with a "Stable" outlook.
- 18 December 2023 TTW was selected into the "SETESG Index" for calculating the index during 1 January – 30 June 2024
- 21 December 2023 TTW received an honorable award "Sustainability Disclosure Award" for the year 2023 from Thaipat Institute. (for the 5th consecutive year)

1.1.3 Propose of Fund Raised

As of 31 December 2023, the Company had 2 outstanding debentures, equivalent to 2,400 million baht.

Details of the debenture are as follows:

Debenture	Issue Date	Issue Size (million Baht)	Term	Coupon Rate (per year)	Purpose of funds
TTW255A	21 May 2015	1,400	10 years	3.98%	To purchase additional shares of CK Power Public Company Limited
TTW272A	20 December 2019	1,000	7 years 2 months	2.41%	To repay a bill of exchange that are due from exercising the warrants to purchase the ordinary shares of CK Power Public Company Limited
Total		2,400			

1.1.4 Company's Commitment (if any)

- None -

1.1.5 General Information of the Company

(1) General Information of the Company

Company's Name	:	TTW Public Company Limited
Symbol	:	TTW
Type of Business	:	Utilities business in the production and distribution of tap water
Industrial	:	Resources
Sector	:	Energy and Utilities
Company's Registration Number : 0107549000114		
Registered Capital	:	3,990,000,000 Baht (3,990,000,000 Ordinary shares)
Issued and Fully Paid-Up Capital:	:	3,990,000,000 Baht (3,990,000,000 Ordinary shares)
Par Value	:	1 Baht
Head Office	:	No.30/130 Moo 12 Buddha Monthon 5 Road, Raikhing Sub-District Sam Phran District, Nakhon Pathom Province, 73210.

Branch Office	:	(1) No.67-68 Moo 9, Bangrakam Sub-District, Banglen District, Nakhon Pathom Province 73130. (2) No.29/16 Moo 3, Klong Maduea Sub-District, Krathumbaen District, Samut Sakhon Province 74110. (3) No.139 Moo 2 Udomsoraryuth Road, Klongjig Sub-District, Bang Pa-in District, Phra Nakhon Si Ayutthaya Province 13160.

(2) Information of Juristic persons in which the Company held more than 10% of fully paid-up capital

Company's Name	:	Pathum Thani Water Company Limited ("PTW")
Type of Business	:	Tap water management business for PWA in Pathumthani-Rangsit Area
Company's Registration Number	:	0105538063801
Registered Capital	:	1,200,000,000 Baht
Issued and Fully Paid-Up Capital	:	1,200,000,000 Baht
Par Value	:	100 Baht
Shareholding	:	11,759,733 Shares
Shareholding Percentage	:	98%
Head Office	:	43 Moo 3, Chiangrak noi-Bangsai Road, Baan Pathum Sub-District, Samkhok District, Pathum Thani Province, 12160.
Company's Website	:	http://www.ptw.co.th
Telephone Number	:	0 2019 9484
Fax Number	:	0 2420 6064

Company's Name	:	Thai Water Operations Company Limited ("TWO")
Type of Business	:	Water Management / Production System Management / Water Distribution and Wastewater Treatment
Company's Registration Number	:	0105553002426
Registered Capital	:	60,000,000 Baht

Issued and Fully Paid-Up Capital : 60,000,000 Baht
 Par Value : 100 Baht
 Shareholding : 411,000 Shares
 Shareholding Percentage : 68.5%
 Head Office : 30/10 Moo 12, Buddha Monthon 5 Road, Raikhing Sub-District
 Sam Phran District, Nakhon Pathom Province, 73210.
 Company's Website : <http://www.two.co.th>
 Telephone Number : 0 2019 9480
 Fax Number : 0 2420 6064

Company's Name : CK Power Public Company Limited ("CKP")
 Type of Business : Holding shares of other companies (Holding Company) operating electricity generation and distribution businesses from different energy sources.

Company's Registration Number : 0105554074200
 Registered Capital : 9,240,000,000 Baht
 Paid-Up Capital : 8,129,382,729 Baht
 Par Value : 1 Baht
 Shareholding : 2,030,759,929 Shares
 Shareholding Percentage : 24.98%
 Head Office : 587 Viriyathavorn Building floor 20 Sutthisan Road Dindaeng
 Dindaeng Bangkok 10400
 Company's Website : <http://www.ckpower.co.th>
 Telephone Number : 0 2691 9720
 Fax Number : 0 2691 9723

Xayaburi Hydroelectric Power Project, Lao PDR, of Xayaburi Power Co., Ltd., one of the businesses invested by CKP.

1.2 Nature of Business Operations

The Company and its subsidiaries operates the business of generation and distribution of tap water to the Provincial Waterworks Authority (PWA) in the areas of two provinces, Nakhon Pathom Province in three districts, i.e., Amphoe Nakhon Chai Si, Amphoe Sam Phran, and Amphoe Phutthamonthon, and Samut Sakhon Province in two districts, i.e., Amphoe Krathum Baen and Amphoe Mueang Samut Sakhon, Pathumthani – Rangsit Area, including the business of management and maintenance of tap water production system and wastewater treatment.

1.2.1 Revenue Structure

As of 31 December 2023, the revenue structure of the Company and its subsidiaries is as follows:

Type of Business	Operating Company	Shareholding (%)	Financial Information					
			31 Dec 2023		31 Dec 2022		31 Dec 2021	
			Mil. Bt.	%	Mil. Bt.	%	Mil. Bt.	%
Revenues								
Sales of treated water								
TTW	The company		4,029.9	68.7	3,866.9	67.8	3,925.3	67.4
PTW	Subsidiaries	98.0	1,496.1	25.5	1,708.0	29.9	1,757.1	30.2
Water treatment management								
PTW		98.0	183.1	3.1	-	-	-	-
Service income								
TTW	The company		35.7	0.6	38.8	0.7	41.1	0.7
TWO	Subsidiaries	68.5	81.8	1.4	77.8	1.3	82.6	1.4
Finance income	The company and its subsidiaries	-	10.5	0.2	3.7	0.1	4.6	0.1
Other income								
Profits from investment ⁽¹⁾	The company and its subsidiaries	-	21.3	0.4	8.7	0.1	6.9	0.1
Other			0.4	0.1	1.0	0.1	4.8	0.1
Total revenues		-	5,858.8	100.0	5,704.9	100.0	5,822.4	100.0

Remark: ⁽¹⁾ Profits from investment gains on temporary investments

1.2.2 Business Operations of the Company based on main business segments:

(1) Tap Water and Related Services

The Company and its subsidiaries are the operator of tap water production and distribution in response to the government's policy to provide the public with adequate, continual, and good quality supply of tap water, and the business of management and maintenance of tap water production and wastewater treatment system, which divides into 2 types as follows:

Tap Water Production and Distribution Business

1. TTW Public Company Limited (TTW)

TTW is the operator of tap water production and distribution in response to the government's policy to provide the public with adequate, continual, and good quality supply of tap water, with the following nature of businesses.

(1) Business Contract and Concession

a) Purchase and Sale Agreement with the Provincial Waterworks Authority (PWA)

On 21 September, 2000, TTW and PWA signed a contract in which PWA agreed to purchase tap water, produced by TTW in order to resell the water to consumers in Samphran, Nakhon Chaisri, and Buddha Monthon Districts of Nakhon Pathom Province, as well as Krathumbaen and Muang Districts of Samut Sakhon Province for a period of 30 years, starting from the date that TTW sold water to PWA according to the contract, i.e., 21 July, 2004. The contract will last until 20 July 2034 is called the Build-Own-Operate (BOO) under which TTW is the builder of water production and distribution facilities and the owner of such production and distribution facilities without having to transfer the facilities to the PWA. According to the contract, TTW must arrange to ensure the production capacity of 320,000 cubic meters per day and the Minimum Order Quantity (MOQ) that the PWA must purchase from TTW throughout the contract period is as follows:

Starting Date	Ending Date	MOQ (Cubic Meter / Day)
21 July 2004	20 July 2006	200,000
21 July 2006	20 July 2008	250,000
21 July 2008	20 July 2034	300,000

Apart from the MOQ amount of tap water that the PWA was required to purchase from TTW as detailed above, the tap water supply contract also required TTW to maintain and ensure that TTW tap water production capability must be adequate to supply minimum amount of tap water required to purchase at the time plus the 7% minimum amount of tap water that was required to be purchased at that time or plus 20,000 cubic meter/day of tap water, whichever amount was lower.

b) An Amendment to the Water Purchase and Sales Agreement with PWA.

TTW signed an amendment to the Water Purchase and Sales Agreement with PWA on 29 December 2008 in which the MOQ amount has increased from 300,000 cubic meters per day to 354,000 cubic meters per day. (increased 9,000 cubic meters per year). In 2023, from 1 January to 31 December, the rate for 1-300,000 cubic meters shall be 31.534619 Baht per cubic meter, and the exceeding 300,001 cubic meters shall be 13.11 Baht per cubic meter.

c) Tap Water Business Concession

TTW has been granted a concession to engage in tap water production business from the Ministry of Natural Resources and Environment for 25 years, starting from 11 March 2005 to 10 March 2020. Under the concession, TTW shall produce and distribute tap water for the areas in 5 districts of 2 provinces as shown in the following table.

Province	District
Nakhon Pathom	Sam Phran, Nakhon Chaisri, and Buddha Monthon
Samut Sakhon	Krathumbaen and Muang Samut Sakhon

TTW According to the provision in TTW Concession, TTW can produce and distribute tap water to anyone in the areas without limitation, e.g., PWA, Industrial Estate Authority and municipalities, etc., and TTW shall charge the tap water users at the rate as specified in the contract between TTW and PWA.

d) Letter of Permission to Use Water from the Tha Chin River for Tap Water Production

TTW has been granted permission to use water from the Tha Chin River for tap water production. It consists of the following licenses:

- Letter No.Nor Ror 0110/423 dated April 27, 2001, with a capacity of 320,000 cubic meters/day.
- Letter No.Tor Sor 0222.2/7464 dated November 29, 2016, to increase production capacity by 120,000 cubic meters/day, totaling 440,000 cubic meters/day.
- Letter No.Tor Sor 0605/5837 dated August 16, 2018, to increase production capacity by 100,000 cubic meters/day. Currently, TTW has a total capacity of 540,000 cubic meters/day.

e) Maintenance Agreement

TTW entered into a management and maintenance agreement with Water Flow Co., Ltd. on June 12, 2001, for a term of 30 years, equal to the term of the tap water purchase agreement, which is from July 21, 2004, until the expiration date of the contract, which is July 20, 2034. On January 8, 2010, Waterflow Company Limited merged with BJT Water Company Limited (a company that provides management and maintenance services for Pathum Thani Water Company Limited (PTW)) is Thai Water Operations Company Limited (TWO). Therefore, TWO performs all maintenance services for TTW and PTW, including production and wastewater treatment systems at Bang Pa-In Industrial Estate.

(2) Production and Distribution System

a) Production System

TTW produces tap water by pumping raw water from the middle course of the Tha Chin River into the tap water production process at the TTW water treatment plant on the east side of the river at Bang Rakam Sub-District, Banglen District, Nakhon Pathom Province. The plant has installed and maximum production capacity of 320,000 cubic meters per day, as of 31 December 2009 and August 2010, the production capacity has increased to 440,000 cubic meters/day. The company built the 2nd water treatment

plant at Krathumbaen, located on Settakit Road 1, Khlong Maduea Sub-District, Krathumbaen District, Samut Sakhon Province which intended to be used as a secondary plant with a production capacity of 100,000 cubic meters/day. The two plants have a combined production capacity of 540,000 cubic meters per day.

The production process at the water treatment plants, the distribution of tap water to both water treatment plants and the tap water distribution process to the PWA is controlled by the Supervisory Control and Data Acquisition (SCADA) System which is able to control water production and distribution to distribution stations efficiently. Such a system was installed in a control building which was located separately from the tap water production plant.

TTW has built a chemical storage building separate from the water treatment plants in order to store chemicals before they are automatically added into the water production system. The main chemicals used in the production process are as follows:

- Alum is used to precipitate suspended solids in raw water.
- Potassium permanganate is used to eliminate certain chemicals in raw water that make raw water turn colored.
- Liquid chlorine is used in disinfection processes.
- Polyelectrolytes are used to make the sludge larger in order to make it fall to the bottom of the tank rapidly.
- Lime is used to adjust the pH of water.

In addition, TTW also uses a diaphragm dosing pump, which can adjust the pumping frequency and the amount of chemical as appropriate according to the quantity and quality of raw water obtained from daily testing, and also has a backup generator for use in the event of a power outage. Because TTW's machines have to operate 24 hours a day, TTW has set up an employees' dormitory inside the compound of the TTW water treatment plant to ensure that the production process is operated continually in the event of an emergency situation occurring.

The quality of tap water, produced and distributed by TTW met standard criteria, prescribed in the Water Purchase and Sales Agreement with PWA and the Thai Industrial Standard of the Thai Industrial Standard Institute, the Ministry of Industry. To ensure that the quality of the tap water met these standards, TTW conducted the test on water quality at all steps of production, starting from the adding of chemical solvent until the sludge dewatering and the distribution of tap water from the water production plant. With efficient and skillful production, tap water, produced by TTW always meets the standard, prescribed by the PWA ever since the starting of operation on 5 January 2004 until present and in pursuance to the Thai Industrial Standard 257, Vol. 1-2521.

b) Tap Water Transmission System to Water Distribution Stations

Tap water produced from the Banglen water treatment plant is stored in water storage tanks with a capacity of 30,000 cubic meters, and the tap water at the Krathum Baen water treatment plant is stored in

two connected water storage tanks with a capacity of 25,000 and 20,000 cubic meters, from which the tap water will be distributed to the following 2 TTW distribution stations:

(1) Buddha Monthon Distribution Station is located on Buddha Monthon 5 Road, Rai Khing Sub-district, Samphran District, Nakhon Pathom Province, the area consists of 2 water tanks that share a wall with a total capacity of 50,000 cubic meters. The water pumping system is installed by dividing it into 2 sets. The first set consists of 6 water pumps with a pumping rate of 2,569 cubic meters/hour/machine in order to distribute water to the service area and the Samphran and Omnoi Distribution stations, which distribute water to people in the areas of Sampran, Buddha Monthon, and Nakhon Chai Si Districts, Nakhon Pathom Province, and Krathumbaen District, Samut Sakhon Province, and the second set consists of 5 water pumps with a pumping rate of 1,530 cubic meters / hour / machine in order to distribute water to the Krathumbaen booster station and Mahachai distribution station.

(2) Mahachai Distribution Station is located in Mueang Samut Sakhon District, Samut Sakhon Province, the area consists of 2 water tanks that share a wall with a total capacity of 30,000 cubic meters, which receive water from the Buddha Monthon distribution station and distribute water through the water pumping system of 4 machines with a pumping rate of 2,664 cubic meters/hour/machine in order to distribute water to the service area and the Samut Sakhon distribution station, which distributes water to Mueang Samut Sakhon District, Samut Sakhon Province.

Both distribution stations have a water distribution control system that is suitable for the amount of water needed in the water distribution area. The water is pumped through a series of water gauges to record the quantity of water, distributed to PWA. In addition, a pressure control tank is installed to prevent the occurrence of vacuum in water distribution pipes and deformity caused by resonance frequency in the event of a power outage, which it works by filling the air into the pipe system. A backup generator was also installed for use in the event of a power outage, as well as at the water treatment plant.

c) Raw Water & Tap Water Distribution System

1) Bulk Trunk Main (BTM) is the pipeline system from the water treatment plant to the 2 distribution stations of TTW, for a total distance of approximately 51 kilometers consisting of:

- The tap water distribution system from the water treatment plant to Khlong Yong booster station, which has a diameter of 1,500 mm. (1.5 m), with approximately 17 km. In the first phase, a BTM pipe from the Banglen water treatment plant to the Khlong Yong booster station is installed on the pavement of Salaya-Bangpasee Road.

- The tap water distribution system of the Khlong Yong booster station has a diameter of 1,500 mm. (1.5 m), with a distance of approximately 12 km, is installed from the Khlong Yong booster station on the pavement of Salaya-Bangpasee road to the southern railway, turn right along the railway, and turn left onto the road No. 3414, passing through Pinklao-Nakhon Chaisri road, as well as Buddha Monthon 5 road to the Buddha Monthon distribution station.

- Tap water distribution system from Buddha Monthon Distribution Station to Krathumbaen Booster Station, which has a diameter of 1,000 mm. (1.0 m), with approximately 14 km. A BTM pipe is installed on the pavement of Buddha Monthon 5 road, passing through Phetkasem road by installing a pipe on the pavement of Setthakit 1 road until the Krathumbaen booster station.

- Tap water distribution system at Krathumbaen booster station to Mahachai Distribution Station, which has a diameter of 1,000 mm. (1.0 m), with approximately 7 km. A BTM pipe is installed on the pavement of Setthakit 1 road, turn right along Siwaphasawat-Panthuwong road, through Siwaphasawat canal, until the Mahachai distribution station.

2) Local Distribution Network (LDN) is a tap water distribution piping network from 2 TTW's water distribution stations to PWA in order to distribute the water to the water users, with a total length of 113 kilometers.

Each point of LDN is linked by the valve pond that consists of pressure control equipment that linked the LDN and PWA's service piping network. All of the valve ponds and pressure control equipment in 46 points are TTW's assets.

TTW has paid for the lease island where the bulk transmission main (BTM) and local distribution network (LDN) are laid to the Department of Highways every year according to the lease agreement. The lease fee is subject to an increase of 15% every 5 years according to the conditions prescribed by the Department of Highways. In 2022, the total lease fee that TTW had to pay was 34.62 million Baht, which was 27.94 million Baht for the lease of the water treatment plant in Banglen and 6.68 million Baht for the second water treatment plant in Krathumbaen.

3) Raw Water Distribution System is a raw water distribution system that flows from the Tha Chin distributary to the Rai Khing Raw Water Pumping Station, located at Rai Khing Subdistrict, Samphran District, Nakhon Pathom Province. The distribution system delivers raw water via a 1,500-millimeter water pipe with a total distance of 16 kilometers to the Krathumbaen Water Treatment Plant to bring raw water into the tap water production process.

d) Quality of Tap Water

The quality of tap water produced and distributed by TTW met standard criteria; prescribed in the Water Purchase and Sales Agreement with PWA and the Thai Industrial Standard of the Thai Industrial Standard Institute, the Ministry of Industry. To ensure that the quality of the tap water met these standards, TTW conducted the test on water quality at all steps of production, starting from the adding of chemical solvent until the sludge dewatering and the distribution of tap water from the water production plant. Moreover, samples of water were also sent to be examined by the Health Department of the Ministry of Public Health at least once a month from the start of the operation on 5 January 2004 until the present.

(3) Benefits of Investment Promotion

As of December 31, 2022, TTW has investment promotion certificate that receive privileges from the Office of the Board of Investment as follows:

Investment Promotion	59-0683-1-00-1-0
Certificate Number	
Date	May 26, 2016
Start Date for Income	March 31, 2019
Type of Business	Business of tap water and water production for Industries or steam
Rights and Benefits	<p>(1) Exemption of import duty on machinery as approved by the Board of Directors.</p> <p>(2) Exemption from corporate income tax for net profit from the promoted business combined not exceeding 100% of investment, excluding cost of land and working capital for a period of 5 years from the date of earning income from Undertaking such business, in case of loss during the period of corporate income tax exemption, in carrying out the loss of business, the annual loss incurred during that time shall be applied. to be deducted from the net profit incurred after the period of corporate income tax exemption for a period of not more than 5 years from the date of expiration set that time You can choose to deduct from the net profit of any year or several years.</p> <p>(3) Exempted from the need to include dividends from promoted businesses that are exempted from corporate income tax under Section 31 to include in the calculation of income taxes throughout the period that the promoted person is exempt from corporate income tax.</p>

2. Pathum Thani Water Company Limited (PTW)

PTW manages the water production system for the Provincial Waterworks Authority and is the first private investment project to produce tap water for the replacement of groundwater use per government policy. PTW has the following key business nature:

(1) Business Contract and Concession

- a) The granting rights to treat and sell water agreements and additional water purchase and sell agreement (Dated 15 October 1998 – 14 October 2023)

PTW has signed the Build-Own-Operate-Transfer (BOOT) contract with the Provincial Waterworks Authority (PWA) on 31 August 1995 in which PWA granted PTW the right to produce and distribute tap water in Pathum Thani-Rangsit areas of Pathum Thani Province for a period of 25 years, starting from the operation date, i.e., 15 October 1998 to 14 October, 2023. And on 15 September 2006, PWA and PTW signed a contract that

increased the purchase additional amount of tap water supply by 70,000 cubic meters/day to be distributed to areas under the operation of PWA's Rangsit Office, using some assets from the Production and Distribution of Tap Water Contract. The expansion project was in response to the increasing daily demand for tap water. PTW invested in improving the raw water system, construction of tap water production system, booster pump station, improving distribution system, and stations in order to increase production capacity by 100,000 cubic meters/day, which the additional water purchase contract expires on October 14, 2023, same as the contract granting the right to produce and sell tap water. Since 2016, the MOQ has been equal to 358,000 cubic meters/day (MOQ is included according to the conditions in the additional water purchase contract). PTW shall transfer the ownership of the distribution system to the PWA on the date that the operation started. And the ownership of tap water production system shall be transferred to PWA at 24.00 hr. of 14 October 2023 which is the end of the 25-year contractual period. However, PTW may request to lease the tap water production system from PWA in order to produce and distribute the tap water after the 25 years contract is ended by notifying the intent to PWA within the 24th year after the operation has started or at least 6 months before the transfer of tap water production system or between 15 October 2022 to 14 April 2023. PTW is entitled to lease the tap water production system from PWA 2 times in a 10-year period.

b) Private Partnership Contract on the Operation of Water Treatment and Maintenance to Solve Water Shortage Problem in PWA's Pathumthani Branch, Rangsit Branch (S) and Klongluang Branch

As a result of the contract granting rights to produce and distribute tap water and the additional tap water sales contract ended on October 14, 2023, at 12:00 p.m., PTW has transferred all assets related to the tap water production system to the Provincial Waterworks Authority, according to the contract Build-Own-Operate-Transfer (BOOT) and the Provincial Waterworks Authority have designated it as "Samkhok Water Treatment Plant".

On October 3, 2023, the Provincial Waterworks Authority (PWA) has signed the contract to allow PTW to operate the water treatment and maintenance to solve the water shortage problem in the area under PWA's Pathumthani Branch, Rangsit Branch (S), and Klongluang Branch. It is a contract to operate the water treatment and maintenance of the system, Pathumthani Water Treatment Plant for a period of 10 years from 15 October 2023 to 14 October 2033, minimum quantity of water produced (MOQ) equal to 358,000 cubic meters/day which the price is 6.50 baht per cubic meter. (excluding VAT) and adjusted according to the CPI on January 1 of each year. The price adjustment will begin on January 1, 2025, onwards.

c) Tap Water Business Concession

PTW granted a concession to operate a tap water business by the Ministry of Interior (Currently, under the supervision of the Department of Natural Resources and Environment) for a period of 25 years, starting from 13 January 2000 to 12 January 2025. Under this concession, PTW granted the right to produce and distribute tap water in the service area of Pathum Thani-Rangsit, Pathum Thani Province. The PTW shall charge the PWA at the rate specified in the Tap Water Production and Distribution Contract.

d) Letter of Permission to Use Water from the Chao Phraya River for Tap Water Production

The Office of the Board of National Water Resources has approved PTW to use raw water for producing tap water according to the letter No. Kor Chor Tor./070 dated January 24, 1996, in the amount of 300,000 cubic meters/day, which has been extended by an additional 200,000 cubic meters/day according to the letter No. Chor Por.Por Tor. 1/2016 dated April 27, 2016.

e) Maintenance Agreement

The Board of Directors' meeting of PTW held on November 27, 2008, resolved PTW to proceed with the amending of the management and maintenance agreement with BJT to be the maintenance agreement. Therefore, PTW operates water supply production and is responsible for the costs of chemicals, electricity, labor of the production unit, and spare parts. Currently, BJT has merged with Water Flow Co., Ltd. to become Thai Water Operations Company Limited (TWO), so TWO will perform maintenance work on PTW as TTW.

(2) Production and Distribution System

a) PTW Production System

“Samkhok Water Treatment Plant” (Pathumthani Water Treatment Plant) is located at Ban Pathum Sub-District, Sam Khok District, Pathum Thani Province which the assets were transferred from PTW after the expiration of the contract granting rights to produce and distribute tap water and the additional tap water sales contract ended on October 14, 2023. The current production capacity is 488,000 cubic meters/day. PTW is the contractor to operate the water treatment and maintenance according to contract no. PWA.Kor2/160/2566 (2023) dated 3 October 2023.

Samkhok Water Treatment Plant operates a tap water production by pumping raw water from the Chao Phraya River to use in tap water production. The tap water produced will be deliver to Bulk Transmission Main (BTM) to 4 water distribution stations namely, Rangsit Water Distribution Station, Thammasat Water Distribution Station, Pathum Thani Water Distribution station, and Muang Ake Water Distribution Station, and 1 of water distribution point “Moo Baan Bua Kaew”. The tap water from Rangsit Water Distribution Station, Thammasat Water Distribution Station, and Muang Ake Water Distribution Station will be distributed to PWA Rangsit Branch and PWA Klongluang Branch. The tap water from Pathum Thani Water Distribution station and Moo Baan Bua Kaew distribution point will be distributed to PWA Pathumthani Branch through the Local Distribution Network (LDN) which is the PWA’s asset. In addition, the amount of tap water traded each month will be measured by water meters at all 4 water distribution stations and 1 water distribution point.

Samkhok Water Treatment Plant (formerly name Pathumthani Water Treatment Plant)

b) Tap Water Transmission System to Water Distribution Stations

The tap water is pumped and transmitted to 4 water distribution stations and distributed to PWA's distribution network.

1) **Thammasat Water Distribution Station**, distribute tap water to PWA Khlong Luang Distribution System and some areas under PWA's Ayutthaya Office from where the tap water is further distributed to the users in the areas of Khlong Luang District and some areas in Ayutthaya province.

2) **Rangsit Water Distribution Station**, distribute tap water to PWA Rangsit Distribution Station from where the tap water is further distributed to the users in the areas of Thanyaburi District and Lam Luk Ka District.

3) **Pathum Thani Water Distribution station**, distributed tap water to PWA Pathum Thani Distribution System from where the tap water is further distributed to the users in the areas of Mueang District, Sam Khok District, and Lat Lum Kaew District.

4) **Muang Ake Water Distribution Station** distributes tap water to some areas under PWA Rangsit Distribution System so that it could transmit more water to the areas of Khlong 4-5 of Khlong Luang area. Muang Ake Water Distribution Station distributes tap water to users in Lak Hok Sub-District, Ban Mai Sub-District, Bang Phoon Sub-District, Mueang District, Pathum Thani province.

(5) **Moo Baan Bua Kaew Water Distribution Point**, located in front of the water treatment plant, is an installation point for a 300 mm. water meter, receiving water from a clear water tank of the Pathum Thani Water Treatment Plant and distribute water around the water treatment plant area.

All four of PWA's water distribution stations and Moo Baan Bua Kaew distribution point have installed a set of equipment to control the level of distribution pressure to be in proper balance with the water quantity required in the distribution areas. The water is distributed through a series of water gauges that recorded the amount of water, distributed to PWA, the same way it does to TTW. However, the areas under the responsibility of PTW covered the water gauge installed in the water distribution only.

c) Tap Water Transmission System

1) **Bulk Transmission Main (BTM)** This 33.78-Kilometer-long water transmission system distribute tap water from water treatment plant to the company's following

- The water transmission system from PTW water treatment plant to Rangsit distribution station has 4 sizes: a diameter of 1,500 mm., with a distance of approximately 2.35 km. (is placed from PTW water treatment plant to the highway No.347), a diameter of 1,200 mm., with a distance of approximately 2.57 km. (is placed from the highway No.347 to the Khlong Prem Prachakon intersection), and a diameter of 1,000 mm., with a distance of approximately 8.13 km. (is placed from the Khlong Prem Prachakon intersection to Rangsit distribution station).

- The water transmission system from PTW water treatment plant to Thammasat distribution station has 3 sizes: a diameter of 1,500 mm., with a distance of approximately 2.35 km., a diameter of 1,220 mm., with a distance of approximately 2.57 km. (both pipe sizes are used with the pipes that distribute water from PTW's

water treatment plant to Rangsit distribution station), and a diameter of 1,000 mm., with a distance of approximately 0.63 km. (is placed from the Khlong Prem Prachakon intersection to the Thammasat distribution station).

- The water transmission system from PTW water treatment plant to Pathum Thani distribution station has installed a BTM pipe that has a diameter of 600 mm., with a distance of approximately 0.45 km. that is placed under the Chao Phraya River and connected with a 700 mm. diameter pipe, with a distance of approximately 0.55 kilometers from the western side of the Chao Phraya River to the Pathum Thani distribution station.

- The water transmission system of Muang Ake water distribution station, which is located in the PTW water treatment plant, has a diameter of 800 mm., with a distance of approximately 14 km. A BTM pipe distributes water into the area of Muang Ake, Lak Hok Subdistrict, Mueang District, Pathum Thani Province.

- Five water pumps are installed at the pressure booster station, which is the origin of the pipe that distributes water to the Rangsit distribution station, in order to increase the capacity to distribute water to the Rangsit distribution station by 200,000 cubic meters/day.

2) **Local Distribution Network (LDN)** is a tap water distribution system that transmits water from 4 distribution stations and Moo Baan Bua Kaew distribution point to the PWA's service network and distribute the tap water to 3 branch of PWA namely PWA Rangsit (S) Branch, PWA Klongluang Branch, and PWA Pathumthani Branch.

3) **Raw Water Distribution System** is a raw water distribution system that flows from the Chao Phraya River distributary to the Raw Water Pumping Station, located in Baan Pathum Sub-District, Samkhok District, Pathum Thani Province. The distribution system delivers raw water via 2 pipelines with a diameter of 1,500 and 1,000 millimeters, with a distance of 750 and 800 meters, respectively, to the Samkhok Water Treatment Plant in order to bring raw water into the tap water production process.

d) Quality of Tap Water

The tap water produced and distributed by PTW is in accordance with the Contract on the Operation of Water Treatment and Maintenance defined the quality according to the PWA's standard as WHO recommendations (1698). Throughout the past, tap water produced by PTW has always met said production and quality standards.

3. Right of Tap Water Production and Wastewater Treatment in Bang Pa-In Industrial Estate (BIE)

(1) Business Rights and Agreements

a) Right of Tap Water Production

TTW has acquired the rights from the Bang Pa-in Land Development Company Limited to produce tap water and treat wastewater in the Bang Pa-in Industrial Estate (BIE) for a period of 30 years, starting in August 2009, with a production capacity of 48,000 cubic meters/day and a wastewater treatment capacity of 18,000 cubic meters/day.

b) Maintenance management and water production and wastewater treatment systems management agreements with Thai Water Operations Company Limited (TWO)

The Company entered into a maintenance system management agreement with Thai Water Operations Company Limited (TWO) on August 7, 2009, to manage the water production and distribution system and the wastewater collection and treatment system in Bang Pa-in Industrial Estate, Phra Nakhon Sri Ayutthaya Province. The details are as follows:

(1) Tap Water Production System

Tap water is produced by pumping raw water from the Chao Phraya River into the production process at the water treatment plant located at 139 Moo 2, Udomsorayuth Road, Khlong Chik Subdistrict, Bang Pa-In District, Phra Nakhon Si Ayutthaya Province. It has a maximum production capacity of 48,000 cubic meters /day. In order to control water supply and distribution efficiently, water production and water supply processes to various factories in Bang Pa-In Industrial Estate use fully automated control with a SCADA system (Supervisory Control and Data Acquisition). The system is located in a control building in a water supply plant, which consists of a water storage tank with a capacity of 7,000 cubic meters. A precipitate chemical storage building has been built separately from the water treatment plant to store chemicals before they are automatically added into the water production system. The main chemicals used in the production process are as follows:

- Alum is used to precipitate suspended solids in raw water.
- Liquid chlorine is used in disinfection processes.
- Lime is used to adjust the pH of water.

The quality of the tap water produced and distributed is in accordance with the standards stipulated in the contract, which is in accordance with the water quality standard criteria of the Provincial Waterworks Authority as recommended by the World Health Organization (WHO) in 2011. To guarantee that the tap water meets the said criteria, the water quality is tested at every step of the production process, from the adding of chemical solvents to the distribution of tap water from the water treatment plant, thus ensuring that the production process is efficient, and all water meets the standard criteria.

(2) Tap Water Quality

The tap water produced must meet the quality standards stipulated in the contract in order to ensure the quality is according to the standard. The company prepares quality control testing in every step of production. In addition, water samples were sent to external organizations to examine at least once a quarter.

(3) Wastewater Treatment System

The central wastewater treatment system of Bang Pa-in Industrial Estate, which is an activated sludge treatment system, has a maximum wastewater treatment capacity of 18,000 cubic meters/day, with current levels of wastewater totaling about 14,190 cubic meters/day. The treated wastewater is stored in an 18,000 cubic meter wastewater tank (1 day retention period) before being discharged into the Bang Pa-in Industrial Estate drainage system for reuse and recycling before the remaining water is drained into nearby water sources.

(4) Treated Water Quality (Effluent)

The management of the central wastewater treatment system of Bangpa-in Industrial Estate controls the quality of the treated water (effluent) to ensure it is in accordance with the Ministry of Natural Resources and Environment's Notification regarding Industrial Effluent Standards for Industrial Factories, Industrial Estates, and Industrial Zones, 2016.

To ensure the quality of treated water, the company prepares for quality control testing at every step. In addition, water samples are sent to external organizations to examine at least once a month. The implementation of the BIE project increases revenue for the organization and also increases the skills, knowledge, and experience of TTW personnel to be service providers to customers directly.

The business of management and maintenance of tap water production system and wastewater

Thai Water Operations Company Limited (TWO)

TWO has been contracted by TTW and PTW to provide management and maintenance of the water production and wastewater treatment systems for TTW within the Bangpa-in Industrial Estate and Amata Water Company Limited within the Amata City Industrial Estates of Chonburi and Rayong. Significant operating agreements are as follows:

1. Maintenance management and water production and wastewater treatment systems management agreement with TTW

TWO has entered into an agreement with TTW to manage all maintenance for machinery, equipment, and water distribution pipe under TTW's responsibility from July 21, 2004 to July 20, 2034, with the contract period of 30 years. TWO has also entered into a agreement for the management of water production-distribution systems and wastewater collection and treatment systems within Bang Pa-In Industrial Estate, Phra Nakhon Si Ayutthaya Province, on August 7, 2009, with the contract period of 30 years.

2. Maintenance management agreement with PTW

TWO entered into a maintenance management agreement with Pathum Thani Water Company Limited, located at 43 Moo 3, Chiang Rak Noi - Bang Sai Road, Ban Pathum Subdistrict, Sam Khok District, Pathumthani Province, to be responsible for the maintenance of the water production system. The contract expires on October 14, 2023.

3. Management and maintenance of water production and wastewater treatment systems agreement with Amata Water Company Limited

TWO entered into a management and maintenance of water production and wastewater treatment systems agreement with Amata Water Company Limited within the Amata City Industrial Estate, Chonburi, and Amata City Industrial Estate, Rayong, for a total of 6 contracts.

(1) The contract for the operation and maintenance of the water supply system Phase 1, Amata City Industrial Estate, Rayong, for a period of 20 years, from December 26, 2019, to December 26, 2039.

(2) The contract for the operation and maintenance of the raw water system, raw water supply pipe system, water supply pipe system, and wastewater collection system with Amata City Chonburi Industrial Estate, for a period of 9 years 7 months, from June 1, 2017, to December 31, 2026.

(3) The contract for the operation and maintenance of the raw water system, raw water supply pipe system, water supply pipe system, and wastewater collection system with Amata City Rayong Industrial Estate, for a period of 9 years 7 months, from June 1, 2017, to December 31, 2026.

(4) The concession contract for study, design, construction, and operation of the sludge removal system of the 1/1 water supply system in Amata City Rayong Industrial Estate, for a period of 20 years, from December 26, 2019, to December 26, 2039.

(5) The contract for maintenance for wastewater treatment system, Amata City Chonburi Industrial Estate (Phase 3), for a period of 20 year, from the date of improvement of the production was completed, to December 31, 2044.

(6) The contract for maintenance for wastewater treatment system, Amata City Chonburi Industrial Estate (Phase 1), for a period of 20 year, from the date of improvement of the production was completed, to December 31, 2044.

(2) Marketing and Competition

TTW operates the business of production and distribution of tap water to the Provincial Waterworks Authority (PWA) in Nakhon Pathom and Samut Sakhon areas: Om Noi branch, Sampran branch, Nakhon Pathom branch, and Samut Sakhon branch. TTW is the main producer and distributor of tap water in the service areas of 4 branches of PWA. In addition to the tap water purchased from TTW according to the minimum order quantity (MOQ), the PWA brings tap water produced from the Photharam water treatment plant (PTR), Ratchaburi province, to sell in the PWA's service area: Nakhon Pathom branch and Samut Sakhon branch. PWA also purchases tap water from the Metropolitan Waterworks Authority (MWA) to supply in some parts of PWA's service areas, Samut Sakhon branch. Details of 2023 can be summarized as follows.

Producer / Distributor of PWA	Produced Water / Purchased Water (mil.m ³)	%
TTW Public Company Limited (TTW)	139.28	83
Photharam Water Treatment Plant (PTR)	26.99	16
Metropolitan Waterworks Authority (MWA)	2.33	1
Total	168.60	100

Meanwhile, PTW operates the business of water treatment management and maintenance to PWA in the Pathum Thani-Rangsit area: Rangsit (S) branch, Klong Luang branch, and Pathum Thani branch, according to the contract on the operation of water treatment and maintenance since 15 October 2023 onwards to replace the granting the right to treat and sell water agreement, which was the original contract, ended on October 14, 2023.

PWA Thanyaburi Branch, provide tap water in Thanyaburi District, and Lamlukka District. Produces tap water from the Khlong 13 water treatment plant and purchases tap water from private sectors and MWA into the PWA's service area because the existing water pipe system and water supply pressure of Samkhok water treatment plant do not cover the mentioned service area.

In 2023, PTW's water sale volume according to the granting the right to treat and sell water agreement ended on 14 October 2023 and the contract on the operation of water treatment and maintenance since 15 October 2023 is equal to 138.94 million cubic meters, compared to the total volume of tap water sold by the PWA that they produce by themselves or purchase from the MWA and other private sectors, which can be summarized in the following table.

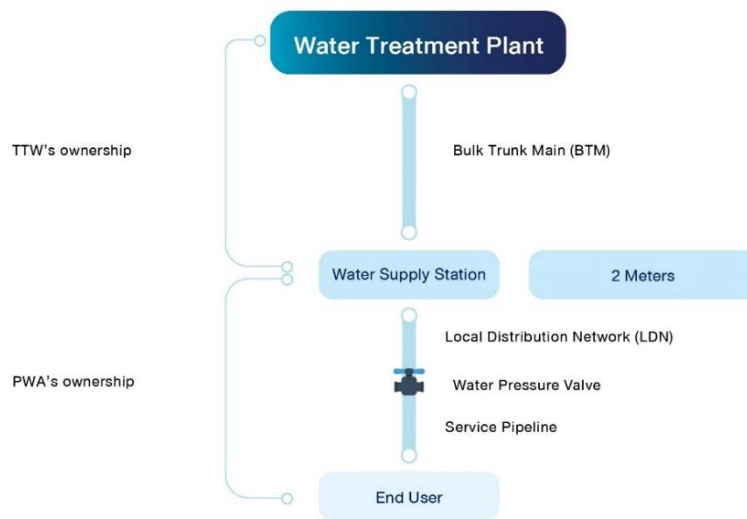

PTW's water volume purchased by the PWA's 3 branches / Water produced by PWA / MWA or other private sectors in 2023

Producer / Distributor of PWA	Produced Water / Purchased Water (mil.m ³)	%
Pathumthani Water Company Limited (PTW)	138.94	77
Wat Chaiyasitthawat and Maitra Water Treatment Plant	27.74	15
Metropolitan Waterworks Authority (MWA)	9.39	5
Other Private Sectors	4.40	3
Total	180.47	100

1. Nature of Customers and Channel of Distribution

TTW

TTW provides tap water production and distribution to one client that is only PWA. At present, PWA purchases tap water from TTW at both of its distribution stations, namely, the Phuttamonton Distribution Station and the Mahachai Distribution Station. PWA will distribute the tap water to water users via main water distribution pipes and service pipes. The amount of tap water sold by TTW to PWA is calculated from the main water meters at both of TTW's water distribution stations—the Phuttamonthon and Mahachai Distribution Stations. The amount of tap water distributed by PWA to water users is measured by water meters at the water users' locations.

TTW will calculate the value of tap water according to the tap water volume sold to PWA each month and send an invoice to the 3 water supply offices that oversee providing water distribution services in the service areas as follows:

- 1) Provincial Waterworks Authority, Sam Phran Branch
- 2) Provincial Waterworks Authority, Om Noi Branch
- 3) Provincial Waterworks Authority, Samut Sakhon Branch

According to the payment terms, PWA must pay the water bill within 15 days of receiving the invoice from TTW.

TTW will average the water supply volume every 6 months according to the contract. If the average value of PWA's purchased water from TTW is lower than the stipulated contract, PWA will pay an additional fee to TTW based on the water tariff rate multiplied by the difference between the amount of tap water delivered by TTW and the minimum order quantity under the contract (MOQ).

TTW has also acquired the right to manage tap water and wastewater in Bang Pa-In Industrial Estate, worth 1,400 million baht, from August 2009 for a period of 30 years. The contract will expire in 2039 with a capacity of on-site water supply of 48,000 cubic meters/day. In 2023, the selling price of tap water was 24.75 baht/cubic meter, and BIE has a wastewater treatment capacity of 18,000 cubic meters/day. The cost of treating wastewater is 8 baht/cubic meter, depending on the quality of the wastewater. If the quality of the wastewater exceeds the specified criteria, it will be charged at the rate of 20 baht/cubic meter.

PTW

After the end of the Rights Agreement, PTW will continue to operate water treatment and maintenance business to PWA in the Pathum Thani-Rangsit area, according to the Private Partnership contract on the Operation of Water Treatment and Maintenance, since October 15, 2023, onwards, to replace the Granting Rights to treat and sell water Agreement that ended on October 14, 2023. PTW has rented a tap water production system from PWA to operate tap water at Samkhok Water Treatment Plant (Pathum Thani Water Treatment Plant) by delivering the produced tap water to 5 water receiving points: Pathum Thani, Rangsit, Thammasat, Muang Ake Stations and Moo Baan Bua Kaew Distribution point. PWA will sell tap water to users in the service areas of Pathum Thani-Rangsit by distributing water through PWA's water service pipes. PTW have to produce and deliver tap water under the water quality standards of PWA with a minimum quantity (MOQ) of 358,000 cubic meters per day throughout the contract period.

PTW will calculate a management fee based on the actual amount of water produced each month, with a MOQ of 358,000 cubic meters/day. Invoices and monthly performance reports will be sent to the PWA District 2, Saraburi Province. When the invoice and monthly performance report have been examined and signed off by the appointed Inspection Committee, enter the process of payment of operating wages to PTW within 15 (fifteen) business days.

2. Demand for Tap Water in the Areas

(1) Population growth

The population growth increases water consumption demand because Nakhon Pathom and Samut Sakhon provinces are areas outside of Bangkok, that have continued growth. The population expansion in its area, including moving from Bangkok to live in the suburbs, causes an increase in residences, village projects, and allocated land, and it is likely to increase in the future. In 2023, Nakhon Pathom province had a population of 924,455 people and Samut Sakhon province had a population of 592,147 people, totaling 1,516,602 people, which was an increase of 0.35% from the population in 2022. While compared with the year 2013 (10 years ago), the total population of both provinces was 1,401,641 people or an increase of 8.20%.

In the Pathum Thani-Rangsit area, Pathum Thani province, which is a continuation area of Bangkok, has developed into a more crowded community caused by the expansion of the population due to the area expansion and the development of transportation systems by sky train, roads, and expressways for travel to conveniently connect with Bangkok and nearby provinces, including using the land for housing instead of agriculture, especially, the land allocated for residential and commercial purposes in Lam Luk Ka, Thanyaburi, and Mueang Pathum Thani District. In 2023, Pathum Thani province had a population of 1,217,931 people, increased 1.36% compared with the year 2022. And when compared with the year 2013, Pathum Thani province had a population of 1,053,158 people, or increased by 15.56%.

The Population during 2013-2023 in Nakhon Pathom, Samut Sakhon, and Pathum Thani Provinces (unit: people)

Year	Nakhon Pathom	Samut Sakhon	Pathum Thani
2556	882,184	519,457	1,053,158
2557	891,071	531,887	1,074,058
2558	899,342	545,454	1,094,249
2559	905,008	556,719	1,111,376
2560	911,492	568,465	1,129,115
2561	917,053	577,964	1,146,092
2562	920,030	584,703	1,163,604
2563	920,719	586,140	1,176,411
2564	921,946	586,194	1,187,933
2565	921,882	589,428	1,201,532
2566	924,455	592,147	1,217,931

Source: The Bureau of Registration Administration, Department of Provincial Administration, Ministry of Interior (17 Jan 2024)

(2) Industrial Sector Expansion

The area in Samut Sakhon province has the most industrial factories in the country. According to data from the Ministry of Industry's Department of Factory, at the end of the year 2023, there were 6,458 industrial factories in Samut Sakhon province, and most of them were frozen seafood factories, seafood processing factories, canned food factories, and other factor types. In Nakhon Pathom province, the number of industrial factories was 3,384 factories, and most of them were the ready-to-eat food, beverages, clothing, and apparel industries, including sports equipment factories, etc., which caused the water demand for consumption to continuously increase in accordance with the growth of domestic consumption and exports. (Source: the number of industrial factories reported by the Ministry of Industry's Department of Industrial Works.)

As for the area of Pathum Thani province, which is the service area of PTW, there was an expansion of the industrial sector, especially in Klong Luang, Thanyaburi, Lam Luk Ka, and Mueang Pathum Thani Districts. At the end of 2023, there were 3,399 industrial factories, and most of them were electronic components and communications, food and beverage, and electric powered engines and electric tool production industries. Because Pathum Thani province is adjacent to Bangkok, the leading universities, educational institutions, and malls were located to support the city's growth. The increase in the population has caused water consumption in both the industrial and household sectors to continually increase. (Source: the number of industrial factories reported by the Ministry of Industry's Department of Industrial Works.)

(3) Tap Water Demand in Nakhon Pathom and Samut Sakhon Provinces

As these are expanding areas on the outskirts of Bangkok with rapid growth in both population and residential areas, and as they are densely populated industrial areas with tens of thousands of industrial factories, the Department of Water Resources has placed particular importance on the adequate supply of water to meet the continuously increasing water demand from PWA's service. According to the survey and

study of water demand of PWA by TEAM Consulting Engineering and Management Public Company Limited in September 2023 of the PWA's 4 branches projected that water consumption by users in these service areas until 2034 will be about 800,000 cubic meters per day.

Industrial water users are the main water users in the TTW service area. According to 2023 data, industrial water users account for 38% of the total water supply distributed by PWA, followed by commercial and household water users, which accounted for 15% and 47% respectively. The factors that drive water consumption in service areas depend on the production activities of the industrial sector because there is a large amount of water consumption, which includes working with PWA to expand water supply service areas to respond to the water users' needs in the household sector. Therefore, TTW's marketing plan focuses on creating cooperation with PWA to meet the water users' needs in both industrial and household sectors, in order to ensure that they receive adequate and good water quality by preparing activities to meet water users, planning and supporting the expansion of service areas with PWA, and continually communicating the useful information for the operation of water users in the industrial and household sectors.

(4) Tap Water Demand in Pathum Thani – Rangsit Areas

The results of a study on tap water demand in this area, conducted by Team Consulting Co., Ltd., indicated that the area with the highest increase in tap water demand was the Lam Luk Ka District, as this is located in the area where Pathum Thani and Sai Mai, Bangkok, connect, and is an area predicted to experience an increase in economic prosperity. Currently, there is also the Green Line electric railway in order to connect Moh Chit, Saphan Mai, Khu Khot, and Lum Luk Ka Districts that opened for service in 2020, resulting in the development of real estate projects around the BTS route, further increasing the likelihood of greater population growth in the Lum Luk Ka District, thus also increasing the demand for tap water in this area in the future. In addition, the completion of the Bang Sue – Rangsit Red Line electric railway in the Khlong Luang District makes this another area with a high-water demand growth rate expected. Pathum Thani province has a project to build a new Dusit Zoo (Khao Din) located between Klong 6 and Klong 7 on the south side of the Rangsit canal, with an area of 300 rai, which will be the new attraction and resting place for tourists in Pathum Thani province, including being a source of nature conservation and wildlife propagation and being a learning place for youths. As a result, such areas will experience both economic growth and an increase in water consumption. The new zoo is expected to open in 2027.

According to TEAM Consulting Co., Ltd.'s survey and study on tap water demand results from May 2017, the water supply volume in PWA's service area will be around 840,000 cubic meters/day until the year 2033.

However, when considering PTW's data on tap water usage in the Pathum Thani-Rangsit service area, in 2023 was found that the household or residential sector had the highest proportion of water consumption at 63%, followed by the industrial sector at 20% and the commercial sector at 17%. As a result, the residential or household sector is important to PTW's business operations. Therefore, PTW has to focus on building confidence in the continuity of the production and distribution system and coordinating with PWA

about the appropriate pressure management so that the water users in the household sector can consume tap water of good and sufficient quality.

(3) Product and Services

1. TTW Production

(1) Production Technology

TTW used water production technology from England, and the Company’s staffers have knowledge and expertise in tap water production process that met international standard. The modern technology was used by TTW is the Supervisory Control and Data Acquisition (SCADA) which is a computerized system, used for the automatic control of tap water production and distribution process. As a result, tap water produced by TTW always meets the TIS 257 Parts 1-2521, the standard prescribed by the PWA.

In addition, TTW’s tap water supply system has been designed for efficient production with a view to attain a maximum saving on production costs. Said design is based on the “Gravity Flow” principle, in which raw water is pumped up to a water pumping station and then is released to flow downward by gravity through the rapid mixing tank, sedimentation, filtration, and chlorine mixture processes before being sent to the water storage process and, finally, to both water distribution stations. This process allows the Company to save on electricity used in production when compared to pumping water through each of the above steps as is normally done in the tap water production process.

Average Quantity of Tap Water Produced by TTW during 2021 – 2023

Unit : Cubic meter per day

Description	2021	2022	2023
Production Capacity	540,000	540,000	540,000
Average Water Sales Volume	419,939	388,714	381,596
Utilization of Production	78%	72%	71%

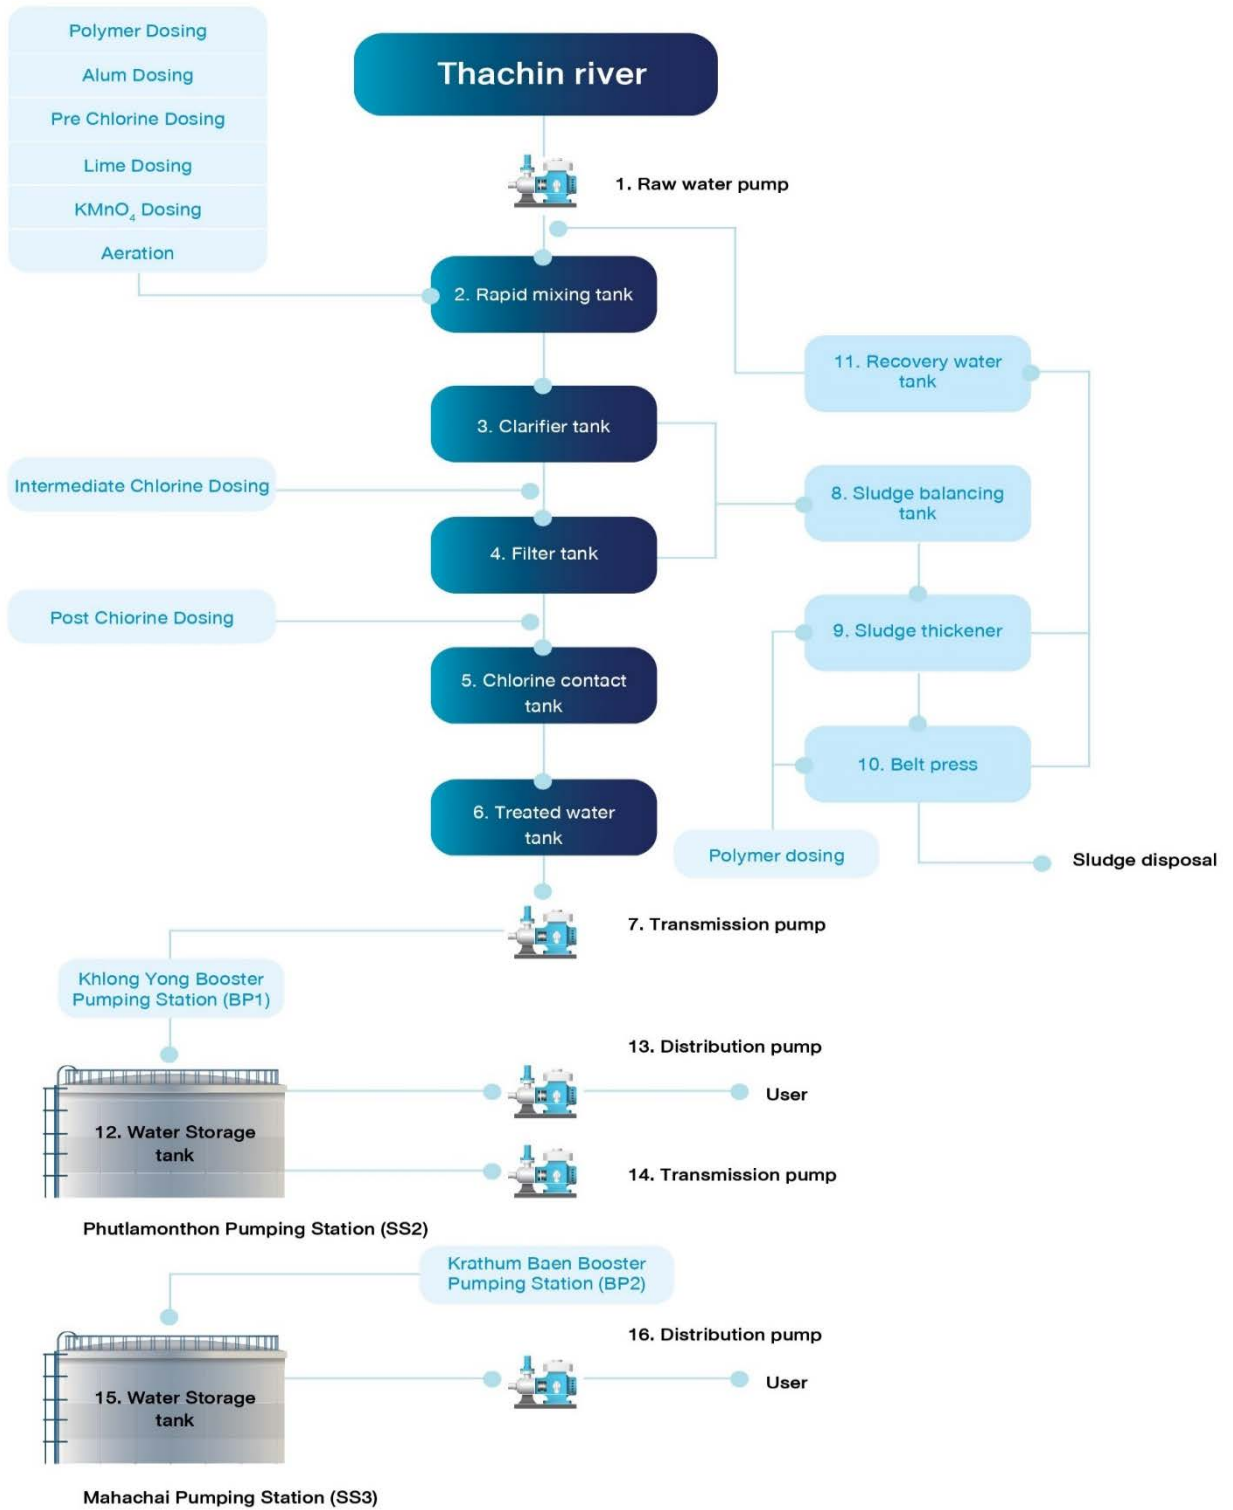

In 2023, TTW had an average water supply volume of 381,596 cubic meters/day or equal to 71% of the total water supply capacity of 540,000 cubic meters/day. The water supply volume of TTW decreased by 1.80% as compared to the year 2022 due to economic factors, especially the Thai export sector that is still affected by the Ukraine-Russia war. Although the situation of COVID-19 would get better in 2022, overall, it affects the amount of water consumption in the industrial and commercial sectors and also affects the water supply volume of TTW.

Banglen Water Treatment Plant

(2) Production Process

TTW Water Production Process

The Raw water source for the tap water production of TTW is from the Tha Chin River. The raw water in natural source in general is contaminated with physical, chemical, and biological substances and not proper for the tap water production. The following are processes used in the production of drinkable tap water.

- (a) There must be no pathogenic microorganisms remaining in tap water, from the tap water plant to the pipes and water transmission system until it reaches the faucets of tap water users.
- (b) There must be no impurities, either dissolved or suspended, in tap water.
- (c) There must be no harmful toxins contaminating the tap water. This includes those that could cause either chronic or acute harm to the human body, such as cadmium, lead, phenol, cyanide, etc.
- (d) Tap water must not have either a smell or taste that is unpleasant to tap water users.
- (e) Tap water must be satisfactory to tap water users at all times, both for use, consumption, cleanness, and industrial purposes.

2. PTW Production

(1) Production Technology

The technology was used by PTW to produce tap water was similar to that of TTW, i.e., all production steps were controlled by SCADA System which was an automatic system, operated through telecommunications system, control and adjustment of work rates for various units throughout the system, such as water flow rate, pressure, etc., can all be carried out via a computer used the SCADA System in the control room building.

PTW's maximum production capacity as of December 31, 2023, was 488,000 cubic meters per day. The total sum of 488,000 cubic meters per day comprised:

- Installed production capacity of the water plant was 288,000 cubic meters per day.
- Additional production capacity was 200,000 cubic meters per day due to expansion of the water production plant and construction of the Booster Pump Station in the Liap Khlong Premprachakon road area on the Bulk Transition Main (BTM) between the water plant and the Rangsit water distribution station. Production details are as follows:

Average Quantity of Tap Water Produced by PTW during 2021 – 2023

Unit : Cubic meter per day

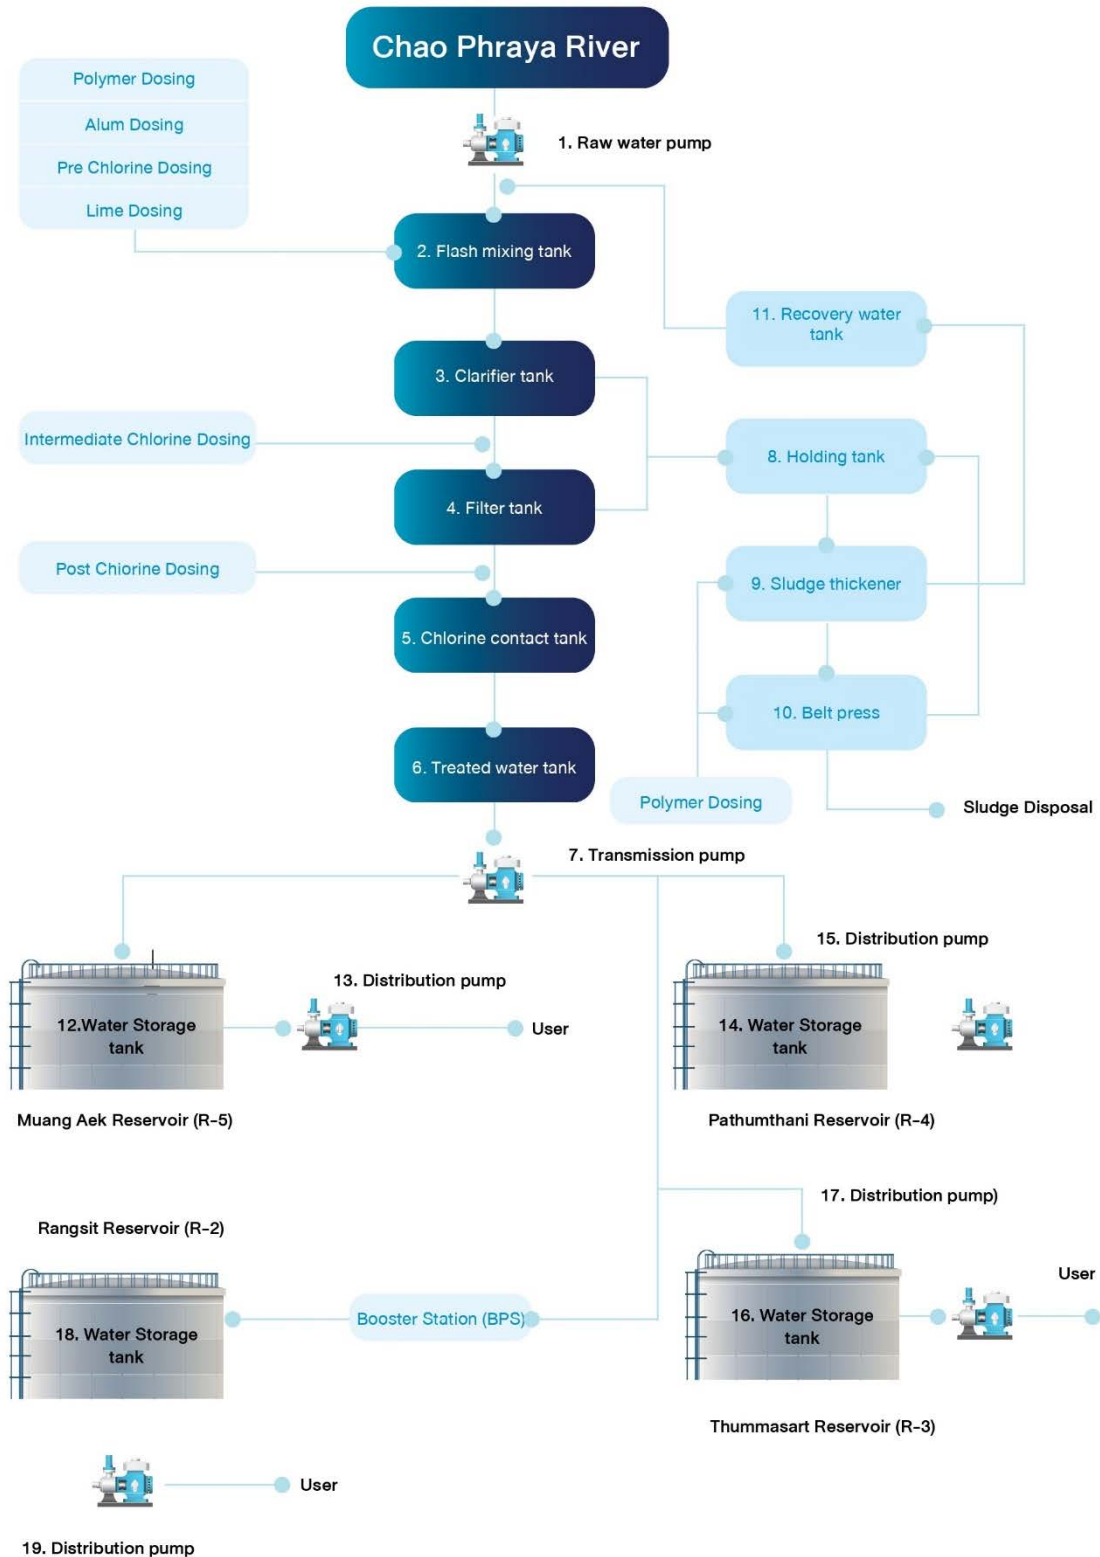

Description	2021	2022	2023
Production Capacity	488,000	488,000	488,000
Average Water Sales Volume	378,160	365,872	380,646
Utilization of Production	77%	75%	78%

In 2023, PTW had an average water supply volume of 380,646 cubic meters/day or equaled to 78% of the total water supply capacity of 488,000 cubic meters/day. The water supply volume of PTW decreased by 4.10% as compared to the year 2022 due to economic factors, especially the Thai export sector that is still affected by the Ukraine-Russia war. Although the situation of COVID-19 would get better in 2022, overall, it affects the amount of water consumption in the industrial and commercial sectors and also affects the water supply volume of PTW.

(2) Production Process

PTW tap water production process has identical procedures as that of TTW.

PTW Water Production Process

3. Raw Material and Suppliers

(1) Raw Material used in the production of TTW

(a) Raw water that TTW uses for the production of tap water is the Tha Chin River which is pumped to the water treatment plant in Bang Ra Kum Sub-District, Banglen District, Nakhon Pathom Province without any cost, except for the 200 Baht/year concession fee. Payment must be made to the Ministry of Natural Resources and Environment as the concessionaire. Additionally, the Company must pay compensation to the concessionaire's inspector, paid in advance annually in the amount of 200 baht per year per concession. As TTW has received two concessions, therefore, TTW must pay compensation of 400 baht per year to the concessionaire's inspector.

(b) Main chemical substances used are Liquid alum, Liquid Chlorine, Polymer, Potassium Permanganate, and Lime.

TTW purchases raw materials from a variety of suppliers, selecting those manufacturers that have standard product quality, whose products have been tested in the TTW chemical laboratories, who have the ability to deliver and keep reserve products according to the needs of TTW, and who offer said products at the reasonable costs.

TTW's raw material procurement

Raw Material	2021		2022		2023	
	MB.	(%)	MB>	(%)	MB.	(%)
Liquid alum	25.1	48.5	33.0	52.4	30.7	50.7
Potassium permanganate	4.3	8.3	7.4	11.7	5.4	8.9
Liquid Chlorine	10.4	20.1	13.9	22.1	12.7	21.0
Lime	0.5	1.0	0.1	0.2	-	-
Polymer	8.4	16.2	5.7	9.0	6.8	11.2
Total chemical	48.9	94.1	60.1	95.4	55.6	91.8
Equipment	2.9	5.6	2.9	4.6	4.9	8.2
Total	51.8	100.0	63.0	100.0	60.5	100

(c) Maintenance work in case of production system water supply system or a specific device is damaged and requires repair or maintenance Initially operated by Thai Water Operations Company Limited (TWO), a subsidiary. But if the nature of work is limited or exceeds the capabilities of TWO, the company will consider its worth. and may arrange for the selection of contractors Instead, an outside expert took over. by providing a bidding process and select contractors who meet the specified conditions by considering the ability of the contractor and with reasonable costs

(d) TTW is responsible for the cost of spare parts by purchasing from time to time from distributors. However, consideration for choosing a distributor depends on the product characteristics that are suitable for the job, quality, service and reasonable price.

(2) Raw Material used in the production of PTW

(a) The raw water used by PTW to produce tap water is raw water from the Chao Phraya River. PTW is pumped into the water supply plant at Ban Pathum Subdistrict, Sam Khok District, Pathum Thani Province. PTW has to pay a fee for the concession to operate the water supply business in the amount of 200. baht per year, which must be paid to the Ministry of Interior as a concession grantor (which later the Ministry of Interior has transferred powers and duties relating to waterworks to the Ministry of Natural Resources and Environment) and compensation for expenses of the inspector of the concession provider, which must be paid annually in advance in the amount of 200 baht per year PTW paid in lieu of the expenses of the inspector of the concession grantor by paying in advance until the full amount must be paid throughout the 25-year concession period, totaling 5,000 baht in March 2000. Since 2022, PTW was charged an irrigation fee by the Pathum Thani Provincial Irrigation Office for pumping raw water from the Chao Phraya River to produce tap water at the rate of 0.50 baht/m³, starting from January 2022 onwards. PTW has monthly charged the irrigation fee to the PWA in accordance with the grant of rights agreement. At the end of the Rights Agreement and change to the contract on the Operation of Water Treatment and Maintenance, such irrigation fees can also be collected from the Provincial Waterworks Authority.

(b) The main chemicals used by PTW in tap water production are Liquid alum, Liquid Chlorine, and Polymer. PTW does not use potassium permanganate in its tap water production due to different raw water characteristics between raw water from the Tha Chin River and raw water from the Chao Phraya River. Raw water from the Tha Chin River contains some chemicals that make the watercolor. And potassium permanganate helps to get rid of the chemicals that cause the color.

PTW uses a quality control system to calculate the quantity and proportion of chemicals suitable for the quality of raw water at that time for tap water production. by bringing raw water through the Jar Test system as well

In purchasing each chemical, PTW operates the same chemical procurement process as TTW to increase its bargaining power. Like TTW, the alum purchasing volume is therefore the highest among all chemical purchases.

PTW's raw material procurement

Raw Material	2021		2022		2023	
	MB.	(%)	MB.	(%)	MB.	(%)
Liquid alum	25.1	51.6	21.5	55.3	20.4	55.7
Liquid Chlorine	10.4	21.4	5.8	14.9	6.0	16.4
Polymer	8.4	17.3	5.9	15.2	6.5	17.8
Total chemical	43.9	90.3	33.4	85.9	33.0	90.1
Equipment	4.7	9.7	5.5	14.1	3.6	9.9
Total	48.6	100.0	38.9	100.0	36.6	100.0

(c) Maintenance work in case of production system water supply system or a specific device is damaged and requires repair or maintenance Initially operated by Thai Water Operations Company Limited (TWO), a subsidiary. But if the nature of work is limited or exceeds the capabilities of TWO, it will consider its worth. and may arrange for the selection of contractors Instead, an outside expert took over. by providing a bidding process and select contractors who meet the specified conditions by considering the ability of the contractor and with reasonable costs

(d) PTW is responsible for the cost of spare parts by purchasing from time to time from distributors like TTW, the decision to choose a supplier depends on the product characteristics that are suitable for the job, quality, service and reasonable price as well.

Satisfaction Surveys

The Company understands the importance of providing good services to customers (PWA) in its Samut Sakhon – Nakhon Pathom and Pathum Thani – Rangsit areas. The Company, therefore, conducts regular customer satisfaction surveys every 6 months and summarizes the results of these annually in order then to utilize said results to improve and develop the efficiency and quality of the products and services of the company. In 2023, the Company completed a customer satisfaction survey, the results of which can be summarized as follows:

Customer satisfaction factors	Samut Sakhon – Nakhon Pathom areas (%)	Pathum Thani – Rangsit areas (%)
Tap Water Cleanliness	98	98
Tap Water Pressure	95	94
Tap Water Supply Continuity	98	96
Appropriateness of Dress Code	98	99
Etiquette and Politeness	99	99
Service Attentiveness	98	99
Information Accuracy	97	98
Information Speed	96	95
Documentation Completeness	97	95
Communication Efficiency Levels	97	94
Problem Solving Speed and Efficiency	96	95
Support for PWA Activities	94	96
Average Satisfaction	97	96

Future Business Development

Overall, the economies across various regions are experiencing a continued slowdown due to factors such as rising prices and interest rates, after the central bank's accelerated efforts to control inflation, resulting in tight financial conditions. Additionally, geopolitical conflicts and trade protectionist measures contribute to these challenges. Nevertheless, in 2023, the overall stability of the Thai economy is maintained.

The government sector is urged to enhance competitiveness and implement measures to stimulate economic growth, focusing on areas such as infrastructure investment, utilities readiness (water and energy), promotion of investments in special economic zones like the Eastern Economic Corridor (EEC), and environmental investment such as waste management and urban wastewater treatment.

Currently, sustainability is gaining prominence as a crucial framework for the country's business operations, aimed at reducing the GHG emission into the atmosphere and fostering an economic system that enhances the quality of life (Green economy). TTW adopts a business management approach aligned with sustainability principles, considering three key factors: environment, society, and governance (ESG). This approach reflects the responsibility for business operations is delegated to stakeholders, thereby reflecting the strength and sustainability of the business.

Investment Direction

(1) Domestic Water Business Investment Direction

TTW continues placing a special focus on seeking out investment opportunities in the concessions business, including tap water and wastewater treatment, with government agencies in public-private partnership (PPP) projects while considering business growth factors in conjunction with risk management factors for investment expansion.

(2) International Water Business Investment Direction

TTW and its business partners look for the investment opportunities in tap water business as well as acquiring an integrated water management rights in the ASEAN region by carefully considering the risk factors in terms of economic, social, and political stability of each country.

(3) Energy Business Investment Direction

TTW focuses on seeking investment opportunities in energy businesses according to the Power Development Plan (PDP) and the Renewable and Alternative Energy Development Plan (AEDP 2018) of Thailand in 2018-2037, which is the latest edition with a policy that supports the growth of energy businesses both the internal country and the ASEAN region for investment with the associated companies.

Sustainable competitiveness of TTW

TTW continues conducting investment strategy policies for the sustainable development of the company in 3 dimensions: economy, society, and environment, by taking into account the risk factors and all stakeholders' interests, which can be summarized into 4 strategic concepts as follows:

Strategies	Actions
<p>1. The full service of water management.</p>	<ul style="list-style-type: none"> - Creating professionalism in business operations. - Creating competitiveness. The company has a production capacity of more than 1 million cubic meters/day, so the company can produce tap water at a low cost, which results in economies of scale. Improving the quality of water and quality of life from upstream to downstream. - Using the information for management.

Strategies	Actions
2. The development in 3 dimensions: economy, society, and environment.	- Focusing on the projects and beneficial project development processes that has no conflicts or negative impacts on the economy, society, and environment
3. The integrated solution of water resource.	- Participating with the public and private sectors in education, management, planning, and problem solving in order to achieve results and maximum efficiency in accordance with the 3R principle.
4. The Value creation between the organization and stakeholders	- Creating a network of cooperation with customers, partners, communities, the environment, shareholders, and employees to create shared value and competitive potential, such as: -> Developing product and service to expand and cover the entire business cycle -> Creating a mutually beneficial business model (Win-Win situation). -> Creating a technology such as membrane, energy-saving, and solar-energy (Solar roof) technologies.

(4) Main Operating Assets

1. Main Fixed Assets of the Company and its subsidiaries

As of December 31, 2023, the Company and its subsidiaries had main fixed assets used in business operations as follows:

Assets	Net Value (million Baht)	Nature of Ownership	Obligations
<u>TTW</u>			
Land Building and Equipment	780.5	Owner	N/A
Assets for production of treated water	7,948.5	Owner	N/A
Rights to produce and sell treated water and treat wastewater	931.5	Own rights	N/A
Total	9,660.5		
<u>TWO</u>			
Land Building and Equipment	61.5	Owner	N/A
Intangible assets	9.6	Own rights	N/A
Total	71.1		
<u>PTW</u>			
Equipment	33.9	Owner	N/A
Total	33.9		
Grand Total	9,765.5		

In 2023, PTW has been classified the land as investment property amount 106.1 million Baht.

2. Investment in Other Companies

The Company has the policy to invest in businesses related to water, energy, and environment, in order to increase income in addition to revenue from the water supply business. The management of such associated companies or subsidiaries, the company will appoint a representative of the company to be a director of that company to supervise the operations of subsidiary company to be in the appropriate direction. Currently, the company invested in 2 subsidiaries and 1 associated company as follows:

1) Pathum Thani Water Co.,Ltd. (PTW) operates the business of water treatment management and maintenance to PWA in the vicinity of Pathum Thani – Rangsit. As of December 31, 2023, the company's shareholding proportion in PTW represented 98 percent of the registered capital. The company, as a shareholder, assigned its 4 representatives as Ms.Walainut Trivisvavet, Mr.Phongsarit Tantisuvanitchkul, Dr.Sombat Kitjalaksana, and Mr.Somkiat Pattamamongkolchai to be a member of the Board of Directors of PTW.

2) Thai Water Operations Co., Ltd (TWO) operates the business of management and maintenance of tap water production system and wastewater treatment system for TTW, PTW, the Bang Pa-in Industrial Estate, the Amata City Chonburi Industrial Estate, and the Amata City Rayong Industrial Estate. As of December 31, 2023, TTW and PTW shareholding proportions in TWO represented 68.5 and 31.5 percent of the registered capital respectively. The company, as a shareholder, assigned its 2 representatives Ms.Walainut Trivisvavet and Mr.Pipat Katikul to be a member of the Board of Directors of TWO.

3) CK Power Public Company Limited (CKP), which is a listed company on the Stock Exchange operates the main business as a holding company by holding shares in other companies operating the business of production and distribution of electricity. As of December 31, 2023, TTW's shareholding percentage in CKP represented 24.98 percent of the registered capital and assigned Mr.Chaiwat Utaiwan: the Advisory of the Board of Directors, as a representative to be a member of the Board of Directors of CKP. In addition, the Deputy Managing Director, Financial Group, of the company also attended the meeting with the associated company.

(5) Work that has not been delivered

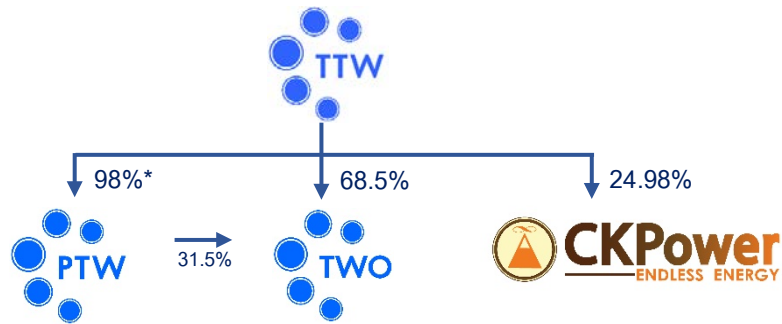

There are no projects under development and construction.

1.3 Shareholding Structure of the Company and its subsidiaries

1.3.1 Shareholding Structure of the Company and its subsidiaries

The Company has a policy on investment in subsidiaries companies and associated companies related to tap water business together with holds shares in common stocks of Holding Companies that operating the business of production and distribution of electricity from various kinds of energy. The Company's investment as of December 31, 2023, was as follows:

Chart of Shareholding Structure and the Company's Shareholding Percentage as of December 31, 2023

Remark : *2% is owned by the Provincial Waterworks Authority (PWA)

Investment in Subsidiaries and Other Companies

Unit : million Baht

Name of Companies	Nature of Business	Registered Capital	Paid-up Capital	Shareholding Percentage	Investment Value at cost
Subsidiaries					
Pathum Thani Water Company Limited (PTW)	water treatment management and maintenance to PWA	1,200	1,200	98.0	757.9
Thai Water Operations Company Limited (TWO)	Management and maintenance of tap water production system and wastewater treatment system for TTW, PTW, the Bang Pa-in Industrial Estate, the Amata City Chonburi Industrial Estate, and the Amata City Rayong Industrial Estate.	60	60	68.5	313.8
Other Companies					
CK Power Public Company Limited (CKP)	Investment by holding shares in other companies (Holding Company) operating business of electricity production and distribution.	9,240	8,129	24.98	5,218.7

Details of the Companies Invested by TTW

1. Pathum Thani Water Company Limited (PTW)

PTW is TTW's subsidiary, with the registered capital amounting to 1,200 million baht, divided into 12 million ordinary shares, at the par value of 100 baht per share, with the paid-up capital amounting to 1,200 million baht. As of December 31, 2023, the Company's shareholding proportion in PTW represented 98 percent of the registered capital (another 2 percent of its shares were held by the Provincial Waterworks Authority). PTW operates the business of production and distribution of water to the PWA in the vicinity of Pathum Thani – Rangsit on a Build-Own-Operate-Transfer (BOOT) ended on October 14, 2023. The Provincial Waterworks Authority (PWA) has signed the contract to allow PTW to operate the water treatment and maintenance to solve the water shortage problem in the area under PWA's Pathumthani Branch, Rangsit Branch (S), and Klongluang Branch. It is a contract to operate the water treatment and maintenance of the system, Pathumthani Water Treatment Plant for a period of 10 years, minimum quantity of water produced (MOQ) equal to 358,000 cubic meters/day.

2. Thai Water Operations Company Limited (TWO)

TWO is TTW's subsidiary, with the registered capital amounting to 60 million baht, divided into 600,000 ordinary shares, at the par value of 100 baht per share, with the paid-up capital amounting to 60 million baht. As of December 31, 2023, the Company's shareholding proportion in TWO represented 68.50 percent of the registered capital (another 31.50 percent of its shares were held by PTW). TWO operates the business of management and maintenance of tap water production system and wastewater treatment system for TTW, PTW, the Bang Pa-in Industrial Estate, the Amata City Chonburi Industrial Estate, and the Amata City Rayong Industrial Estate.

3. CK Power Public Company Limited (CKP)

CKP is a listed company on the Stock Exchange, operates the main business as a holding company by holding shares in other companies operating the business of production and distribution of electricity. CKP has the registered capital in the total amount of 9,240 million baht, divided into 9,240 million ordinary shares, at the par value of 1 baht per share, with the paid-up capital amounting to 8,129 million baht. As of December 31, 2023, TTW's shareholding percentage in CKP represented 24.98 percent of the registered capital. CKP invests in companies operating the business of production and distribution of electricity in 3 types of power plants, which are, Hydroelectric Power Plant, Cogeneration Power Plant, and Solar Power Plant, divided into investment in a total of 6 subsidiaries and associated companies as follows:

Investment in power plants of 3 subsidiaries, comprising:

- Nam Ngum 2 Power Company Limited, as the CKP's core company, via SouthEast Asia Energy Company Limited.
- Bang Pa-in Cogeneration Company Limited
- Bangkhenchai Company Limited

Investment in power plants of 4 associated companies, comprising:

- Xayaburi Power Company Limited
- Luang Prabang Power Company Limited
- Chiangrai Solar Company Limited
- Nakhon Ratchasima Solar Company Limited

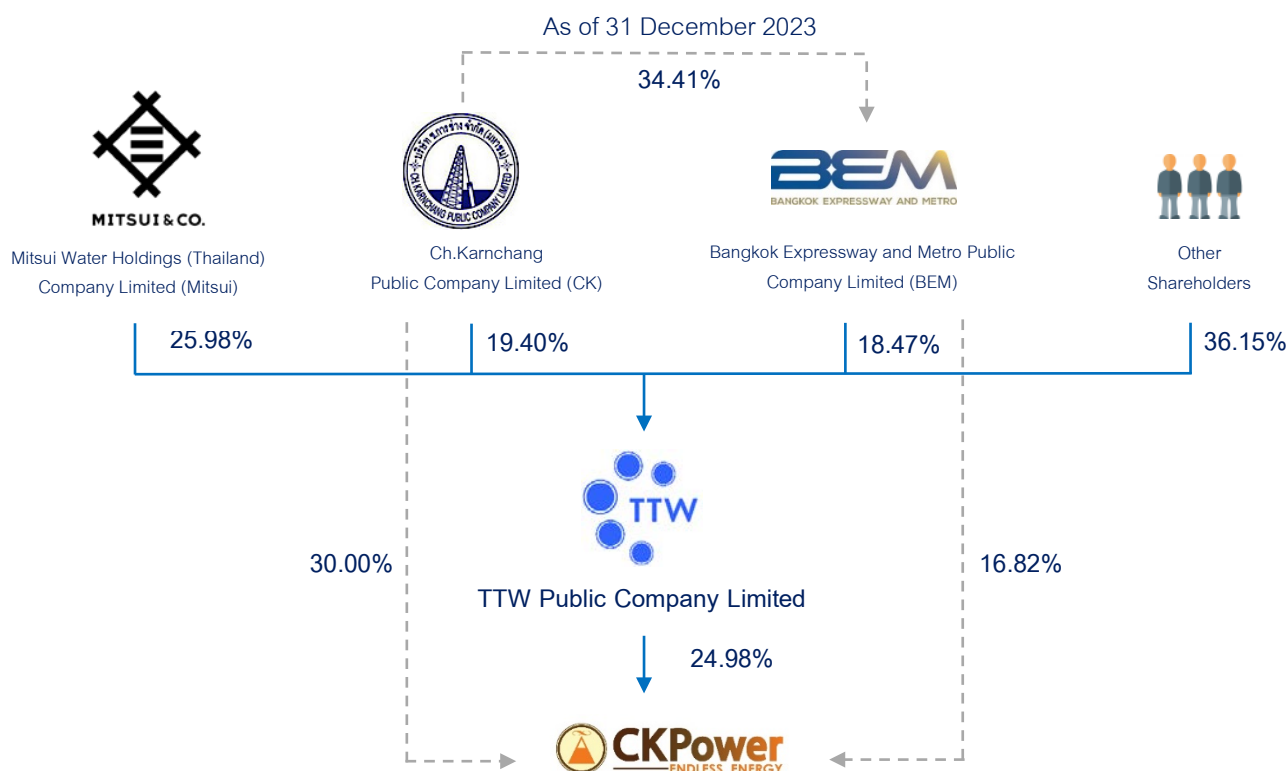

4. Bang Pa-in Industrial Estate

TTW has acquired the rights to produce tap water and wastewater treatment in Bang Pa-in Industrial Estate from Bang Pa-in Land Development Company Limited for a period of 30 years since August 2009, with a production capacity of 48,000 cubic meters per day and a wastewater treatment capacity of 18,000 cubic meters per day. The Company has moved the raw water pumping station from Khlong Wua to the Chao Phraya River at Bang Krasan Subdistrict, Bang Pa-in District, Phra Nakhon Si Ayutthaya Province, which has better raw water quality, thus increasing their confidence in quality and continuity in tap water production. The implementation of the BIE program increased the income of the organization and also added the skills, knowledge, and experience of TTW personnel to become a direct service provider to customers.

Water Production and Wastewater Treatment Projects, Bang Pa-in Industrial Estate

1.3.2 Relationship with Major Shareholder

1.3.3 Shareholders

(1) List of Major Shareholders of the Company

(a) Top 11 major shareholders as of December 28, 2023, which was the most recent closing date of the share register, were listed as follows:

No.	Name	Number of Shares	Shareholding percentage
1.	Mitsui Water Holdings (Thailand) Company Limited	1,036,500,000	25.98
2.	CH.Karnchang Public Company Limited	774,077,400	19.40
3.	Bangkok Expressway and Metro Public Company Limited	736,900,000	18.47
4.	Thai NVDR Co., Ltd.	175,120,482	4.39
5.	Parinya Tienworn	90,000,000	2.26
6.	Bangkok Life Assurance Public Company Limited	44,813,200	1.12
7.	SOUTH EAST ASIA UK (TYPE C) NOMINEES LIMITED	42,122,300	1.06
8.	Mr. Paisarn Chartpitak	30,000,000	0.75
9.	Mr. Tanapat Chartpitak	30,000,000	0.75
10.	Dhipaya Insurance Public Company Limited	24,360,700	0.61
11.	South East Life Insurance Public Company Limited	20,316,000	0.51
	Total	3,004,210,082	75.30
	Others	985,789,918	24.70
	Grand Total	3,990,000,000	100.00

Remark :

1. Shareholder names are compiled by Thailand Securities Depository Company Limited, the Company's Registrar.
2. Thai NVDR Company Limited is 99.99 percent owned by the Stock Exchange of Thailand. It issues NVDRs, which are tradable on the stock exchange. Owning NVDRs, the shareholders are entitled to financial gains like investing in listed companies' common shares but without the voting right. (The interested can get more information from www.set.or.th/nvdr)
3. As of 28 December 2023, the Company has 94 foreign shareholders from a total of 31,803 shareholders, foreign shareholders hold a total of 112,293,379 shares or 2.81 percent of total issued shares.
4. As of 28 December 2023, minority shareholders (free float) are numbered 30,395 holding 24.70 percent of total issued shares.

(b) Major shareholders who had substantial influence on the Company's management policy or operations comprised:

No.	Name	Number of Shares	Shareholding Percentage
1.	Mitsui Water Holdings (Thailand) Company Limited	1,036,500,000	25.98
2.	CH.Kamchang Public Company Limited	774,077,400	19.40
3.	Bangkok Expressway and Metro Public Company Limited	736,900,000	18.47
Total		2,547,477,400	63.85

Remark :

- Shareholders of Mitsui Water Holdings (Thailand) Company Limited comprised:

No.	Name	Number of Shares	Shareholding Percentage
1	Mitsui & Co. (Asia Pacific) Pte. Ltd.	8,999,998	99.99
2	Mitsiam International Limited	1	0.00
3	Mitsui & Co. (Thailand) Ltd.	1	0.00
Total		9,000,000	100.00

- Top 10 shareholders of CH.Kamchang Public Company Limited as of August 29, 2023 which was the closing date for the right to receive the dividend comprised:

No.	Name	Number of Shares	Shareholding Percentage
1	Mahasiri Siam Company Limited	241,512,365	14.26
2	CH.Kamchang Holding Company Limited	189,396,530	11.18
3	Thai NVDR Co., Ltd.	135,735,433	8.01
4	CK. Office Tower Company Limited	86,048,212	5.08
5	UOB KAY HIAN (HONG KONG) LIMITED – Client Account	40,100,600	2.37
6	Bangkok Bank Public Company Limited	38,950,000	2.30
7	MIB SECURITIES (HONG KONG) LIMITED	35,110,500	2.07
8	SOUTH EAST ASIA UK (TYPE C) NOMINEES LIMITED	31,162,612	1.84
9	DBS VICKERS (HONG KONG) LIMITED	27,809,000	1.64
10	Krungsri LTF Dividend Stock	21,473,800	1.27
Total		847,299,052	50.02

- Top 10 shareholders of Bangkok Expressway and Metro Public Company Limited as of March 31, 2023, which was the closing date for the right to attend the AGM comprised:

No.	Name	Number of Shares	Shareholding Percentage
1	CH. Kamchang Public Company Limited	5,260,056,884	34.41

Total		2,400				

1.6 Policy on Dividend Payment

(1) TTW's Dividend Payment Policy

The Board of Directors meeting on 18 March 2008 resolved to set a policy for dividends payment to shareholders, which will consider the demand for money according to the company's goals in the next 5 years, including maintaining the debt to equity ratio of the company to be at an appropriate level. If there is a possibility to pay dividend, the company will consider paying as high rate as possible. However, such rate shall not be less than 50% of its net profit after corporate income tax, statutory reserve, and other reserves required by terms of relevant agreements.

The Company's dividend payment in the previous year was as follows:

Description	2019	2020	2021	2022	2023
Earning per share (Baht)	0.72	0.71	0.69	0.63	0.66
Dividend per share – First half (Baht)	0.30	0.30	0.30	0.30	0.30
Dividend per share – Second half (Baht)	0.30	0.30	0.30	0.30 ^(*)	0.30 ^(*)
Dividend per share (Baht)	0.60	0.60	0.60	0.60	0.60
Dividend Payout Ratio (percent)	83.86	83.99	87.09	95.00	91.13

Note: * The Dividend payment for the second half of 2023 will be approved at the 2024 Annual General Meeting of Shareholders.

(2) Dividend Payment Policy of the Subsidiaries

The Board of Directors of subsidiaries have the policy to pay dividend based on operating performance and with consideration of each company's financial position, cash flow, and investment plan in accordance with the regulations of the subsidiaries in Chapter 6 dividends and reserves are as follows:

- Announcement of any dividends (Except interim dividends) must be approved by the general meeting of shareholders only Notice of payment of dividends must be made in writing to all shareholders whose names appear in the shareholder registration book.
- For Each dividend payment, the company must allocate a reserve fund of at least 1 in 20 of the profit until the reserve reaches 1 in 10 of the company's capital. The company's directors may propose to the general meeting of shareholders. Request to approve the allocation of other reserves more that is possible in the business management of the company.
- The Board of Directors may pay interim dividends to shareholders from time to time, as the Board of Directors deems that the company has sufficient profits to do so.
- If the Company still has accumulated losses, payment of dividends is prohibited.

2. Risk Factors

2.1 Risk Management Policy and Plan

The Company recognizes the significance of effective risk management as a vital element in fostering stable business operations and achieving sustainable growth goals aligned with the organization's vision, objectives, and both short-term and long-term goals. The Company adheres to the principles of sustainable business operations by specifying risk measurement results, considering potential opportunities and impacts. Regular controls, monitoring, evaluation of reports, and communication of risk-related information are conducted to keep all stakeholders informed, including executives, the Risk Management and Corporate Governance Committee, and the Board of Directors. This ensures that these key individuals are aware of potential risks and factors that may impact on the Company.

The company conducts risk management in its business operations to ensure that the company's operations are in line with the objectives and goals at an acceptable risk level. The risk management process is as follows.

- 1) Risk Governance & Culture
- 2) Strategy & Objective Setting
- 3) Performance
- 4) Review & Revision
- 5) Information, Communication & Reporting

The Company assigned a person responsible for risk assessment, determining the plans and measures to manage risk to an acceptable level, and continuously monitoring and reporting the results of risk management as well.

Risk Management Structure

The company established a systematic risk management structure, consisting of:

- 1) **Risk Management Officer: RMO**) consists of the Executives level from each business unit, response for considering risk factors, assessing risk, and determining risk management measures.
- 2) **Risk Management and Corporate Governance Committee: RM&CGC** is the sub-committee of the Board, responsible for determining the policies and risk management framework, including following up on the risk management results of RMO to ensure that they are appropriate and adequate. Therefore, report the results to the Board of Directors on a quarterly basis.

2.2 Business Risks

The company has a risk of customer concentration because the company has the Provincial Waterworks Authority (PWA) as its only major customer, which approximately 95% of the company's total revenues are from selling tap water to PWA. However, PWA's credit status as a state-owned enterprise ensures that the company has a low counterparty risk. In addition, the risk factors that may have a significant impact on the achievement of the company's goals are as follows:

2.2.1 Company's Business Operations Risks

Current Risk Factors

1. Strategic Risks

The company has considered various factors that affect the implementation of the strategic plan, such as political factors economic factors and social factors as elements in the review to determine guidelines and goals.

- Risk from the Water Supply Volume Does Not Meet the Goals

The company has a tap water purchase agreement with the PWA, which has to rely on the PWA's policies and the limited opportunities to expand the business in the company's current service areas. In addition, PWA is regarded as the company's major competitor because it has a water treatment plant and a water distribution network in the areas close to the company's service areas.

Mitigation Plan: the company has the measure to support the project of pressure pipe installation and/or to expand the area to increase the PWA's water sales in the service area according to the contract, including monitoring the movements of other tap water producers, both government and private sectors, that may affect the water supply volume of the company currently and in the future. In addition, the company manages the machinery and main equipment maintenance and electrical systems and determines the solutions and preventive measures for ensuring continuity in the tap water production and distribution.

2. Operational Risks

- Risk from Changes in Raw Water Quality

At the moment, climate change has a high probability of having a more severe impact, and the impact of such changes will affect the raw water quality used in the production process.

Mitigation Plan: the company determines a plan to monitor the quality of raw water appropriately, including random water sampling for water quality analysis, adjusting the water production plan to keep up with changes in raw water quality, and coordinating and exchanging information with relevant agencies such as the Royal Irrigation Department, the Metropolitan Waterworks Authority, the Provincial Waterworks Authority, and the Office of the Environment and Pollution Control 5.

3. Financial Risks

- Risk from Investment of New Businesses in Water, Energy, and Environment

Due to the contract agreement between PWA and PTW (subsidiaries) was change from the Granting Rights to treat and sell water agreements ended on 14 October 2023 and PWA has signed the contract to allow PTW to operate the water treatment and maintenance to solve the water shortage problem in the area under PWA's Pathumthani Branch, Rangsit Branch (S) and Klongluang Branch since 15 October 2023 onwards with a contract period of 10 years, caused the income decreased.

Mitigation Plan: the company will look for new businesses in terms of water, energy, and environment to compensate for lost revenues if the contract is not renewed. The company determines measures to follow up on information and movements in business related to the company both domestically

and internationally and the laws of the government that have changed, as well as conducting studies and development of investment projects in the utility business in accordance with government investment policies and plans.

Systematic Risk

- Climate Changes Risks

In the face of global warming and its impact on water resources, compounded by a growing population, the demand for water consumption is expected to rise. Given that the Company's operations rely on water resources, it recognizes the significance of managing the production process by closely monitoring risks associated with climate change, particularly the potential for water shortages. The Company has implemented measures to closely monitor and assess water levels in dams relevant to its production plants and those of group companies. This proactive approach helps evaluate the risk of water shortages that may impact the production process.

Additionally, during the rainy season, the Company monitors the water level in the river adjacent to the raw water pumping station of its water production plant and group of companies, such as the Tha Chin River and Chao Phraya River. This involves tracking water drainage rates provided by the Royal Irrigation Department and informed about sea level changes through data from the Hydrographic Department, Royal Thai Navy. The Company maintains a vigilant watch on the water level in front of the raw water pumping station, regularly checks flood prevention equipment at-risk areas, and prepares emergency plans for potential flooding, to ensure the business's operational continuity.

- Compliance Risk and related laws

The Company recognizes potential risks stemming from non-compliance with laws, regulations, agreements, and contract conditions. Emphasizing the importance of conducting business in alignment with the principles of good corporate governance to prevent misconduct, corruption, fraud, and ethical violations. It acknowledges that such lapses may have detrimental effects on the Company's reputation and operations.

The Company has established internal supervision, incorporating regular inspection and follow-up processes. Furthermore, it has introduced a "Zero Tolerance Policy" as a guiding framework for operational practices. This policy aims to uphold transparency and fairness in business operations in accordance with the principles of good governance.

- Personnel Risk

Personnel are recognized as a key factor driving organizational success, and their absence can impact business operations and efficiency. The Company has instituted guidelines for risk management and established a personnel management policy, ensuring that human resource management operates efficiently in line with the principles of good corporate governance. Notably, the Company has prepared a Succession Plan for crucial positions in the primary line of work. The focus is on internal recruitment,

identifying high-potential personnel to seamlessly replace and fulfill key roles, thereby ensuring continuous business operations. Furthermore, employees are actively encouraged to develop skills, promoting enhanced work efficiency.

New Potential Risk Factors

- Risk from Cyber Security Threat

Business operations and communications both within and between organizations need to use technology to increase work efficiency, which may lead to risk factors from cyber threats to the water production system, water distribution system, and operational network that must be connected to the Internet network.

A cyber attack can affect the continuity of a company's business operations by disrupting the production or operating systems, which can lead to the leakage of essential operational data that may affect the credibility and image of the company.

The company has established policies and guidelines for information technology management with emphasis on information security and cyber security. The company has invested in an internal communications network system for the data link control in business operations to increase work efficiency and secure the data from loss and theft. Furthermore, the company has firewall security measures to prevent unauthorized persons from entering the network, as well as a backup system and new data storage technologies to improve work efficiency and data security.

2.2.2 Investment Risks of Securities Holders

The issuance of company's financial instruments such as debentures, the securities holders may have the risk that the issuer may not be able to pay interest or repay principal. If the financial instrument issuer defaults on debt payments and the offered financial instrument is not protected by the Deposit Protection Agency, the securities holders will have the same right to request repayment as unsubordinated creditors and other unsecured creditors. However, in assessing the credit risk of the financial instrument issuer, the securities holders can examine the credit rating provided by a credit rating agency for investment decisions, for example, the performance and financial position of the issuer. The securities holders should follow up on information and credit ratings from the website of the Securities and Exchange Commission (SEC) or the credit rating agencies.

In 2023, the company was rated the credit rating by TRIS Rating Co., Ltd. at the level "AA-" with a "Stable" outlook on November 29, 2023, which reflects the company's solid business position.

Moreover, in 2023, the company assessed "Sustainability Risks" which covers environmental, social, and governance risks. The company intends to conduct its business sustainably on the basis of environmental responsibility. Thus, the company is aware of the necessity of participating in solving climate change problems, as well as supporting and promoting the management of greenhouse gases for the benefits of the organization, society, and environment. The sustainability risks are as follows:

- Environmental Risks

The company places an importance on compliance with environmental laws and regulations and has a unit responsible for following up on the changes in laws and regulations related to environmental impact.

The company manages the environmental work with the ISO 14001 system by setting an environmental policy and preparing an environmental manual as a guideline for operating and strictly monitoring the operations according to the emergency plan.

- Low-Carbon Economy Risks

In response to the government's policy to reduce the greenhouse gas emissions, the company has announced its greenhouse gas management policy as follows:

- 1) Commit to being an organization with GHG reduction management
- 2) Improve organizational processes for energy efficiency
- 3) Promote the use of renewable energy and clean energy to reduce the use of natural resources
- 4) Promote waste management in the organization to reduce the amount of waste
- 5) Raise climate change awareness among employees and stakeholders.

The company has appointed a working group to prepare greenhouse gas emission reports to ensure the efficiency of the company's greenhouse gas emissions operations, and the company has a clear action plan to reduce the greenhouse gas emissions.

3. Driving Business for Sustainability

3.1 Sustainable Management Policies and Goals

Sustainable Development Policies

TTW realizes and focuses on sustainable business operations according to the company's vision "To be Thailand's Leading Company in Water, Energy, and Environment" by conducting business with good corporate governance, along with social responsibility and nature and environmental conservation, in order to build stakeholder trust through transparent and verifiable processes. Therefore, the company has developed a sustainable development policy as a framework for managing the sustainable development of the organization.

Corporate Governance

The company follows the principles of good corporate governance, transparency, and accountability in accordance with the organization's corporate governance & business code of conduct handbook, personal information protection, and risk management, which cover the organization's value chain to ensure that business operations have continuity and shared value, including taking care of the stakeholders' benefits in a balanced and fair manner.

Business Process Development

The company intends to operate the full-service business of raw water management, tap water production, and wastewater treatment, as well as explore opportunities in the energy and environmental sectors by focusing on long-term product and service value creation, customer, and stakeholder satisfaction, and promoting the development and creation of business, social, and environmental innovations to achieve sustainable business goals.

Social Value

The company focuses on efficient and fair human resource management as well as developing the essential knowledge and skills in accordance with the employee development plan, which includes encouraging work creativity and maintaining an occupational health and safety management system. In addition, the company encourages executives and employees to respect and comply with international human rights principles by adhering to the principle of equality and non-discrimination, which includes supporting the participation of the company, communities, and related stakeholders to create employee, stakeholder, and community satisfaction by building relationships, understanding, and strong cooperation to reduce future conflicts.

Sustainable Environmental Management

The company realizes and focuses on business operations that do not affect the environment, energy conservation, climate change, and water resource management. In addition, the company supports sensible resource use and biodiversity management, including cooperation and participation between the organization and external agencies to conserve natural resources and the environment, as well as strictly complying with environmental laws.

Responding to the Sustainable Development Goals

The Company recognizes that progress towards the Sustainable Development Goals (SDGs) must commence with internal equality and sustainability. There is a firm commitment to improving living conditions and simultaneously generating economic, social, and environmental value for sustainable growth. The Company utilizes the United Nations Sustainable Development Goals (UN SDGs) as a guiding framework for conducting business with social and environmental responsibility, aiming for continuous and sustainable growth. It has identified 23 sustainability issues directly associated with its business operations, aligning with 15 of the 17 UN SDGs.

	<p>End poverty in all its forms everywhere. (No Poverty)</p>		<p>Ensure access to affordable, reliable, sustainable, and modern energy for all. (Affordable and Clean Energy)</p>		<p>Ensure sustainable consumption and production patterns. (Responsible Consumption and Production)</p>
	<p>Ensure healthy lives and promote well-being for all at all ages. (Good Health and Well-being)</p>		<p>Promote sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all. (Decent Work and Economic Growth)</p>		<p>Take urgent action to combat climate change and its impacts. (Climate Action)</p>
	<p>Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. (Quality Education)</p>		<p>Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. (Industry, Innovation, and Infrastructure)</p>		<p>Protect, restore, and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss. (Life on Land)</p>
	<p>Achieve gender equality and empower all women and girls. (Gender Equality)</p>		<p>Reduce inequality within and among countries. (Reduced Inequalities)</p>		<p>Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable, and inclusive institutions at all levels. (Peace, Justice, and Strong Institutions)</p>

6 CLEAN WATER AND SANITATION 	<p>Ensure availability and sustainable management of water and sanitation for all. (Clean Water and Sanitation)</p>	11 SUSTAINABLE CITIES AND COMMUNITIES 	<p>Make cities and human settlements inclusive, safe, resilient, and sustainable. (Sustainable Cities and Communities)</p>	17 PARTNERSHIPS FOR THE GOALS 	<p>Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development (Partnerships for the Goals)</p>
---	---	--	--	--	--

The Company has developed a sustainability strategy to establish the sustainable development measures of the TTW Group as a guideline for sustainable business operations, in accordance with the organization’s sustainability policy and Sustainable Development Goals (SDGs) of the United Nations as follows:

Sustainable Development Policy	Sustainable Development Strategies	SDGs
Good Corporate Governance	<ol style="list-style-type: none"> 1. Doing business transparently and verifiable with governance. 2. Add value to the Company’s business toward mutual benefit based on the balance among stakeholders. 3. Adapt the Anti-corruption Policy on the operation strictly. 4. Realize the importance of personal data protection and the privacy of those involved by establishing a Personal Data Protection Policy to implement in the operation with stakeholders. 5. Manage risk covering the organization’s value chain. 6. Treat stakeholders equally and fairly. 	
Business Process Management Continually	<ol style="list-style-type: none"> 1. Commit to running a comprehensive water business, including raw water management, tap water production, and wastewater treatment. 2. Commit to energy and environmental business in addition to water business. 3. Create long-term added value of products and services by considering the satisfaction of customers and stakeholders. 4. Promote the development and creation of business innovations with social and environmental innovations. 	
Social Value Creation	<ol style="list-style-type: none"> 1. Manage human resources with efficiency and fairness in accordance with the standards, requirements of laws, and international labor charters. 2. Encourage personnel to develop necessary knowledge and skills according to the employee potential development plan and promote creativity in working through Kaizen activities. 3. Support the occupational health and safety management system by establishing operational manuals and safety standards in accordance with the nature of work and creating a safe working culture throughout the organization. 	

Sustainable Development Policy	Sustainable Development Strategies	SDGs
	<ol style="list-style-type: none"> 4. There is a policy on human rights and labor, encouraging executives and employees to respect and comply with international human rights principles based on equality and non-discrimination. 5. Create satisfaction for employees and communities surrounding the Company's business areas. 6. Promote engagement with communities and relevant stakeholders to create the strong relationships, comprehension, and cooperation to reduce conflicts from arising in the future. 	 
Sustainable Environmental Management	<ol style="list-style-type: none"> 1. Realize the importance of doing business without affecting the environment. 2. Conserve energy and climate change through the reduction measures of electricity consumption and GHG emissions from business processes according to the specified goals. 3. Manage water resources by raising awareness of water utilization with value, establishing measures and goals for reusing wastewater from production processes to reproduce tap water. 4. Manage waste and unused materials by using sludge for product research and social use, as well as promoting the valuable use of unused materials. 5. Manage biodiversity for the benefit and value of organizations and ecosystems by establishing preventive measures for tap water and wastewater treatment production systems from negative impacts on living organisms in ecosystems. 6. Promote cooperation and participation in natural resource conservation and environmental stewardship between the organization and external agencies. 7. Aware of strictly complying with environmental laws by establishing an environmental management system (ISO 14001: 2015), including internal monitoring and certification from external agencies according to the plan. 	       

The Company Sustainable Development Goals

The company has set the organization sustainable development goals covering economic, social, and environmental as follows:

Sustainability Issues	Goals / Indicators	Management guidelines
Economics		
		
<ul style="list-style-type: none"> ▪ Good Performance ▪ Good Corporate Governance ▪ Risk Management and Business Continuity ▪ Supply Chain Management ▪ Products and Services Responsibility ▪ Innovation and Technology 	<ul style="list-style-type: none"> ▪ The water supply volume: TTW is 146.20 million cubic meters. PTW is 138.96 million cubic meters. (Goals in Year 2023) ▪ Creating guidelines for working under the principles of good corporate governance until it becomes a corporate culture. (Long-term goals since Year 2023 onwards) ▪ No violations of the Code of Conduct in business operations from stakeholders. (Long-term goals since Year 2023 onwards) ▪ No risk issues that cannot be managed. (Long-term goals since Year 2023 onwards) ▪ The ratio of goods received on time as agreed with the buyer and seller or received as stipulated in the purchase order not less than 90% (Goals in Year 2023) ▪ The customers are satisfied with the Company's service not less than 90% (Goals in Year 2023) ▪ The number of work process improvement issues through Kaizen activities (Kaizen) increased from year 2022 (Goals in Year 2023) ▪ No complaints from stakeholders who were affected by the company's business operations that cannot be managed. (Long-term goals since Year 2023 onwards) 	<ul style="list-style-type: none"> ▪ Review policies and strategies in economic and sustainable development. ▪ Analyze and review of water supply targets. ▪ Promote and develop knowledge of business ethics to employees at all levels. ▪ Report the results of corporate governance to the Risk Management and Corporate Governance Committee on a quarterly basis. ▪ Review of economic, social, and environmental risk assessments including review the organization's Emerging Risk. ▪ Continuously promote and develop risk management knowledge. ▪ Rehearsing an Emergency Plan. ▪ Procurement under fair agreements. ▪ Establish a project for procurement of products and services that are environmentally friendly. ▪ Prepare a backup plan and intensify the delivery of products and find delivery channels that do not affect the production process. ▪ Production and distribution of tap water to customers according to quality standards that are sufficient and consistent. ▪ Promote and develop necessary skills for customers. ▪ Promote and develop Kaizen skills both inside and outside the company. ▪ Promote and develop knowledge and sharing experiences through Kaizen or Exchange Program. ▪ Promote and develop knowledge and exchange experiences among departments through the Kaizen Project or Exchange Program. ▪ Membrane technology is applied in tap water production, which is an advanced technology capable of filtration of viral and bacterial pathogens which are internationally recognized.

Sustainability Issues	Goals / Indicators	Management guidelines
Social		
         		
<ul style="list-style-type: none"> ▪ Employee Stewardship and Development ▪ Occupational Health and Safety ▪ Social and Community Stewardship ▪ Social Contributions and Donations ▪ Roles and Responsibilities of Human Rights Committees and Executives ▪ Employment and Respect for Human Rights ▪ Human Rights Risk Assessment ▪ Managing Human Rights Complaints and Remedies ▪ Cooperation with Human Rights Business Partners 	<ul style="list-style-type: none"> ▪ The employee satisfaction survey results not less than 80%. (Goals in Year 2023) ▪ employee turnover rate is not more than 4%. (Goals in Year 2023) ▪ 100% of training according to the Company's safety training plan. (Long-term goals since Year 2023 onwards) ▪ The number of accidents from employees and contractors' operations is 0. (Long-term goals since Year 2023 onwards) ▪ The number of chemical leakage accidents (chlorine) from employees and contractors' operations is 0. (Long-term goals since Year 2023 onwards) ▪ No disputes, disagreement, or complaints to business partner in case of issues of human rights violations and unlawful issues and the Company's Code of Conduct. (Long-term goals since Year 2023 onwards) 	<ul style="list-style-type: none"> ▪ Review the employee performance appraisal process and the compensation determination process. ▪ Promote and develop necessary skills for employees. ▪ Join ESG DNA Project for SET' s employees. ▪ The employee satisfaction survey with the organization. ▪ Performance evaluation according to the Company's Code of Conduct. ▪ An election of the Welfare Committee. ▪ Review the Occupational Safety, Health and Environment Committee. ▪ Provide employees an annual check-up, adding a special health check for employees working at risk area and employees over 35 years. ▪ Assess environmental factors that may affect the health and safety of employees, such as light, noise, dust, air pollution, etc. ▪ Regularly promote and develop safety knowledge. ▪ Rehearsal of emergency plans to prepare for critical situations. ▪ Supporting scholarships for students in schools with a shortage in service areas. ▪ Promote and develop knowledge on water conservation and composting from organic waste mixed with sludge to school and communities in service areas. ▪ Supporting bottled water or budgets for stakeholders in activities that are beneficial to society. ▪ Regularly support Buddhist activities and preserve Thai traditions both the service area and outside the service area. ▪ Review Human Rights and Labor Policy. ▪ Set guidelines and procedures for respecting

Sustainability Issues	Goals / Indicators	Management guidelines
		<p>the human rights of stakeholders for the Board of Directors, executives, and employees to adhere to.</p> <ul style="list-style-type: none"> Determine channels and processes for receiving whistle blowing and human rights to complaints accessible to all employees and stakeholders.

(Long-term goals since Year 2023 onwards) Water quality is released according to quality standards as required by law. (Long-term goals since Year 2023 onwards) Water reuse is not less than 2% of the total water volume that is added into the production process. (Goals in Year 2023) No sludge spilled out to outside. (Long-term goals since Year 2023 onwards) Electricity consumption per product unit of the 3 tap water plants decreases by not less than 1%. (Long-term goals since Year 2023-2025 onwards) Greenhouse gas emissions from the business water operations per product (Scope 1,2 and 3) decrease by not less than 0.03% (Long-term goals since Year 2023-2025 onwards) No complaints from stakeholders who were affected by the company's business operations on ecosystem, conservation area or natural resource. (Long-term goals in Year 2023 onwards) The number of internal audits of environmental system management under ISO 14001:2015 is not less than once per year. (Long-term goals in Year 2023 onwards) Receive the certification of an environmental system from SGS Thailand Company Limited. 	<ul style="list-style-type: none"> Review quality and environmental policy. Produce tap water without loss of water with Zero Discharge Establish a project for green procurement of products and service. Controlling the quality of air pollution according to the law/as required by law. Operate the performance in accordance with the environmental standard system (ISO 14001: 2015). The residual water from the sludge extraction process will be reused in the tap water production process. Campaign to promote activities to maintain water sources and water quality of the Tha Chin River and canals in the service area. Monitor water sources with relevant external agencies. Organize Restore the Water Quality of Bang Sue Canal to Conserve the Tha Chin River. Waste is sorted into 3 types: general waste, recycle waste and hazardous waste according to management system (ISO 14001: 2015) The head office separates food waste from general waste to make compost from the automatic food waste sorting machine. Follow up on the results of the composting, soil conservation, and environment conservation project of Thairath Wittaya 4 School and Wat Suk Wattanam School, Nakhon Pathom Province.

Sustainability Issues	Goals / Indicators	Management guidelines
	(Long-term goals in Year 2023 onwards) <ul style="list-style-type: none"> ▪ No Violations or requirements of environmental. (Long-term goals in Year 2023 onwards) 	<ul style="list-style-type: none"> ▪ Join SET's Waste Project with plan to operate in Year 2024. ▪ Establish the Solar Rooftop project and the Floating Solar Cell project. ▪ Join the energy conservation project of the Department of Alternative Energy Development and Efficiency, Ministry of Energy. ▪ Join SET's Care the Bear Project ▪ Organize the "Greenhouse Gas Emission Assessment from the Business Process Project" and being certified for the carbon footprint of the organization from the TGO. ▪ Determine the reduction measures of electricity consumption and measures to control electricity usage. ▪ Establish measures to prevent environmental impacts on external ecosystems (water, soil, air). ▪ An Internal Audit of environmental system management under ISO 14001:2015 with the specified standards at least once per year.

3.2 The Impact Management on Stakeholders in the Business Value Chain

From the company's vision "To be Thailand's Leading Company in Water, Energy, and Environment" towards a full service of eco-friendly business operations. To conduct the business with stakeholders is a critical issue that the company will continuously address in accordance with the vision by applying the information about operations with stakeholders into the company's strategic planning excepts from other strategic planning frameworks and tools, to respond to the stakeholders' needs and expectations, including creating a balance between value and worth of business operations for stakeholders and building good relationships and confidence in the operations between the company and stakeholders.

The company has classified the stakeholders in the business value chain into 6 groups, which have been sorted in order of importance:

1. Employees
2. Shareholders / Investors,
3. Customers,
4. Partners/Suppliers
5. Communities / Societies
6. Environmental Agencies

As of 2023, the company can summarize the operating results of responding to the stakeholders' expectations or needs as follows:

Needs / Expectations	Participation	Result
Employees		
<ul style="list-style-type: none"> - Paying reasonable compensation and benefits. - Safety and good health at work - Knowledge and potential development. - Independently expressing opinions and suggestions. - Equality and Fairness. - Stability and career advancement. - Good working environment. - There is a system to prevent personal information leakage. 	<ul style="list-style-type: none"> - Performance evaluation and fair compensation - Developing the potential of employees - Respect for human rights. - Provide an opportunity to express opinions and negotiate. - Create employee engagement and participation 	<ul style="list-style-type: none"> - Review performance evaluations and compensation. - Review human rights and labor policies. - Create a plan to develop the potential of employees, create a training plan for employees at all levels, provide training to provide basic knowledge on sustainability courses. Under the ESG DNA project for corporate employees of the SET. - Arrange elections for the Welfare Committee. - Employee satisfaction survey - Evaluate your performance according to the company's code of ethics. - Executives and staff meeting activities. - Kaizen activities to improve work. - Exchanging knowledge and experiences in water treatment plant management. - Arrange the place and environment appropriately and create a good atmosphere for working. - Activities such as safety activities Provide scholarships to employees' children Organize monthly employee birthdays and New Year's parties. to employees, etc. - Communication through various channels - Open to listening to employee complaints and opinions.

Needs / Expectations	Participation	Result
Shareholders / Investors		
<ul style="list-style-type: none"> - Good performance and returns. - Business growth and expansion of sustainable business opportunities - Treat shareholders/investors equally. - Transparency and compliance with SET regulations and information disclosure criteria. - There is a system to prevent personal information leakage. 	<ul style="list-style-type: none"> - Seeking and co-investing with business partners to expand investment opportunities and create flexibility in business operations. - Disclosing information according to international practices and in accordance with regulations - Collaborating with relevant agencies to improve communication efficiency and sustainable operations. 	<ul style="list-style-type: none"> - Reveal important and necessary information about the company's operations. - Govern the business with transparency, fairness, and accountability. - Annual shareholder meeting - Annual report and annual sustainable development report - Securities analyst meeting (Analyst Meeting) - Results of the evaluation of good corporate governance in "Excellent level" - Sustainable stock assessment results SET ESG Rating: AA from the SET. - Honor Award Sustainability Discloser Award 2023, for the 5th consecutive year. - S&P Global sustainability assessment results according to international standards are higher than last year. - Listen to comments/suggestions to improve operations.
Customers		
<ul style="list-style-type: none"> - The tap water is of the expected quality with adequate amount and continuity. - Correctly receiving product and service information. - Keeping contracts or agreements with fairness. - There is a system to prevent personal information leakage. - Continuously supporting the customer's activities. 	<ul style="list-style-type: none"> - Develop products and services that are quality, safe and do not affect the environment. - Co-develop products and services with customers and create cooperation with projects that promote social sustainability. - Respect for human rights. - Provide an opportunity to express opinions and negotiate. - Build confidence and participation 	<ul style="list-style-type: none"> - Suppling of high-quality tap water as specified in the contract with adequate quantity and continuity. - Supporting for installing water supply pipes and enhancing the water supply pressure. - Preparing meeting in accordance with the specified circle. - Preparing meeting to listen to problems and complaints. - Inviting customers to visit the tap water production processes. - Providing information on raw water quality, tap water quality, and other information via appropriate channels. - Supporting training for customer's

Needs / Expectations	Participation	Result
		<p>potential.</p> <ul style="list-style-type: none"> - The off-site meeting. - Preparing the workplace and the good quality of life for customers. - Providing scholarships to employees' children. - Organizing social activities with the company. - Surveying customer satisfaction and responding to the customer needs.
Partners / Suppliers		
<ul style="list-style-type: none"> - Transparent and fair procurement - Timely and reliable payments - There is a system to prevent personal information leakage. - Opportunity for sustainable development and growth together - Participate in problem solving and development Improve collaborative processes 	<ul style="list-style-type: none"> - Maintaining a high level of trust in the procurement process with transparency. - Respect for human rights. - Provide an opportunity to express opinions and negotiate. - Build confidence and participation 	<ul style="list-style-type: none"> - Review the Supplier Code of Conduct (SCOC) to cover economic, social, and environmental operations. - Follow trade conditions and agreements fairly. - Visit partners/suppliers to exchange opinions and listen to suggestions or various improvements that should be made
Communities / Societies		
<ul style="list-style-type: none"> - Supervise the company's operations so that they do not affect the community and environment. - Raise the quality of life of the community. - Promote and develop to create career stability and income. - Caring for communities during crises and disasters 	<ul style="list-style-type: none"> - Using the company's business knowledge and ability to help improve the quality of life of the community. - Promote cooperation between communities, government, and related agencies to create social sustainability. - Respect for human rights. - Provide an opportunity to express opinions and negotiate. - Build confidence and participation 	<ul style="list-style-type: none"> - Visit the community to listen to opinions, suggestions, and needs of the community through community relations activities. - Participate in community activities Respect community rights including taking care of the environment around the community. - Survey of satisfaction with the performance of social and environmental projects. - Support education for schools and educational institutions, such as sponsoring prizes for organizing Children's Day activities. Awarding scholarships Building improvements and installing clean drinking water systems for schools, etc.

Needs / Expectations	Participation	Result
Environmental Agencies		
<ul style="list-style-type: none"> - Create participation in solving problems, conserving energy, and caring for the environment. - Supervise the company's operations so that they do not affect the environment. - Promote and develop knowledge on protecting and restoring the environment for stakeholders. 	<ul style="list-style-type: none"> - Production processes for products and services that are environmentally friendly. - Water management - Management of waste and leftover materials - Climate change control and energy conservation - Biodiversity management - Cooperation in caring for the environment between organizations. - Compliance with environmental laws 	<ul style="list-style-type: none"> - Organize campaign activities to promote conservation of the Tha Chin River. and canal branches together with the We Love Tha Chin River Club, Nakhon Pathom - Organized activities to follow up on the results of the 1 million seedlings project to create a watershed forest in collaboration with the Department of National Parks, Wildlife and Plant Conservation. - Organize a project on composting, conserving the soil, and conserving the environment in collaboration with the Faculty of Environment, Kasetsart University and the Laem Phak Bia Environmental Research and Development Project under the royal initiative. - Organize a project to restore the water quality of Bang Sue Canal. To conserve the Tha Chin River together with Rai Khing Municipality Office of Environment and Pollution Control No. 5 and Phasi Charoen Water Delivery and Maintenance Project - Take care of and monitor water sources together with relevant external agencies such as the Department of Water Resources, Royal Irrigation Department, Environment and Pollution Control Office No. 5, Metropolitan Waterworks Authority, Provincial Waterworks Authority Private agency and the We Love Tha Chin River Nakhon Pathom Club

3.3 Sustainability Management in Environmental Dimensions

3.3.1 Environmental Policies and Practices

The Company prioritizes sustainable environmental management, manifested through the establishment of quality and environmental policies, goals, guidelines, and monitoring of environmental management outcomes. The organization's primary mission is to demonstrate social responsibility throughout the creation of environmentally friendly products and services. It actively identifies crucial environmental indicators as part of its ongoing environmental management efforts, aiming to strike a business balance while minimizing sustainable environmental impacts. This commitment aligns with the Sustainable Development Goals (SDGs) set forth by the United Nations. The quality and environmental policy has been disclosed on the company's website according to the QR code.

The company intends to conduct business on the basis of environmental responsibility by integrating the sustainable development guidelines and the prevention and reduction of environmental impacts into the business operations, so the company sets up the sustainable development policy titled "Sustainable Environmental Management", which is in accordance with laws, regulations, international standards, and the United Nations sustainable development goals (UN SDGs), as can be seen from the company's performance, covering upstream to downstream, such as raw materials purchasing with partners, water conservation, eco-friendly production and service processes, water management, climate change, energy conservation, waste management, biodiversity, cooperation for environmental conservation between the company and agencies, and compliance with environmental laws. The guidelines for environmental practices are as follows:

1. Realize and focus on business operations that do not affect the environment.
2. Conserve energy and combat climate change by taking measures to reduce electricity consumption and greenhouse gas emissions from business processes according to the specified goals.
3. Manage the water resources by raising awareness of the importance of water usage and also setting measures and goals to bring wastewater from the water production process to reuse in water production.
4. Manage waste and residual materials by bringing the sediment to research into products and use it for social benefits including promoting the use of recycled materials to promote the wise use of resources.
5. Manage biodiversity for the benefit and value of the organization by establishing preventive measures for the water supply and wastewater treatment systems that will not have a negative impact on creatures in the ecosystem.
6. Encourage cooperation and participation between the organization and external agencies to conserve natural resources and the environment.
7. Realize and focus on strictly complying with environmental laws by setting up an environmental management system (ISO 14001) that must be inspected and certified by external agencies as planned.

Environmentally friendly production processes for goods and services

The Company acknowledges and emphasizes the significance of adopting environmentally friendly practices in the production of products and services. To encourage the production and consumption of eco-friendly products and services, such as environmentally friendly procurement (Green Procurement), utilization of alternative or recyclable resources and ensuring that the production process avoids releasing waste like wastewater or toxic fumes into the environment. Priority is given to a production process that safeguards the health of employees and all involved parties. The Company establishes a quality and environmental policy as a guiding framework for environmental management within the organization. Additionally, it adheres to the international environmental management standard ISO 14001:2015 to enhance efficiency in environmental management practices.

Water Resource Management

TTW is aware of the risks associated with water resources that may affect future business operations since water resources are the main raw materials for tap water production. The Company determines to be a part of the conservation of water resources and to drive operations toward the Sustainable Development Goals (SDGs) No. 6 on “Ensure Availability and Sustainable Management of Water and Sanitation for All.”

The Company has designed the tap water production system to bring water back into the production process with maximum efficiency based on the principle of Water Discharge Minimization, including measures to control water loss in the production system (Production Loss), and has designed the tap water distribution system (Transmission Loss) to be appropriate, which will not release any water loss, whether it is the water separated from the sludge removal system or the water that has gone through the backwash process of a sand filter. The system is designed to collect sludge from the water production process to separate water from sludge, which is then returned to the water production system again.

Water is essential to our livelihood and is used in the production of tap water to prevent the activities of the Company's business processes from polluting or affecting the quality of water resources, the Company strictly complies with the requirements of relevant laws, categorizing the Company's wastewater into two types include wastewater from water use within the office and from other activities within the water treatment plant by establishing a wastewater quality inspection plan before draining to the outside once a year.

In 2023, the results of inspection and analysis of wastewater quality of every water treatment plant were qualified the standards according to the notification of the Ministry of Industry regarding the determination of the standard for controlling the wastewater from the plants, by virtue of Article 14 of the Ministerial Regulation, No. 2 B.E.2535 (1992) issued under the Factory Act, B.E.2535 (1992)

Furthermore, the Company actively oversees and preserves water resources in collaboration with relevant external agencies. This includes campaigns to promote activities for the conservation of water resources and the enhancement of water quality in the Tha Chin River and canals. The Company has initiated a project to restore the water quality of the Bang Sue Canal, contributing to the preservation of the Tha Chin

River. Upon completion, the project was delivered to Rai Khing Municipality. After the installation of water quality improvement equipment in the Bang Sue Canal, the dissolved oxygen (DO) value increased significantly. Prior to the installation (June 2022 - June 2023), the average DO value was 1.40 milligrams per liter (mg/L). Following the installation (July - December 2023), the average DO value rose to 2.01 mg/L, marking a 44% increase. The community satisfaction survey for the Khlong Bang Sue project yielded a 90% satisfaction rate, achieving the set goals for both indicators after project completion.

Waste Management

The Company recognizes the environmental and safety implications for stakeholders arising from waste generation in its business operations across the supply chain, encompassing raw material transportation, production, and product/service delivery. Prioritizing adherence to laws and recommendations from regulatory agencies, to minimizing environmental impacts associated with waste disposal. This involves a concerted effort to reduce the quantity of waste sent for disposal to the lowest feasible levels. Furthermore, the Company actively seeks opportunities to reuse waste, aligning with the principles of the Circular Economy, to maximize benefits and contribute to sustainable practices.

The Company has handled sewage or waste materials in accordance with environmental management standards such as ISO 14001:2015 by preparing an operating manual regard handling sewage or waste materials with the objective of being a guideline for sewage and waste materials management in accordance with the law to prevent potential negative effects on the environment. Sewage or waste material means all sewage or waste produced by a factory operation, including waste from raw materials, waste generated in the production process, waste products of deterioration, and effluent with hazardous composition or nature.

In 2023, the Company actively advocated for responsible resource utilization in collaboration with external agencies while preparing New Year's gifts for the year 2024 to express gratitude to stakeholders. The innovative approach involved creating a New Year gift set (TTW Eco Friendly: NEW YEAR Gift 2024) using recycled and environmentally friendly materials, aiming to minimize plastic usage and reduce environmental impacts from waste disposal. The gift set featured products made from RPET fabric, a specialized fiber crafted from recycled plastic bottles, with each set incorporating the equivalent of 25 one-liter plastic bottles.

TTW's Gift Set from RPET fabric

Additionally, the Company is actively promoting the reduction of plastic usage through its bottled water project. The initiative involves transitioning to a format with embossed containers for 350 ml. bottled water, eliminating the use of plastic labels (No Label). This strategic shift supports the overarching goal of reducing GHG emissions and is expected to contribute to cost savings for the Company. It will be produced and distributed to stakeholders to use in public activities for society.

Climate change and energy conservation

Energy stands as a pivotal cost influencing business and production processes across diverse industries. However, the utilization of energy carries implications for climate change, primarily due to the emission of greenhouse gases (GHG), a global concern. This aligns with the Sustainable Development Goals, particularly Goal 7, emphasizing affordable and clean energy access for all (Affordable and clean energy: SDG 7), and Goal 13, addressing climate change (Climate Action: SDG 13). The overarching objective is to minimize the impact of energy use and GHG emissions.

In 2023, the Company conducted a project for the second consecutive year to assess GHG emissions from its business processes, covered all three scopes of GHG emissions,

Scope 1 : Direct GHG emissions

Scope 2 : Indirect GHG emissions

Scope 3 : Other Indirect GHG emissions

The company employs a consultant from Green Style Co., Ltd., which was registered with the Thailand Greenhouse Gas Management Organization to assess greenhouse gas emissions. There was spanning a 12-month data collection cycle from October 1, 2022, to September 30, 2023. The results were verified by the Research School of Energy and Environment, University of Phayao, and certified through the Carbon Footprint for Organization (CFO) by the Thailand Greenhouse Gas Management Organization (Public Organization) or TGO. This certification was obtained for both direct and indirect GHG emissions associated with energy use, resulting in a total amount of 77,555 tons of carbon dioxide equivalent (tCO₂e).

The Company acknowledges the significance of energy conservation as a crucial production factor in business operations and various activities. The Company has implemented guidelines for its employees; these guidelines are designed to encourage all employees to actively participate in energy-saving practices, fostering a unified approach. The goal is to reduce the Company's expenses, achieve energy savings, and minimize the volume of GHG emissions in alignment with government policies.

The company has installed a Solar Rooftop system on the company's clear water storage tank. The objective is to reduce the amount of electricity used and reduce the amount of GHG emissions from business operations. The Company has the potential in terms of space where the Solar Rooftop system can be installed on clear water tanks, with a total installation capacity of 3,181. megawatts (MW), which in 2023 can produce 4,592,180 kilowatt hours of electricity, able to reduce GHG emissions by 2,295 tons of carbon dioxide equivalent (tCO₂e) per year.

The Company has initiated a Floating Solar Cell project for the wastewater treatment system in Bang Pa-in Industrial Estate. This involves the installation of a solar power generation system at the wastewater treatment pond, incorporating floating solar panels. This innovative approach minimizes the impact on normal wastewater pond use while reducing electricity consumption from the Provincial Electricity Authority. The project aligns with the operational policies of the Industrial Estate Authority of Thailand and government initiatives to lower greenhouse gas (GHG) emissions. Preliminary assessments indicate a potential reduction of at least 10% in electrical energy consumption, equivalent to 142,806 units per year or 571,225 Baht annually (at 4 Baht per unit). The system commenced electricity production and utilization in September 2023. Additionally, the Company plans to install Solar Rooftops at the water treatment plant of Bang Pa-in Industrial Estate in 2024

Biodiversity

The Company acknowledges that running a tap water production business, dependent on raw water from natural sources, has impacted the ecosystem and aquatic biodiversity. This encompasses the disposal methods for waste (sediment) generated during the tap water production process, which could influence the quality of soil and water if the disposal approaches are not accurate and suitable. Additionally, the operational processes involving machinery, equipment, employees, contractors, and associated parties may result in the emission of air pollution or greenhouse gases into the atmospheric environment.

To address the risk of adverse impacts on biodiversity, the Company prioritizes this issue, demonstrating management's commitment to minimizing negative effects on biodiversity. This involves implementing a management system that includes measures for avoidance, impact mitigation, restoration, and compensation, encompassing negative impacts on biodiversity in the three areas of water, soil, and air, through the initiation of projects or activities in biodiversity management, outlined as follows:

Aquatic ecosystem	Soil ecosystem	Air ecosystem
<p><u>Project/Operation:</u></p> <p>1) Designing a water supply production system, such as a raw water pumping system to avoid and prevent living things in the Tha Chin River from entering the production system. and production systems to reuse water in the production process with maximum efficiency, by adhering to the principle of Water Discharge Minimization and controlling water loss in the production process (Production Loss) by squeezing water out of the</p>	<p><u>Project/Operation:</u></p> <p>1) The design of the sludge dewatering system is a system for removing water from the sludge. To make the sediment as dry as possible which can reduce the number of contaminants and make them more convenient to dispose of</p> <p>2) Sediment research and development project to develop products such as clay bricks and decorative tiles, etc., which can reduce the amount of sediment that will be disposed of.</p> <p>3) Composting from the Automatic Food</p>	<p><u>Project/Operation:</u></p> <p>1) Controlling air pollution from the company's work processes, such as inspecting environmental quality, dust released from the exhaust stack of a backup generator, inspecting the condition of vehicles of contractors or outsiders entering and exiting the company's work area, such as checking exhaust fumes. and various conditions of readiness</p> <p>2) Arrange for inspection of air pollution caused by the use of</p>

Aquatic ecosystem	Soil ecosystem	Air ecosystem
<p>sediment and returning the water back into the production process. This means that throughout the tap water production process, no wastewater is released into natural water sources.</p> <p>2) Bang Sue Canal Water Quality Restoration Project to conserve the Tha Chin River, by relying on cooperation between the community, government, and companies to restore the water quality of Bang Sue Canal in the Rai Khing raw water pumping station, by installing equipment to improve the quality of Bang Sue Canal water to have better quality before releasing it into the Tha Chin River.</p> <p>3) Follow up on the results of the 1 million seedlings project to create a watershed forest, to reduce the impact and compensate for bringing raw water from natural water sources to produce tap water by planting watershed forests around Thong Pha Phum National Park, Kanchanaburi Province, which is the watershed of the Mae Klong River and the Tha Chin River.</p>	<p>Waste Disposal Machine Project to reduce the amount of food waste that is contaminated with general garbage and send it to municipal agencies for disposal, including compost being able to be used to maintain trees and improve soil quality.</p> <p>4) Compost project, save the soil, save the environment. for schools near Bang Len Waterworks Plant By mixing sediment with food scraps or organic waste into compost and using it to maintain trees within the school and improve the soil quality.</p> <p>5) Prepare an operation manual on "handling waste or unused materials" according to the environmental management standard ISO 14001: 2015, which can reduce the number of contaminants and make them more convenient to dispose of.</p>	<p>generators, such as particulate matter (TSP), sulfur dioxide (SO₂), nitrogen dioxide (NO₂), and carbon monoxide (CO) from the company. Health and Envitech Co., Ltd.</p> <p>3) Project to assess greenhouse gas emissions from business processes which received Carbon Footprint Organization (CFO) certification from the TGO.</p> <p>4) Setting targets for reducing greenhouse gas emissions from business processes.</p> <p>5) Determining measures to reduce electrical energy use, which is an important source of greenhouse gas emissions for the company.</p> <p>6) Solar Rooftop and Floating Solar Cell project.</p>

Cooperation in caring for the environment between organizations.

To operate a sustainable long-term business, the Company requires collaboration from the community and relevant agencies. Historically, the Company engaged in planning and implementing energy and natural resource conservation projects, partnering with external agencies for initiatives such as water management, waste reduction, and addressing climate change as well as energy conservation. The creation of environment-friendly projects, dependent on cooperation among related agencies are as follows:

Water Management	Wastewater and unused materials management	Climate change and energy conservation
<p><u>External projects/agencies:</u></p> <p>1) Organize Restore the Water Quality of Bang Sue Canal to Conserve the Tha Chin</p>	<p><u>External projects/agencies:</u></p> <p>1) Sediment research and development project to develop into products in</p>	<p><u>External projects/agencies:</u></p> <p>1) Project to assess greenhouse gas emissions from business processes in</p>

University of Phayao and received CFO certification from the TAO.
2) Follow-up activity of the 1 million Seeding to Create Watershed Forests Project with the Department of National Parks, Wildlife and Plant Conservation.	2) Compost project, save the soil, save the environment in collaboration with Thairath Wittaya 4 School and Wat Sukwattanaram School. Located in the area around Bang Len	2) Solar Rooftop Project and Floating Solar Cell Project in collaboration with Bangkhenchai Company Limited.
3) Activities to take care of the Tha Chin River and the environment with the We Love the Tha Chin River Nakhon Pathom Club	3) Waste separation project in collaboration with the Stock Exchange of Thailand (SET).	3) Care the Bear Project in collaboration with the Stock Exchange of Thailand (SET)

Compliance with environmental laws

The Company places importance on conducting environmentally friendly business practices, adhering fully to the stipulated conditions and requirements of the law. To reinforce this commitment, an environmental management system (ISO14001:2015) has been established, incorporating an annual internal audit to raise employee awareness and assess the effectiveness of the environmental management system. The Company has achieved certification for its environmental management system (ISO14001:2015) from SGS (Thailand) Limited.

The Company formulates an internal audit plan for the ISO 14001:2015 system, considering the appointment of a qualified individual from the environmental management department as an internal auditor. In 2023, one internal audit of the ISO 14001:2015 system was conducted. The audit results aligned with the Company's objectives, leading to the successful acquisition of environmental management system certification (ISO14001:2015) from SGS (Thailand) Limited. No instances of environmental law violations, serious issues, or processes non-compliant with environmental laws were identified during the audit.

3.3.2 Environmental Performance

Year 2023	
1) Violation of environmental laws or regulations	0 cases
2) Air pollution inspections pass the standards set by law.	100 percent
3) The quality of the effluent water meets the standards set by law.	100 percent
4) Garbage and non-hazardous waste management meets standards set by law.	100 percent
5) Garbage and hazardous waste management meets standards set by law.	100 percent
6) The amount of soil sludge leaked into neighboring communities.	0 cases

Year 2023	
7) Spilled amounts of lubricants or dangerous chemicals.	0 case
8) Number of environmental complaints from outside agencies.	0 times
9) Electrical energy use compared to the base year	Amount 168.36 gigawatt hours (GWh) Increased 16.59 percent compared to the base year
10) Electricity consumption rate per product unit compared to the base year.	Quantity: 0.605 kilowatt hours per cubic meter (kWh/m ³) Increased 15.42 percent compared to the base year
11) Greenhouse gas emissions in Scope 1 (compared to the base year)	Amount: 420 tons carbon dioxide equivalent (tCO ₂ e) Increased by 0.24 percent compared to the base year
12) Amount of greenhouse gas emissions in Scope 2 (compared to the base year)	Amount of 77,135 tons carbon dioxide equivalent (tCO ₂ e) Increased 11.77 percent compared to the base year
13) Quantity of greenhouse gas emissions in Scope 3 (compared to the base year)	Amount 15,230 tons carbon dioxide equivalent (tCO ₂ e) Increased 11.77 percent compared to the base year
14) Rate of greenhouse gas emissions in Scope 1 and 2 per product unit. (compared to the base year)	Amount 0.00028 tons carbon dioxide equivalent/cubic meter (tCO ₂ e/m ³) Increased 12.00 percent compared to the base year
15) Rate of greenhouse gas emissions in Scope 1, 2, and 3 per product unit. (compared to the base year)	Amount 0.00034 tons carbon dioxide equivalent/cubic meter (tCO ₂ e/m ³) Increased 13.33 percent compared to the base year

Unit: cubic meter

Amount of water recycled	2021	2022	2023	Results compared to 2022
Banglen Water Treatment Plant	3,642,514	2,723,443	3,935,636	Increased 44.51%

Banglen Water Treatment Plant	21,986	18,765	16,925	Decreased 9.8%
Pathum Thani Water Treatment Plant	9,280	20,016	17,566	Decreased 12.24%
Average	31,266	38,781	34,491	Decreased 11.06%

Electrical Energy	2023	Results compared to 2022
Electrical energy use (GWh)	168.36	Increased 16.59%
Electrical energy consumption rate per product unit	0.605	Increased 15.42%

Unit: tons of carbon dioxide equivalent

Greenhouse gas emissions	2022	2023	Results compared to 2022
<u>Scope of information:</u> Water production business operations of 3 companies (TTW, PTW, and TWO) covering the head office. Water production plant water supply station pressure boosting station and raw water pumping stations (data for 12 months from 1 October 2022 – 30 September 2023)			
Scope 1: Direct GHG emissions	419	420	Increased 0.24%
Scope 2: Indirect GHG emissions	69,010	77,135	Increased 11.77%
Scope 3: Other Indirect GHG emissions	13,626	15,230	Increased 11.77%
Other	174	180	Increased 3.45%
Total	83,229	92,965	Increased 11.70%

Unit: tons of carbon dioxide equivalent per cubic meter

Greenhouse gas emissions rate per product unit	2022	2023	Results compared to 2022
<u>Scope of information:</u> Water production business operations of 3 companies (TTW, PTW, and TWO) covering the head office. Water production plant water supply station pressure boosting station and raw water pumping stations (data for 12 months from 1 October 2022 – 30 September 2023)			
Scope 1 : Direct GHG emissions and Scope 2 : Indirect GHG emissions used as energy	0.00025	0.00028	Increased 12.00%
Scope 3 : Other Indirect GHG emissions	0.00030	0.00034	Increased 13.33%

3.4 Sustainability management in the social dimension

Social Policy and Practice

The company realizes the importance of society, which is a critical part of supporting sustainable development. Therefore, the Sustainable Development Policy “Creating Shared Social Value” has been announced, which focuses on social operations in education and various social value aspects that are in line with the Sustainable Development Goals (Un SDGs), including strongly conducting social operations both internal and external organization. Therefore, policies and guidelines have been established for employee care and personnel development, including social and community care. The company is committed to growing its business in tandem with social development and improving the quality of life in order to strengthen the economy and reduce social inequality at the same time.

The Company regards its employees driving the organization to success, therefore manpower planning is in line with the business strategy by developing capability and potential employees including recruiting external personnel join the Company based on those who are both “Good and Talent people”, adhering the ethical principles, it does not discriminate on race, religion, skin color, gender or physical disabilities considering by knowledge suitability, ability, and behavior. The employment must be in accordance with the law, and defines the employees’ stewardship and development goals, including other social policies such as non-discrimination and anti-unfair competition, personal data protection, safety policy, occupational health and working environment, policies on human rights and labor, etc., for executives and human resources and administrative departments to use as guidelines for employee care and personnel development. Various policies have been disclosed on the company’s website according to the QR code.

The Company believes that a tough society and community is the foundation for the development of the country to progress and keep up with the changes. Therefore, the Company aims to create sustainable prosperity nationwide and in all operation communities, focusing on sustainable development of quality of life and society. The Company is committed to being an organization driving the country’s economy and infrastructure up to the civilization through the creation of utilities according to international standards, along with social responsibility and environmental stewardship. The Company emphasizes the communities around the water treatment plant by supporting various activities covering education, occupation, sanitation as well as environmental stewardship the people’s quality of life in the community with three operating social aspects are as follows:

1. Human Resource Development
2. Community Quality of Life in the Community
3. Conservation of Natural Resources and Environmental Stewardship

Society within the company

Employee Stewardship

The Company and its subsidiaries have established a policy and prepared a handbook for all employees to acknowledge the policies and welfare. Employees are treated equally and fairly without exceptions in terms of origin, race, religion, gender, and marital status, language, or position, does not support child labor, human trafficking, fraud, and corruption in any form as well as providing opportunities for people with disabilities. The Company emphasizes human resource management based on morality and equality, instilling all employees to adhere to the norms, values, rules, legal requirements, and corporate governance, to create strength and encouragement in leading the organization to achieve its goals “To be Thailand’s Leading Company in Water, Energy and Eco-Friendly Businesses.” The guidelines for employee care and personnel development have been established as follows:

1. Manage human resources with efficiency and fairness in accordance with the standards, requirements of laws, and international labor charters.
2. Encourage personnel to develop necessary knowledge and skills according to the employee potential development plan and promote creativity in working through Kaizen activities.
3. Support the occupational health and safety management system by establishing operational manuals and safety standards in accordance with the nature of work and creating a safe working culture throughout the organization.
4. There is a policy on human rights and labor, encouraging executives and employees to respect and comply with international human rights principles based on equality and non-discrimination.
5. Create satisfaction for employees and communities surrounding the Company’s business areas.
6. Promote engagement with communities and relevant stakeholders to create strong relationships, comprehension, and cooperation to reduce conflicts from arising in the future.

Employee Stewardship Strategies

- Develop and strengthen employees’ knowledge and competence continuously and consistently. Organize job positions and employee career development plans for higher positions.
- Take various actions regarding fair employment without discrimination against gender, race, religion in consideration of promotion, transfer and giving opportunities to employees with good performance, able to develop potential according to job position, be considered as a candidate for appointment by the management team with transparency and fairness.
- Provide welfare as required by law and additional welfare serves the needs of employees, such as medical expenses, life and health insurance, provident fund, and scholarships for employees’ children, etc.
- Give importance to the safety of employees by providing training on various aspects of safety.
- Compensation management is linked to individual performance by annually comparing with companies in the same industry to keep it at a competitive level align with the Company’s performance.

Workforce planning and recruitment

The Company strategically plans and recruits' employees both internally and externally to align with its vision and goals. An emphasis on promoting equality in terms of gender, age, race, religion, and educational background is crucial for achieving these objectives. Furthermore, the Company actively contributes to the promotion and enhancement of the quality of life for individuals with disabilities by contributing to the fund dedicated to this cause, as per Section 34. Not ably, the business operation area does not have any indigenous people or ethnic groups settled or residing. Historically, the Company has not engaged with these groups in its workforce. In the recruitment process, the Company seeks individuals with the requisite knowledge and skills to adapt to the evolving direction of its future business operations. Additionally, efforts are made to cultivate a positive organizational image through various channels, aimed at attracting the interest and participation of the new generation in joining and contributing to the organization.

Issues of inequality and discrimination

The Company explicitly declares its commitment against discrimination in employment, wages, compensation, benefits, training, development opportunities, promotions, positions, as well as termination or retirement based on differences in nationality, race, religion, language, age, gender, marital status, personal attitudes towards sex, disability, HIV infection, and personal political affiliations or beliefs. The Company ensures it does not impede or interfere with employees' activities, rights, or practices concerning these matters, provided it does not adversely affect the Company.

Freedom of Association and Consolidation for Negotiation

The Company provides communication between executives and employees in a collective bargaining of employee benefits through the Welfare Committee, Human Resources and Administration Department. The meeting is regularly held, reflecting to support the rights to work consistent with Universal Declaration of Human Rights (UNGP) to develop employees' welfare and benefits of together with management representatives, resulting employees receive expectations welfare that meets their needs and appropriately.

In addition, the Company provides complaints channel regarding human rights, for issues that violate legal ethics both from employees and stakeholders, there is a mechanism to protect employees and those who report the clues by creating a secret database system able accessed by relevant parties. A committee will be appointed to handle the case, committee members include representatives from different departments who have no vested interest in the cases to investigation proceeds in line with the regulations and will report results to those who filed the complaint. Channels of receiving complaints and clues

Employment and Respect for Human Rights

Employees are valuable to the organization, the Company has established an employment management system to ensure that employees are protected and treated fairly, resulting in a good quality of life and efficiency in their work. Therefore, Human Rights and Labor Policies have been established and

published on the company's website, as a guideline for compliance with the requirements of the Thai labor standard and labor laws, including other regulations related to continuous improvement and development of operation. In addition, the Company has established the Personal Data Protection Policy to explain about the Company's Guidelines to protect personal information and privacy of stakeholders.

Type of Labor	Human rights issues
1. Child Labor	The Company is not hiring, neither is involved nor has ever encouraged the use of child labor under the age of 15 years old, nor has it provided or encouraged the use of child labor in hazardous work or in a hazardous environment.
2. Forced Labor	The Company does not employ and encourage forced labor, such as involuntary work by means or justification for punishment or coercion, intimidation, compulsion to work, or providing services resulting in a person's work reluctantly or by putting the person in an inviolable environment.
3. Illegal Foreign Labor	The Company does not employ and does not encourage the use of unlicensed foreign workers or illegal immigration.
4. Pregnancy Labor	The Company does not allow pregnant employees to perform work that is harmful to health or physically as required by law and provides them with work or in an environment suitable for pregnancy, including no termination of employment, reduction of position or any benefits due to pregnancy.

The company is aware of the disability's employment or other disadvantaged groups by complying with the Empowerment of Persons with Disabilities Act and contributing money to the Fund for Empowerment of Persons with Disabilities under Section 34. In November 2022, the Company cooperated with workers in Nakhon Pathum Province in subcontracting work for caregivers of the disabled to encourage people with disabilities to support projects of the Ministry of Social Development and Human Security that grant employers or business owners the right to subcontract work for people with disabilities or their caregivers under section 35 of the Promotion and Development of the Life of Persons with Disabilities Act B.E.2550 (2007).

In 2023, the Company and subsidiaries did not have any disputes, lawsuits or complaints between the Company and employees, stakeholders related to human rights violations and unlawful issues and the Company's Code of Conduct, which the business sector attaches importance, including establishing guidelines for operating in accordance with the principles of human rights protection covering international principles and national laws.

Employee Development

The Company regarded human resource development in terms of professional skills, focusing on Functional and Technical Competency through the Learning Center in the tap water production line covering the business area to support the development of in-depth personnel skills in the Company's important businesses, including the development of leadership for executives and employees in each business area to have more knowledge and management ability in the responsible line.

The Company has instituted a professional human resources management system aimed at enhancing the potential and capabilities of employees for optimal outcomes. This includes implementing a comprehensive learning program from the commencement of employment until retirement, fostering continuous education, knowledge acquisition, and skill development at all levels. Moreover, the Company actively encourages employees to participate in training seminars conducted by reputable institutions.

Efficiently promoting and developing the potential of executives and employees is crucial for aligning with the Company's strategies and goals. Accordingly, a well-structured framework for personnel development has been established within each line of work to ensure effective alignment.

In 2023, our Company actively participated in the Stock Exchange of Thailand's (SET) "ESG DNA Project for Corporate Employees." This initiative supports listed companies in implementing sustainability practices, covering environmental, social, and governance aspects. The goal is to enhance the level of organizational sustainability development, laying the groundwork for employees to comprehend ESG (Environmental, Social, and Governance) principles. To instill a sustainability DNA throughout the organization, our company-initiated training through the SET E-Learning system. This effort aimed to align departments with sustainable practices and respond to the assessment criteria for the Thailand Sustainability Investment list (THSI). The Company encouraged head office employees to join the project, targeting 50 individuals. The training commenced with two foundational ESG courses, ESG 101 and P01, conducted through the SET E-Learning system. Participants scoring 70% or higher in each course exam will receive certificates from SET. In the past, all 50 targeted employees attended and successfully completed the ESG 101 and P01 training courses, achieving a 100% success rate. Looking ahead to 2024, our Company plans to extend SET sustainability knowledge courses to relevant agencies, fostering additional skills and knowledge for their employees.

Society outside the company

Social and Community Stewardship

1. Education Support Project

Operational guidelines

The Company supports the learning and development of skills, knowledge, and abilities as well as participate to reducing inequality education in Thai society. Therefore, the Company focuses on supporting educational activities to reduce such impacts to be part of the Sustainable Development Goals regard solving problems and impacts from quality education: SDG4 of the United Nations.

The company organizes educational support projects such as providing scholarships to students in service areas, support research grants for students from various universities, transfer of knowledge and business experience, create well utilities, landscaping and environmental improvement, school building renovation, including supporting modern teaching equipment for schools in underserved and underfunded areas to be able to rely on themselves, increase their educational capacity and to develop human resource competency, as well as adapting from the rapid social changes in order to cope with the changes, especially preparing the youth for quality growth and the potential to lead the country toward long-term economic prosperity.

2. Support Clean Drinking Water Project

Operational guidelines

The Company realizes the utilities system for the community as the schools and communities in the service area are still facing a shortage of clean water for consumption. Therefore, it focuses on supporting clean drinking water to reduce such impacts, to be part of the Sustainable Development Goals regard solving problems and impacts from Clean Water and Sanitation: SDG6 of the United Nations.

The Company has established a project to support clean drinking water, for example, the production of bottled water with the “RO Drinking Water” or “Reverse Osmosis System” which has been certified for the production and product by the Food and Drug Administration (FDA) since 2008 to the present, to support activities in the public interest of stakeholders or communities in the service area. Moreover, the Company has installed a drinking water filtration system for the schools in the service areas where there is a shortage of clean water for consumption, thus reducing the cost of purchasing water and being able to provide services to nearby communities, including supporting tap water to the communities surrounding the water treatment plant that lack of water for consumption during drought situations.

3. Circular Economy Project

Operational guidelines

Due to the increasing impact of Solid waste and the shortage of global resources, the Company has realized the adoption of the circular economy as one of its sustainable development strategies including a guide for social operations and communities to be part of the Sustainable Development Goals regarding the Responsible Consumption and Production: SDG12 of the United Nations.

The Company believes that the efficient use of resources in accordance with the circular economy principle is the efficient use of natural resources, reducing unnecessary waste and the shortage of resources from reuse, to create value for society in long term. Therefore, the Company has established a circular economy project, such as establish the sludge mixed with food waste, a research in collaboration between TTW and Kasetsart University, and Laem Phak Bia Environmental Research and Development Project, due to the Royal Decree of King Rama 9 to change the behavior of Solid waste management at source, which is one of the real drivers of the circular economy, that is, Solid waste collecting and managing waste correctly and efficiently in order to bring as much waste back into the recycling process as possible, with a quality waste separation procedures to reduce the amount of contaminated Solid waste, create cooperation in the community according to the “Baworn” approach, including houses, temples, schools, with proper Solid waste management from the beginning linked to Solid waste management within the organization.

4. Water Resource Conservation Project

“Water” is an essential component of human beings and the most necessary of life, it is also the source of living, such as plants and animals, which causes abundance for all living creatures. As the country’s leading tap water producer, we are committed to minimizing the impact of water shortage in both quantity and quality as part of achieving the United Nations Sustainable Development Goals (SDGS), Clean water and sanitation: SDG6 of the United Nations.

The company organizes water resource conservation projects, such as the Bang Sue Canal Water Quality Restoration Project to conserve the Tha Chin River between communities, the government, and related agencies, including joining activities with the We Love Tha Chin River Nakhon Pathom Club to create awareness and join in solving water resource problems with communities and related agencies.

5. Project to provide assistance and donations for society and environmental

The Company actively fulfills its social responsibility by supporting society in various ways, including providing academic services, building robust communities, developing income-generating careers, and fostering cooperative development to address multidimensional poverty. Additionally, the Company consistently contributes assistance and donations, aligning with its commitment to achieve the Sustainable Development Goal of eliminating all forms of poverty in every region (**No Poverty: SDG1**) as outlined by the United Nations.

In 2023, the company supports budget and necessary items for activities for social and environmental care activities to external agencies both in the service area and outside the service area in the amount of 19,110,406.89 baht.

4. Management Discussion and Analysis : MD&A

Revenue Analysis

Revenue from Tap Water Sales

The majority of tap water sales revenue was generated from the sale of tap water by the Company and Pathum Thani Water Co., Ltd. (PTW) to the Provincial Waterworks Authority in accordance with the contract, as well as from sales by the Company to business operators in the Bang Pa-In Industrial Estate under the contract granting rights for the production and distribution of tap water. In 2021, 2022, and 2023, the tap water sales revenue of the Company and its subsidiaries equaled THB 5,682.4 million, THB 5,574.9 million and THB 5,525.9 million respectively, with a decrease in 2022 and 2023 of 1.9% and 0.9%, respectively, compared to the same period of the previous year. Revenue from tap water sales that decreased in 2022 and 2023 can be explained as follows:

In 2022, revenue from tap water sales decreased by THB 107.5 million or 1.9% due to the following reasons:

1) Revenue from tap water sales of the Company decreased by THB 58.4 million, or 1.5%, as a result of a 11.4 million cubic meter decrease in the volume of tap water sold. This represented a decrease in tap water sales revenue of THB 52.9 million. Tap water sales in the Bang Pa-In Industrial Estate decreased by 0.2 million cubic meter, representing a decrease in tap water sales revenue within Bang Pa-In Industrial Estate of THB 5.5 million, or 2.7%

2) Revenue from tap water sales of PTW decreased by THB 49.1 million, or 2.8%, as a result of a 4.5 million cubic meter, or 3.3%, decrease in the volume of water sold by PTW.

In 2023, revenue from tap water sales decreased by THB 49.0 million or 0.9% due to the following reasons:

1) Revenue from tap water sales of the Company increased by THB 163.0 million, or 4.2%, as a result of a tap water prices increase compared to previous year as well as a 2.6 million cubic meter decrease in the volume of tap water sold. This represented an increase in tap water sales revenue of THB 173.4 million. Tap water sales in the Bang Pa-In Industrial Estate decreased by 0.4 million cubic meter, representing a decrease in tap water sales revenue within Bang Pa-In Industrial Estate of THB 10.4 million, or 5.3%

2) Revenue from tap water sales of PTW decreased by THB 212.0 million, or 12.4%, as a result of a 24.7 million cubic meter, or 18.5%, decrease in the volume of water sold by PTW due to the expiration of the Granting Rights to treat and sell water Agreement on October 14, 2023.

Net management income from production of water treatment

Net management income from production of water treatment is mostly from Pathum Thani Water Company Limited (PTW) operate the water treatment for the Provincial Waterworks Authority according to the Private Partnership Contract on the Operation of Water Treatment and Maintenance period of 10 years from 15 October 2023 - 14 October 2033 can be explained as follows:

In 2023, Net management income from production of water treatment of PTW is THB 183.1 million, as a result of tap water production of 30.2 million cubic meters, an average net price of 6.06 baht/cubic meter.

Revenue from Services

Revenue from services comprises revenue from tap water production services, wastewater treatment services, water pipe system maintenance at Amata Industrial Estate, and wastewater treatment services at Bang Pa-In Industrial Estate. In the years 2021, 2022, and 2023, the services revenue of the Company and its subsidiaries equaled THB 123.7 million, THB 116.6 million, and THB 117.6 million respectively, with a decrease of 5.7% in 2022 and an increase of 0.9% in 2023 as compared to the same periods of the previous year. For revenue from services, the decreases in 2022 and the increases in 2023 can be explained as follows:

In 2022, revenue from services decreased by THB 7.1 million, or 5.7%, as a result of a decrease in service revenues in the Amata Industrial Estate.

In 2023, revenue from services increased by THB 1.0 million, or 0.9%, as a result of an increase in service revenues in the Amata Industrial Estate.

Other Revenues

Other revenues of the Company and its subsidiaries consist mainly of returns from mutual funds and others.

In 2021, 2022, and 2023, other revenues of the Company and its subsidiaries equaled THB 11.7 million, THB 9.7 million, and THB 21.8 million, respectively, with a decrease of 17.1% in 2022 and an increase of 124.7% in 2023 compared to the same periods of the previous year. For revenue from services, the decreases in 2022 and increase in 2023 can be explained as follows:

In 2022, other revenues decreased by THB 2.0 million, or 17.1%, due to decreased returns on mutual funds.

In 2023, other revenues increased by THB 12.1 million, or 124.7%, due to increased returns on mutual funds.

Expense Analysis

(Unit: MB)

Description	2023	2022	2021
Cost of sales of treated water and services	2,015.3	1,974.5	1,844.6
Administrative expenses	318.2	289.3	255.3
Finance cost	146.8	168.7	249.5
Income tax expenses	595.8	656.5	651.0
Total	3,076.1	3,089.0	3,000.4

Cost of Sales of Treated Water and Services

The tap water sales and service expenses of the Company and its subsidiaries consist mainly of the depreciation of assets for tap water production, amortization of assets for tap water production, electrical costs, chemical costs, land rental fees for pipeline installation, expenses related to production personnel, maintenance costs, other production expenses, etc.

In 2021, 2022, and 2023, the tap water sales and service expenses of the Company and its subsidiaries equaled THB 1,844.6 million, THB 1,974.5 million, and THB 2,015.3 million, respectively, accounting for 31.7%, 34.6%, and 34.5% of total revenue, respectively. The rate of the increase in 2022 and 2023 compared to the same period of the previous year was 7.0% and 2.1%, respectively, which can be explained as follows:

In 2022, the principle cost of tap water sales and services increased by THB 129.9 million due to an increase of 105.0 million in the depreciation expenses from the expansion of the subsidiary's production capacity. The chemical costs increased by THB 18.7 million due to the increase in chemical price. There was an increase of THB 3.0 million in production personnel expenses, an increase of THB 0.9 million in electricity costs, and an increase of THB 2.3 million in other production expenses.

In 2023, the principal cost of tap water sales and services increased by THB 40.8 million due to an increase of THB 163.1 million in the electrical expenses. While the depreciation expenses decrease by THB 97.9 million due to amortization of PTW with contract expiration on October 14, 2023. Land rental costs for laying water pipelines decreased by THB 22.3 million and chemical costs decreased by THB 1.5 million.

Administrative Expenses

In 2021, 2022, and 2023, the administrative expenses of the company equaled THB 255.3 million, THB 289.3 million, and THB 318.2 million, respectively. The rates of increase in 2022 and 2023 compared to the same period of the previous year was 13.3% and 10.0%, respectively, which can be explained as follows:

In 2022, administrative expenses of the Company increased by THB 34.0 million compared to the same period of the previous year due to personnel expenses, bank fees, and other.

In 2023, administrative expenses of the Company increased by THB 28.9 million compared to the same period of the previous year due to the operating expense of subsidiaries such as property transfer fees, stamp duty, and legal advisory fees.

Share of Profits from Investment in Associate Companies

The share of profits from investment in associate companies in 2021, 2022, and 2023 was THB 544.3 million, THB 608.6 million, and THB 365.2 million, respectively, the rate of increase in 2022 and decrease in 2023 compared to the same period of the previous year was 11.8% and 40.0%, respectively, which can be explained as follows:

In 2022, the share of profits from investment in associate companies increased by THB 64.3 million, or 11.8%, due to an increase in the amount of water in the associated company's dams and the increase in fuel costs for cogeneration power generation from an increase in average natural gas prices as compared to the same period last year.

In 2023, the share of profits from investment in associate companies decreased by THB 243.4 million, or 40.0%, due to the amount of water in the associated company's dams was lower compared to the same period last year. As a result, the share of profit in the associated company decreased.

Finance Income

Finance income in 2021, 2022, and 2023 was THB 4.6 million, THB 3.7 million, and THB 10.5 million, respectively. The decrease in finance income in 2022 and increase in 2023 compared to the same period of the previous year can be explained as follows:

In 2022, the finance income of the Company decreased by THB 0.9 million, or 19.6%, because the Company used cash for the matured debentures redemption of THB 2,000 million in February 2022.

In 2023, the finance income of the Company increased by THB 6.8 million, or 183.8%, due to increased interest income on bank deposits.

Finance Costs

Finance costs in 2021, 2022, and 2023 were THB 249.5 million, THB 168.7 million, and THB 146.8 million, respectively. The decrease in finance costs compared to the same period of the previous year can be explained as follows:

In 2022, the finance costs of the Company decreased by THB 80.8 million, or 32.4%, due to the redemption of the matured debentures in the amount of THB 2,000 million and the repayment of the loan in the amount of THB 560 million.

In 2023, the finance costs of the Company decreased by THB 21.9 million, or 13.0%, due to the redemption of the matured debentures in the amount of THB 1,000 million and the repayment of the loan in the amount of THB 660 million.

Income Tax Expenses

Income tax expenses in 2021, 2022, and 2023 were THB 651.0 million, THB 656.5 million, and THB 595.8 million, respectively. The corporate income tax, that increased in 2022 and decreased in 2023 as compared to the same period of the previous year, can be explained as follows:

In 2022, income tax expenses increased by THB 5.5 million, or 0.9%, due to the deferred tax liabilities.

In 2023, income tax expenses decreased by THB 60.7 million, or 9.3%, due to the transfer of PTW's assets to Provincial Waterworks Authority from the termination of the granting rights to treat and sell water agreement on October 14, 2023.

Net Profit

In 2021, 2022, and 2023, the Company and its subsidiaries recorded a net profit of THB 3,120.0 million, THB 2,978.8 million, and THB 2,946.3 million, respectively, accounting for 53.59%, 52.21, and 50.29%, respectively, of the total revenue of the Company and its subsidiaries. The rate of net profit of total revenue in 2022 and 2023 decreased from the previous year had the reasons mentioned in each topic above.

Financial Position Analysis

(Unit: MB)

Description	31 Dec 2023	31 Dec 2022	31 Dec 2021
Total assets	20,277.4	21,489.9	22,503.9
Total liabilities	4,995.5	6,739.7	8,308.7
Total shareholders' equity	15,281.9	14,750.3	14,195.2

Assets Analysis

The majority of the assets of the Company and its subsidiaries are non-current assets, which represent approximately 80-83% of total assets. As at December 31, 2023, the Company and its subsidiaries had total assets of THB 20,277.4 million, a decrease of THB 1,212.5 million compared to December 31, 2022. This decrease in assets was from the increase and decrease of other assets, which can be explained as follows:

Cash and Cash Equivalents

As of December 31, 2023, the Company and its subsidiaries held cash and cash equivalents totaling THB 594.5 million, an increase of THB 532.6 million compared to December 31, 2022.

Trade and Other Receivables

As of December 31, 2023, the trade and other receivables of the Company and its subsidiaries totaled THB 467.0 million, a decrease of THB 44.8 million compared to December 31, 2022, due to a trade receivable of subsidiary decreased from the same period of the previous year. The majority of trade receivables in the amount of THB 434.3 million are from the Provincial Waterworks Authority, which had a collection period of no more than 15-20 days from the date of invoice.

Raw Materials and Supplies

As of December 31, 2023, the raw materials and supplies of the Company and its subsidiaries were valued at a total of THB 29.9 million, most of which consisted of chemicals used for tap water production at THB 7.4 million and spare parts for maintenance of the water production and distribution system at THB 22.5 million. The main chemicals had an average turnover rate of no more than 3 months, while the spare parts for maintenance and repairs were kept in stock in accordance with the specified plan.

Other Current Financial Assets

As of December 31, 2023, the other current financial assets of the Company and its subsidiaries were valued at THB 2,433.3 million, a decrease of THB 867.6 million compared to December 31, 2022, because the company and its subsidiaries had decreased their investment in financial assets.

Investments in Associate Companies

As of December 31, 2023, the Company and its subsidiaries had investments in associate companies totaling THB 6,826.8 million, an increase of THB 178.5 million compared to December 31, 2022, because the recording of profit shares from investments in associated companies according to the accounting standards.

Investments Property

As of December 31, 2023, the Company and its subsidiaries had investments property totaling THB 106.1 million, an increase of THB 106.1 million compared to December 31, 2022, due to the classification of the subsidiary's land as investment property.

Property, Plant, and Equipment

As of December 31, 2023, the Company and its subsidiaries held property, plant, and equipment assets in the amount of THB 875.9 million, a decrease of THB 93.4 million compared to December 31, 2022, due to depreciation recorded for the period and the classification of the subsidiary's land as investment property.

Assets for production of tap water with the public sector which are owned by the Company.

As of December 31, 2023, the Company and its subsidiaries had Company-owned assets for the government sector tap water production. Said assets were valued at THB 7,948.5 million, a decrease of THB 332.3 million compared to December 31, 2022, due to the depreciation recorded for the period.

Rights to Produce and Sell Treated Water and Treated Wastewater from Private Sector

As of December 31, 2023, the Company and its subsidiaries held rights to operate tap water production and distribution and to provide wastewater treatment services from private sector agencies, totaling THB 931.5 million, a decrease of THB 47.0 million due to amortization recorded for the period.

Liability Analysis

The majority of the liabilities of the Company and its subsidiaries consists of bank loans and the issuance of debentures, accounting for approximately 85-90% of total liabilities. As of December 31, 2023, the Company and its subsidiaries had total liabilities equaling THB 4,995.5 million, most of which were loans and debentures totaling THB 4,280.0 million. The loans amount to THB 1,880.0 million are borrowed with floating interest rates and a quarterly principal payment. Debentures, totaling THB 2,400 million, have fixed interest rates.

As of December 31, 2023, the Company and its subsidiaries had total liabilities amounting to THB 4,995.5 million, a decrease of THB 1,744.2 million compared to December 31, 2022, due to the Company's repayment of long-term loans and the redemption of the matured debentures.

Shareholder Equity Analysis

As of December 31, 2023, the Company and its subsidiaries had shareholder's equity of THB 15,281.9 million, an increase of THB 531.6 million compared to December 31, 2022, due to the Company's annual net profit of THB 2,946.3 million and dividend payment of THB 2,393.9 million in 2023.

Net Cash Flow

(Unit: MB)

Description	2023	2022	2021
Net cash from operating activities	3,745.2	3,669.8	3,772.2
Net cash from (used in) investment activities	871.5	305.4	(610.6)
Net cash used in financing activities	(4,084.1)	(3,980.0)	(3,186.8)
Net increase (decrease) in cash and cash equivalents	532.6	(4.8)	(25.2)

Cash Flow from Operating Activities

In 2022, the Company and its subsidiaries had a net cash flow from operating activities totaling THB 3,669.8 million, a decrease of 102.4 million, or 2.7%, compared to the same period of the previous year because in 2022, the tap water sales of the company and its subsidiaries decreased, and the tap water production cost increased, namely the depreciation of subsidiaries and the increased cost of chemicals.

In 2023, the Company and its subsidiaries had a net cash flow from operating activities totaling THB 3,745.2 million, increase of 75.4 million, or 2.1%, compared to the same period of the previous year because the finance costs of the Company decreased in 2023.

Cash Flow from (used in) Investment Activities

In 2022, the Company and its subsidiaries had cash flow from investment activities totaling THB 305.4 million, an increase of THB 916.0 million, or 150.0%, compared to the same period of the previous year. Since in 2022, the Company and its subsidiaries have disposed of financial assets of THB 304.5 million for the matured debentures redemption.

In 2023, the Company and its subsidiaries had cash flow from investment activities totaling THB 871.5 million, an increase of THB 566.1 million, or 185.4%, compared to the same period of the previous year. Since in 2023, the Company and its subsidiaries have disposed of financial assets of THB 889.0 million for the matured debentures redemption.

Cash Flow used in Financing Activities

In 2022, the Company and its subsidiaries had cash flow used in financing activities totaling THB 3,980.0 million, an increase of THB 793.2 million from the same period of the previous year due to the repayment of matured debentures of THB 2,000 million and the long-term loan drawdown of THB 1,000 million in 2022.

In 2023, the Company and its subsidiaries had cash flow used in financing activities totaling THB 4,084.1 million, an increase of THB 104.1 million from the same period of the previous year due to the repayment of matured debentures of THB 1,000 million and more long-term loan repayment of THB 100 million in 2023.

Key Financial Ratios

Liquidity Ratio

The liquidity ratio for 2021, 2022, and 2023 was 1.40%, 2.00%, 3.18%, respectively. The Company and its subsidiaries have a good liquidity ratio overall, and the majority of the current assets of the Company and its subsidiaries are cash and cash equivalents, current investments, and trade and other receivables. The liquidity ratio in 2023 increased because the debentures matured within 1 year decreased as compared to the same period of the previous year.

The average collection period for 2021, 2022, and 2023, was 33 days, 32 days, and 30 days, respectively. The liquidity ratio of the Company and its subsidiaries is such that outstanding debts can be collected from debtors within the period of time specified from the date of invoice.

Profitability Ratio

The gross profit margin of the Company and its subsidiaries in 2021, 2022, and 2023 was 68.2%, 65.3%, and 65.4%, respectively, with the gross profit margin for 2023 similar to the same period last year.

The net profit ratio of the Company and its subsidiaries in 2021, 2022, and 2023 was 53.6%, 52.2%, and 50.3%, respectively. The net profit ratio decreased in 2023 due to the decrease in the water sales revenue and the increase in water production and distribution costs due to increased electricity and chemical costs from the same period of the previous year.

Operating Efficiency Ratio

The return on total assets ratio of the Company and its subsidiaries in 2021, 2022, and 2023 was 13.8%, 13.5%, and 14.1%, respectively, while the return on fixed assets of the Company and its subsidiaries in 2021, 2022, and 2023 was 25.2%, 26.1%, and 28.4%, respectively. The increase in the return on assets and the increase in the return on fixed assets was due to the decrease in the non-current assets of the Company and its subsidiaries compared to the same period of the previous year.

Financial Policy Ratio

The debt to equity ratio of the Company and its subsidiaries in 2021, 2022, and 2023 was 0.6, 0.5, and 0.3 times, respectively, with a decrease in the debt to equity ratio at the end of 2023 as compared to the end of 2022 due to the gradual loans repayment under contracts and the matured debentures redemption of the Company.

Dividend payout ratio in 2021, 2022, and 2023 was 76.7%, 80.4%, and 81.3%, respectively.

Contingent Liabilities

The Company has commitments as detailed in Notes to Financial Statements: Article 35.1: Capital Expenditure Commitments, Article 35.2: Service Commitments and Other Commitments, and Article 35.3: Letter of Guarantee. The Company has prepared funding sources from borrowing and/or issuing debentures and/or cash from the Company's operations.

The Auditor's report

Mrs. Wilai Sunthornwanee, Certified Public Accountant No. 7356 of EY Office Limited has examined the Company's financial statements and the consolidated financial statements of the Company and its subsidiaries for the year ended 31 December 2023. The financial statement present fairly, in all material respects, the financial position of the Company's and its subsidiaries as at 31 December 2022, the financial performance and cash flows for the year ended and of the separate Company in accordance with Thai Financial Reporting Standards.

Summary of Financial Statement

The Financial statements presented comprising the audited statement of financial position, statement of comprehensive income and cash flow statement for the year ended 31 December 2023, compared with the audited financial statements for the years ended 31 December 2022 and 2021 are shown as follows:

2 Corporate Governance Policy

6. Corporate Governance Policy

Business management with good corporate governance is an important factor, which demonstrates the management system that is efficient, fairness, transparency, accountability, and ensures responsibility towards the community, society, and environment to build trust of the shareholders, investors, and all stakeholders.

To enable the Company to achieve its vision and mission with both stability and sustainability. The Board of Directors has assigned the Risk Management and Corporate Governance Committee to review, promote, supervise, and monitor the Risk Management, Corporate Governance, and Sustainability by placing importance to operations in the economics, social, environmental, and corporate governance dimensions or ESG (Environment, Social, Governance) for sustainable business processes from internal to external business processes to achieve the mission according to the set goals. Therefore, the corporate governance policy is reviewed regularly and updated so that it remains current and timely, as well as in compliance with international standards, laws, rules, statutes, regulations, and the requirements of relevant agencies. It is also in accordance with the Corporate Governance Code for Listed Companies 2017 (CG Code 2017) of the Securities and Exchange Commission (SEC), the principles of the Corporate Governance Report of Thai Listed Companies (CGR), the ASEAN Corporate Governance Scorecard (ASEAN CG Scorecard), and all related best practices of the Stock Exchange of Thailand (SET).

6.1 Overview of Policies and Corporate Governance Practices

The Board of Directors recognizes the importance of good corporate governance and has established a corporate governance policy in written form to serve as a guideline for the Board of Directors, executives, and employees of the company to adhere to so that management of the Organization may be carried out with fairness, transparency, accountability, and efficiency.

1. The Board of Directors strives to create more value for the company in the long run by supervising and operating with care and carefulness according to the capacity for the maximum benefit of shareholders while taking care to prevent conflicts by taking responsibility for decisions and actions as directors of the Board of Directors.
2. The Board of Directors will treat the shareholders and all parties equally.
3. The Board of Directors will operate with sincerity and can be checked by disclosing information to all concerned parties accurately, and completely in a timely manner.
4. The Board of Directors will always consider the risk that could occur in the business. It will be controlled and managed the risk appropriately.
5. The Board of Directors will provide an Ethics of working for directors, executives, and employees. The Board of Directors must be an example of ethics and a good role model for executives and employees according to the corporate governance principles of the company.
6. The Board of Directors must have an annual self-evaluation on a regular basis to be used as a framework to monitor the performance of the committee of the company.

6.1.1 Policies and Guidelines Related to the Board of Directors

The Company has specified policies and practices related to the board of directors and executives in the corporate governance policy under the category of the board of directors' responsibilities, which can be summarized as follows:

Nomination and Appointment of Directors

The nomination and appointment of directors will be based on appropriate qualifications and experience under the following principles.

- Qualifications in accordance with legal requirements, SET and SEC regulations, and Company regulations. Qualifications of all Directors must be consistent with the strategies and policies of the Company and must adhere to the principles of good corporate governance for the benefit of the business development and success of the Company.
- Gender diversity, age, knowledge, ability, experience, and expertise in various fields as needed by using Director Qualifications and Skills Matrix for consideration.
- Educational and work background that is beneficial to corporate governance, transparency, morality, responsibility, maturity, and professionalism.

The Nomination and Remuneration Committee is responsible for screening all candidates for director positions, whether for positions as representatives of shareholders or positions as independent directors. The Committee shall consider the suitability of said candidates based on the appropriateness of their skills and experience according to the above criteria. As the Company gives the right to its shareholders to nominate directors of the Company, the Committee shall consider candidates from the list of names proposed by shareholders and from the Director Pool of the Thai Institute of Directors (IOD) and shall present these to the Board of Directors for consideration. However, the appointment of new directors to replace directors whose tenures are expired must be approved by individual shareholders, and voting must be carried out according to the Company's regulations.

Director's Remuneration

The company has criteria for determining the remuneration of the board of directors that take into account the board's duties and responsibilities as well as the board's performance. The Nomination and Remuneration Committee will consider the types of remuneration, guidelines, and methods for paying compensation, including the amount of remuneration and other benefits for the Board of Directors and sub-committees that are suitable with their duties and responsibilities, and in accordance with the company's operations as well as market conditions at all times.

Independence of the Board of Directors from the Management

The Board of Directors has clearly separated roles, duties, and responsibilities between the Board of Directors and the management and has a policy on segregation of duties between the Chairman of the Board

of Directors and the Managing Director shall not be the same person, to maintain a balance of power and transparency. The duties of supervision and management are separated as follows:

The Chairman of the Board of Directors must be an independent director and have no relationship with the management in order to take responsibility as the leader of Directors and act as the chairman of the Board of Directors' meetings and shareholders' meetings by encouraging all directors to participate in the meetings, including helping, advising, and monitoring the management of the Board of Directors and sub-committees to achieve success in accordance with the approved business plan.

The Managing Director is the leader of the management by determining the roles and responsibilities of the management in operating and managing the company in accordance with the policies, plans, goals, regulations, and company rules, including the resolutions of the Board of Directors meeting with the budget that has been approved strictly and honestly, and to protect the interests of the company and the shareholders according to the principles of good corporate governance by reporting the progress from operations in accordance with resolutions and significant matters to the Board of Directors meeting quarterly.

Directors' Development

The Company encourages the members of the Board of Directors to develop their knowledge and experience by attending educational and observational trips, training, and seminars covering a variety of courses that will aid in enhancing their knowledge and understanding of the role of a director and any other matters related to the performance of the Board of Directors and for effective management in accordance with the principles of good corporate governance. All newly appointed directors and executives will receive a company orientation to be adequately briefed on the company's information, code of conduct, policies, and business information prior to assuming their responsibilities.

Evaluation of the Board of Directors

The Company has specified in the corporate governance policy and the principles of good corporate governance of the Company that the Board of Directors shall conduct an annual self-assessment of the Board of Directors as a whole and individual directors to use the assessment results to improve the Board of Directors' performance to be more efficient.

6.1.2 Policies and Practices related to Shareholders and Stakeholders

The Company has determined policies and practices related to all shareholders and stakeholders in the Corporate Governance policy under the category of Equitable Treatment of Shareholders and the Roles of Stakeholders, which are summarized as follows:

1. Rights of Shareholders

The Company shall treat every shareholder equally, whether minor shareholders, major shareholders, or institutional investors, regardless of gender, age, disability, race, nationality, religion, or political opinion, and that all shareholders have the right to be treated equally and fairly.

The Company encourages shareholders to exercise their basic legal rights such as receiving a share of the business' profits in the form of dividends equally, trading or transferring the company's shares as specified by law, receiving the business information sufficiently and timely for making decisions, attending meetings to exercise voting rights in appointing and/or removing directors, determining directors' remuneration, appointing auditors and determining audit fees, and other rights according to the provisions specified by laws and relevant regulations, including the company's regulations.

In addition, the Company supports and treats shareholders equally in all matters such as providing important and up-to-date information via the Company website, providing opportunities for shareholders to propose an agenda item for the annual general meeting of shareholders and nominate candidates for directorship, arranging the company visits for shareholders, and providing opportunities to participate in social responsibility activities of the Company. The Company refrains from taking any action that would violate or infringe upon the rights of shareholders in any way.

2. Shareholders' Meeting

The Board of Directors considers the Annual General Meeting of Shareholders (AGM) is a very important event. AGM is held within 4 months from the Company's closing date of an accounting period to accommodate shareholders' participation in monitoring the Company's performance. An extraordinary general meeting of shareholders can be held by the Board of Directors on a case-by-case basis to consider a special agenda that affects or involves the shareholders' interests and requires the shareholders' approval. TTW's AGM was arranged in accordance with the AGM checklist issued by the Thai Investors Association, Listed Companies Association, and SEC.

In 2023, the company has considered holding the Annual General Meeting of Shareholders by Electronics Means (E-AGM) with the following details:

2.1 Before the Shareholders' Meeting Date

The 2023 Annual General Meeting of Shareholders had to be held by Electronic Means, and the Company engaged Inventech System (Thailand) Limited to provide the service and system in accordance with the Emergency Decree Governing E-Meeting B.E.2563 (2020), including related laws and regulations, by using the Inventech Connect system for registering to attend the meeting (e-Request) and voting (e-Voting), which mentioned system standard and criteria were in line with the conditions and procedures as stipulated in the Emergency Decree Governing E-Meeting B.E.2563 and the announcement of the Ministry of Digital Economy and Society.

The Company placed great emphasis on the security of shareholders' personal information, by preparing a Personal Data Protection Notice for the 2023 Annual General Meeting of Shareholders, to ensure the shareholders that the company realized the importance of Personal Data Protection with the standards stipulated by the Personal Data Protection Act.

The Company has prepared meeting documents that contain complete information of all important matters for consideration of the shareholders' voting, along with guidelines for shareholders, registration, proxy form, and rules for attending shareholders' meetings via electronic media, by disseminating information to shareholders in advance and encourage shareholders to participate in the annual general meeting of shareholders as well as facilitating the exercise of voting rights in the event of being unable to attend the meeting in person as follows:

2.1.1 Provided an opportunity for shareholders to propose an agenda item for the annual general meeting of shareholders and nominate candidates for directorship in advance from September 1, 2022, to December 31, 2022. The company disclosed the criteria and procedure on the company's website and notified the shareholders via the SET Link system.

2.1.2 The meeting schedule and agenda were distributed via the SET Link system of SET and company's website on February 21, 2023, so that the shareholders could plan their schedule for attending the meeting. The record date for the rights to attend the meeting and receive dividends was also detailed in the meeting notice.

2.1.3 Prepared the meeting notice with details of each agenda in Thai and English versions by separating each agenda clearly. The appointment of directors and the consideration of directors' remuneration were separate agenda items. Each agenda item consisted of background, objective and rationale, Board's opinions, number of votes needed, policy and criteria of determination of remuneration, policy and criteria of director nomination, profiles of nominated directors, details of previous minutes, conditions, and procedures of attending the meeting, 3 proxy forms (forms A, B, and C), as required by the Department of Business Development, Ministry of Commerce.

2.1.4 Disseminated the meeting notice and relevant documents together with the 56-1 One Report form on the company's website and notified shareholders via the SET Link since March 10, 2023, 30 days before the shareholders' meeting, so that the shareholders had sufficient time to study the information in advance of the meeting date.

2.1.5 Meeting notices were delivered to shareholders by post on March 20, 2023, 22 days prior to the AGM date. Contact numbers were also provided for further inquiries and for proposing additional information relating to the appointment of directors, in compliance with the best practice guidelines by SEC and SET.

2.1.6 The Company encourages and supports all shareholders and institution investors' participation and voting in the shareholders' meeting.

2.1.7 Provided an opportunity for shareholders to submit questions about the shareholders' meeting in advance of the meeting date by clearly determining the criteria for submitting questions in advance and disseminated such criteria on the company's website for shareholders to get maximum benefits and legal rights.

2.1.8 Ensured that no action was taken that limits the opportunity for shareholders to attend the meeting or creates unreasonable burdens on shareholders.

2.2 On the Shareholders' Meeting Date

TTW strongly encouraged all shareholders to exercise their rights by attending and voting at the shareholders' meeting by facilitating the shareholders' attendance and conducting the meeting transparently. The company used efficient technology in the shareholders' meeting, including registration, vote counting for the result announcement, to not violate or deprive the shareholders' rights. Shareholders' inquiries and opinions were welcomed and taken into consideration as follows:

2.2.1 The company informed shareholders of the guidelines for the registration method, proxy method, and procedures for attending the AGM via electronic media (e-AGM) in the meeting notice and facilitated information to shareholders via telephone and e-mail.

2.2.2 Encouraged shareholders who are unable to attend the meeting in person to appoint other persons to attend the meeting and vote on their behalf by using proxy forms in which shareholders could determine their voting rights that the company attached with the meeting notice. However, in the AGM, the company would nominate at least 1 independent director for shareholders to consider as their proxy to attend and vote on their behalf at the meeting instead of attending the meeting in person.

2.2.3 The company conducted meetings via electronic media by using the Inventech Connect system for registering to attend the meeting (e-Request) and voting (e-Voting). The meeting would present information on each agenda in the order specified in the meeting notice, and the presentation of the agenda would start with the background, supporting rationale, and recommendation. The significant information and details were included in the meeting notice delivered to shareholders without any ad-hoc agenda during the meeting.

2.2.4 Provided an opportunity for shareholders to express their opinions and raise questions at the meeting before voting on each agenda that shareholders could raise questions during the meeting after completing each agenda. The company secretary would read the shareholders' questions, so that the meeting would answer all questions, the shareholders could also turn on the camera to ask questions which would be completely recorded in the minutes of the meeting.

2.2.5 Encouraged to use the voting cards for all agendas. In the event that there are many items in an agenda, the resolution should be made for each item separately and the results of voting for agreeing, disagreeing, and abstaining for each item should be disclosed to the meeting and recorded in the minutes of the meeting for transparency and accountability.

2.2.6 Encouraged directors, executives, and auditors to attend the AGM altogether to answer shareholders' questions and acknowledge their opinions. For the AGM 2023, 12 directors included the Chairman and directors attended the meeting, which accounted for 100 percent of the total number of the Board members (Mr. Plew Trivisvavet attended the meeting via VDO Conference as per the minutes of 2023 AGM). The Chairman of the Board, the Chairman of all subcommittees, and the Managing Director together with Executives also attended the meeting and explained details of information regarding agenda items and answered shareholders' questions.

2.2.7 TTW identified the names of directors having conflicts of interest in respect to any agenda item in the meeting notice. Those directors were not present in the meeting while any given agenda item was considered.

2.2.8 The 2023 AGM, Mr. Anujit Aryusanin, a shareholder rights protection volunteer from the Thai Investors Association (TIA), was invited to monitor the vote-counting process via electronic means.

2.2.9 Provided auditors who did not perform the audit duties of the company and lawyer who was not the company's legal advisors witnessed the meeting.

2.2.10 Shareholders, who registered after the meeting had already started, were allowed to vote for the ongoing and remaining agenda items.

2.2.11 Offices of N&K Co., Ltd. was hired as an inspector to audit shareholders' or their representatives' registration documents, meeting quorum, compliance of the voting and vote-counting procedures with the Company's Articles of Association, as well as to inspect shareholders' ballot collection and voting results. In this regard, the inspector reported that the meeting and the voting procedures were transparent and in compliance with the Company's Articles of Association, relevant laws, and SET's best practices of good governance. In addition, the inspector reported that TTW highly respected the rights of its shareholders to actively participate in the meeting and voice out their opinions, as well as efficiently facilitated shareholders in all matters.

For the 2023 AGM, there were 151 shareholders attending the meeting, 44 shareholders attended the meeting by themselves and 107 shareholders by proxies, representing 2,694,252,180 shares which accounted for 67.53% of the total issued shares.

2.3 After the Shareholders' Meeting Date

2.3.1 After the 2023 AGM, TTW concluded resolutions for each agenda item to shareholders and SET via SET Link according to SET's criteria of information disclosure. In 2023, the meeting resolutions were notified on April 11, 2023, immediately after the meeting.

2.3.2 TTW prepared the minutes of the meeting which recorded the name list of directors and executives together with their titles, auditors and meeting inspector attending the meeting, voting and vote counting procedures, voting card instructions, the Board's recommendations, inquiries and recommendations of shareholders, and clarifications from the management. Details on the number of approvals, disapprovals, abstentions and voided ballots, and resolutions of each agenda item were included and published on the company's website: www.ttwplc.com on April 20, 2023, which occurred within 14 days after the meeting date as required by SET's criteria.

2.3.3 TTW disseminated images and sounds recorded in the meeting on its website for absent shareholders' acknowledgement.

2.3.4 The shareholders' meeting approved the dividend payment, the company notified the meeting resolution including, details of dividend payment to shareholders through the SET Link system and coordinated with the TSD and announced the dividend payment on Newspaper to ensure that shareholders received the complete and accurate dividend rights.

3. Equitable Treatment of Shareholders

The Board of Directors recognizes the importance of ensuring fairness and equality in the interests and treatment of all shareholders, foreign shareholders, and institutional investors, and to this end, has set forth a policy regarding the equitable treatment of shareholders in the good corporate governance policy of the Company. In addition to those practices prescribed by law, the policy includes the following practices:

3.1 The right to vote at the meeting is in accordance with the number of shares held by the shareholders. One share is equal to one vote.

3.2 Provide an opportunity for shareholders to propose items for the agenda for the annual general meeting of shareholders and nominate candidates for director positions in advance from September 1 to December 31 of each year. All criteria and procedures disclosed on the Company's website and notification sent to shareholders via the SET Link system of the SET.

3.3 The Company has the policy to protect the rights of all shareholders that no agenda point may be added to the meeting agenda without advance notification of all other shareholders. This is to provide shareholders with the opportunity to study meeting agenda information ahead of time before voting. All shareholders of the Company have the right to vote according to the number of shares. Each share equals one vote. No shares have any special privileges that would restrict or limit the rights of any other shareholders.

3.4 Ballots were employed in vote counting for all agenda items for transparency and accountability. The appointment of an individual director was done by shareholders. Offices of N & K Co., Ltd. was invited as an inspector to ensure that the shareholders' meeting was conducted transparently and in compliance with the laws and the Company's Articles of Association. Shareholders, who were unable to attend the AGM in person, could vote through proxy. The 3 proxy forms as introduced by the Department of Business Development, Ministry of Commerce were provided, and 2 Company's independent directors who did not have conflicts of interest with the AGM agenda could be alternatively appointed as volunteer proxies. The proxy forms were made available for shareholders on TTW's website.

3.5 Since most shareholders attended the AGM were Thai, the meeting was conducted in Thai. However, to facilitate foreign shareholders, TTW prepared the meeting notice and supporting documents in both Thai and English versions.

3.6 Ballots were employed in vote counting for all agenda items, especially in the appointment of individual directors was done by shareholders, the votes equaled the number of shares held for the election of one director.

3.7 The directors who have an interest in the matter being considered do not have the right to vote and must not be present at the meeting on that agenda.

3.8 The Board of Directors has established measures to prevent the use of inside information (insider trading) by any involved persons, including the Board of Directors and other executive management of the Company, as well as any employees in agencies with access to said information (including the spouse and minor children of said persons). Key principles of such are detailed in the guidelines for the prevention of the use of inside information.

4. The Prevention of the Use of Inside Information

The company has written a guideline to prevent the use of inside information strictly in the Corporate Governance and Code of Conduct Handbook of the Company, to prevent the use of inside information for improper benefits for oneself and others. It is the duty and responsibility of the supervisor to control and ensure the maintenance of internal information according to principles. The use of inside information that has not been disclosed to the public or general shareholders for the benefit of trading securities by themselves or others is considered an unethical act of the company.

In addition, the company has defined the securities trading procedures for all directors and executives which requires to report one business day in advance before trading, including prohibiting any buying or selling of the Company's securities for a period of one month prior to the disclosure of financial statements to the public, along with communications to raise awareness to directors, executives and employees via email in order to ensure the correct practice in accordance with good corporate governance principles. The company discloses the Securities Trading or Changing by Directors and Executives Policy on the company's website at www.ttwplc.com in the section of "Corporate Governance" > "Securities Trading or Changing by Directors and Executives Policy".

5. Responsibilities to Stakeholders

To protect the rights of shareholders, the Board of Directors has the policy to protect the rights of all stakeholders, which emphasized the issues that might affect business operation directly, and matters considered as duties that should be done to the society. Therefore, the Board of Directors has clearly determined policies and guidelines for each group of stakeholders in the company's good corporate governance policy and business ethics for directors, executives, and employees to adhere, which can be summarized as follows:

5.1 Responsibility to Shareholders

The Company considers the rights and equitable treatment of stakeholders in line with the Company's corporate governance policy and code of conduct. The Company is committed to representing shareholders by conducting business in a transparent manner regarding the long-term growth of the Company's value, consistent returns, and providing information to all parties equally.

5.2 Responsibility to Employees

The Company and its subsidiaries have established employee policies and provided a manual of such policies so that all employees are clearly aware of the policies and the welfare practices that employees deserve, including fair and equal treatment of all employees without exception regardless of birthplace, race, religion, gender, marital status, language, or position. The Company does not use or support child labor, human trafficking, or any form of fraud or corruption. The Company also offers opportunities for employment for persons with disabilities. The Company has in place policies and guidelines regarding fair employee compensation and welfare at a level comparable to other businesses in the same industry.

The Company also provides a variety of benefits in addition to those prescribed by law, such as the establishment of a provident fund at suitable rates according to the length of employment, annual health checkups, medical expenses, dental expenses, prescription glasses expenses, health insurance, life insurance, accident insurance, etc. The Company provides office cars for executive management, allowing them to have greater flexibility and convenience in performing their jobs. The Company also promotes various activities for employees, such as the TTW Running Club and participation in running events organized by external agencies, including provided a safe and pleasant working environment, provided a first aid room, a gym and exercise equipment, to promote good health among employees.

Although the spread of coronavirus disease 2019 (Covid-19) has subsided, the Company still has preventive measures in the workplace such as Coronavirus 2019 screening for employees using the Antigen Test Kit (ATK), social distancing, provided sufficient alcohol sanitizing gel and facemasks to employees and also carried out disinfectant spray sterilization to sanitize workplaces and water production plants, ensured workers were safe from the spread of Covid-19.

Throughout the year 2023, the Company and its subsidiaries had no disputes, litigation, or complaints between the Company and its employees. This also includes no accidents requiring time off work. Annual statistics of occupational accidents and sickness rates are disclosed in the Sustainable Development Report.

5.3 Responsibility to Customers

The company adheres to its obligations with customers as a manufacturer and distributor of tap water by adhering to the principles of treating every customer by delivering goods and services that are clean, sufficient, and continuous based on fairness, can be verified, free from bribery and corruption, and to build lasting relationships between each other. The company has set out policies and guidelines with customers. Regarding actions and responsibility to customers in concrete.

1. Provide accurate, sufficient, and up to date information for customers about the products and services without saying exceeding the truth that causes customers misunderstand about the quality, quantity, or any conditions of that product or service.
2. Comply with various conditions strictly for customers. In case any conditions cannot be met, customers must be notified to find the solutions to solve the problems.
3. Contact with customers politely, effectively and should be reliable for customers.
4. Provide systems and processes for customers to make complaints about the quality, quantity, and safety of products and services, including the speed of response or delivery, and to take the utmost action to provide customers with quick response.
5. Maintain the confidentiality of customers and do not use it for the benefit of themselves or those involved wrongfully.
6. Do not request, accept, or pay any benefits, which indicates actions that are dishonest to customers.

In 2023, there is no dispute between the company and the customer. In the tap water production and distribution business, TTW can produce tap water for customers according to the contract. Overall, the availability of tap water is higher than the criteria specified in the tap water purchase contract, and able to produce tap water in accordance with the World Health Organization (WHO) standards, and from the satisfaction survey, customers are satisfied with the operations of the company with a total average of 97 percent.

5.4 Responsibility to Creditors

TTW observes the obligated commitment it has for all creditors by strictly conforming to terms and conditions of loan contracts without concealing actual financial status and by providing financial information to creditors periodically. TTW operates its business based on solid principles and in a disciplined manner. The company manages its capital in line with the proportion of the debts. TTW has defined the policy and practiced guidelines on how to deal with creditors properly, so to establish confidence and reliability in the eyes of creditors. The company adheres to the principles of practice as below:

1. The company shall make the repayment of all debts, loans, and interests; and fulfill the responsibilities for all collaterals. The company shall strictly comply with the terms and conditions of contracts and agreements.
2. In the case that TTW cannot fulfill the conditions set in the agreement, TTW shall notify the creditors in advance to mutually find a solution.

In 2023, TTW and its subsidiary companies were able to completely fulfill all the terms and conditions that had been agreed with the creditors; and never committed any defaults on loans.

5.5 Responsibility to Business Counterparts

The major stakeholders of TTW are business counterparts from outside (external service providers). TTW selects its counterparts by considering whether their business strategies are consistent with that of TTW, which may involve competitiveness, continuity of business, customer protection and service, and risk management methods. TTW has formulated policies for dealing with counterparts properly, which emphasize fair treatment of them, as overseen and directed by the company in accordance with its by laws. The counterpart selection criteria of TTW are as follows:

1. Follow the quality policies, environment, sanitation health, and safety of the company.
2. Comply strictly with the regulations to work safely with the contractor.
3. Do not use child labor under the age of eighteen years to work.
4. In the case of business partners using foreign workers in the workplace, documents or permits must be allowed from the relevant government agencies to show to the company. They should have received permission or approval from the company and/or those of the company assign only.
5. Treat their workers with equality and must not violate human rights or good humanitarian principles
6. Act or take care of their labor as appropriate and in accordance with the Labor Protection Act that was enforced at that time.

With these areas of selection criteria, TTW has been able to maintain the excellent quality of tap water manufacturing and distribution, free from any potential risks to customers.

In 2023, no dispute occurred between TTW and its subsidiary companies and business counterparts or contractual counterparties to resist bribery and corruption.

5.6 Responsibility to Competitors

TTW treats business competitors within a frame of proper competition and does not take advantage of the competitors through an illegal method. TTW has defined rules, criteria, and standards that are favorable for working together with competitors. For example, TTW shall not search for business information about counterparts and competitors in a wrongful way; and shall not destroy the reputation of competitors by making a negative accusation towards them. TTW has adopted a concrete policy about how to treat its competitors fairly and responsibly. The company is Thailand's largest producer and distributor of tap water by producing and distributing tap water to the Provincial Waterworks Authority that is its business counterpart without any direct competitors. However, the Company has set policies and guidelines for competitors as follows:

1. Treat competitors within the framework of fair and fair competition etiquette.
2. Do not make agreements with competitors that restrict inappropriate competition, such as discussions about costs or pricing with competitors.
3. Do not destroy the reputation of business competitors with malicious and false information.
4. Do not seek confidential information of business competitors by dishonest methods or by using inappropriate methods.
5. Do not take any action that is an infringement of intellectual property and the copyrighted work of others or competitors.
6. Be careful in participating in research, exchanging information, or participating in any activities with competitors; if they wish to use any information, do use from the public sources first.
7. Do not make any agreements which limit business opportunities without unfair treatment of business partners, dealer, or another person.
8. In the event that the company will join the business overseas by joint investment, merger, or acquisition of other operators, the responsible agency must check the laws and regulations about the prevention of non-discrimination or trade competition of that country.
9. Do not discriminate in any actions of the company to stakeholders to be affected by that operation.

In 2023, no dispute occurred between TTW or its subsidiary companies and the competitors.

5.7 Responsibility to Community and Society

TTW operates its business with a cautious concern about communities and society, especially the communities where TTW has an operation. It has been included in the mission of TTW that the company shall be a good member of society and extend attentiveness towards communities. Therefore, this has been a part of duties and responsibilities to be performed and taken by the management and all employees, starting from

providing true and updated information, living with communities peacefully by paying respect to their cultures and traditions, taking part in developing the good quality of life for community people, and cooperating with communities in developing lively environment of localities, which would lead to sustainable development for society as a whole, as well as participation in the enhancement of a quality of life and co-operate with local creative communities and society for sustainability.

5.8 Responsibility to Society and Environment

The Company places great importance on sustainable business practices and operations. As the Company’s mission is clearly stated; “To grow on a firm, continuous, and sustainable basis in order to accomplish our vision through the balance of interests among customers, employees, business partners, shareholders, communities, and environments”. The Company, therefore, is as committed to protecting and preserving the environment as it does its business.

The Company understands that only compliance with regulations is not enough to protect and conserve the environment and that there are a wide variety of important factors that must be observed and practiced in addition to following established rules and guidelines. This includes the development of internal plans to support emergency situations, good quality control systems, continue search for modern technological advances that can reduce environmental impact, the compliance with regulations regarding emergency situations, the conducting business with environmental and safety standards, and the management of waste and noise per the International Standard System ISO 14001.

In addition, the company has educated and trained employees in environmental management to make employees truly understand. The operation results and various environmental and safety quality tests will be stored systematically and regularly monitored by the safety inspection department, including the treatment of stakeholders as well as participation in social and community development in the areas where the company operates by conducting business with good governance as a basis for the management system that is efficient, fair, transparent and accountable, it does not only build confidence for shareholders, stakeholders, and all parties involved but also lead the business to growth and increase the capability of long-term competitiveness for the organization. The company reports the social and environmental responsibility performance in the Sustainability Report of the year 2023 disclose on the company’s website as following QR code.

5.9 Human Rights

TTW supports the conduct in compliance with “Universal Declaration of Human Rights” and other international standards of human rights by refraining from formulating any policies that would violate the human rights; and by operating its business in line with international standards of human rights. TTW also organized training for new employees regarding the code of ethics and human rights policy of the company. TTW announced a whistleblower policy as the channel for employees to submit complaints about corruption, the violation of rules and regulations, or unfair treatment, to related work units. The activities defined by TTW in

relation to human rights indicate very well that TTW gives a serious concern on transparency and compliance with good corporate governance principles.

In 2023, TTW did not receive any complaints regarding the violation of human rights from employees, business counterparts, and local people in TTW's operating areas. So, there is a certain level of confidence that TTW operation has not imposed (or does not have a potential to cause) any effects on local communities. The policies defined by the Board of Directors for all the management and all employees to refrain from violating human rights and comply with Universal Declaration of Human Rights, are as follows:

- Give priority to basic human rights to promote respect for rights and freedoms by not discriminating against or with views on race, color, religion, sex, nationality, age, education, disability, or any other status that is considered international human rights.
- Equally treat every process of employment, from recruitment to compensation, including working hours and holidays, performance evaluation, training and development progress planning, and other aspects without discrimination.
- The company does not use forced labor, child labor, and/or illegal foreign workers including punishment that is physical and psychological abuse of employees regardless of whether it is threatening, detaining, or any form of abuse or violence.
- The company will treat all employees with equality, provide equal opportunities to work under the rules and regulations of work laws and make announcements from the company, which is lawful including allowing employees to express opinions, complaints, rights to access the process of hearing, and clarification before disciplinary action within the organization.
- The company encourages employees to exercise their rights as citizens by constitutionality and other relevant laws associated. And will not violate the human rights of any stakeholders related to the company when there is a conflict or political instability.
- The company and all employees do not support corruption related to any business of partners, customers or other stakeholders which violate International Human Rights' principles and/or corruption.

The Company has established penalties for offenders in said matters at the highest level and has provided channels for whistleblowing through the Human Resources Department or the Company Secretary. All said complaints would be kept confidential.

5.10 Anti-corruption practices and Bribery

TTW has adopted a zero-tolerance policy regarding the corruption and bribery disclosed on the Company website. Board of Directors, executive management, supervisors, employees at all levels, or any related persons are prohibited from involving in all forms of corruption in any business transactions; and they shall comply with rules, regulations, and laws of any countries that TTW has been dealing a business. This policy shall be reviewed on a regular basis to identify a necessary revision for catching up with the new amendments of rules, regulations, standards, and laws, and with the changes in business. TTW has adopted

a policy on anti-corruption and bribery and defined the principles in the code of business ethics prohibiting the employees from requesting or receiving any benefits or assets that may motivate them to perform their duties in a wrongful way, omit the performance of some duties, or cause the company to lose a rightful benefit. Employees are also prohibited from offering or presenting benefits or assets to outsiders to motivate such persons to commit or omit action illegally in favor of a malpractice in his/her position.

5.11 Political activities

The Company has set a policy of respecting the law and human rights principles by requiring directors, executives, and employees to operate the company's business in accordance with relevant laws, rules, and regulations, as well as not taking part in knowing, assisting, or taking any action that violates the laws or regulations.

5.12 Conflict of Interests

The Board of Directors has the policy to prevent conflicts between personal interests and the interests of the company as defined in the Code of Conduct for directors and employees as follows:

1. Take care of the company compliance with the rules, procedures, and disclosure of connected transactions as strictly required by law or regulatory agency and according to the company's regulations.
2. Avoid making transactions that are related to oneself or persons / juristic persons. That may cause conflicts of interest with the company.
3. In the case of a transaction that is a connected transaction that does not comply with general trading conditions according to the principles approved by the Board of Directors or the nature and size of the transaction, is not within the authority of the management, must be reviewed and commented by the Audit Committee before proposing for approval from the Board of Directors or shareholders.
4. In the event that it is necessary to make a connected transaction, the transaction must be in accordance with general trading conditions according to the principles approved by the Board of Directors with transparency and fairness, as if making transactions with third parties and considering the maximum benefits of the company.
5. Stakeholders must not take part in considering the items that they have a conflict of interest.

5.13 Intellectual Property Rights

TTW has adopted the policies and practice guidelines regarding the non-infringement of intellectual property or copyright. TTW has a team of risk management officers chaired by the Managing Director. This team shall submit the report on the implementation of this matter to the Risk Management and Corporate Governance Committee for review, which covers the mandatory requirement for all employees to sign their names in an agreement that they shall not commit any crimes related to computer use, and any infringement of intellectual property. TTW has adopted a policy regarding the use of the information technology system of

TTW Group and subsidiary companies. The work applications or software programs of employees are inspected to prevent the use of infringed or non-work-related software. Therefore, the company has established an intellectual property management policy for the executives and employees of the company and its subsidiaries to comply.

1. Comply with the laws related to intellectual property rights in Thailand and every country where the company has operated business, which is considered the elementary norm.
2. Disclose performance, invention, and any knowledge resulting from operating duties or supporting by the company to the supervisor to acknowledge accurately, completely, and immediately.
3. Maintain and protect the company's intellectual property rights both inside and outside of the country, including respecting and not infringing on other people's intellectual property.
4. Keep important documents, trade secrets, and any other confidential information of the company, business partners, and stakeholders in a secure place and with appropriate and standardized access methods, including not disclosing to other people who are not related. This duty will continue to be effective even if the company's executives or employees have retired.
5. Do not use intellectual property and confidential information of the company, business partners, and stakeholders to reproduce, modify, or use by any means for personal or others' benefits without permission.
6. Report to the supervisor when seeing any actions that infringe on intellectual property, may lead to infringement of intellectual property, or any actions that may cause any dispute regarding intellectual property of the company or other people.
7. Support the intellectual property cooperation with external agencies, both in the public and private sectors.

5.14 Whistleblowing

TTW has provided measures for complaints and clues by disseminating such measures in the Principles of Corporate Governance and on the website of the company and reviewed this measure to ensure that complaints are effective and complete. And helps in tracking and monitoring the performance of directors, executives, and employees of the TTW Group to comply with laws, regulations, principles of corporate governance, and Business ethics and do not take any action that may indicate fraud.

6. Disclosure and Transparency

The Company recognizes the importance of disclosing financial information, non-financial information, and other important information in an accurate, comprehensive, timely, and transparent manner via equal and easy-to-access channels, according to the rules and regulations set forth by regulatory agencies, the principles of good corporate governance of the SEC, and the criteria for the evaluation of good corporate governance, in a manner that is suitable to the changing environment that responds to the role of

online media technology. Disclosure of Company information includes written information in both Thai and English and non-written information covered all methods of communication that allow shareholders and stakeholders to acknowledge the dissemination of various types of information through communication channels such as in-person meetings, telephone conferencing, interviews, and various online media such as websites, social media, etc.

6.1 Information Disclosure Channels

- Providing information to analysts or investors who visit and consult with TTW executive management.
- Provide an on-site presentation to investors.
- Organize an Analysts Meeting.
- Providing information via public media such as newspapers, magazines, journals, and televisions.

Investor Relations Department

The Investor Relations Department is responsible for communicating with institutional investors, shareholders, and analysts, according to the fundamental principles of accuracy, adequacy, timeliness, equality, fairness, integrity, honesty, and compliance with the company's good corporate governance policy and principles, including has established an annual investor relations plan continuously. Due to TTW's emphasis on caution in disclosing information and equally treat all stakeholders. By determining the "Silent Period" that is, a period during which the investor relations do not conduct any direct investor relations activities, including meetings or calls with any investor or analyst two weeks before results announcements. If there is an analyst meeting conducted, it will be executed after the financial statements have been disclosed.

To ensure adherence to Principle 7: Ensure Disclosure and Financial Integrity of SEC's CG Code, the Board assigned the Investor Relations Department to develop a Code of Conduct for TTW's Investor Relations practitioners. The significant issues were as follows:

1. Accurate, adequate, and timely disclosure of essential and necessary information for investment decisions.
2. Retention of inside information.
3. Equal and fair disclosure of information by means of access and inquiry by all parties concerned.
4. Performance of duties with integrity in the profession based on equal treatment without any discrimination and commission as personal incentives for personal gains other than for the benefit of the Company and relevant stakeholders.

TTW also emphasizes information disclosure via investor relations activities. The executive's management has participated in the activities by presenting and meeting with investors to create a good

understanding of the company's management, foster good relationships with investors as well as encourage the continuous exchange of opinions. In 2023, TTW has carried out investor relations activities as follows:

Activities	Times
Seminars and meetings with investors and securities analysts as Virtual Event	2
Communicate information to investors and securities analysts Via online media (social media) including TTW's website, Facebook Fan page, Instagram, YouTube Channel, LinkedIn	1-2 times/week
Communication Via emails and phones	5 times/day
Communicate information via Factsheet (on the Company's website)	1 time/quarter
Communicate information via Listed Company Snapshot (SET Link)	1 time/quarter

7. Financial Statement Preparation

TTW is responsible for preparing financial reports that are accurate, complete, and transparent and protecting the Company's assets against loss or utilization of unauthorized persons, and preventing corruption and unusual operations in line with Thailand's generally accepted accounting standards, and regular implementation of appropriate accounting policy, as well as considering the reasonability and prudence in the preparation of the company's financial statements to enhance stakeholders' confidence in financial reports. The Board has then assigned the Audit Committee to oversee the preparation of TTW's financial reports which must be correct, complete and in compliance with relevant laws, notifications, and regular implementation of appropriate accounting policy. The Board has also prepared a report on the Board's responsibility towards the financial reports, which covers significant matters according to the SET Code of Best Practice for Directors of Listed Companies as shown in the auditor's report in the annual report.

In 2023, the Company allowed the auditor from EY Office Company Limited to be the auditor of the Company, that is knowledgeable and professional. And received approval from the SEC by the financial statements of the company certified without conditions and correct as it should be in essence according to generally accepted accounting principles and approved by the Audit Committee / the Board of Directors before disclosing to the shareholders.

The Company has prepared a Management Discussion and Analysis (MD&A) report to provide an in-depth, analytical disclosure of financial status, performance factors affecting financial status, and any significant financial changes to shareholders and investors on a quarterly basis. Said report is disclosed via the SET portal system of the SET along with financial statements. It is also disclosed on the Company's website to facilitate access by any other interested parties. Thus far, the Company has disclosed such information by quarterly and annual financial statements in advance before the due date. In addition, there has never been any history of amendment of said disclosed financial statements in any way.

In this regard, the Board of Directors carries out a review of internal control system efficiency via the Audit Committee to reasonably ensure that all recording of financial and accounting data is accurate, complete, and sufficient for maintaining assets and identifying any weaknesses to prevent any significant fraud or unusual operations.

6.2 Business Code of Conduct and Employee Ethics

The Board of Directors has established business code of conduct and ethics of directors, executives, and all employees of the company for relevant person to comply it as a guideline to perform duties with honesty and fairness to the company, all groups of stakeholders, shareholders, investors, society, community, and the government and population to provide clarity and convenience for directors, executives and employees of the company to be informed about the guidelines that the company expected in business ethics, which covers the following issues:

- To persuade, encourage, and motivate the executives and employees to collaborate to create value for the business.
- To create confidence that the legal rights of stakeholders will be protected.
- To treat all stakeholders and all related parties with honesty, transparency, and fairness.
- To encourage everyone to be responsible for getting familiar and complying with the business code of conduct and ethics and company's related policies.

Follow-up of Compliance with Corporate Governance & Business Code of Conduct Handbook

If the company found the violation or non-compliance with the Corporate Governance & Business Code of Conduct Handbook, the company would handle according to the processes as follows:

1. Record of non-compliance with the Corporate Governance & Business Code of Conduct Handbook.
2. Present to the executives in each division for consideration.
3. Operate in accordance with the company's regulations.
4. Report the performance to the Risk Management and Corporate Governance Committee for acknowledgment to report to the Board of Directors.

Report of Non-Compliance

Directors, executives, and staff have a duty to report an action which may violate the Code of Conduct. In case witnessing or being put under pressure/forced to take any action which violates the Code of Conduct, the person shall report the case to superior or senior executive or Internal Audit Department or Audit Committee, depending on whatever case may be. Besides, the report can be submitted via the company website <https://www.ttwplc.com/th/cg/whistle-blowing>. The report will then be forwarded to the Company Secretary and the Audit Committee. Alternatively, the report can be submitted via email: cg@ttwplc.com

The Company has a policy to protect whistleblowers and related persons. They will receive appropriate and fair protection from the company. The company will keep information about the complaints confidential which such information will not be disclosed to unrelated persons unless is required by law.

The full version of the corporate governance and business code of conduct's policies and guidelines are shown on TTW's website or scan QR code as follows:

6.3 Major Movements and Developments of Policies, Practices and Corporate Governance in the Past Year

6.3.1 Major Movements and Developments in the Past Year's Review of Policies, Practices and Corporate Governance or Charters of the Board and its Sub-Committees

In 2023, the Risk Management and Corporate Governance Committee have annually reviewed the Corporate Governance Policy and proposed to the Board of Directors to considered approving the latest amendment to the items related to the Sub-Committees in the Corporate Governance Policy, by focusing on the roles and responsibilities of the Board for each aspect of governance which is used as a guideline for directors, executives, and staff for the best practice of the Company.

The Updates of Sub-Committees' Charters

The Company has assigned appropriate roles and responsibilities of the Sub-Committees, to be consistent with the current situation and be up to date.

Communication of the Corporate Governance Policy

The company has prepared the Corporate Governance & Business Code of Conduct Handbook in writing, which consists of the main contents such as corporate governance principles, corporate governance policies, business code of conduct, and employee ethics, in order to communicate with the Board of Directors, Executives and Employees, to adhere as a good practice for the performance of their responsibilities, including signing for acknowledgment and compliance with the corporate governance & business code of conduct handbook. In addition, when new employees are hired, the company will provide such handbooks for employees to read, understand, and sign for acknowledgment and compliance as well.

In 2023, the company reviewed the good corporate governance practices, related risk management, and anti-corruption, and monitored, evaluated, and reported on compliance with good corporate governance practices. The company also communicated and disclosed the corporate governance policy to the directors, executives, and employees at all levels, as well as all stakeholders through the company's website at www.ttwplc.com to create awareness and adherence to the correct practices, which will create confidence for all stakeholders. In addition, various media and activities are organized to enhance the understanding of good corporate governance among the company's employees by adhering to the key principles of corporate governance. In the past year, there were various activities as follows:

- Improve and prepare the corporate governance and business code of conduct handbook for employees to read and sign that they will comply with the company's code of conduct, including when new employees are hired, they will receive the manual for employees to read, understand, and sign that they will comply with the company's code of conduct.

- Prepare for the employee orientation to provide advice and create an awareness of the corporate culture and the good corporate governance and business code of conduct, including the company's anti-corruption policy.
- Encourage all directors, executives, and employees of the Company to report on the interests of self, family, and related legal entities. Including in the case of changes in information, such information must be notified as soon as possible to encourage transactions of the company's groups to be transparent, reasonable, and in the company's best interests.
- Disclose business ethics information, good corporate governance guidelines, and anti-corruption guidelines to directors, executives, and employees, to properly raise awareness of their duties through various channels and activities, such as:
 - Internal communication through the Company's intranet system, such as the publication of electronic mail for the request for cooperation to refrain from trading or changing possession of Company's security.
 - Corporate Communication on the topic of OMD Corner, PR News, CSR News via e-mail and news board of departments.
 - Prepare for the quarterly meeting activities between Employees, Executives, and Managing Director.
 - Prepare lectures and internal training to educate employees and provide a test of knowledge before and after the lecture.
 - Provide self-assessment forms for employees to review compliance with the company's code of conduct.

6.3.2 Adherence to Corporate Governance Best Practice Policy

A review of the Corporate Governance Policy in 2023 by the Board of Directors showed strict compliance with the relevant policies and guidelines. However, some principles held by the Company are different from CG Code 2017. The differences are as follows:

Unaccomplished Items	Reasons
1. The Board of Directors should determine that independent directors can continually assume director positions for not longer than 9 years from the date of the first appointment. 2. The Board of Directors should determine the maximum length that directors and members of committees can assume their positions.	The Board of Directors has not determined the period of office for an independent director, director, and sub-committee to assume, as it is believed by the Board of Directors that every director has the knowledge, ability, experience, and an understanding in the business operations, with independence in expressing opinions deemed beneficial for the company.

6.3.3 Other Practices in accordance with Good Corporate Governance Principles

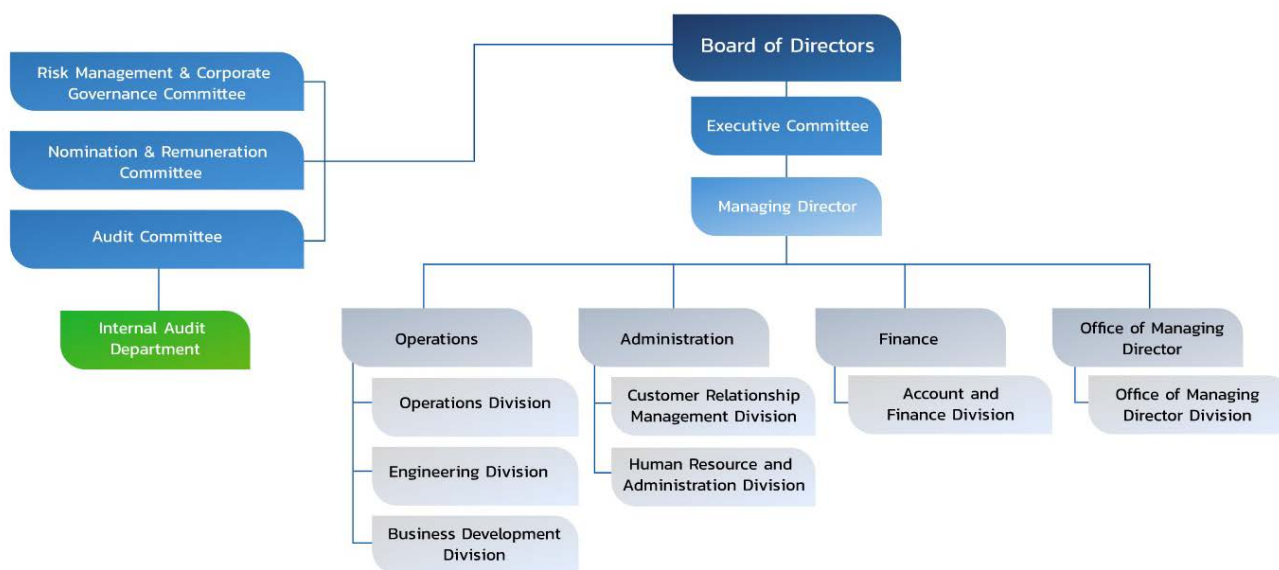

In the past year, the Company's Board of Directors and all employees consistently complied with good corporate governance policies. In 2023, there are no situations in which the operations do not comply with the policy. As a result of this commitment, the Company received several awards and accreditations for its good corporate governance for the year 2023 as follows:

1. The Thai Institute of Directors (IOD) announced the results of their Corporate Governance Report of Thai Listed Companies for 2023 (CGR), with TTW receiving a rating of "excellent".
2. TTW was rated "AA" on the SET ESG Rating 2023 by the Stock Exchange of Thailand.
3. The Thai Investors Association (TIA) announced that TTW received 100 points (Full score) in the quality assessment by the 2023 Annual General Meeting of Shareholders.
4. TTW received a plaque for a listed company with Outstanding Company Performance Awards in the Business Excellence category with a market capitalization exceeding THB 30,000 million but not exceeding THB 100,000 million at the SET Awards 2023
5. TTW was selected for the Thailand Sustainability Investment (THSI) listing for the year 2022 in the SET market capitalization of THB 30 billion - THB 100 billion categories.
6. TTW was awarded the ASEAN Asset Class PLCs from the ASEAN CG Scorecard project for the year 2021.

7. Organizational Structure and Significant Information about the Board and Its Sub-Committee, Managements, Employees, and Others

7.1 Organizational Structure

TTW Public Company Limited
As of 31 December 2023

Remark : – Legal and Compliance Department under the Office of Managing Director.

In addition, the company has set other compositions related to the Board of Directors as follows:

Directors' Terms

1. The term which directors will serve is based on the Company's Articles of Association. In every Annual General Meeting of Shareholders, one-third of the directors must retire; moreover, if this number is not a multiple of three, then the number nearest to one-third. The directors who have been in office longest shall retire. The directors who have completed their terms may be re-appointed.

2. Independent directors shall not hold office continuously for more than 3 consecutive terms or 9 years, whichever is longer, unless the Board considers it necessary for such independent directors to continue in office, in which case the Board can extend the term.

Board of Directors Meeting

The company requires that the Board of Directors meet on a regular basis in order for the Board of Directors to successfully perform its duties and obligations as follows:

1. The Board's meetings are officially scheduled throughout the year and well in advance. Board members are informed of these meetings in advance.
2. The Board shall meet at least seven (7) times a year. Extraordinary meetings are allowed if they are required.
3. The Board of Directors may appoint sub-committees to review and approve operations within the allocated scope. Incorporating a timeline for reporting performance into the Board of Directors' meeting agenda. Monitoring the progress of operations and being prepared to provide comments if performance falls short of expectations or the approved budget.
4. The company policy stipulates that for the minimum quorum at the time that the Board of Directors is to pass a resolution in the meeting of the Board, at least two thirds of the total number of directors must be present. Additionally, any directors who may be involved or interested in any meeting agenda items must refrain from commenting on and must abstain from voting on said agendas.
5. In each meeting, the meeting agenda will be clearly specified in advance and a meeting invitation letter shall be sent to the attendees along with the agenda at least 10 days before the meeting. Any supporting documents will be submitted at least 7 days in advance so that the Board of Directors has sufficient time to study all related information before attending the meeting.
6. The company secretary shall be responsible for organizing all meetings, including shareholder meetings, Board of directors' meetings, and subcommittee meetings, and shall provide advice regarding legal matters and compliance with policies, regulations, and rules set forth by the SET and the SEC regarding Board meetings.
7. The company secretary is also responsible for recording the minutes in writing, submit them to the Chairman of the Board for review, and then circulate them to each board member within 14 days of the meeting. The minutes must contain all the meeting resolutions along with sufficient background information and be prepared in accordance with relevant laws.
8. The Board of Directors prescribes meetings of non-executive directors as appropriate without executive directors. or the management participated in the meeting to provide an opportunity to discuss various problems relating to the company's business or management matters that are of interest Then invite the executive directors to come to know the information discussed in the meeting for study and practice.

Directorships in other Companies

The Board of Directors places great importance on the efficiency of directors' performance of duties, so that the directors can devote their time to supervising the company's business fully. Therefore, it has been established as a policy to limit the number of companies in which directors and executive directors will hold directorship positions in other listed companies. A non-executive director can be a director in other listed companies not more than 5 companies and an executive director can be a director in other listed companies not more than 2 companies. At present, there are no directors who hold the position of company director beyond the specified criteria.

7.2.2 Board of Directors and the Authorized Directors of the Company

The Articles of Association of the Company specifies that the Company must have a Board of Directors which consists of no less than 5 people with proper qualifications under the law. No less than half of the Board of Directors shall have residency in the Kingdom of Thailand. - d) Providing monitoring system and assessment of the organization's operations being consistent to policy regularly and continuously.

Relationship between Shareholders

Supervising and arranging communications between shareholders of the company and providing opportunities for shareholders to communicate with the Board to exchange opinions.

Shareholders Meeting

Presiding over as the Chairman of every Shareholders meeting and assigned a person to supervise the shareholders' meeting correctly as defined by law and related regulations as well as making sure that all directors are notified to attend the meeting. It is an opportunity for shareholders to exercise their rights openly in attending the meeting and voting in Shareholders Meeting, asking questions and additional explanation, acknowledgement of the annual report, approval of Financial Statements, approval appropriation of profits and dividends, director appointment and compensation paid to directors, auditor election and proposing remuneration of auditors, and approval of Company's Memorandum of Association amendment.

Other Roles of Chairman of Board of Directors

Performing duties with honesty, supervising structure of the Board appropriately, supervising in taking policies and the Board's decisions for operating effectively, promoting corporate governance, and social and environmental responsibility activities in all levels ranging from directors, top management to employees by operating in accordance with guidelines of the Board's structure to promote corporate governance of the company.

Appointment, Resignation, and Retirement from Directorship

The shareholders' meeting appoints directors who have the qualifications and do not have any prohibited characteristic as specified by law, and do not have any characteristic indicating a lack of appropriateness in respect of trustworthiness in management of a business whose shares are held by public shareholders as specified by the SEC Office. That is, the Board of Directors shall be composed of at least 5 directors, and at least one-third of all such directors must be independent directors, and at least half of all such directors must reside in Thailand. In case of a vacancy on the directorship position other than retirement by rotation, the Board of Directors may select any person who is qualified as a replacement director at the following meeting with the votes of 3 in 4 of the remaining number of directors. The replacement director will hold office only for the remaining term of the director whom he or she replaces. In each annual ordinary general meeting of shareholders, one-third of the total number of directors shall vacate their office, whereby those directors to vacate their office shall be the directors who have been in office for the longest term. Upon expiration of the term of office, a vacating director may be re-appointed under the resolution of the shareholders' meeting.

7.2.3 Roles and Responsibilities of the Board of Directors

1. Supervise the company's operations to ensure compliance with laws, objectives, and the Company's Articles of Association, as well as resolutions of the shareholders' meetings, and protecting the company's interests based on the good corporate governance principles.

2. Determine policies and directions of the company's operations and supervising the management to take actions to ensure compliance with the policy with efficiency and effectiveness to result in the optimum economic value to the business and great prosperity to the shareholders.
3. Approve vision, missions, corporate values as anticipated by the Company, and business ethics.
4. Arrange for and supervising the administration in compliance with the good corporate governance principles.
5. Consider approval for budget for investment and budget for the company's annual business operations, including monitoring the use of the company's resources.
6. Provide complete, correct, and sufficient reports on financial information and general information which are important to shareholders and affirm the certification of the reported information.
7. Arrange for the company to have an efficient internal control and audit system as well as appropriate and adequate risk management measures, including following on such matters on a regular basis.
8. The Board has also formulated a charter for the Executive Committee, the Audit Committee, the Risk Management and Corporate Governance Committee, and Nomination and Remuneration Committee as a guideline for their duties.
9. Supervise the Executive Committee, Sub-committees, and the management to comply with the specified policy.
10. Consider performance evaluation, determination of salaries, wages, welfare, bonuses, allowances, and other remuneration, including expenses and facilities of the Managing Directors, as well as determining a backup plan for nominating personnel to hold the major office of the management should the management become unable to perform the duties.
11. Consider revision of the scope of authorization, duties, responsibilities, and roles of the Executive Committee, Subcommittees, and the management as appropriate.

Evaluation of work performance and career advancement opportunities

Employees in all levels who receive remuneration on a monthly basis are subject to a work performance evaluation at the end of each year. The goals and key performance indicators (KPIs) will be developed individually for each employee based on expected achievement of work, competency, and development. The results of the evaluation in three areas (including core competency, managerial competency, and functional competency in accordance with the regular development scheme of the company) will be used to set up a priority and the goals of the development. Individual development plan for each employee emphasizes the learning and development from hands-on experience, interpersonal relationships, and formal training.

Determination of Succession Plan

The Board of Directors realizes the significance of the succession of senior management, especially the position of managing director, by assigning the Nomination and Remuneration Committee to conduct the managing director succession plan details appear in the Nomination and Remuneration Committee Charter

For the Executives' positions, the company has established a succession plan by specifying the person to act on its behalf. In the case that there is no person who can support immediately, there is a secondary development system to prepare including external selection, to maintain trust with shareholders, as well as employees that the company's operations will be carried on in a timely manner.

Work Safety

The company has formulated policies and managerial structure for occupational safety, health, and environment in accordance with the standards stipulated in the Occupational Safety, Health and Environment Act B.E. 2545 and other work safety-related laws. We use these as basic practical guidelines to help our employees to ensure safety standards in their works ISO 9 0 0 1 and ISO 1 4 0 0 1 , and a work safety management system by focusing on the participation of personnel. In addition, there are rules for working safety, Committee for Safety, Occupational Health, and Working Environment in order to consider the policy Operation plan and work safety training plans.

Occupational Health and Safety

TTW realizes that occupational safety and health programs are an integral part of the business operation and are directly related to both qualitative and quantitative productivity. Its implementation also leads to a sustainable coexistence with the surrounding communities. The company, therefore, focuses the efforts on creating knowledge, understanding, realization, and conscience on occupational safety and health in all departments and among all levels of staff, including senior executives and operational-level staff.

The company has formulated policies and managerial structures for occupational safety, health, and environment in accordance with the standards stipulated in the Occupational Safety, Health and Environment Act B.E. 2545 and other work safety-related laws. We use these as basic practical guidelines to help our employees to ensure safety standards in their work.

Safety, Occupational Health, and Work Environment Policy

The executives realize the importance of safety, which consists of work safety, occupational health, work environment, security of system (machinery, equipment, and production processes), and security of buildings, which are the basis of efficient and effective management, leading to sustainability in business operations under the following actions:

1. The company will support the resources in terms of personnel, time, and budget to encourage and motivate the safety inspection training and other activities to improve working conditions and environment to be safe and create safety awareness.
2. The company will prevent accidents and illnesses at work as well as nuisance incidents by focusing on risk management and loss control.
3. The company will assess the safety performance and review the policy on safety, occupational health, and work environment at least once a year.
4. Safety is the first duty and responsibility of all employees. All employees must participate in activities related to safety, occupational health, and work environment.
5. All employees must consider the safety of themselves and others while working.
6. The company will comply with the law and requirements as well as the international standards related to safety, occupational health, and work environment, which are considered the basic criterion.
7. Identify, assess, and control risks in safety, occupational health, and work environment, including collecting dangerous information that causes the mentioned risks.
8. Be prepared and able to deal with any incidents that may occur as well as respond to incidents and recover after an incident efficiently to ensure that those incidents will not affect the personnel and internal and external assets of the company and enable the company to conduct its business continuously and quickly.

The executives of all departments are responsible for promoting and supporting the implementation of policies on safety, occupational health, and work environment.

Occupational Safety in the Company Group

For the supervision and inspection of operations, to ensure safety standards are being met and that any accidents that could cause damage to a person or property while working with the Company are prevented or their effects minimized, the following occupational safety guidelines and rules have been established:

1. Clothing must be well-fitted and suitable for safe operation.
2. Personal protective equipment (PPE) must be worn in all specified work areas or job types.

7.6.3 Auditor Fees

The Board of Directors has appointed the auditor of the Company who was selected by the Audit Committee based on performance, experience, and preparedness in terms of personnel, and acceptable auditing service standards. Said auditor is certified by the Office of the Securities and Exchange Commission (SEC). The Company has hired EY Office Co., Ltd., comprising of Mrs.Wilai Soonthornwanee: Certified Public Accountant No.7356 and/or Ms.Manee Rattanabunnakit: Certified Public Accountant No.5313 and/or Ms.Poonnart Paochareon: Certified Public Accountant No.5238, and/or Ms.Kunlapee Piyawannasuth: Certified Public Accountant No.6137, as the Company's auditors.

In this regard, the auditor appointed by the Board of Directors is also the auditor of the subsidiary companies, namely PTW and TWO, which have no relationship and interest with the company or subsidiaries, executives, major shareholders, or those related to such persons in a manner that will affect their duty independently, also the company does not receive any services other than auditing. Comparative information of the auditor's remuneration in the past 3 years as follows:

(Unit : Baht)

Description	2023	2022	2021
Audit Fees	1,570,000	1,420,000	1,420,000
Non-Audit Fee	None	None	Noe

Definition of "Related Party Disclosure According to Accounting Standards"

A related party is a person or entity related to the entity that is preparing its financial statements.

1. A person or a close member of that person's family is related to a reporting entity if that person:
 - 1.1 had control or joint control over the reporting entity;
 - 1.2 has significant influence over the reporting entity; or
 - 1.3 is a member of the key management personnel of the reporting entity or the parent of the reporting entity.
2. An entity is related to a reporting entity if any of the following conditions apply:
 - 2.1 The entity and reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to each other).
 - 2.2 One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - 2.3 Both entities are joint ventures of the same third party.
 - 2.4 One entity is a joint venture of a third entity, and the other entity is an associate of the third entity.
 - 2.5 The entity is a post-employment defined benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - 2.6 The entity has control by a person item 1.
 - 2.7 The person on item 1 (1.1) has significant influence over the entity or members of entity management (or headquarter)
 - 2.8 The entity member or members of the group service of the key management personnel of the reporting entity or the parent of the reporting entity.

8. Report on the Significant Activities on Corporate Governance

8.1 Summary of the Board of Directors' Performance in the Past Year

The Board of Directors (Board) is responsible for governing the Company's operations in accordance with the provisions of the law, Article of Association, and resolutions of the Shareholders' Meeting.

The Board has also assigned each sub-committee to help review delegated matters under their scope of duties and responsibilities in accordance with its charter that was approved by the Board. In 2022, there were 4 sub-committees that directly report to the Board:

1. Executive Committee
2. Audit Committee
3. Risk Management and Corporate Governance Committee
4. Nomination and Remuneration Committee

In addition, the Board of Directors has assigned the management to manage business operations through the Executive Committee under the scope of authority that has been approved. In 2023, the Board of Directors was responsible for approving the following matters:

- Considered and approved the Company's strategic plan, KPIs and budget.
- Considered and approved the annual Company's financial statements and operating results.
- Considered and approved the Report on the Board's responsibility for Financial Reporting.
- Considered and approved the disclosure of information of Forms 56-1 One Report.
- Considered the Company's risk management report and internal control evaluation results.
- Considered the annual dividend payment.
- Reviewed the structure and composition of the Board of Directors and Sub-Committees.
- Considered the selection and appointment of directors.
- Considered the Board's remuneration policy and budget for the year 2023.
- Considered the appointment of the Company's auditor and fixed the audit fee for the year 2023.
- Called the Annual General Meeting of Shareholders for 2023.
- Considered the annual Board of Directors and the Sub-Committees performance evaluation results.
- Considered the Managing Director performance evaluation results.
- Reviewed and approved the revision of the Company's Code of Conduct.
- Considered approving the Related Transactions

8.1.1 The Directors' Selection, Development, and Evaluation

1. Nomination and Appointment of Directors

The Company recognizes the importance of the appropriate recruitment and appointment of directors to oversee business operations and set policies and operational plans for the maximum benefit of

the Company and its shareholders and thus takes great care to consider the qualifications and experience of any candidate according to the following principles:

- Qualifications in accordance with legal requirements, SET and SEC regulations, and Company regulations. Qualifications of all Directors must be consistent with the strategies and policies of the Company and must adhere to the principles of good corporate governance for the benefit of the business development and success of the Company.
- Gender, age, knowledge, ability, and experience diversity and expertise in various fields as needed by using Director Qualifications and Skills Matrix for consideration.
- Educational and work background that are beneficial to corporate governance, transparency, morality, responsibility, maturity, and professionalism.

The Nomination and Remuneration Committee is responsible for screening all candidates for director positions, whether for positions as representatives of shareholders or positions as independent directors. The Committee shall consider the suitability of said candidates based on the appropriateness of their skills and experience according to the above criteria. As the Company gives the right to its shareholders to nominate directors of the Company, the Committee shall consider candidates from the list of names proposed by shareholders and from the Director Pool of the Thai Institute of Directors (IOD) and shall present these to the Board of Directors for consideration. However, the appointment of directors to replace directors whose tenures are expired must be approved by individual shareholders, and voting must be carried out according to the Company's regulations as follows:

- Each shareholder holds a number of votes equal to the number of shares held in the Company.
- Shareholders may exercise the right to select one or more person to be a director, but it must not exceed the number of directors that was elected at that time.
- In case a shareholder exercises his or her votes to elect more than one person as a director, the shareholder may exercise all votes to each such person and may not allot this or votes to any person in any number.
- The persons who received the highest numbers of votes in descending order shall be elected as directors according to the number of directors who were elected at that time. In the case of equal votes between persons voted on in descending order whereby the number of directors who were elected at that time is exceeded, the chairman of the meeting shall have the casting vote so that the correct number of directors shall be achieved.
- The selected persons must be elected by a vote of no less than four fifths of the total number of votes of the shareholders who attended the meeting and have the right to vote.

Along with the meeting invitation letter sent to the shareholders, the Company shall include pertinent information about directorship candidates for consideration by the shareholders. Said information shall consist of educational background, work experience, any directorship positions held in other companies, and legal

disputes (if any). In the case of directors whose tenures have expired and who are nominated again for another term in a directorship position, additional information shall also be included for consideration by the shareholders, such as the number of meetings attended and work performance throughout the previous year.

In the event that a directorship position becomes vacant for reasons other than expiration of said director's term, the Nomination and Remuneration Committee shall nominate a candidate with the appropriate qualifications and without any characteristics that would be prohibited by law at the meeting of the Board of Directors of the Company for their consideration and approval by a vote of not less than 3 out of 4 votes of the remaining directors. Any newly appointed directors shall hold office for the remaining term of the outgoing director.

The Company recognizes the important rights and participation of its minor shareholders. In order to assure all shareholders that they will be treated with equality, the Board of Directors, therefore, provides shareholders with the opportunity to propose items for the agenda of the Annual General Meeting of Shareholders and to nominate candidates with appropriate qualifications for directorship positions from September 1 to December 31 each year. All steps and procedures for said proposals are set forth in a clear and transparent manner and details can be found on the Company website.

On 4 January 2023, the Company notified the Stock Exchange of Thailand and the shareholders that the period for the nomination of persons to be elected as the Company's directors had expired and none of the shareholders nominated suitable and qualified persons to be elected as a director of the Company.

Nomination and Appointment of Independent Directors

The Company has specified the criteria for the selection and appointment of independent directors, in that they must meet both Company qualifications for recruitment of directors and also the qualifications of independent directors according to the definition of "independent director" of the SEC. Company policy requires at least 1/3 of the total number of Board members and not less than 3 persons to be Independent Directors. The Company currently has 4 independent directors. Company policy also requires that the Chairman of the Board must be an independent director and that the Chairman of the Board must not also hold the position of Managing Director. This is to provide a clear distinction of responsibilities between the establishment of regulatory policies and the daily management of the Company, thus resulting in an appropriate balance of power, transparency, and verifiability according to the principles of good governance. Additionally, the Audit Committee is made up entirely of independent directors and is appointed by the Board of Directors or in the General Meeting of Shareholders of the Company. At least one Audit Committee member must have accounting and/or financial experience and knowledge in order to examine and supervise the Company's operations properly, as well as to oversee financial reports, the internal control system, the selection of auditors, and consideration of any conflicts of interest.

All current independent directors possess all qualifications as specified by the Company, for any persons serving in the position of independent director for several consecutive terms, this does not affect the performance of duties or independent opinion of said director.

Appointment of Senior Executives

The Board of Directors has appointed the Nomination and Remuneration Committee to consider and select candidates for positions as senior executives or the position of Managing Director of the Company by evaluating the appropriate qualifications for senior executive positions according to the Succession Plan and screening suitable candidates who have the knowledge, abilities, skills, and experience beneficial to the Company's operations, as well as those who understand the business of the Company and have the ability to manage tasks to achieve the Company's objectives and goals. After the said selection and screening process is complete, the Nomination and Remuneration Committee will then propose the names of suitable candidates to the Board of Directors for further evaluation and approval.

For the recruitment of senior executives at the level of department head or higher, the Managing Director shall present candidates for these positions to the Executive Committee for appointment and approval. For the recruitment of senior executives from the position of section manager or below, this is within the scope of authority of the Managing Director to consider and appoint said candidates.

2. Development of Directors

The Company encourages the members of the Board of Directors to develop their knowledge and experience by attending educational and observational trips, training, and seminars covering a variety of courses that will aid in enhancing their knowledge and understanding of the role of a director and any other matters related to the performance of the Board of Directors and for effective management in accordance with the principles of good corporate governance. The Company also promotes membership in the Thai Institute of Directors (IOD) for its directors for the benefit of receiving important news and information from the IOD.

In 2023, the Company encouraged 3 Directors and Company Secretary to attend the following IOD training courses.

- Director Certification Program (DCP 351/2023)
- Hot Issue for Directors: Climate Governance 1-2023
- Company Secretary Forum 2023: The role of the company secretary in driving ESG

Training Courses for Directors Organized by the Thai Institute of Directors (IOD).

12. Ms.Walainut Trivisvavet			DCP 201/2015		AACP 20/2015	

* Remark – Mr.Tadashi Ishizuka was appointed as the Board of Directors on 7 December 2023

Orientation for New Directors

The Board of Directors provides orientation for every new director in order to create a clear understanding of the business and operations of the Company and ensure directors are well-prepared to perform their duties, in terms of corporate governance, business management, technology, and new innovations, so as to support the efficient performance of their duties, with the Company Secretary as coordinator in various matters, as follows:

1. Business structure, Board structure, scope of authority, and related laws.
2. Business strategies, including on-site visit to view the production process.
3. Arrangement of a meeting with the Chairman of the Board to facilitate inquiry regarding more in-depth information about the Company's business operations.

In 2023, the Board of Directors resolved to appoint 2 Directors: Mr.Kenichi Ishida and Mr.Tadashi Ishizuka. Therefore, the Company arranged an orientation for new directors on 1 December 2023 at the Banglen Water Treatment Plant by providing a lecture on the company's business, directors' structure, scope of authority, including visiting the production process.

3. Self-Assessment of the Board of Directors

The Company has specified in the corporate governance policy and the principles of good corporate governance of the Company that the Board of Directors must carry out an annual performance assessment. This assessment is divided into 6 main topics according to the guidelines of the SET, including (1) The Structure and Qualifications of Directors, (2) The Roles, Duties, and Responsibilities of the Board, (3) Board Meetings, (4) The Directors' Performance, (5) Relationship with the Management, and (6) The Self-Development of Directors and Development of Executives. This assessment is used as a framework for evaluating the performance of the Board and as an opportunity to jointly consider performance and other issues in order to improve the overall performance of the Board of Directors. The Board has agreed upon the Board Assessment Form, which has also been reviewed by the Risk Management and Corporate Governance Committee. The assessment process is as follows:

1. The Board of Directors assesses the performance evaluation forms of the Board and Subcommittees.
2. The Company Secretary is responsible for delivering the assessment forms to all directors for the assessment of performance and to return to the Company for analysis and assessment of the results, which shall be prepared, summarized, and presented to the Nomination and Compensation Committee for consideration of the evaluation results and the development of guidelines for improving operational efficiency.
3. The Nomination and Remuneration Committee shall present said assessment results and guidelines for the development and improvement of operational efficiency to the Board of Directors for their information in order to acknowledge and support the Board's performance and operations.

In 2023, the Board of Directors has approved the assessment form for the whole Board by giving importance to the duties and responsibilities of the Board of Directors and Good Corporate Governance. The assessment form covers the duties of the Board of Directors in all aspects and is consistent with the attribute and environmental, including having business ethics of the company. The assessment form is divided into 3 types, consisting of Self-Assessment of the Board of directors as a whole, Self-Assessment of committee as a whole, and Self-Assessment of the board of directors and of committee member on an individual basis which has the evaluation criteria as follows:

Score	0	1	2	3	4
Evaluation Criteria	Strongly disagree or No action was taken on that matter.	Disagreement or slight action on that matter.	Agreement or Proceeding on that matter.	Agreement quite a lot or well done on that matter.	High Agreement or Execute on that matter excellent

13. Mr.Kenichi Ishida ⁽²⁾	-	4/4	1/1	100	3/3	-	2/2	-
14. Ms.Walainut Trivisvavet	1/1	6/6	-	100	5/5	-	4/4	-

Remark:

(1) Mr.Hideo Matsumoto served as the Director until 7 June 2023

(2) Mr.Kenichi Ishida was appointed as the Director since 8 June 2023

(3) Mr.Kaoru Umehara served as the Director until 30 November 2023

(4) Mr.Tadashi Ishizuka was appointed as the Director since 7 December 2023

In the year 2023, the Company held 24 meetings of the Board of Directors and sub-committees, with the average attendance of the Board of Directors' meetings of the whole committee at 99 percent. There was 1 non-executive meeting that was held without the management at the Board of Directors meeting no. 7/2023 held on December 7, 2023, in order to assess the Managing Director's performance and to adjust the company's strategy for better performance.

2. Remuneration of Directors

The Company has the criteria for determination of remuneration for its directors and subcommittee member for submission to the shareholders' meeting for consideration and approval, and the policy on the determination of appropriate remuneration for its executive in line with their duties and responsibilities.

The remuneration of the Board of Directors was considered from their duties and responsibilities approved by the shareholders. The Nomination and Remuneration Committee shall consider the type of remuneration, guidelines, payment methods, and other benefits for the Board of Directors, subcommittee, and executive managements to be appropriate with the responsibilities consistent with the company's performance and market conditions, and propose to the shareholders meeting for approval of the remuneration, both monetary and non-monetary of the Board of Directors by individual basis each year, The

Nomination and Remuneration Committee must consider the responsibilities, the intention of the directors, type and size of the company's business, markets, and competitors, and the remuneration must be at the appropriate level for the responsibilities.

Compensation Criteria

The company has criteria for consideration of remuneration by considering the appropriateness of the assigned responsibilities and can be compared to listed companies in the Stock Exchange of Thailand that were in similar industries. The remuneration of directors is sufficient to motivate the directors to have quality and be able to perform their duties to achieve the goal according to the business direction of the company, which determines the composition of the remuneration into 2 parts as follows:

a. Monetary remuneration

Part 1 Annual Fee, consist of:

- The retainer fee is the remuneration paid to directors on a monthly basis whether or not there are meetings considering the operating results and the ability to operate according to goals.
- The attendance fee is the remuneration paid to directors who attended the meeting.

Part 2 The incentive fee / Bonus is a special remuneration paid to directors once a year by linking with the value created for shareholders such as the company's profits or dividends paid to shareholders.

In 2023, the company paid the compensations to directors a total of 20,462,109 Baht, which comprised 5,645,109 Baht as the Retainer Fee, 1,817,000 Baht as the Attendance Fee, and 13,000,000 Baht as the Bonus for the year 2022.

Compensation paid to each directors in 2023

(Unit : Baht)

Director Name	Position	Retainer Fee	Attendance Fee	Total	Bonus (2022)	Total
1. Dr.Thanong Bidaya	Independent Director, and Chairman of the Board of Directors	800,000	204,000	1,004,000	1,600,000	2,604,000

8.1.3 Corporate Governance on Subsidiaries and Associated Companies

The Company supervises its subsidiaries and associated companies to ensure that their business operations are in line with the policies and goals of the Company and that they have an appropriate return on investment. The Board of Directors, therefore, has established, in writing, the regulations to govern subsidiaries and associated companies as a guideline as follows:

- (1) Supervise subsidiaries and associated companies by sending representatives of the Company to be directors and/or senior executives in subsidiaries and associated companies according to the proportion of shares held in that company. This is to facilitate comprehensive control and determine the management direction of said subsidiaries and associated companies with transparency and verifiability. As such, the appointment of any representative to perform duties as director and/or senior executive in subsidiaries and associated companies must first be approved by the Nomination and Remuneration Committee and then presented to the Board of Directors for final authorization.
- (2) Determine the limit for the approval limit of the Board of Directors of the Subsidiary. If the limit is exceeded, it must seek approval from the company before proceeding.
- (3) A report of the operating results of subsidiaries and associated companies must be presented at the Board of Directors' meeting on a quarterly basis.

8.1.4 Monitoring on the Compliance of the Corporate Governance Policy and Practices

The Company and its Board take into account the rights of all stakeholder groups and consistently abide by corporate governance principles, best practices, and other supporting guidelines, including our Code of Conduct, to ensure equal and proper treatment of all stakeholders. In the past years, the Company has been monitoring to ensure good corporate governance principles and practices on the following:

1. Conflict of Interest

The Board of Directors has the policy to prevent conflicts between personal interests and the interests of the company. As defined in the Code of Conduct for directors, executives, and employees as follows:

1. Supervise the company to comply with the rules, procedures, and disclosure of connected transactions as strictly required by law or regulatory agency and according to the company's regulations.
2. Avoid making transactions that are related to oneself or persons / juristic persons. That may cause conflicts of interest with the company.
3. In the case of a transaction that is a connected transaction that does not comply with general trading conditions according to the principles approved by the Board of Directors or the nature and size of the transaction, is not within the authority of the management, must be reviewed and commented by the Audit Committee before proposing for approval from the Board of Directors or shareholders.
4. In the event that it is necessary to make a connected transaction, the transaction must be in accordance with general trading conditions according to the principles approved by the Board of Directors. With transparency and

fairness, as if making transactions with third parties and taking into account the maximum benefits of the company.

5. Stakeholders must not take part in considering the items that they have a conflict of interest.

2. Insider Trading Control

The company has a written guideline to prevent the use of inside information strictly in the Corporate Governance and Business Ethics of the Company, in order to prevent the use of inside information for improper benefits for oneself and others. It is the duty and responsibility of the supervisor to control and ensure the maintenance of internal information according to principles. The use of inside information that has not been disclosed to the public or general shareholders for the benefit of trading securities by themselves or others is considered an unethical act of the company.

Guideline for prevention of use of inside information of the company has approved from the Board of Directors meeting, No. 1/2006 held on July 28, 2006. TTW has distributed this guideline in a circulating letter and on the company's website for the Director, Executives, and Staff to acknowledge and comply strictly.

Guideline for Prevention of Use of Inside Information

Rationale

TTW is a listed company in the Stock Exchange of Thailand and has run its business in compliance with Public Limited Companies Act B.E.2535 (on the part of share trading), and with the Securities and Exchange Act B.E. 2535 (on the part of securities and exchange), through the performance of duties by directors, executive management, employees of TTW, and the employees of subsidiary companies. There has been a prohibition for such persons from using the essential and unpublicized facts and information that can significantly impose an effect on the price of shares, which they have learned from performing their duties or holding a position in the company; otherwise, they would be considered as committing a criminal offence and subject to punishments as provided by laws. There were some amendments made to Securities and Exchange Act B.E. 2559 (5th edition) as announced in the Thai Royal Gazette on 11 December 2016. TTW has notified these changes in a circulating letter to directors, executive management, employees of TTW, and employees of subsidiary companies to acknowledge and comply.

In order to prevent the directors, executive management, employees of TTW and employees of subsidiary companies, as well as TTW Company itself, from facing a charge on violating such laws, and in order to implement a good corporate governance approach of TTW; the company has defined the guideline for the prevention of internal information usage for all directors, executive management, employees of TTW and employees of subsidiary companies to comply strictly. All these persons shall comply with the provisions in the Securities and Exchange Act (5th edition) B.E. 2559. TTW has defined the guideline for the prevention of internal information usage as follows.

Directors

- (1) Directors shall not use the information acquired from holding the position as a director of the company in a wrongful manner or in a way that would cause damage to the company.
- (2) Directors shall not disclose the business confidential information or any information to any third party that may affect the company's business.
- (3) Directors, including their spouses and their minors, shall not conduct share trading while having access to internal information about the company, which will affect the price of the shares if this information is disclosed to the public.
- (4) Directors shall not reveal any unpublicized information to a third party, which may lead to a reservation of purchase or sale of the company's shares.

Employees

- (1) Employees shall strictly comply with the regulations defined by SET/SEC and applicable laws, which cover the equitable disclosure of information for shareholders and/or the public.
- (2) For disclosure of any information that may affect the business or the share price of the company, an approval must be sought from the Managing Director who may disclose the information or assign a responsible person to do so.
- (3) The work units in central administration that take function in providing information to the public and investors include Investors Relation and Company Secretary Units (under the Corporate Affairs Division). The work units that own information have a duty to provide support of such information. The directors, executive management and employees who have access to information about financial statement are prohibited by the company from trading shares within a period of 30 days prior to the disclosure of information and within a period of 24 hours after such disclosure. For any other significant information, executive management and employees who have access to the information are prohibited from trading shares during the period from the date that they have known about the information to 24 hours after the disclosure of such information to SET. In addition, TTW has adopted an internal control system to prevent the leakage of information thoroughly and cautiously. This is to prevent internal information from being revealed to the outside prior to formal disclosure. These measures and control systems are considered as a part of significant risk control measures of the company. It is the duty and responsibility of supervisors to oversee the protection of internal information in line with such measures. If an employee uses unpublicized internal information, or the ones that have not been revealed to general shareholders, for personal or other people's benefits from share trading shall be considered as violating the code of conduct defined by the company.

Securities Trading Based on the Use of Internal Information

Prohibited Persons

The persons who shall not trade the securities as per the prohibition set in the guideline for the prevention of internal information usage include:

- (1) Any directors, executive management, or the persons who have the authority to control the operation of the company.
- (2) Workers or employees in the chain companies or the persons holding a position or working in a line of duty that holds responsibility for internal information.
- (3) The persons holding status in favor of acknowledging internal information from performing their duties as an auditor, financial consultant, legal advisor, property price appraisal expert, or any other person doing duties related to internal information.
- (4) Parents, descendants, adoptive parents, or adopted children of the persons mentioned in (1) (2) and (3).
- (5) Siblings from the same mother and father, or the siblings from either the same mother or the same father, of the persons mentioned in (1) (2) and (3).
- (6) The spouses of the persons cohabitated with the persons mentioned in (1) (2) and (3).

Prohibited Securities

Securities mean the shares, share warrants, convertible debentures, and transferable subscription rights that are issued by the company.

General Practice Guideline

- (1) Prohibited persons shall not trade the securities at any given moment, as long as they know or should have known the essential and unpublicized information that may affect the price of TTW securities in the Stock Exchange.
- (2) Prohibited persons who have acknowledged such essential information from performing their duties and/or from holding a position in the company and its subsidiaries shall not reveal such information to other persons while it has not been publicized yet; except the revealing through the duties, they perform in the company.

Specific Practice Guideline

Apart from the general practice guideline for the prevention of internal information usage, there are some specific practice guidelines that the prohibited persons shall comply as detailed below:

- (1) The prohibited persons who have direct involvement in the preparation of TTW financial statements shall not trade TTW securities during the period from the commencement of such preparation to the end of the following day after the date of disclosing such statements.

- (2) Any directors, executive management, and employees who have received a draft copy of TTW financial statements shall not trade TTW securities during the period from the day that they received the draft of financial statements to the end of the date of disclosing such statements.
- (3) Prohibited persons who know or should have known that the company will reveal essential information that may affect the prices of TTW securities in the Stock Exchange shall not trade TTW securities starting from the date that they know or should have known about the event to the end of the following day after the date of revealing and distributing such information.
- (4) The company requires the directors and executive management to report the changes of securities holding in TTW Public Company Limited.
- (5) The Company has set a policy for directors and executive management to report to the Board of Directors at least 1 day in advance before trading the company's shares.

Reporting Procedures of Prohibited Persons

The Required Duty to Prepare the Report

- (1) Managing Director or a person holds an executive management position in accordance with Securities and Exchange Act shall prepare a report on their initial possession of securities and any changes in the possession of such securities afterward, as required by applicable laws and regulations; and shall submit such report to TTW simultaneously.
- (2) Executive management holds a position as a department head or higher shall prepare a report of the acquisition and the selling of TTW securities in their possession in the case that the volume of such acquisition or sale is equal or over 5% of the total securities that have been sold.

Reporting Method

- (1) The Managing Director or a person who holds an executive management position has a duty as required by laws shall prepare and submit a report of the possession of TTW securities of their own and their spouses and minor descendants. They are required to submit a copy of such report to the company on the same day that they have sent it to a respective government authority or a regulatory agency.
- (2) The Executive management holds a position as a department head or higher shall prepare a report of the possession and the changes in possession of TTW securities of their own and their spouses and minor descendants; and submit to the company within 7 working days from the date of ownership transfer of such securities.

In 2023, the Corporate Secretariat section has notified the directors, executives, and employees of the Company by e-mail about the Blackout Period in advance. The directors, executives, and employees of the Company have strictly complied with the guidelines to prevent the use of inside information and have not traded securities by using the inside information.

3. Securities Trading or Changing by Directors and Executives

The Company requires directors and executives to report trading of the Company's securities in order to prevent the buying or selling of securities by using inside information and to avoid any grievances regarding the appropriateness of insider trading. As such, directors and executives are prohibited from buying, selling, or making any changes to their holdings in Company securities for a period of 1 month before the disclosure of financial statements, financial status, business status, or any other important data of the Company to investors. Additionally, directors and executives are required to report any changes in their interests in the Company. Said information is updated every year and is kept for internal use only in compliance with the Notification of the Capital Market Supervisory Board No. Tor Chor 2/2552 regarding the reporting of interests of directors, executives, and related parties.

Guidelines

- The Company shall send a letter to directors and executives, including spouses and minor children, requesting for cooperation in refraining from trading or making any changes to holdings in company's securities and to provide reports to the Corporate Governance Committee and the Board of Directors on a quarterly basis.
- The Company shall require employees who have access to company's important information that could affect the movement of stock prices to refrain from trading any Company securities or wait until the public has received said information and has the time to evaluate it before doing in order to comply with the company's internal information protection policy.
- The Company shall require directors or executives to report to the corporate secretary department when trading or making changes to securities holdings in the company in order to prepare a proper and comprehensive report to regulatory agencies within the timeframe specified by law, consisting of the Report of Securities Holding Form (Form 59-1) and the Report of Changes in Securities and Derivatives Holding Form (Form 59-2).
- The Company shall require directors and executives to report any changes in their interests in the Company every time that is a change of information. Said information must be updated annually.

4. Anti-corruption and Bribery

TTW has adopted a Zero Tolerance policy regarding the corruption and bribery disclosed on the Company website. Board of Directors, executive management, supervisors, employees at all levels, or any related persons are prohibited from involving in all forms of corruption in any business transactions; and they shall comply with rules, regulations, and laws of any countries that TTW has been dealing a business. This policy shall be reviewed on a regular basis to identify a necessary revision for catching up with the new amendments of rules, regulations, standards, and laws; and with the changes the in business. TTW has adopted a policy on anti-corruption and bribery and defined the principles in the code of business ethics prohibiting the employees from requesting or receiving any benefits or assets that may motivate them to perform their duties in a wrongful way, omit the performance of some duties, or cause the company to lose a rightful benefit. Employees are also prohibited from offering or presenting benefits or assets to outsiders to motivate such persons to commit or omit action illegally in favor of a malpractice in his/her position.

Risk Assessment

In 2023, the Risk Management and Corporate Government Committee assessed the potential risk of corruption by assessing the risk of corruption separated from other risks, in particular, and reporting the risks to the Board of Directors with an internal audit unit to supervise the implementation of the risk assessment report.

Training and Communication

In 2023, the Company communicated and organized training to educate employees regarding anti-corruption policies and all related policies by publishing the anti-corruption articles and guidelines with good practices for employees at all levels. the company provided the lectures regarding anti-corruption practices during the orientation for new employees and tests on said lectures. Employees at all levels can access anti-corruption policies and other various policies via the company's intranet system, the company website, and the company's news board.

Guidelines for Prevention and Monitoring of Fraud and Corruption Risks

1. Provide an inspection process Evaluate internal control systems and risk management covering important systems such as procurement systems. Contracting Budgeting and control system accounting system, payment system, etc. in order to prevent and monitor the risk of fraud and corruption including giving suggestions about appropriate solutions
2. Provide channels to receive information about clues or complaints of violations offense or business ethics of the company or guidelines for preventing involvement in corruption or doubts in financial reports or internal control system With a policy to protect information providers or clues and will keep the information of the information provider confidential Including measures to check and determine penalties discipline of the Company and / or related laws In the event that you can contact the whistleblower or the complainant, the company will notify the result of the operation in writing.
3. The head of the relevant department is responsible for monitoring the operation. Improvements to correct errors (if any) and report to authorized persons, respectively.

Guidelines for Monitoring and Evaluating Implementation of Anti-Corruption Practices

1. Require executive management and employees to carry out regular self-assessment of their performance regarding compliance with the Good Corporate Governance Handbook and the Company's Code of Business Conduct, which includes the Company's good corporate governance policy and guidelines for the prevention of any forms of corruption, as well as the Code of Ethics/Conduct for all employees.

2. Establish and organize the examination of an internal control system, risk management, and corporate governance by the internal audit department, and provide continuous feedback and recommendations accordingly. Carry out audits in accordance with the annual audit plan approved by the audit committee and report the significant audit results and recommendations to the Audit Committee.

3. Assign the internal audit department to be responsible for ongoing testing and evaluation of fraud and corruption risk to implement anti-fraud and anti-corruption measures effectively, as well as to carry out follow-up, review, and improvement of anti-corruption measures on a regular basis. Assessment results must be presented in a timely and consistent manner to the Risk Management and Corporate Government Committee and the Board of Directors respectively.

4. If investigation finds any information or a complaint contains evidence with sufficient and reasonable grounds for the possibility of misconduct or for any action that may have a significant impact on the Company's financial position or performance, including any violation or action that is against the law or code of business ethics or anti-corruption measures of the Company, or if there are any doubts in regard to financial reports or the internal control system, the Audit Committee will report said issues to the Board of Directors so that actions can be taken and improved within a timeframe deemed appropriate by the Audit Committee.

The company provides communication guidelines for prevention of involvement in corruption. Publishing on various channels such as the intranet of the group and the company's website for the management and all employees to acknowledge and comply.

5. Whistleblowing

TTW has provided measures for complaints and clues by disseminating such measures in the Principles of Corporate Governance and on the website of the company and reviewed this measure to ensure that complaints are effective and complete. And also helps in tracking and monitoring the performance of directors, executives, and employees of the TTW Group to comply with laws, regulations, principles of corporate governance, and Business ethics and do not take any action that may indicate fraud.

Channels for Reporting Clues or Complaints

The Board of Directors has set up measures to report clues or complaints of unlawful conduct or behavior that may indicate corruption or misconduct of individuals in the organization, both from employees and other stakeholders, including incorrect financial reports or defective internal control systems, and has a mechanism to protect employees and informants of clues by creating a secret database system that only

related parties can access for allowing stakeholders to participate in monitoring the interests of the company more efficiently. Issues that can report:

- Any practices that are against the law or relevant regulations, including the code of conduct/ethics.
- Corruption or fraud.
- Suspicious actions relating to money laundering, accounting, finance, or control and monitoring practices.

In the case of any complaint of possible offense, a committee will be appointed to investigate the matter and take action in accordance with applicable regulations. Said committee would be made up of representatives from departments having no interest in the matter under investigation. Whistle-blowers may raise their concerns with the Audit Committee, the Board of Directors, or the Corporate Governance Department via 2 separate channels as follows:

By Email	By Post
cg@ttwplc.com	TTW Public Company Limited 30/130 Moo 12, Buddha Monthon 5 Road, Raikhing, Sampran, Nakhon Pathom 73210

Providing Protection to those who Report Complaints or Whistleblowers, and Related Persons

Complainants or whistleblowers, violations or non-compliance with laws will receive appropriate and fair protection from TTW, for example, without changing job positions, job description, workplace, suspend, threaten, disrupt work practice, dismissal, or any other action that is not fair to those who report the complaint or the informant for information about the complaint. TTW will keep it confidential and not disclose to unrelated people except those that need to disclose in accordance with the law must keep the information confidential and does not disclose to other people except as required by law. If there is a deliberate violation of the information released, the Company will proceed with punishment according to the Company regulations and/or take an legal action as the case may be.

Action when Receiving Complaints

1. The independent director will appoint the working group to collect the complaint.
2. The assigned working group will consider screening information to propose process and proper management methods.
3. The assigned working group proposes measures for actions that violate or do not comply with the Code of Conduct and various policies. The Board of Directors will consider with regard to total damage.
4. The Chairman of the Audit Committee, Independent Director, or Company Secretary report to the Board of Directors for acknowledgment, and report to the stakeholder who is the complainants if the complainant discloses him/herself.

In 2023, there were no complaints from stakeholders.

Personal Data Protection

In order to comply with the Personal Data Protection Act. B.E.2562, and to be amended in the future, the Company conducts the Personal Data Protection Policy and intends to protect the personal information that the companies collect, use, or disclose during business activities. The Board of Directors meeting no. 3/2022 held on 9 June 2022 resolved to approve the appointment of Data Protection Officer (DPO) to deal with related matters and publish the Personal Data Protection Policy on the Company's website, communicate with employees about law enforcement through channels and activities such as disseminating information via electronic mail, internal communication on OMD corner, bulletin boards and training, etc.

9. Internal Control and Related Party Transactions

9.1 Internal Control

The Board of Directors recognizes the importance of the efficient and adequate internal control system to prevent and reduce the potential risks by assigning the Audit Committee which consists of an independent director perform duties and express opinion freely to review the internal control system. The Internal Audit section reports directly to the audit committee, to review the accurate operational controls and financial reporting according to the annual audit plan approved by the audit committee, to ensure that the company's internal controls system is appropriate for the company's operations and sufficient to protect the company's assets, including preventing the exploitation of illegal benefits. Sufficient information is disclosed to ensure transparency and auditability in accordance with good corporate governance guidelines in order to able operate the business for the utmost benefit to all stakeholders on the basis of fairness. The Audit Committee has duties to consider selection, propose the appointment of the auditor and determine the remuneration, consider the company's information disclosure to be accurate and complete, and consider the connected transactions or any transactions that may cause conflicts of interest.

The Company has conducted the internal audit according to the Professional Standards of Internal Audit and Internal Control Practice of the Committee of Sponsoring Organizations of the Tread way Commission: COSO, which is related to business operations and management processes according to the 5 internal control elements as follows:

1. Control Environment

The company places importance on conducting business based on management in accordance with the principles of good corporate governance, transparency, verifiable, and aware of responsibility to all stakeholders, including setting policies written regulations and communicate to employees to be aware and follow the same guidelines.

2. Risk Assessment

The Board of Directors has assigned the Risk Management and Corporate Governance Committee to responsible for setting policy and risk management framework, including following up on the risk management results to ensure that they are appropriate and adequate, and report to the Board of Directors regularly.

3. Control Activities

The company has an internal control system that adequately and appropriately, a standard operating manual has been prepared for which the duties, responsibilities, and authority to approve are clearly defined.

4. Information & Communication

The company places importance on information systems and data communication by protecting the database, to make the collection, access, and use processes efficient and with adequate and appropriate security. The Company has a communication channel with outsiders through the Company's website to allow the stakeholders to receive news from the company.

In addition, the company places importance on opening opinions by providing a channel for reporting clues or complaints about non-compliance with the code of conduct to improve the management process. The company has measures to protect and keep information secret.

5. Monitoring Activities

The company requires systematic monitoring and control for all executives' level to ensure that operations are complete and appropriate. The internal audit department responsible for inspecting and following up on operations according to the recommendations agreed by the management and reporting the results to the Audit Committee for Acknowledgement and propose the Board of Directors

The Company did not find any flaws in the internal control systems in the past. However, the Internal Audit Section has suggestions to improve work efficiency, reduce repetitive operations by recommended and follow-up on action and report the results to the Audit Committee for acknowledgement.

In the year 2023, the Audit Committee held 5 meetings between the Management and auditors from EY Office Limited, and 1 meeting between the Audit Committee and Auditor without the Management to inquire about the audit plan and issues that independently detected.

9.2 Related Party Transactions

TTW complies with requirements, rules, and regulations of the Securities and Exchange Commission (SEC). In the case that TTW engages in a party transaction that may lead to a conflict of interest must be approved by the Board of Directors. The Audit Committee will determine the justification of the engagement in such a transaction by considering the maximum benefits for the company. The prices and conditions in the transaction must be based on a normal business nature, fair price, or by comparing it to a market price. Any directors who are related to such a transaction that may lead to a conflict of interest shall not be eligible to attend or vote in the meeting to review such an agenda.

Moreover, TTW also has the policy to disclose any related party transactions as defined in the announcement of The Stock Exchange of Thailand on the criteria, conditions, and method for the disclosure of related party transactions of a listed company and compliance with the requirements stipulated in the Securities and Exchange Act. Related party transactions were based on market prices and fair and at arms' length.

For the accounting period ended of December 31, 2023, the company has disclosed related party transactions in the note to a financial statement that has already been audited by the auditor of the company in compliance with generally accepted accounting standards and the Annual Registration Statement 2023 (Form 56-1 One Report), which contained the following details.

3 Statements of Financial Position

Report of the Board of Directors Responsibility towards Financial

The Board of Directors is responsible for the financial statement of TTW Public Company Limited (TTW) and subsidiaries to ensure that the financial statements, incomes, expenses and cash flow statement are accurate, reasonable and in line with the generally accepted accounting standard and policy as well as consistent practice and careful assumption.

The Board of Directors had delegated this responsibility to the Audit Committee which comprises qualified and experienced independent director with qualifications that fully meet the requirement of the Securities and Exchange Commission and related rules and regulations. The Audit Committee oversaw the internal control process to ensure its effectiveness and efficiency. They had also reviewed the financial statement for its accuracy, reliability and adequate disclosure of related information. The Audit Committee had presented the performance report to the company's Board of Directors.

The Board of Directors has the opinion that the 2023 financial statement of TTW Public Company Limited (TTW) and its subsidiaries showed financial standing, incomes, expenses and total cash flow that are accurate and reasonable, the record of accounting information is accurate and complete, the choice of accounting policy is appropriate and consistent, and the compliance is in accordance with the generally accepted accounting standard. The disclosure of information in the note to financial statement is adequate and the company's auditor has provided opinions on the financial statement of TTW Public Company Limited (TTW) and its subsidiaries without condition in the auditor's report.

(Thanong Bidaya)

Chairman of the Board of Directors

(Walainut Trivisvavet)

Managing Director

Independent Auditor's Report

To the Shareholders of TTW Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of TTW Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2023, the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of TTW Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TTW Public Company Limited and its subsidiaries and of TTW Public Company Limited as at 31 December 2023, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I draw attention to Note 1.2 to the consolidated financial statements regarding a subsidiary's rights agreement to produce and sell treated water (the agreement) granted by the Provincial Waterworks Authority expired on 14 October 2023. Under the agreement, the subsidiary has the right to renew the agreement after the expiry for a maximum total period of 20 years. The subsidiary exercised such right with the counterparty. On 3 October 2023, the subsidiary entered into a private partnership contract on the operation of water treatment and maintenance with the Provincial Waterworks Authority for a period of 10 years which is effective on 15 October 2023 onwards. My opinion is not modified in respect of this matter.

Key Audit Matter

Key audit matter is the matter that, in my professional judgement, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to this matter. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matter below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matter and how audit procedures respond for the matter are described below.

Assets for production of treated water and rights to produce and sell treated water and treat wastewater

The Group recognised the amortisation expenses of the assets for the production of treated water, the rights to produce and sell treated water and treat waste water of the Company and the assets that must be transferred at the end of concession of the subsidiary in the financial statements amounting to Baht 990 million (the Company only: Baht 532 million), of which the expenses during this year accounted for 39% of total expenses in the consolidated financial statements (33% of total expenses in the separate financial statements). In calculating the amortisation expenses, the Group used the units of production method which required an estimate of the number of units of treated water to be produced in the future, until the end of the concession period or the end of the operation contract or the end of useful life of the assets for the production of treated water of the Company or the end of the concession period of the subsidiary. The management must use judgement to estimate the amount of future production, based on present production volumes, production capacity, demand from customers, economic and industry conditions. This affects the amount of the amortisation expenses.

I assessed the assumptions applied by management in estimating the number of units to be produced in the future by inquiring with the responsible management and gaining an understanding of the method applied to estimate units of production. I also checked the duration of the concession and the duration of the rights to produce and sell treated water and treat wastewater to the relevant documents. In addition, I compared the number of units of production estimated by the Group with actual past and current production volumes and tested the Group's calculation of amortisation expenses for the year.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group but does not include the financial statements and my auditor's report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to

the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine the matter that was of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. I describe this matter in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

The accompanying notes are an integral part of the financial statements.

TTW Public Company Limited and its subsidiaries**Notes to consolidated financial statements****For the year ended 31 December 2023****1. General information****1.1 Corporate information**

TTW Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. Its major shareholder is Mitsui Water Holdings (Thailand) Company Limited, which was incorporated in Thailand. The Company is principally engaged in the production and sale of treated water to the Provincial Waterworks Authority (“PWA”) in the Amphur Nakorn Chaisri, Amphur Sam Pran, and Amphur Budha Monthon areas of Nakhon Pathom and the Amphur Muang and Amphur Kratumban areas of Samut Sakhon, under the “Water Purchase Agreement” made with the PWA dated 21 September 2000 (An amendment agreement dated 29 December 2008), which covers a period of 30 years as from the Actual Commencement Date (21 July 2004), and under the Concession to operate treated water granted by the Ministry of Natural Resources and Environment (“the Concessionaire”) for a period of 25 years commencing on 11 March 2005. The Company has to comply with certain conditions as stipulated in the Water Purchase Agreement and the Concession.

The terms of the Concession include certain significant conditions, such as that when the Company has completed half of the concession period, if the government or the local government agency wish to purchase the water production business of the Company, the Concessionaire is entitled to cancel the concession in order to purchase it, or permit the relevant local government agency to purchase it, at market price. However, it must provide the Company with advance notice of six months of such action.

The Company’s registered office is at 30/130 Moo 12, Budha Monthon 5 Road, Rai Khing, Sam Pran, Nakhon Pathom.

1.2 Rights agreement to produce and sell treated water with Provincial Waterworks Authority of a subsidiary

Rights agreement to produce and sell treated water (“the agreement”) between Pathum Thani Water Company Limited (“the subsidiary”) and the Provincial Waterworks Authority expired on 14 October 2023. Under the agreement, the subsidiary has the right to renew the agreement after the expiry for a maximum total period of 20 years. The subsidiary exercised such right with the counterparty. On 3 October 2023, the subsidiary entered into a private partnership contract on the operation of water treatment and maintenance with the Provincial Waterworks Authority for a period of 10 years which was effective on 15 October 2023 onwards.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Profession Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

a) The consolidated financial statements include the financial statements of TTW Public Company Limited (“the Company”) and the following subsidiary companies (“the subsidiaries”) (collectively as “the Group”):

Company's name	Nature of business	Country of incorporation	Percentage of shareholding	
			2023 (%)	2022 (%)
Pathum Thani Water Company Limited	Production and sale of treated water in Pathumthani	Thailand	98.0	98.0
Thai Water Operations Company Limited (68.5% held by the Company and 31.5% held by Pathum Thani Water Company Limited)	Operating and maintenance of water supply project	Thailand	68.5	68.5

b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.

c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.

d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.

e) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.

f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

2.3 The separate financial statements present investments in subsidiaries and associate under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2024

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2024. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

4. Significant accounting policies

4.1 Revenue and expense recognition

Sales of treated water

Sales of treated water are recognised when the Group supplies the water to the Provincial Waterworks Authority, and comprise the invoiced value, excluding value added tax, of the treated water supplied, after deducting discounts and allowances.

Net management income from production of water treatment

Net management income from production of water treatment is recognised when the Group has provided management services for water treatment production and supply to the Provincial Waterworks Authority and is presented at the amount of the consideration received or receivable after deducting the compensation paid or expected to be paid to the Provincial Waterworks Authority, excluding value added tax.

Service income

Service income is recognised in the amount to which the Company has a right to invoice, excluding value added tax, as it corresponds directly with the value to the customer.

Interest income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

Dividends

Dividends are recognised when the right to receive the dividends is established.

Other income and expenses

Other income and expenses are recognised on an accrual basis.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Raw materials and supplies

Raw materials and supplies are valued at the lower of cost (under the first-in, first-out method) and net realisable value and are charged to treated water production costs and services whenever consumed.

4.4 Investments in subsidiaries and associate

Investment in associate is accounted for in the consolidated financial statements using the equity method.

Investments in subsidiaries and associate are accounted for in the separate financial statements using the cost method.

Investment costs of subsidiaries are the values paid for their acquisition. The subsidiary is engaged in business under the agreement for the production and sale of treated water with the Provincial Waterworks Authority and concessions granted by state enterprises or government agencies, which have defined fixed periods of operation, as stipulated in the agreement and concessions; and the subsidiary has committed to transfer most of its assets used in the operation to the Provincial Waterworks Authority. Hence, parts of the investment cost are deemed to be investments in the acquisition of rights to operate business under the agreement and concessions, and are amortised on a straight-line basis over the remaining periods of the agreements, commencing from the date of investment in the subsidiary. This amortised amount is presented as amortisation of investments in subsidiaries, and recognised as an expense in profit or loss. The agreement expired during the year 2023.

In addition, parts of the investment costs in the subsidiary to which the subsidiary transferred most of its operations after investment, in order to reduce future operating costs, was amounts paid for acquisition of such operations. These are amortised on a straight-line basis over the remaining period of the Water Purchase Agreement made between the Company and the Provincial Waterworks Authority, commencing from the date of investing in the subsidiary, and presented as amortisation of investments in subsidiaries. The amortised amount is recognised as expense in profit or loss.

4.5 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

No depreciation of investment property is provided on land.

4.6 Property, plant and equipment/Depreciation

Land is stated at cost. Building and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment are calculated by reference to their costs on the straight-line basis over estimated useful lives

Building and building improvement	5 and 20	years
Furniture and office equipment	3, 5 and 10	years
Tools	3 and 5	years
Motor vehicles	5	years

Depreciation is included in determining income.

No depreciation is provided on land and assets under construction.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.7 Assets for production of treated water with public sector agency that are owned by the Company and amortisation

The Company's assets for production of treated water are stated at cost less accumulated amortisation and allowance for loss on impairment of assets (if any). Amortisation of the assets is calculated using the units of production method, based on the following formula:

$$\begin{aligned}
 \text{Amortisation for the period} &= \text{Net assets for production of treated water at the beginning of the period} \\
 &\quad \times \text{Percentage of treated water produced in the period} \\
 \text{Percentage of treated water} &= \frac{\text{Current period's actual production of treated water}}{\text{produced in the period}} \\
 &\quad (\text{Actual production of treated water for the period} + \text{Projected total production} \\
 &\quad \text{of treated water over the remaining term of the Water Purchase Agreement or} \\
 &\quad \text{the end of useful live of the assets for production of treated water}) \\
 \text{Net assets for production of} &= \text{Total assets for production of treated water - Accumulated depreciation} \\
 \text{treated water at the} &\quad \text{as at the beginning of the period} \\
 \text{beginning of the period} &
 \end{aligned}$$

Assets for production of treated water consist of costs of construction of a water treatment plant and distribution system, and related interest expenses and financial costs.

Depreciation is included in determining income.

No depreciation is provided on assets under construction.

4.8 Assets for production of treated water that must be transferred at end of concession and amortisation

Assets for production of treated water of Pathum Thani Water Company Limited (a subsidiary) that must be transferred to the Provincial Waterworks Authority at the end of the rights agreement to produce and sell treated water (land, water treatment plant and distribution system) are stated at cost less accumulated amortisation and allowance for loss on impairment of assets (if any). Amortisation of the assets is calculated using the units of production method, based on the following formula:

$$\text{Amortisation for the period} = \text{Net assets for production of treated water that must be transferred at end of concession at the beginning of the period} \times \text{Percentage of treated water produced in the period}$$

$$\text{Percentage of treated water produced in the period} = \frac{\text{Current period's actual production of treated water}}{\text{(Actual production of treated water for the period + Projected total production of treated water over the remaining term of concession for production and sale of treated water)}}$$

$$\text{Net assets for production of treated water that must be transferred at end of concession at the beginning of the period} = \text{Total assets for production of treated water that must be transferred at end of concession - Accumulated amortisation as at the beginning of the period}$$

Amortisation is included in determining income.

4.9 Rights to produce and sell treated water and treat waste water and amortisation

The Company recorded cost of rights to produce and sell treated water and treat waste water ("Operation rights") at cost as at the acquisition date, and allocated such cost in line with forecasted revenues calculated as at the acquisition date.

a) Rights to produce and sell treated water

Rights to produce and sell treated water are stated at cost less accumulated amortisation and any impairment losses. Amortisation of the rights is calculated using the units of production method, based on the following formula:

$$\begin{aligned}
 \text{Amortisation for the period} &= \text{Net rights to produce and sell treated water as at the beginning of the} \\
 &\quad \text{period} \times \text{Percentage of treated water produced in the period} \\
 \text{Percentage of treated water} &= \frac{\text{Current period's actual production of treatment water}}{\text{produced in the period}} \\
 &\quad \text{(Actual production of treated water for the period + Projected total} \\
 &\quad \text{production of treated water over the remaining term of operation rights)} \\
 \text{Net rights to produce and} &= \text{Total rights to treated water - Accumulated amortisation as at the beginning} \\
 \text{sell treated water at the} &\quad \text{of the period} \\
 \text{beginning of the period} &
 \end{aligned}$$

Amortisation is included in determining income.

b) Rights to treat waste water

Rights to treat waste water are stated at cost less accumulated amortisation and any impairment losses. Amortisation of the rights is calculated using the units of production method, based on the following formula:

$$\begin{aligned}
 \text{Amortisation for the period} &= \text{Net rights to treat waste water at the beginning of the period} \\
 &\quad \times \text{Percentage of waste water treatment in the period} \\
 \text{Percentage of waste water} &= \frac{\text{Current period's actual treatment of waste water}}{\text{treated in the period}} \\
 &\quad \text{(Actual treatment of waste water for the period + Projected total} \\
 &\quad \text{treatment of waste water over the remaining term of operation rights)} \\
 \text{Net rights to treat waste} &= \text{Total rights to treat waste water - Accumulated amortisation as at the} \\
 \text{water at the beginning of} &\quad \text{beginning of the period} \\
 \text{the period} &
 \end{aligned}$$

Amortisation is included in determining income

4.10 Rights to produce and sell treated water from business acquisition and amortisation

Rights to produce and sell treated water, which arose as a result of the acquisition of ordinary shares in Pathum Thani Water Company Limited being made at a cost higher than the fair value of this subsidiary, is regarded as an intangible asset with a definite life. It is carried at cost less accumulated amortisation and allowance for loss on impairment (if any).

The Company amortises it on a straight-line basis over the remaining period of the subsidiary's right agreement for the production and sale of treated water, starting from the acquisition date, (approximately 16 years) and tested for impairment whenever there is an indication that it may be impaired. The amortisation period and the amortisation method for rights to produce and sell treated water are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss. The agreement expired during the year 2023.

4.11 Intangible assets

The intangible assets are rights in assets for maintenance, management project and sludge management system of the subsidiary are carried at cost less accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on the straight-line basis over the economic useful life (estimated 20 years) and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

4.12 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less any accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, lease payments made at or before the commencement date of the lease, to restore the underlying assets less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Land	15 and 20	years
Motor vehicles	2 - 7	years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Right-of-use assets are presented as part property, plant and equipment in the statement of financial position.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

4.13 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associates, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

4.14 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment, right-of-use assets, investment property and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of rights to produce and sell treated water. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

4.15 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contribution is recognised as expenses when incurred.

Defined benefit plans

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

4.16 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.17 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent

that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.18 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI), or fair value through profit or loss (FVTPL). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on listed equity investments are recognised as other income in profit or loss.

Classification and measurement of financial liabilities

At initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method.

Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Regular way purchases and sales of financial assets

Regular way purchases and sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace are recognised on the settlement date, i.e., the date on which an asset is delivered.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Group considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due, and considers a financial asset as credit impaired or default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

4.19 Hedge accounting - Cash flow hedges

The associate recognises the effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in profit or loss. The cash flow hedge reserve is adjusted to the lower (in absolute amounts) of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The way cash flow hedge reserve accumulated in other comprehensive income are subsequently accounted for, depends on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the reserve accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and is not recognised in other comprehensive income for the period. For any other cash flow hedges, the reserve accumulated in other comprehensive income is subsequently reclassified to profit or loss as a reclassification adjustment in the same period which the hedged cash flows affect profit or loss.

cash flow hedge accounting is discontinued, the cash flow hedge reserve accumulated in other comprehensive income must remain in equity if the hedged future cash flows are still expected to occur. Otherwise, the reserve will be immediately reclassified to profit or loss as a reclassification adjustment. After discontinuation, once the hedged cash flow occurs, the way the reserve remaining in equity is accounted for depends on the nature of the underlying transaction as described above.

4.20 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures, and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Assets for production of treated water and rights to produce and sell treated water and treat waste water

In determining recognised the amortisation expenses of the assets for the production of treated water, the rights to produce and sell treated water and treat waste water of the Company and the assets that must be transferred at the end of concession of the subsidiary. The Group used the units of production method which required an estimate of the number of units of treated water to be produced in the future, until the end of the concession period or the end of the operation contract or the end of useful live of the assets for the production of treated water of the Company or the end of the concession period of the subsidiary. The management must use judgement to estimate the amount of future production, based on present production volumes, production capacity, demand from customers, economic and industry conditions. This affect the amount of the amortisation expenses.

6. Related party transactions

During the years, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group and those related parties.

(Unit: Thousand Baht)

Total trade and other payables	153,489	179,546	111,778	126,756

22. Long-term loans

			(Unit: Thousand Baht)	
			Consolidated / Separate financial statements	
Loan	Interest rate (% per annum)	Repayment schedule	2023	2022
1	12-month fixed deposit rate + a stipulated margin	Quarterly installments as from June 2020 to June 2026	1,180,000	1,640,000
2	Non-cumulative compounded reference rate + a stipulated margin	Quarterly installments as from July 2022 to April 2027	700,00	900,000
Total			1,880,000	2,540,000
Less: Current portion			(660,000)	(660,000)
Long-term loans, net of current portion			1,220,000	1,880,000

Movement of long-term loans account during the years ended 31 December 2023 and 2022 is summarised below:

		(Unit: Thousand Baht)	
		Consolidated / Separate financial statements	
		2023	2022
Beginning balance		2,540,000	2,100,000
Add: Additional borrowings		-	1,000,000
Less: Repayment		(660,000)	(560,000)
Ending balance		1,880,000	2,540,000

The loan agreements contain several covenants which, among other things, require the Company to maintain certain debt to equity ratio at the rate prescribed in the agreements.

23. Debentures

					(Unit: Thousand Baht)	
					Consolidated / Separate financial statements	
Debentures	Life	Date of issue	Maturity date	Interest rate	2023	2022
					(% per annum)	
1	10 years	21 May 2015	21 May 2025	3.98	1,400,000	1,400,000
2	5 years	1 February 2018	1 February 2023	2.33	-	1,000,000
3	7 years 2 months	20 December 2019	20 February 2027	2.41	1,000,000	1,000,000
Total					2,400,000	3,400,000
Less: Current portion of debentures					-	(1,000,000)
Less: Deferred debenture issuing costs					(1,086)	(1,575)
Debentures, net of current portion					2,398,914	2,398,425

All debentures of the Company are unsecured, senior debentures with no trustees and with a par value of Baht 1,000 each. The interest is payable every 6 months throughout the life of the debentures.

The Company is required to maintain certain financial ratios i.e. debt to equity ratio at the rate prescribed.

24. Leases

The Group has lease contracts in its operations. Land leases have lease terms of 15 and 20 years and motor vehicles leases have lease terms between 2 - 7 years.

a) Right-of-use assets

Movement of right-of-use assets for the years ended 31 December 2023 and 2022 are summarised below:

(Unit: Thousand Baht)

	Consolidated financial statements			Separate financial statements		
	Motor		Total	Motor		Total
	Land	vehicles		Land	vehicles	
As at 1 January 2022	27,016	34,440	61,456	27,016	27,681	54,697
Additions	-	5,992	5,992	-	5,992	5,992

As at 31 December 2023	23,662	23,710	47,372	23,662	19,794	43,456

b) Lease liabilities

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Lease payments	58,108	65,618	53,574	60,002
Less: Deferred interest expenses	(7,571)	(8,949)	(7,244)	(8,536)
Total	50,537	56,669	46,330	51,466
Less: Portion due within one year	(12,638)	(11,285)	(10,670)	(9,451)
Lease liabilities - net of current portion	37,899	45,384	35,660	42,015

c) Expenses relating to leases that are recognised in profit or loss

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	For the years ended 31 December			
	2023	2022	2023	2022
Depreciation expense of right-of-use assets	13,098	12,858	11,175	11,007
Interest expense on lease liabilities	2,399	2,456	2,120	2,120
Expense relating to short-term leases and leases of low-value assets	13,625	36,776	13,498	36,197

d) Others

The Group had total cash outflows for leases for the year ended 31 December 2023 of Baht 28 million, (2022: Baht 51 million) (the Company only: Baht 25 million (2022: Baht 48 million)), including the cash outflow related to short-term lease and leases of low-value assets.

25. Provision for long-term employee benefits

Provision for long-term employee benefits, which represents compensation payable to employees after they retire, was as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Provision for long-term employee benefits				
at beginning of year	81,709	73,379	53,376	47,816
Included in profit or loss:				
Current service cost	6,911	7,670	4,217	4,678
Interest cost	2,244	1,449	1,385	882
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	4,180	-	1,514	-
Financial assumptions changes	(5,187)	-	(2,823)	-
Experience adjustments	(6,282)	-	(4,405)	-
Benefits paid during the year	(215)	(789)	(215)	-
Provision for long-term employee benefits				
at end of year	83,360	81,709	53,049	53,376

The Group expect to pay Baht 5 million of long-term employee benefits during the next year (the Company only: 5 million).

As at 31 December 2023, the weighted average duration of the liabilities for long-term employee benefits is 9.25 - 15.41 years (2022: 10.54 - 15.76 years) (the Company only: 9.25 years (2022: 10.54 years)).

Significant actuarial assumptions are summarised below:

(Unit: % per annum)

	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Discount rate	2.92 - 3.30	1.80 - 2.29	2.92	1.80
Salary increase rate	5.0	5.0	5.0	5.0
Turnover rate	0 - 9.0	0 - 9.0	0 - 8.0	0 - 8.0

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2023 and 2022 are summarised below:

(Unit: Thousand Baht)

As at 31 December 2023

	Consolidated		Separate	
	financial statements		financial statements	
	Increase 1%	Decrease 1%	Increase 1%	Decrease 1%
Discount rate	(4,875)	5,588	(2,420)	2,747

30. Promotional privileges

a) The Company received promotional privileges from the Board of Investment for production of treated water, pursuant to the investment promotion certificate No. 59-0683-1-00-1-0 issued on 29 February 2016. Subject to certain imposed conditions, the main privileges include the following:

- Exemption from import duty on imported machinery under specified conditions.
- Exemption from corporate income tax on net profit from the promoted operations for a period of five years from the date the promoted operations begin generating revenues (31 March 2019).

b) The subsidiary received the promotional privileges extension for a period of eight years according to investment promotional privileges for restore investment after the floods, pursuant to the investment promotion certificate No. 5 1 8 7 (2)/2 5 5 6 (replacing earlier investment promotion certificate No. 1451(2)/2551) and during the year 2015, the subsidiary received promotional privileges from the Board of Investment for expand production of treated water, pursuant to the investment promotion certificate No. 59-0392-1-00-1-0 issued on 1 September 2015. Subject to certain imposed conditions, the main privileges include the following:

- Exemption of import duty on imported machinery under specified conditions.
- Exemption from corporate income tax on net profit from the promoted operations for a period of five years from the date the promoted operations begin generating revenues (1 December 2017).

All tax privileges of the subsidiary have ended during the year 2022.

The Group's operating revenues for the years ended 31 December 2023 and 2022, divided between promoted and non-promoted operations, are summarised below.

(Unit: Thousand Baht)

	Consolidated financial statements			
	Promoted operations		Non-promoted operations	
	2023	2022	2023	2022
Sales of treated water	-	-	5,525,950	5,574,938

(Unit: Thousand Baht)

	Separate financial statements			
	Promoted operations		Non-promoted operations	
	2023	2022	2023	2022
Sales of treated water	-	-	4,029,876	3,866,918

31. Basic earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

32. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

The Group is principally engaged in the production and sell of treated water and provides service of production of water treatment and relating services of production and sales of treated water. Its operations are carried on only in Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographic area.

Geographic information

The Group operates in Thailand only. As a result, all the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customer

For the year 2023, the Group has revenue from a major customer in amount of Baht 5,523 million (2022: Baht 5,378 million) accounted for 94% of total revenues of the Group.

33. Provident fund

The Group and its employees have established provident funds jointly with their employees in accordance with the Provident Fund Act B.E. 2530. The Company, the subsidiaries and their employees contribute to the funds monthly at the rates of 5% - 15% of basic salary. The funds, which are managed by Kasikorn Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2023 amounting to approximately Baht 11 million (the Company only: Baht 6 million) (2022: Baht 10 million (the Company only: Baht 6 million)) were recognised as expenses.

34. Dividend paid

Dividends	Approved by	Total dividends (Thousand Baht)	Dividend per share (Baht)

Liabilities for which fair value are disclosed				
Debentures	-	3,443,018	-	3,443,018

During the current year, there were no transfers within the fair value hierarchy.

37. Financial instruments

37.1 Financial risk management objectives and policies

The Group's financial instruments principally comprise cash and cash equivalents, trade and other receivables, investments, trade and other payables, long-term loans and debentures. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to trade and other receivables and there is a high concentration of risk since the Group has only one major customer, the Provincial Waterworks Authority. However, because the Provincial Waterworks Authority is a government agency, the Group does not expect to incur material financial losses. The maximum exposure to credit risk is limited to the carrying amounts of receivables as stated in the statement of financial position.

Market risk

The Group has one type of market risk comprising of interest risk as follows:

Interest rate risk

The Group's exposures to interest rate risk relate primarily to their cash at banks, other current financial assets, other non-current financial assets, long-term loans and debentures. However, since most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

As at 31 December 2023 and 2022, significant financial assets and liabilities classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date

(Unit: Thousand Baht)

Liquidity risk

The Group monitors the risk of a shortage of liquidity position to meet its obligations by maintaining an adequate level of cash and cash equivalents to cover the liquidity requirements. The Group has access to a sufficient variety of sources of funding.

The table below summarises the maturity profile of the Group's non-derivative liabilities as at 31 December 2023 and 2022 based on contractual undiscounted cash flows.

(Unit: Thousand Baht)

	Consolidated financial statements			
	As at 31 December 2023

37.2 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

38. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value and it meets financial covenants attached to the loan agreements. The Group has complied with these covenants throughout the reporting periods.

As at 31 December 2023, the Group's debt-to-equity ratio was 0.33:1 (2022: 0.46:1) and the Company's was 0.39:1 (2022: 0.53:1).

39. Events after the reporting period

On 22 February 2024, the Company's Board of Directors Meeting passed a resolution proposing an additional dividend payment of 2023 of Baht 0.30 per share for approval granted by the Annual General Meeting of the shareholders, the interim dividend of Baht 0.30 per share already paid, therefore, total dividend payment is Baht 0.60 per share. The dividend payment is subject to approval from the Annual General Meeting of the shareholders.

40. Approval of financial statements

These consolidated financial statements were authorised for issue by the Company's Board of Directors on 22 February 2024.

Information of Head of Internal Audit and Head of Compliance

The Company conducts internal audits in accordance with the Professional Practice of Internal Auditing Standards and the Internal Control Practices Framework of the Committee of Sponsoring Organizations of the Treadway Commission (COSO), which are generally accepted in accordance with the principles and essence of the assessment of the internal control system's sufficiency. Considering the necessary principles of internal control in 5 aspects as follows:

1. Control Environment
2. Risk Assessment
3. Control Activities
4. Information and Communication
5. Monitoring Activities

The Company's Audit Committee has considered assigning the internal audit head to perform the internal audit by planning the audit to cover the company's business. When the audit is completed, the internal audit results will be reported to the person who was examined and the management to inform them about the operational guidelines that should be improved, including conducting audits of departmental issues in the organization that have been audited and advised by auditors. The internal audit head will follow up on the results that the management has implemented and report the results to the management initially. The results of the quarterly audit and the follow-up results will be submitted to the Audit Committee for quarterly acknowledgment, and then the Chairman of the Audit Committee will report the results to the Board of Directors.

Details of the Company's internal audit head are as follows:

Audit Committee Report

To The Shareholders

The Audit Committee of TTW Public Company Limited consists of a number of experts in various fields, three of which are Independent Directors, with Mr. Phairuch Mekarporn as the Chairman of the Audit Committee, Mr. Somnuk Chaidejsuriya, and Mr. Yuttana Yimgarund as members of the Audit Committee, and Mrs. Naruemon Udomkiat, the Internal Audit Manager of the Company is the Audit Committee Secretary.

In 2023, the Audit Committee, in the performance of its duties in accordance with the scope of responsibilities specified in the Audit Committee Charter as approved by the Board of Directors, convened 5 meetings, and reported said meeting results to the Board of Directors each quarter, with an assessment of key matters summarized as follows.

1. Carried out examination of the annual audit plan and quarterly audit results in order to assess the work systems and internal control system of the Company, as well as to provide advice and propose solutions for the internal audit and supervision of operations to ensure that the internal audit system is satisfactory and is standardized in accordance with the regulations of the Office of the Securities and Exchange Commission (SEC).
2. Carried out reviews of legal compliance with rules and regulations of relevant external agencies, as well as rules and regulations within the Company itself.
3. Review related transactions to ensure that they are normal business operations. There is no benefit to those involved.
4. Carried out reviews of quarterly and annual financial statements before proposing to the Board of Directors for consideration, with special emphasis on the implementation of accounting standards, related party transactions, and connected transactions, and provided assessment opinions to the Company's management regarding the performance of asset management for the full benefit of the Company.
5. Assessed the selection, nomination for an appointment, and termination of independent persons to act as the Company's auditors and proposed the remuneration for said persons. Convened meetings with the auditor without Company management in attendance.

The Audit Committee performed its duties with prudence and provided independent opinions in the best interests of the Organization without any restriction in the obtaining of Company data, resources, and the full cooperation of the Company. The Audit Committee carried out an evaluation of the performance of its duties annually for the continued improvement and development of its duties in an effective and efficient manner in order to achieve the objectives assigned by the Board of Directors.

For the year 2024, the Audit Committee has proposed to the Board of Directors the appointment of Mrs. Wilai Sunthornwanee, Certified Public Accountant No. 7356 and/or Ms. Manee Rattanabunnakit, Certified Public Accountant No. 5313, and/or Ms. Poonnart Paochareon, Certified Public Accountant No. 5238, and/or Ms. Kunlapee Piyawannasuth, Certified Public Accountant No. 6137 of EY Office as the Company's auditor for another year, with the Audit fees not exceeding 1,460,000 Baht. This shall be proposed for approval at the Annual General Meeting of Shareholders in 2024.

(Mr. Phairuch Mekarporn)

Chairman of the Audit Committee

Executive Committee Report

To The Shareholders

The Executive Committee of TTW Public Company Limited consists of a number of experts in various fields, with Mr. Phongsarit Tantisuvanitchkul as the Chairman of the Executive Committee, Dr.Sombat Kitjalaksana, Mr.Suvich Pungchareon, Mr.Kenichi Ishida and Ms.Walainut Trivisvavet as members of the Executive Committee

In 2023, the Executive Committee, in the performance of its duties in accordance with the scope of responsibilities specified in the Executive Committee Charter as approved by the Board of Directors, convened its 5 meetings, and reported said meeting results to the Board of Directors each quarter, with an assessment of key matters summarized as follows:

1. Consider the Company's and its subsidiaries' operating plans and budgets and propose to the Board of Directors for approval as well as to continuously monitor the performance of the management in accordance with the plan and budget.
2. Implementation of policies and other aspects of management as well as budgeting were monitored regularly to ensure they are carried out as assigned by the Board.
3. Consideration of projects, investments, and other usual business transactions falling under the limits or annual budget approved by the Board and within the limits of authority delineated in the Company's Approval Authority.
4. The Company's business performance was monitored quarterly, including operating and financial results.
5. The Executive Committee's charter was reviewed and found to be appropriated and aligned with the Committee's performance of its duties as well as with relevant policies and procedures.
6. Performing other duties as delegated from time to time by the Board of Directors

(Mr.Phongsarit Tantisuvanitchkul)
Chairman of the Executive Committee

Nomination and Remuneration Committee

To The Shareholders

The Nomination and Remuneration Committee of TTW Public Company Limited consists of a number of experts in various fields, with Mr.Yuttana Yimgarund as the Chairman of the Nomination and Remuneration Committee, Mr.Phongsarit Tantisuvanitchkul, Mr.Somnuk Chaidejsuriya, and Mr.Tadashi Ishizuka as member of the Nomination and Remuneration Committee

In 2023, the Nomination and Remuneration Committee, in the performance of its duties in accordance with the scope of responsibilities specified in the Nomination and Remuneration Committee Charter as approved by the Board of Directors, convened its 3 meetings to consider the significant matters and report the results to the Board of Directors that can be summarized as follows:

1. Consideration and selection of candidates as directors to replace those who were due to retire by rotation by taking into account their knowledge, ability, experience, transparency, morality, responsibility, maturity, and professionalism. It also took into account the Board Diversity and set a Board Skills Matrix to determine the qualifications of the directors to be nominated based on the necessary skills, appropriate qualifications, and are consistent with the composition and Board's structure according to the company's business strategy. In addition, the Director Pool database from the Thai Institute of Directors Association (IOD) is also used for recruiting new directors.
2. Consideration and determination of remuneration for directors and the Managing Director by taking into account the appropriateness for duties and responsibilities of the directors, together with the company's operational results, compared with that of companies in the same industry and on a similar scale.
3. Reviewing the criteria for granting the right of shareholders to nominate persons to be directors and the agenda of the Annual General Meeting of Shareholders in advance.
4. Consideration and review of the Nomination and Remuneration Committee's Charter to ensure that the format and topic are in the same direction and in line with the CG Code.

In this regard, the Nomination and Remuneration Committee has performed its duties independently in accordance with good corporate governance principles to make the recruitment and remuneration processes transparent and build the confidence of shareholders and all stakeholders.

(Mr.Yuttana Yimgarund)

Chairman of the Nomination and Remuneration Committee

Risk Management and Corporate Governance Committee

To The Shareholders

The Risk Management and Corporate Governance Committee of TTW Public Company Limited consists of a number of experts in various fields, with Mr.Somnuk Chaidejsuriya serves as Chairman of the Risk Management and Corporate Governance Committee, Ms.Payao Marittanaporn, Mr.Phairuch Mekarporn, and Mr.Kenichi Ishida serve as Members of the Risk Management and Corporate Governance Committee and Ms.Walainut Trivisvavet serves as Member and secretary to the Risk Management and Corporate Governance Committee.

In 2023 the Risk Management and Corporate Governance Committee has performed its work in accordance with the scope of duties and responsibilities as assigned by the Board of Directors, which is specified in writing in the Risk Management and Corporate Governance Committee's Charter. The Risk Management and Corporate Governance Committee convened its 4 meetings to consider the important matters that can be summarized as follows:

Risk Management

1. Considering the annual risk management plans of the company to ensure that such plans have addressed such internal and external risk factors which may affect the Company's operations.
2. Considering plans and strategies in line with the risk management policies to be able to assess, monitor, and control the Company's overall risks to stay at an acceptable level.
3. Monitoring and supervising risk management on a quarterly basis through the reports from the management of the Company and reporting on the results of its performance in respect of risk management to the Board of Directors on a quarterly basis.

Corporate Governance

1. Supervising the performance of the Board of Directors, Executive Committee, and Subcommittee and the management of the company to ensure compliance with the Principles of Good Corporate Governance, Code of Conduct and Business ethics. Promoting information disclosure and transparency of quarterly reports on trading/changes in holdings of securities by directors and executives of the company on a quarterly basis.
2. Reviewing the Company's good corporate governance practice by comparing it with the good corporate governance principles of the international standard and the Stock Exchange of Thailand and propose the same to the Board of Directors for consideration and regular update.
3. Reporting on the results of its performance in respect of Corporate Governance to the Board of Directors on a quarterly basis.

Sustainability

1. Supervising the operations includes providing advice and suggestion for operations in economics, social, environmental, and corporate governance dimensions for sustainable business operations.
2. Monitoring performance against various indicators and providing advice on reporting information related to sustainability.
3. Reporting to the Board of Directors on what needs to be improved to comply with the specified policies and strategies.

(Mr.Somnuk Chaidejsuriya)
