#### **Consolidated Income Statements**

For the three-month period that ended on 31 December 2009 ("1QFY10"), total service income of the Group was Baht 1,076 million, a decrease of Baht 507 million, or 32.0%, from Baht 1,583 million for the three-month period that ended on 31 December 2008 ("1QFY09"). The lower revenues were a result of 1) lower asset utilisation in our subsea engineering group, which resulted in revenues of Baht 363 million, or a 35.0% decrease from 1QFY09; lower asset utilisation in our drilling group, which resulted in revenues of Baht 237 million, or a 47.4% decrease from 1QFY09, offset by 1) strong performance by the Seascape group, which resulted in revenues of Baht 90 million, or a 245.7% increase from 1QFY09. On the sub-sea engineering side, utilisation rates for 1QFY10 dropped to 45.8%, compared with 58.7% from 1QFY09 was still the effect from the global economic downturn in last year. The effects of this downturn did not impact the MOS subsea business until 2QFY09. However, this quarter indicates an upward trend when seasonal factors are considered as a result of apparent marginal recovery from the global economic downturn. On the drilling side, utilisation rates declined from 100.0% in 1QFY09 to 49.9% in 1QFY10 as only one rig, MTR-2 was working as compared with two rigs were working in 1QFY09. Another rig, MTR-1 was released by Hess Indonesia as it reached the end of its contract in 4QFY09. This rig is presently located at facilities in Thailand and is waiting for new contract awards.

For 1QFY10, gross profits were Baht 246 million, a decrease of Baht 215 million, or 46.7%, from Baht 461 million for 1QFY09. The subsea engineering group generated Baht 121 million of gross profits (17.9% margin), the drilling group generated Baht 45 million of gross profits (17.0% margin), while the Seascape group generated Baht 76 million of

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

gross profits (60.0 % margin). The decrease of gross profits was mainly due to the lower revenue generated in the quarter while fixed costs such as minimum crews on board and depreciation were still incurred.

Administrative expenses were Baht 113 million, an increase of Baht 5 million, or 4.7%, from Baht 108 million for 1QFY09. The increase was primarily due to a change in accruing bonuses starting in 1QFY10.

Operating profits were Baht 154 million, a decrease of Baht 233 million, or 60.2%, from Baht 387 million for 1QFY09. The lower operating profits were mainly due to a result of a decrease in gross profits of Baht 215 million as mentioned above.

Finance costs were Baht 16 million, a decrease of Baht 19 million, or 52.7%, from Baht 35 million for 1QFY09. The lower costs were due to the lower LIBOR rate in 1QFY10 as compared with 1QFY09.

Income taxes were Baht 16 million, a decrease of Baht 19 million, or 55.0%, from Baht 35 million for 1QFY09. The lower income taxes were mainly due to the completion of the MTR-1 contract in 4QFY09 which resulted in a decrease in taxes paid in Indonesia and deferred tax assets.

Net profits were Baht 127 million, including an exchange gain of Baht 14 million, as compared to a net profit for 1QFY09 of Baht 314 million, including an exchange gain of Baht 2 million. Excluding exchange gains and income taxes, net profits decreased by Baht 217 million, or 62.7%. The decrease was primarily due to lower asset utilisation as mentioned above.

#### **Business Segment Analysis**

Drilling: The drilling segment generated 24.4% and 23.6% (\*) of the Group's total revenues and operating profit, respectively.

During the quarter, MTR-1 completed its contract with Hess in 4QFY09 and is waiting for new contract awards. MTR-2 is under contract with Chevron (Indonesia) and working in Indonesia. Average utilisation of MTR-1 and MTR-2 for the quarter was 49.9%.

Subsea Engineering: The assets in our subsea engineering segment had a 45.8% utilisation rate during the quarter and generated 62.6% and 51.9% (\*) of the Group's total revenues and operating profit, respectively.

(\*) Operating profit calculations include foreign exchange gains and losses.

The utilisation rate is calculated by adding the number of days that our vessels worked including any pre-mobilisation time, divided by the number of available days, which is total calendar days minus planned maintenance.

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

#### **Consolidated Balance Sheets**

Current assets increased by Baht 2,493 million, or 81.1%, from Baht 3,073 million in the forth quarter of FY2009 ("4QFY09") to Baht 5,566 million in the first quarter of FY2010 ("1QFY10") due mainly to an increase in cash and cash equivalents of Baht 2,476 million which resulted from the rights issue of Baht 3,593 million, offset by partial of newbuild rig and vessel instalments.

Non-current assets increased by Baht 1,748 million, or 15.2%, from Baht 11,482 million in 4QFY09 to Baht 13,230 million in 1QFY10 due mainly to an increase in property, plant, and equipment of Baht 1,822 million resulted from newbuild rig and vessels instalments totally Baht 1,113 million, deposits for purchase of DP2 construction support vessel (Team Siam) of Baht 197 million and acquisition of Mermaid Asiana of Baht 632 million, which were partially offset by depreciation of Baht 145 million.

Current liabilities decreased by Baht 341 million, or 19.1%, from Baht 1,788 million in 4QFY09 to Baht 1,447 million in 1QFY10 due mainly to a decrease in other accounts payable of Baht 496 million which was settled, which were partially offset by an increase in current portion of long-term loans from financial institutions of Baht 75 million in relation to subsea engineering group.

Non-current liabilities increased by Baht 874 million, or 41.4%, from Baht 2,111 million in 4QFY09 to Baht 2,985 million in 1QFY10 resulting from additional loans in relation to vessel and rig instalments and asset acquisitions, which were partially offset by loan repayments of Baht 111 million.

Shareholders' funds increased by Baht 3,707 million, or 34.8%, from Baht 10,657 million in 4QFY09 to Baht 14,364 million in 1QFY10 due mainly to an increase in share capital from the rights issue of Baht 3,593 million.

#### **Working Capital**

The Group's working capital increased by Baht 2,834 million, or 220.5%, from Baht 1,285 million in 4QFY09 to Baht 4,119 million in 1QFY10. This was due mainly to an increase in current assets by Baht 2,493 million and a decrease in current liabilities by Baht 341 million as described above.

#### **Consolidated Cash Flow Statements**

The Group had net cash provided by operating activities of Baht 455 million. This was due mainly to cash generated from operations before changes in working capital of Baht 308 million and cash inflows from working capital changes of Baht 218 million, offset with cash outflows for finance costs of Baht 16 million, income taxes paid of Baht 36 million and employee benefits paid of Baht 19 million.

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

The Group had net cash used in investing activities of Baht 2,360 million. This was due mainly to payments for property, plant, and equipment purchases of Baht 1,995 million, and payments for additional investments in subsidiaries, Nemo Subsea IS and Nemo Subsea AS, of Baht 365 million.

The Group had net cash provided by financing activities of Baht 4,370 million. This was due mainly to proceeds from issuance of share capital of Baht 244 million and proceeds from share premium of Baht 3,349 million in relation to the rights issue, and proceeds from long-term loans from financial institutions of Baht 889 million, offset by payments on long-term loans from financial institutions of Baht 111 million and finance lease liabilities of Baht 1 million.

#### **Drilling**

During this quarter, our tender rig 'MTR-1' continued to undergo inspection and maintenance in Thailand while awaiting the result of tenders submitted for future work opportunities. Operating costs associated with the rig had been reduced to minimum levels. Our other tender rig 'MTR-2' continued to operate under its existing drilling contract with Chevron Indonesia with the primary term due for completion in the third financial quarter of 2010. During that time, utilization of this rig was retained at near full levels. We expect that this drilling contract will be extended at the end of its primary term completion. Our new build tender rig 'KM-1' is currently being completed at the shipyard in Malaysia and is scheduled for delivery in the second financial quarter of 2010. The rig will proceed immediately on delivery to Petronas Malaysia where it is contracted on a five year term.

A reasonable utilization rate is still observed to be experienced across the global tender rig fleet. Some oil and gas companies who had previously cancelled or deferred their drilling programmes have recently issued call for tenders. Due to the north-east monsoon, it was observed that these operators preferred to commence new drilling programmes from the third financial quarter of 2010 onwards. Although our 'MTR-1' was offered, no contract award has been secured for the 'MTR-1' to date. As there had been little known contract awards made over the past several quarters, it is observed that other rigs have also become available during this time and are competing against the 'MTR-1' on the same tenders. Nevertheless, as oil prices continue to stabilise and the global economic recovery continues, we expect to see additional requirements for tender rigs. We also believe that day rates have stabilised and as additional rigs secure new contracts, there will be

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

opportunity for day rates to increase. We continue to observe customers showing a preference for newer equipment and are in discussions with them for new build opportunities. We are also reviewing various opportunities, both in the second-hand market and newbuild market for future acquisition of drilling assets that will utilize funds from our recent rights issue. Although our preference is to acquire existing assets that allow more immediate means of revenue generation, we are also beginning to see shipyard availability give rise to potential opportunities in the construction of newbuild rigs as an alternative option.

#### Subsea Engineering

During this quarter, we experienced high utilization for both our dive support vessels (DSVs), the 'Mermaid Commander' and the 'Team Siam' which collectively contributes a significant portion of our sub-sea revenues. We also took delivery of the newbuild DP2 remotely operated vehicle (ROV) support vessel the 'Mermaid Sapphire' from Jaya Shipbuilding and Engineering Ltd. in November 2009. We also announced the purchase of the 'Team Siam' which had been on long term charter to us in December 2009 and took took delivery of the 'Team Siam' and the DP2 dive support vessel 'Mermaid Asiana' in January 2010. The only remaining vessel to be delivered to us is the DP2 DSV 'Mermaid Endurer', which we expect to receive in the third financial quarter of 2010. The delay in delivery of this vessel had been due to project slippage in the testing and commissioning of its dive system, which is a highly technical and integral component of the vessel. With the acquisition of the 'Team Siam', we had also returned the chartered-in vessel 'Binh Minh' to its owners.

During this quarter, the overall impact on day rates had been minimal. The subsea sector in general has not been observed to be experiencing downward pressure on day rates, and in some cases, we have witnessed marginal day rate increases for the more technical vessels. We continue to successfully operate within the subsea market in the Middle East, where we are performing construction support, saturation diving, ROV and survey services, and have recently announced an alliance agreement with KD Marine based in Aberdeen to market the 'Mermaid Endurer' to the European market. We continue to observe a surge in requests for vessel availability as many oil and gas companies began to re-activate the work programmes and projects that had been delayed. As a result of these tenders, we expect to further secure work for our fleet and some long-term charters ranging from two to five years for our DSVs.

This quarter brings us into the monsoon period where utilization levels in the sub-sea business have been observed to be traditionally lower across the sub-sea services industry. Present market conditions have highlighted a potential continuation in demand for our DSV fleet and we are hopeful to maintain a strong utilisation performance on such key assets during this time. We are also expecting to double the existing DSV fleet revenue contribution with the 'Mermaid Asiana' and eventually the 'Mermaid Endurer' if and when they commence their maiden contracts and beyond.

#### 13. A reconciliation of difference between Thai GAAP to IFRS.

Currently, the Company has applied IAS 12: Income Taxes, IAS 16: Property, Plant, and Equipment, IAS 18: Revenue (in relation to revenue recognition of mobilisation fee), and IAS 19: Employee Benefits in its Thai GAAP financial statements. The Company received a waiver from Singapore Exchange Limited and has not applied IAS 21: The Effects of Changes in Foreign Exchange Rates. Therefore, the significant difference between Thai GAAP and IFRS financial statements is clarified below.

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

#### The Effects of Changes in Foreign Exchange Rates

#### Thai GAAP

Thai GAAP does not require a determination of the functional currency (the currency of the primary economic environment in which the entity operates). The measurement currency as presented in the Thai GAAP financial statements is the local currency of Thai Baht for companies registered in Thailand.

#### **IFRS**

IFRS requires each individual entity included in the reporting entity to determine its functional currency and measure its results and financial position in that currency.

#### **Impact**

Because the functional currency of Mermaid Offshore Services Ltd., MTR-1 Ltd., MTR-2 Ltd., and Mermaid Drilling (Malaysia) Sdn. Bhd. as considered material to the consolidated level, is in US Dollars, accounting records need to be measured in the functional currency. This would affect all balance sheet and income statements line items.
