- 6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends: -
 - (a) Based on the weighted average number of ordinary shares on issue; and
 - (b) On a fully diluted basis (detailing any adjustments made to the earnings).

Basic earnings (losses) per share are calculated by dividing the net profits (losses) attributable to the ordinary shareholders of the parent by the weighted average number of paid-up ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings (losses) per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares. The Company has an Employee Share Option Plan in issue.

A calculation is done to determine the potential number of shares that could have been acquired at market price (using the average share price of the Company's shares during the period) and the potential additional shares that would have been issued based on the outstanding Employee Share Option Plan. The potential shares are added to the ordinary shares outstanding, but no adjustment is made to net profit.

For the calculation of the diluted earnings (losses) per share, the weighted average number of shares assuming conversion of all dilutive potential ordinary shares for the three-month period that ended on 31 December 2011 is 784,747,743 shares (31 December 2010: 785,065,945 shares).

Consolidated Income Statements

During the three-month period that ended on 31 December 2011 ("1Q FY12"), total service income was Baht 1,151.4 million, an increase of Baht 38.9 million, or 3.5%, from Baht 1,112.5 million for the three-month period that ended on 31 December 2010 ("1Q FY11"), primarily due to the increase in survey income.

The subsea group reported service income of Baht 698.5 million, a decrease of Baht 76.5 million, or 9.9%, compared to 1Q FY11 due to the fact that more vessels were on charter than working in subsea mode during this low season. As a result, average day rates fell 31.4%. Utilisation increased to 55.3% from 49.2% in 1Q FY11.

The drilling group reported service income of Baht 233.9 million, a decrease of Baht 32.8 million, or 12.3%, compared to 1Q FY11, as MTR-2 had some maintenance days in the last quarter compared to 100% utilisation in 1Q FY11.

Despite the revenue decreases in the subsea and drilling groups, operating profits increased by Baht 43.4 million and Baht 2.8 million from 1Q FY11, respectively. The improved operating profits were primarily a result of tighter management of project and vessel running costs.

Administrative expenses were Baht 183.3 million, an increase of Baht 30.0 million, or 19.6%, from 1Q FY11. There were some extraordinary items, including redundancy costs of Baht 11.7 million and a Baht 6.2 million fee as ownership of M.V. Mermaid Asiana was changed from Nemo Subsea AS to Mermaid Offshore Services Ltd. Without these extraordinary items, administrative expenses increased by 7.9%, mostly due to write-offs of prepaid taxes of Baht 5.7 million and outsourcing fees of certain IT, procurement, and administrative services of Baht 3.9 million.

Operating profits/losses (Earnings before Interest & Taxes and Share of Investment in Associates)

The low season for subsea services runs from November to February. The Company reported operating losses of Baht 15.2 million, a reduction of Baht 105.7 million, or 87.4%, from 1Q FY11. The significant improvement was provided by the subsea group (Baht 43.4 million), the survey group (Baht 37.8 million), the drilling group (Baht 2.8 million), and the holding company (Baht 21.7 million).

Shares of Investment in Associate, Finance Costs, and Income Taxes

Share of losses in investment in an associate was Baht 2.4 million as Asia Offshore Drilling Ltd. ("AOD") has not taken delivery of its three new build jack-up rigs.

Finance costs were Baht 45.2 million, a slight increase of Baht 1.6 million, or 3.6%, compared to 1Q FY11 due to higher US Dollar LIBOR rates. The average loan balance of Baht 3,845.2 million fell 8.8 % from the average loan balance of Baht 4,216.0 million in 1Q FY11.

Income taxes were Baht 15.7 million, a decrease of Baht 8.1 million, or 33.8% from 1Q FY11. The Thai Government announced a reduction of corporate income tax rate, thus the corporate income tax was adjusted on deferred tax assets.

Net Profits (Losses)

As a result, net losses in 1Q FY12 were Baht 78.6 million, a decrease of Baht 111.1 million, or 58.6%, compared to 1Q FY11.

Subsea: The subsea group reported operating losses of Baht 86.4 million in this period. However, the losses were substantially reduced from Baht 129.8 million in 1Q FY11 due to better management of all operating costs.

Survey: The survey group reported operating profit of Baht 33.3 million, compared to operating losses of Baht 4.5 million in 1Q FY11.

Consolidated Balance Sheets

Current assets were Baht 3,123.7 million, a decrease of Baht 371.8 million, or 10.6%, from 30 September 2011, mainly due to account receivables collection of Baht 639.3 million. As a result, cash and cash equivalents increased 15.6% to Baht 211.0 million.

Non-current assets were Baht 13,435.5 million, a decrease of Baht 173.0 million, or 1.3%, compared to 30 September 2011, mainly driven by assets depreciation of 219.2 million.

Current liabilities were Baht 823.2 million, a decrease of Baht 403.4 million, or 32.9%, from 30 September 2011. The current portion of long-term loans of Baht 193.2 million, accrued expenses of Baht 127.1 million, employee benefits of Baht 52.0 million, and trade accounts payable of Baht 52.2 million, were paid during the first quarter.

Non-current liabilities were Baht 3,388.6 million, a decrease of Baht 47.3 million, or 1.4%, compared to 30 September 2011, primarily due to US Dollar appreciation against Thai Baht...

Shareholders' funds were Baht 12,347.4 million, a decrease of Baht 94.2 million, or 0.8% from 30 September 2011 mainly caused by the net losses for 1Q FY12.

Working Capital

The Company's working capital was Baht 2,300.5 million, an increase of Baht 31.5 million, or 1.4%, from 30 September 2011, mainly driven by accounts receivables collection.

The Company had net cash from operating activities of Baht 507.4 million in 1Q FY12, an increase of Baht 822.8 million, or 260.9%, compared to negative net cash flows of Baht 315.4 million in 1Q FY11. The increase in net cash from operation reflected improvements in both performance and working capital management.

The Company had net cash used in investing activities of Baht 47.8 million in 1Q FY12, as no major investments were made.

The Company had net cash used by financing activities of Baht 292.7 million in 1Q FY12, an increase of Baht 112.0 million, compared to 1Q FY11 to repay long-term loans.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Drilling:

MTR-1 was awarded an accommodation barge contract in Indonesia, and its effective date is early April 2012 for a term of 150 days with a potential value of USD 4.9 million.

MTR-2 is currently working on a contract with Chevron Indonesia that will expire in April 2012. Discussions are ongoing to extend this contract beyond this term.

The underlying trend in the offshore oil and gas market supports improving business opportunities with continued growth in committed exploration and production capital spending. We continue to see strong demand for high-specification jack-up rigs that offer superior technical capabilities, operational flexibility and reliability.

Construction for AOD's three high-specification jack-up rigs with Keppel FELS Limited ("KFELS") is progressing well with delivery expected in the first, second, and third calendar quarters of 2013, respectively. In September 2011, AOD announced an increase in the water depth capacity for its three jack-up rigs under construction from 350 feet to 400 feet. This investment will increase the marketability of the rigs, allowing them to successfully operate in more offshore areas. AOD believes these upgrades will improve the long-term returns on investment for its shareholders, especially in the Asia-Pacific region when demand remains strong and has spurred relocation of high-specification units from other geographic regions.

Increased demand for drilling rigs has resulted in higher day rates, which has led to the reactivation of many older jack-up rigs. Nevertheless, we believe that newer drilling rigs will be much more competitive in obtaining work over time.

Safe work practices remains an integral part of Mermaid's operations, and Mermaid strives to continue to be in line with global industry best practice and maintain its exemplary safety record for both its drilling and offshore services. This emphasis on safety played an important role in the award of the accommodation barge contract for MTR-1.

Subsea:

In 2009, a mismatch between negative E&P spending growth and continued high fleet growth resulted in reduced utilisation and idle assets. Despite an increase in E&P spending in 2010, fleet growth in seismic and subsea outpaced demand growth and oversupply put pressure on margins. For 2011, fleet growth has not matched increased spending.

For 2012, a further uptick in utilisation and margins is expected, as the supply/demand balance remains tight. The outlook for 2013 onwards is bullish, as growth in fleet sizes is expected to lag spending growth.

(Registered in the Kingdom of Thailand) (Company Registration No. 0107550000017)

We believe that our subsea group is well positioned to compete in these difficult market conditions through having the most advanced and modern portfolio of assets in Southeast Asia; a respected operational capability and excellent safety record, and experienced management and quality people. We have strengthened our commercial and project management capabilities and aim to secure higher value added work in more offshore areas.

In terms of our clients, more and more work is being conducted outside of Thailand, and we will be focusing on securing work on a global basis outside of Thailand through our newly established international marketing office in Singapore as well as our Subtech and Seascape offices in their respective territories. In addition, we will be working to offer a complete and homogenous suite of services across all our regional offices to achieve better synergies and economies of scale.

Our operational performance and safety standards remain high and in line with global best industry practice. To this end, the Mermaid Commander received a special award by our long-time clients Chevron and CUEL for achieving 10 years of marine operations without a single lost time incident in October 2011.

14. A reconciliation of difference between Thai GAAP to IFRS.

Currently, the Company has applied IAS 12: Income Taxes, IAS 16: Property, Plant, and Equipment, IAS 18: Revenues (in relation to revenues recognition of mobilisation fee), and IAS 19: Employee Benefits in its Thai GAAP financial statements. The Company received a waiver from Singapore Exchange Limited and has not applied IAS 21: The Effects of Changes in Foreign Exchange Rates. Therefore, the significant difference between Thai GAAP and IFRS financial statements is clarified below.

The Effects of Changes in Foreign Exchange Rates

Thai GAAP

Thai GAAP does not require a determination of the functional currency (the currency of the primary economic environment in which the entity operates). The measurement currency as presented in the Thai GAAP financial statements is the local currency of Thai Baht for companies registered in Thailand.

IFRS

IFRS requires each individual entity included in the reporting entity to determine its functional currency and measure its results and financial position in that currency.

<u>Impact</u>

Because the functional currency of Mermaid Offshore Services Ltd., MTR-1 Ltd., MTR-2 Ltd., and Mermaid Drilling (Malaysia) Sdn. Bhd. as considered material to the consolidated level, is in US Dollars, accounting records need to be measured in the functional currency. This would affect all balance sheet and income statements line items.

The net effects on the consolidated statement of comprehensive income for the periods that ended on 31 December 2011 and 2010 and consolidated statements of financial position as at 31 December 2011 and 30 September 2011 can be summarised as follows:
