# Message from the Chairman and Chief Executive Officer

#### Dear All Shareholders,

Year 2023 is the 84<sup>th</sup> anniversary of our company establishment upon incorporation on 15 January, 1939, which deems our first move.

The 84-year business operation has encountered great achievements and obstacles. However, the devotion and endeavors of all parties along with strong supports from our partners, suppliers, and customers help the Company overcome many critical situations, crisis, and challenges proudly. We continue enjoying the growth, building confidence in customers, suppliers, and investors according to our determination and intent.

Previously, the Company has laid the groundwork for the business operation and the core business strategy for better management efficiency. The Company also gave precedence to the corporate governance, placed the risk management guideline for flexibility in encountering any crisis and in recovering from the unaccomplished goals, and built the internal strength before moving forward to the business expansion. All are challenging and important for our stable growth in the future.

Drawing competency of each business unit for the good operating performance, competitiveness under existing resources and assets, efficiency in profit making, acquisition of business opportunities, and development of new innovations become the key goals and determination of the Company in 2024. To pave the next secure move, the Company is still determined to focus on synergy among main businesses in the Group of Companies for mutual business strength, good relationship retention, and cooperation with alliances in every business which would be further connected for new business opportunities.

Next, the Company will be determined to operate the business in accordance with the vision and main strategy established to give good returns to the shareholders and all groups of stakeholders. Definitely, the Company will continue operating the business with corporate responsibility to local communities, society, and environment to lead the organization to achieve sustainability under main goals in caring for and strengthening the community and the society, and offering opportunities and equality in the society through various activities to support athletes with disabilities, communities, and aged people. The Company also defines the environmental policy to encourage efficient uses of resources, reduce the consumption of resources and the emerge of waste, and support the use of alternative energy because the building of foundation and long-term business success must involve the sharing and returning to the society for joint living and simultaneous growth.

On behalf of the Board of Directors of the Company, I would like to extend my gratitude to all shareholders, joint venture partners, suppliers, business partners, financial institutions, customers, and other related parties who have strongly supported and trusted the Company throughout 84 years. We greatly appreciate our executives and employees who have made a valuable contribution and effort to drive the Company to meet goals and success.

Business Operations and Operating Results Corporate Governance

# 1. Operational Structure of the Group

### 1.1 Policy and Business Overview

#### 1.1.1 Background and Major Changes and Milestones

Loxley Public Company Limited has operated its business for over 80 years. It was formerly known as Loxley Rice Company (Bangkok) Limited. It was incorporated as a limited company on 15 January 1939 through the joint venture between Ng Yuk Long Lamsam and Andrew Beattie (from W.R. Loxley Company in Hong Kong), with the objectives of exporting agricultural products, such as rice and timbers.

Throughout its 84 years of business operation, the Company has seen continuous growth since the incorporation of the Company. In 1957, Loxley Rice Company (Bangkok) Limited was renamed Loxley (Bangkok) Company Limited and the Company expanded its export business as well as added the business of importing and distributing foreign products, including offering industrial products and advanced technology products. Due to its outstanding performance and positive reputation in doing business, The Company had attracted a huge number of leading local and foreign corporations, many of which later become the Company's business partners. In 1988, the Company fully commenced its technology business and it was deemed as enhancement of potential to expand its business to meet the constantly changing market demands.

The Company was transformed into a public company and changed its name to Loxley Public Company Limited on 1 April 1993 and was listed on the Stock Exchange of Thailand Company in the commercial group of stocks, under the "LOXLEY" designation. The Company's first trade date on the Stock Exchange of Thailand was 25 January 1994. The Company is determined to operate a comprehensive business, focusing on quality growth to respond to customer needs and manage its existing assets for maximum benefits based on the economic added value principle and maintain benefits for all stakeholders.

Amidst the increasingly intense business competition and the rapidly changing business environment, the Company has adjusted its business operation strategies to enhance its competitiveness and profitability efficiency. In 2018, the Company adjusted its business operation guidelines, from being a diverse business operator that can fully meet demands of partners, trade partners and customers comprehensively, to putting the focus on the five strategic business groups in which the Company has the expertise, in order to expand the revenue base and enhance its competitiveness. The Company is confident that the clarity in the business operation direction under the new management structure and efficient allocation of resources will be the key strategy to lead the Company towards sustainable growth. In 2020, the Company adjusted the management structure to be more flexible, established a management mechanism that minimizes business operation risks, and developed strong financial discipline to focus on profit generation and stable growth, which was the appropriate period that enabled the Company to overcome the crisis due to the impacts from the pandemic and cross-border wars.

In 2023, the 84<sup>th</sup> anniversary of Loxley Public Company Limited, the Company remains determined to operate its business according to its established core strategies, aiming to grow professionally through accumulation of knowledge and expertise in core businesses, enhancement of operational efficiency, creation of new business opportunities, and creation of stable growth through a business model generating long-term returns to achieve long-term sustainable growth with customers and trade partners, as well as contributing to social, community and environmental responsibility to sustainably create value for the business. Business Operations and **Operating Results** 

Corporate Governance

# 84 Years of Loxley

#### **The First Period** Since the Foundation of the Company in 1939 to 1952

The Company operated its business by mainly exporting agricultural products, such as rice and timber, before expanding its business to include importing goods after World War II.

#### 15 January 1939

1939

Loxley Rice Company (Bangkok) Company Limited was incorporated to operate the business relating to the export of agricultural products. The business was expanded to import some goods from English, e.g. consumer goods, recent technological products, and so on for selling in Thailand.

#### 29 June 1992

The Company and other joint venture companies including Jasmine International Public Company Limited, Phatra Thanakit Finance and Securities Company Limited, Italian Thai Development Corporation Company Limited, and Nippon Telegraph and Telephone Corporation established Thai Telephone and Telecommunication Company Limited. The Company and joint venture companies signed the Consortium and Joint Venture Agreement to provide the telephone service in provincial areas for 1 million telephone numbers.

#### 1945

Head office was relocated to a 6-storey building at Suea Pa Road.

1945

#### **The Third Period** 1988 - 2010

The Company expanded its business into infrastructure, telecommunications, energy, information technology and communications as well as consumer goods and services. The Company has developed operating systems and products and acted as distributor or entered into joint ventures with other entrepreneurs owning the technology or products that are nationally and internationally accepted in terms of quality. Loxley, therefore, is the center for all aspects of customer needs.

#### 1990

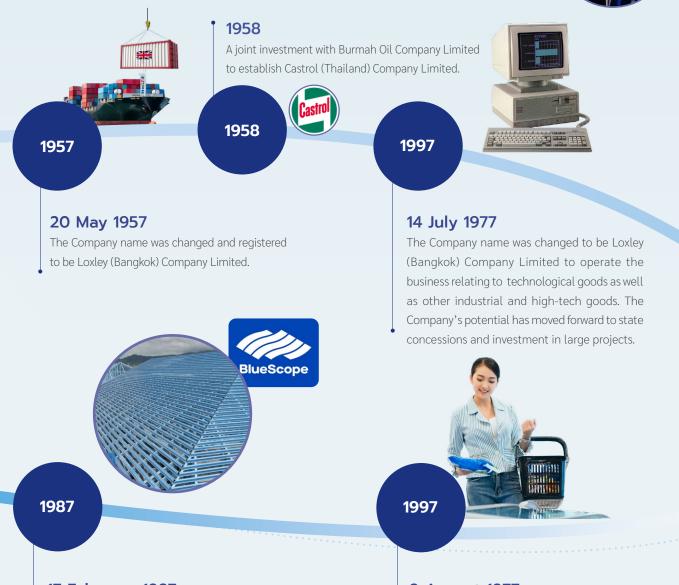

#### 1990

28

- The Company made the Joint Venture Agreement with IBM Thailand Company Limited to incorporate Professional Computer Company Limited, which, now, is a leading company to provide the information technology services.
- Hutchinson Telecommunication (Thailand) Company • Limited was also incorporated by collaboration between Loxley and Hutchinson Telecommunication International to sell and provide the pager service in the name of "Hutchinson Page Phone" up to Year 2002

#### The Second Period 1953 - 1987

The Company started importing goods mainly from England, including engines, electrical appliances and motors. Subsequently, it also imported goods from countries in Asia; for example, engines from Japan and cosmetic powder from Korea, and started to sell more industrial products and high advanced technology products from other countries, such as Olivetti typewriters. The accumulation of skills and expertise in the advanced technology product business during this period was the beginning of the Company's business expansion into the technology business completely in the following period.

#### 17 February 1987

NS BlueScope Lysaght (Thailand) Limited was incorporated as a joint venture between the Company and a holding company of BlueScope Steel Limited from Australia, Nippon Steel & Sumitomo Metal Corporation from Japan as a leader of sheet metal forming by the most recent technology from Australia.

#### 9 August 1977

Loxley Trading Company Limited was incorporated for the distribution of consumer products, The business of this company has grown up continuously. At present, the company is the distributor of leading consumer products through traditional trade and modern trade. Business Operations and **Operating Results** 

Corporate Governance

#### 1 April 1993

Overview

The Company was converted to be a public company. The company name was also changed to be Loxley Public Company Limited. It was listed on the Stock Exchangeof Thailand in the commercial sector under the name of "LOXLEY"

#### 21 October 1993

The Company had a joint venture with ICTS Europe Holdings B.V., a leading company which provides the security service aviation business from Israel. Asia Security Management Company Limited (ASM) was incorporated. Later, the company name is changed to be ASM Security Management Company Limited to expand the security service.

#### 1.1.2 Vision and Mission

Overview

#### Vision

# "Inspired Choice for customers, Business Partners and Investors."

#### **Mission**

Offer products and services that best suit customers, meeting their requirements and primary interests.

Strengthen financial stability and increase profitability on a continuous sustainable basis.

Conduct business with integrity and fairness with a view toward growth, trust and long-term relationships with business partners.

Enhance business improvement and efficiency through applying information and technology.

Create the pleasant workplace environment while continuing to develop human resource capabilities and competencies, conduct business with responsibilities and grow along with community and society engagement.

#### 1.1.3 Objectives and Corporate Strategy

In 2023, Thailand's economic growth was still lower than the previous average growth rate. The economic recovery of Thailand did not hit the expected target. When the annual economic indicators as disclosed dropped from the forecast greatly, Thailand's overall economic activities have not yet returned to the level before the pandemic of COVID-19. The Company realizes the importance of adaptation to respond to the economic circumstances. Meanwhile, the Company continues forming its long-term strength by adhering to its foundation, implementing the established corporate strategy, and focusing on proceeding its 5 core businesses where the Company has achieved both expertise and experience to secure its operating performance, and to manage its business risks.

32

In the previous year, the Company had strong determination and used best endeavors in performing the operation to attain the corporate strategy established, including 1) strong financial target; 2) accumulation of expertise to be the leader in core businesses; and 3) strong and potential working team with consistent working.

The Company has formulated the long-term business operation plan of the Group of Companies in 3-5 years by focusing on creating corporate values through 3 aspects of growth as described below.

- Growth with expertise : leverage specialized knowledge and skills in strategic business areas. It involves developing and utilizing the expertise of individuals, business, and institutions to drive innovation, increase productivity, and create new opportunities for growth.
- Growth with stability : creation of business models which accelerates the Company's growth and creation of long-term relationships with customer and trading partners. In addition, this is complemented by appropriate risk management and fostering financial discipline.
- Growth with sustainability : give importance to building up and maintaining the confidence and trust of our stakeholders, for Business, Social and Environment aspects with supervision and management imbued with corporate good governance.

The Company's business model would be in the form of an operating holding company comprising 5 core businesses. In this regard, the corporate strategy, the business strategy, and the operational strategy have been defined already. The performance would be monitored in 4 dimensions; namely, monitoring of operating performance, monitoring of customers and products, monitoring of operations, and monitoring of personnel competency development along with risk management in the business operation. This is to attain the corporate vision of being "Inspired Choice for Customers, Business Partners and Investors."

Except the financial target for profit and management of business portfolio, in 2023, the Company also placed the targets for other supporting divisions to measure their working proficiency and efficiency, and to shape the working direction to be consistent with the corporate strategy throughout the organization; for example,

- Efficient budget administration for maximum benefits
- Preparation of individual employee development to improve the Company's human resources as an important capital of the organization.
- Development and improvement of working process, and application of information technology in the working process of the Company.

Moreover, to support and strengthen the Company's long-term growth, the Company moves the organization forward by placing the policy and goals for sustainable development in environmental, social, and good governance ("ESG") aspects. The Sustainable Development Task Force is the main mechanism to tangibly drive the Company's policy of sustainability management apart from many social activities that have been run for long. By this policy, the Company cared for the living of its employees and surrounding communities, and organized some activities to encourage the opportunities and equality in the society, which would lead the organization to meet the sustainable achievements in every dimension. In 2023, the Company determined that the assessment of the corporate governance quality, and the progress on reporting the greenhouse gas emission for the organization were its corporate and division goals. The progress of the operating performance had to be directly reported to the Board of Directors of the Company.

By corporate goals and operating direction defined through vision, mission, and operating guideline focusing on growth in 3 dimensions along with the intense business plan emphasizing on the tangible monitoring of results, either efficiency or proficiency, as well as the organization strength in expertise and experience and cooperation of employees at all levels, the Company believes that its operation can be driven to meet the established goals, and the Company would be able to enhance the secure and sustainable growth.

#### 1.1.4 Use of Raised Funds Pursuant to the Objective Specified in the Registration Statement for Securities Offering

-None-

It provides services in the turnkey project model, with officers and experts on the customers' site in the form of IT Outsourcing Service or Managed Service, covering provision of services in the form of Network Operation Center/ Security Operation Center with experienced personnel and expertise. The Company has been certified by manufacturers and is a Gold Certified Partner granted by Cisco Systems, Inc., received a certificate of quality management system under the ISO/IEC 20000 : 2018 standard on information technology management and the ISO/IEC 27001: 2013 information security management standard. Apart from the aforementioned models of services, the Company is also a reseller, installation service, warranty service and provides first-tier services during the warranty service period and maintenance service for leading quality products recognized by worldwide customers, such as Cisco, Palo Alto, Infoblox, F5, FortiNet, VMware, RadWare, HP and Microsoft. The Company's portfolio includes a wide range of designs and installation projects for corporate information systems. Key contracts awarded by its target customers include the Revenue Department, Metropolitan Waterworks Authority, Tobacco Authority of Thailand, Geo-Informatics and Space Technology Development Agency (Public Organization), National Health Security Office, Siam Piwat Co., Ltd., and Siam Cement Public Company Limited. In 2023, the company has developed and improved its service capabilities. It received the Skilled to Secure award at the Sapphire level, which is the highest level. This achievement marks the first time for a Thai company to receive this recognition from Infoblox, a leading Cyber Security company from the United States.

## Key performance of the Information Technology SBG in 2023 is as follows :

Project for Installation of Recycle Machine (RCM), Siam Commercial Bank

Project for Procurement of Computer Inventory, List of Improving the Weather Forecast System by High Performance Computer, the Meteorological Department.

Project for Leasing of Computer Network Equipment and Related Systems at Suvarnabhumi Airport, Thai Airways International Public Company Limited.

Project for Selling and Installation of Computer and Process Device of the Computer System to boost efficiency of the infrastructure system for the provision of big data service and the data processing by AI/ML technology, Geo-Informatics and Space Technology Development Agency.

In 2024, the significant projects that have been on process were :

- Project for Installation of Recycle Machine (RCM), Bank for Agriculture and Agricultural Cooperatives.
- Project for Procurement of VDI Software to be used in auditing, Office of the Auditor General of Thailand.
- Project for Maintenance of Wireless Network System in the Organization, Metropolitan Waterworks Authority.

#### Competition, Opportunities and Business Operation Restrictions

In 2023, the information technology business still tended to grow rapidly. The demands for the application of technology in the reform or improvement of the structure of manufacturing and service industries, including government agencies, were extensive in order to add value, enhance efficiency and build sustainability for businesses. The demands for the use of software and applications to support new business models for respond to the specific needs of consumers, who are expected to rely on various transactions through online channels has significantly increased. These are opportunities for the Information Technology SBG to grow. However, the impact from economic volatility on investment and government policy continue to affect the overall project works, resulting in delays in operation and project delivery, including the policyrelated impact on decisions to invest in or slow down projects. The Company has appropriately carried out management and implemented measures on control of expenses and management of project cost in order to alleviate the problems that have occurred and expedited the delivery of projects to recognize income according to budget goals. Based on its achievements and years of experience in installation and system development of information technology for government agencies, financial institutions and private businesses, its knowledge and understanding of customers' business, together with its personnel with knowledge, skills and expertise that have been continuously developed, the Company is therefore trusted and accepted by customers and trade partners, which are deemed as key advantages that enable the Company to compete in the market and continues to be a leader in providing solutions in information technology.

#### Quality Development and Key Business Innovations

Manufacturing and provision of digital technology services covering the development of digital platforms, provision of information, content and transactions via digital platforms, including software development, are considered as a key element of value creation through innovations and creativity to which the Information Technology SBG gives importance and specifies as the strategy for development for sustainability. In 2023, the Company focused on expanding the customer base to new industries, e.g. customers in financial industry and new businesses which need some innovations and technologies for their business transformation and restructuring. The Digital Innovation Solution Unit was established to prepare the Company to be the Tech Company, and to emphasize its vision to be "The most preferred solution partner with 360° offerings". This new business unit shall also present products and services to the digital innovation group, and develop the business model of new financial products for more financial opportunities, new income sources, retention of existing clients, and long-term secure and sustainable business.

#### Future Business Plan (3-5 Years)

The overall digital and software service business tends to expand according to the direction of demands of the business sector emphasizing the digital transformation strategy to meet the demands of consumers as well as the new normal lifestyle that is expected to rely more on conducting transactions through online channels. In terms of competition, it is likely to intensify as there are new players developing different platforms for provision of services, as well as the government's clear digital policy on promoting development and use of digital technological innovations. As a result, the technology market is interesting and likely to continue to expand.

In order to accommodate such direction of growth, the Information Technology SBG has assessed related risks, review the strategic plan and preparing to develop new innovations for respond to technological changes and towards creation of new products and services to increase business opportunities for creation of a new sustainable revenue stream to supplement and replace the income from existing products and services, which is likely reduce in the near future as a result of the rapid changes in technology, consumer behavior, and customers' changing styles of technology investment and expenses, as well as to increase the capability to offer new technologies or solutions with increasing demand from customers consistently. There are dedicated units and teams responsible for innovations that can respond to customer requirement and generate benefits for customers' businesses, and also generate new sustainable income and create competitive advantages in the future. In addition, the Company plans to increase the proportion of income in the form of recurring business when compared with the total revenue.

Apart from the strategic planning for development of new products and services based on the changing trend of technologies and customers' needs, the Information Technology SBG has focused on the personnel development to ensure they have necessary knowledge, competencies and skills, both technical skill and soft skill, to support customer

Business Operations and Operating Results Corporate Governance

service and to be able to continuously create service satisfaction. Furthermore, it includes internal operation efficiency enhancement by using technology and tools to support operations to ensure agility, speed and flexibility to ensure efficiency and competitiveness against competitors in the same market and to increase the profit margin per employee, and to adjust the business operation model according to the data-driven business principle to be able to forecast customers' needs accurately and determine the direction of operations or business expansion in line with the target. This will be done by closely monitoring technological changes and working with customers to jointly develop an IT Road Map for mutual sustainable growth.

## Key ESG Operations/Management of Impacts on Stakeholders

- To create positive experience and customer satisfaction and to be a channel for enhancement of service quality, the Information Technology SBG has assigned a project manager/sales representative to directly coordinate with relevant persons to resolve the problems and ensure that the quality of work will be as required and as per the conditions specified in the contract. Moreover, a quarterly customer satisfaction survey has been conducted. Customers may submit the assessment results directly to executives. Based on the service satisfaction survey results for 2023 from key customers, the Company received an average score of 3.8 points of the total point of 5 regarding satisfaction, at the customers are extremely satisfied level. The result and recommendations obtained from the assessment were considered and analyzed to find the solution for improvement of operational procedures and personnel development to ensure better quality of the services of the Company and to continue to impress customers.
- Promoting selection of products and services or entering into an agreement on cooperation for development of solutions with business partners that have the policies, products/services supporting ESG to be presented in the Company's projects.
- Consideration and selection of products, office equipment, and office cars with a low carbon footprint.
- Developing the internal management efficiency to support the sustainability policy in respect with environment dimension, social dimension, and corporate governance dimension. The significant performance in 2023 included the revision of the corporate governance policy and the

Work Regulations of the Company, campaign of the 5S or activities to enhance tidiness in the office, and use of e-Signature in the office and with making contracts with suppliers to reduce the use of paper, etc.

- A budget was allocated and training was held to enhance knowledge and capabilities of the employees, including awareness of technology updates and information of each product and service, including workshops in collaboration with the Company's business partners. Additionally, there is an arrangement for evaluating the effectiveness of training after employees have undergone training for a certain period. This includes storing training certificates and maintaining individual training records for each employee.
- PCC Academy was established within the Company to carry out training and development of employees, in the form of training, self-learning and on-the-job training, through provision of speakers, equipment and E-learning systems that support learning. The Company has formulated a systematic knowledge development plan for its employees, including trainees, to enhance their potential and performance capabilities. Additionally, the Company encouraged arranging for its employees to take tests for standard certification or certificates from product manufactures or other recognized institutions to increase its competitiveness, ensure recognition by customers, and have well-trained personnel in an adequate number in line with current sales action plan, business strategies as well as future business direction. Furthermore, employees were allowed to express their creativity to be developed into innovations and new products for the Company.
- To improve work efficiency and to upgrade competency of human resources, Loxbit Public Company Limited carried out the internal restructuring and the organization chart to respond to its future vision. Meanwhile, the personnel were developed to enhance the future skills, and they were prepared for the organization development in the future.
- Joining hands with Google Cloud and Mambu to arrange Navigating the Future : Leapfrog Your Digital Lending Strategies activity, which proposed an innovation of loan service to small and medium businesses through cloud technology. This is to jointly upgrade the solution for loan management system for senior executives of the leading organizations in the financial industry. This service obtained the good response from the event participants.
- Giving cooperation in the Active Learning Promotion for Education in Thailand project (Albus II), which is the research project to assess efficiency of using Google

40

Education technology to promote the active learning by Google for Education Solution and Chromebook device. This project is the collaboration between the Faculty of Education, Chulalongkorn University, Loxley Orbit Public Company Limited, Lenovo (Thailand) Company Limited, and Panel that is a non-profit organization focusing on improving the competency of people and society by using technologies to improve digital skills, special education, and remote education. In this project, Setsatian School under the Royal Patronage was the pilot school for further application in teaching and learning of deaf students.

#### Management of Risks Which May Affect Key Operations

As the nature of the overall business operation of the Information Technology SBG involves projects related to computer technology which changes rapidly and must rely mainly on specific knowledge, expertise and competencies of personnel, if they are unable to adapt themselves and be prepared for the changes that have occurred, it may cause the Company to be unable to retain its competitive advantage and lose its business opportunities.

- Risks from new technology or new models of innovations that have significantly changed the business operation and consumer behavior to the extent that they have successfully replaced existing products or technology in the market (Disruptive Technology), have caused the Company to closely monitor technological changes and formulate the action plan regarding development of personnel and development of new goods and products continuously, including modifying models of presentation of goods and services to be suitable, such as presentation as a service in place of investment in equipment.
- Risks related to human resources management, from the recruitment process to hire employees according to the manpower plan, including the number, required duration, and specific knowledge and skills, retention of knowledgeable and skilled personnel, personnel development, the turnover rate of employees in the Information Technology SBG that is higher than in other SBGs, including the shortage of IT personnel, especially those with the expertise in designing and developing programs, such as business analysts, system analysts, programmer and developers, have resulted in an inadequate number of personnel to meet the rising demand of the market. The Company is aware of the importance of such problems affecting the factors for the success of the organization. Therefore, the Company has established a policy on attractive and appropriate remuneration structure, adjusted the operation structure to be flexible and in line with the new style of working of the new generation, formulated the employee development plan, and the action plan to enable employees to work in place of one another, in order to motivate and retain potential personnel.
- Risk arising from delays in project management which are mostly due to uncontrollable external factors and which affect the cost of projects, such as delays in products delivery from sellers or manufacturers due to raw material shortages, on which the Company has established operating measures to prevent, by closely coordinating with sellers or product owners to assess the period in which actual delivery can be made before taking on projects, and regularly monitoring and inspecting the delivery schedules. Such process must rely on efficient coordination of project management with both the customers and the sellers/ manufacturers owners, which will enable the prediction of potential problems during operation and reduce potential impacts.

Business Operations and Operating Results

### Services Strategic Business Group

The Services SBG is outstanding with international safety standards for airports, office buildings and other key locations. There is excellence in personnel development and training to standards certified by world-class organizations. It operates business with professionalism according to international standards and has expanded business into cleaning services, insect prevention and extermination service, building maintenance services and turnkey facilities management, to underscore the quest for leadership in service business.

#### ASM Security Management Company Limited

**(ASM)** is the Thai-owned business under the Services SBG. It provides a wide range of aviation security services and solutions, including security services for airports, airlines, depots, aviationrelated businesses as well as office buildings. It enhances the standards of security services, with professional personnel and management, that can be customized to meet business requirements and are flexible based on the requirements of customers using the services, in order to deliver comprehensive security services, helping businesses to achieve efficient and safe operations and to create confidence for customers and service users.

Key target customers of ASM are aviation and air transportation industries, including airlines, airports, depots and post offices, ground handling agents and aviation institutions, energy industry, factory industry, service industry, logistic industry, as well as nursing home, and financial institutions in both state enterprise and private sectors.

## 1,624 Million Baht

Total income from Services SBG with international safety standards for airports and integrated building management in 2023

**ASM Training Co., Ltd**. is certified as a training center for security courses as specified in the Security Business Act, B.E. 2558 by the Royal Thai Police. it provides aviation security training services according to regulations of the Civil Aviation Authority of Thailand (CAAT), which had been developed to be in line with the standards and guidelines of the International Civil Aviation Organization (ICAO), International Air Transport Association and in accordance with relevant laws such as the Air Navigation Act B.E. 2497 (No. 14).

**Loxley Property Development Co., Ltd.** is engaged in two main types of business, namely space leasing and management and real estate-related operations; and management and contract construction of projects of the public sector, state enterprises and private entities.

Contract construction of major achievements in 2023 included the construction of groundwater distribution system for agriculture, and groundwater improvement project by using solar energy in the responsible areas of the Department of Groundwater Resources, Region 2, Suphan Buri province.

#### Competition, Opportunities and Business Operation Restrictions

The overall competition circumstances in the security service business in aviation-related industries still engaged the competitive advantage while the demand on the security service in airports and by businesses in the aviation business has been higher to serve higher number of tourists. Meanwhile, the general security service and the facility management in other industrial sectors have been affected by higher number of competitors, which caused the competition of service fee. Thus, the Company has adjusted the service models by applying the management model of the International Air Transport Association (IATA) to increase management flexibility and to be able to deliver fast and standard services to customers. As a result, the operating performance in 2023 were satisfactory.

In 2023, the project management and construction business got impact from the government's measure on supporting local small and medium-sized enterprises (SMEs), which made the Company lose its price competitiveness when submitting bids to the government projects.

#### Quality Development and Key Business Innovations

ASM Security Management Company Limited has been involved in the Airline Operators Committee (AOC) to accept comments from representatives of airlines members and regional entrepreneurs, which would be useful for improving the security service quality. Meanwhile, the Company joins hands with certain specialized business alliances to create the artificial intelligence in respect with security to mitigate some security risks, and to serve the service users' demand on customer database management in order that an expansion of customers could be analyzed and targeted efficiently, which would lead to the Company's reform of service strategies in the future.

Regarding the service quality improvement, the training centers of ASM Training Company Limited were expanded to ensure that the training for security officers would cover areas in the eastern region of Chonburi branch, and in the central region of Loxley Building branch, in the total of 4 training centers. This improvement is to support an expansion of the security service to other regions, which deems a better business expansion. Meanwhile, the service quality of this business group would be also upgraded by means of expanding the certification of various quality systems such as Quality Management System (ISO 9001:2015), Environmental Management System (ISO 14001:2015), Occupational Health & Safety Management System (ISO 45001:2018), Cleaning Service Evaluation System (EN 13549:2001). This is to root creditability in the Company's service quality and standards.

#### Future Business Plan (3-5 Years)

To ensure reliability and become a leader in the aviation security service business, apart from experience, knowledge and competencies in activities related to security, the key element in the provision of professional services is human resource to which executives of all levels give importance. ASM promotes and pushes for development of knowledge and skills of personnel. Development of employees' potential and competency is better than security surveillance in buildings and premises. The Company also encourages and allows employees to express their opinions, to participate in resolving problems, to develop operating systems, and to provide health care and welfare for employees, both during working hours and outside working hours as the Company is confident that developing personnel to be gualified ones would be the key factor in making its services differentiate, and in retaining competent employees with the Company.

In 2024, ASM continues building certain business alliances with expertise in technologies, which are consistent with the security service in the future. This not only strengthens the Company's brand and image, but also drives the Company to get a target. The Company wants to increase the operating income and market share until it is ranked the first top three service providers in next 3 years in order that the Company's market value is driven higher.

Loxley Property Development Company Limited sets up a plan to submit the application for registration of the construction operator with the Comptroller General's Department in order that the Company shall be eligible to submit proposals to government agencies. In addition, regarding the lease management business, the Company has a plan to renovate some buildings and premises to respond to the certification of the Environmental Management System (ISO 14001), and to apply some technologies to serve the tenants pursuant to the Company's aim at having standardized buildings which are friendly to the environment, and saves energy.

Business Operations and Operating Results Corporate Governance

## Key ESG Operations/Management of Impacts on Stakeholders

Beyond the business operation for benefits offered to shareholders, the Services Business Strategic Business Group is determined to carry out the business under the concept of sustainable business development. It prioritizes the environmental preservation, social development, and good governance through a variety of activities mutually joined and held by several companies under supervision of the Services Business Strategic Business Group.

#### ASM Security Management Company Limited (ASM)

- Announcing the implementation of the environmental policy to be relevant to the Environmental Management System (ISO 14001 : 2015).
- Arranging ASM Save the World Together by arousing the Company's personnel to collect the used plastic bottles which would be exchanged with glasses made from natural materials. At the end, 12,000 plastic bottles in the total weight of 204 kilograms were delivered to the Mirror Foundation through the Re-life Recycle project which helps the elderly to gain revenues from waste separation before waste reuse, and also Increase carbon credit of 212.16 kg CO2eg or equivalent to the planting of 22 trees.
- Passing 1,764 old uniforms for further reuse through "Donate Supplies" project, Wat Suan Kaew Foundation, Nonthaburi province held by Phra Ratchdhamanithet (Prapayom Kanlayano).
- Receiving the certificate from the White Factory project, Level 1, and Standard on Prevention and Solution to Drugs Problems in an Establishment certificate from the Department of Labor Protection and Welfare.
- Receiving the 4-A Level certificate in Wellness Corporate Nation-Building : Wellness CNB from Nation-Building Institute by formulating a management guideline of health promotion and good environment for personnel.
- Upgrade the Work Manual and the Business Code of Conduct to ensure they are updated and relevant to Sedex Member Ethical Trading Audit (SMETA) to arouse the personnel to comply with international industrial standards in terms of ethics, society, and environment, and to understand human rights and protection under local and foreign labor laws.
- Receiving the excellent trader assessment result with scores of 86.46% from Energy Complex Company Limited (EnCo) in accordance with EnCo Suppliers Sustainable Code of Conduct.

#### Loxley Property Development Company Limited

- Arranging for building inspections and safety for use of office buildings and commercial buildings on a yearly basis to ensure life and property safety of tenants and service users, and to build up confidence. The Company was also granted the "Safe Building for Use" certificate by the Public Works Department, Bangkok Metropolitan Administration.
- Organizing campaigns and encouraging participation in energy saving and environmental care in collaboration with tenants and building users, e.g., publicizing energy conservation, reduction of electricity consumption, change of light bulbs and electrical appliances in buildings to be energy-saving ones, seeking cooperation from tenants and building users to sort waste by providing containers for waste sorting in various places, and donating recyclable waste to foundations and agencies for further reuse.
- Installing solar panels on roofs of 2 office buildings to generate electricity from solar energy. The result of this installation was the alternative energy of 12,839.52 kWh, which helps reduce the electricity consumption of office buildings at 26%.
- Developing the mobile application to report the building repair and maintenance works, machinery, equipment, and asset inspection works for building management. This mobile application would facilitate the building tenants and building users, and reduce the use of paper.
- Arranging training and seminar courses on a yearly basis for personnel who would be able to improve knowledge and skills in their related works.

#### Management of Risks Which May Affect Key Operations

The overall business operations of the Energy SBG must rely mainly on personnel in the delivery of services. Therefore, the adequate number of personnel, quality of personnel in performing their work, and personnel management are important issues affecting the revenue and future business expansion. Planning for appropriate human resources management, human resource development, retention of competent personnel, in combination with the application of security systems, and selection of durable and environmentally friendly equipment to ensure high-quality security standards, business management cost, and consistence with the environmental policy are therefore the matters that the Company has continuously given importance to and set them as targets for operations.

## **Energy Strategic Business Group**

Energy Strategic Business

Building energy sustainability and supporting cost-effective use of resources. The Energy SBG is a leader in engineering high-tension power transmission systems and high-voltage substations, constructing, installing, and testing of electrical power systems, implementing SCADA power control centers to move towards the Smart Grid Electrical System. The Energy SBG is also determined to keep up the pace of development, seeks renewable energy with building solar farms, including on factory rooftops, on ground installations and on water surfaces, and biomass power plants to generate sustainable energy.

### 906 Million Baht

Total Energy SBG revenue from construction of substations and transmission lines in 2023

The Energy SBG is engaged to conduct power systems operations for both government and private sectors by providing service as turnkey Engineering Procurement and Construction (EPC) services. These cover a range of services from project management, design, procurement and installation of equipment, to the construction of public works and system testing includes construction of power stations and construction of transmission lines, both overground and underground. The Company also provides power systems for factories and high-rise buildings, and utility systems which include general power systems, maintenance service, system testing and consulting on power systems under the responsibility of Loxley Power System Company Limited, a subsidiary of the Company. As well as turnkey construction concerned with electrical power systems, which is basic national infrastructure, the Alternative Energy Department of the Energy SBG is engaged in the business related to design, construction and installation of solar power systems as a turnkey EPC project and operate and maintenance (O&M). The SBG is focused on providing quality management services with a knowledgeable and professional team of engineers with over 15 years of experience in the power generation industry. The Company is also the owner of petty patents for rooftop solar panel cleaning machines and solar panel cleaning machines which have been registered with the Department of Intellectual Property. Furthermore, Alternative Energy Division also undertakes investments in solar rooftop installations for state and private agencies to invest in and share the benefits from solar power generation. These create business opportunities from renewable energy and ensure long-term energy sustainability.

Business Operations and Operating Results Corporate Governance

Systems, products, and services on offer which are delivered by the Energy SBG are mostly in the form of projects. Key customers comprise the Electricity Generating Authority of Thailand, the Metropolitan Electricity Authority, the Provincial Electricity Authority, which oversee the country's infrastructure and energy aspects, together with local and foreign customers with project coordinators, project managers or engineers responsible for directly coordinating with customers. In addition, the general customers or persons impacted by the Company's project operations may contact or make complaints via lpsdpo@loxley.co.th.

In 2023, the Energy SBG delivered major achievements, i.e., nine projects of construction of substations and transmission lines, e.g., upgrading and construction project of 115kV electrical substations, construction project of overhead 115kV transmission line systems, and construction project of overhead 500kV transmission line system, etc. Other eight major projects are still in progress and would be gradually delivered in 2024.

#### Competition, Opportunities and Business Operation Restrictions

In 2023, the public sector still formulates and allocates budgets for investment projects for infrastructure, especially construction of public utilities, construction of electrical substations and transmission line system. Moreover, the Company has long been engaged in business in electricity generation and power generation industries and has teams and personnel with expertise. In addition, it has experience and recognized works in the business, constantly good relationships with customers and trade partners and adheres to the policy to provide quality services. As a result, it is highly likely to be awarded certain projects. In addition, Loxley Power System Company Limited has always received excellent results from project operation assessment by key customers while its project works have been broadly accepted, which may be deemed as an indicator of the Company's project operation efficiency.

However, the public sector's policy and the continual allocation of budgets in the construction of electrical substations and transmission lines have allowed more local and foreign operators to enter into the market, which may take effect to the Company's market share and chance of works to be awarded in the future.

At present, the public sector formulates the policy of free solar power generating on rooftop and building. This makes the market opportunity wider, and enables more operators to join in the alternative energy market, which may take affect to the Company's market share and income growth in the future. In 2023, the situation of war and conflicts between countries has resulted in shortages of certain types of equipment and increased project costs. So the company has effective project forecasting and management to help mitigate risks and reduce the aforementioned impacts, allowing project delivery according to the established plans.

#### Quality Development and Key Business Innovations

In 2023, the Energy SBG developed its potential for accepting project works on a continuous basis, through development of knowledge and expertise, enhancement of capabilities and accumulation of experience in the electrical energy business. The delivery of the overhead 500kV transmission lines construction project, which is the maximum voltage in ASEAN region, deems a major achievement for the Company's creditability and capacity to bid for construction works throughout the region, and to be awarded for more projects. The Energy Strategic Business Group by the Company and Loxley Power system Company Limited is also registered in the Pre-Qualification List for the construction of electrical substations and transmission lines of core customers, which include the Electricity Generating Authority of Thailand, Provincial Electricity Authority and Metropolitan Electricity Authority. This not only implies the Company's work quality, qualifications, and well-preparedness in accepting various projects, but also its competition strength.

#### Future Business Plan (3-5 Years)

To build up stability of income and sustainable growth, the Energy SBG has focused on generating continued income by ensuring efficient project management, from decision making to take on projects, price quoting, bidding, project cost management, project management, and delivery of work as scheduled, expansion of power business as business models for recurring income, e.g., investment, product selling agent, and project acceptance in other countries.

Moreover, it has implemented strategies to enhance competitiveness to ensure stability for the business and income in the long run by developing knowledge and competencies of personnel, strengthening the Company's capacity for taking on projects by continuously creating a work portfolio in the electricity and energy businesses.

The Energy SBG continues to put emphasis on quality of services, quality of products and quality of teams as core business operation strategies in line with the Company's vision and to generate stable growth for the Company along with building a positive long-term relationship with customers.

#### Key ESG Operations/Management of Impacts on Stakeholders

- The ESB Group is trusted by core customers as a key business partner being involved in providing significant opinions to projects relating to infrastructure development for electrical substations and transmission lines of the country, which is beneficial to the organization development and the expansion of collaboration.
- As the overall business nature of the Energy SBG is related to construction, it gives priority to work safety and responsibility to society and communities within the vicinity of construction sites, by communicating with all employees to ensure they are always aware of work safety, strictly complying with safety standards and safety conditions specified in contracts, including ensuring that subcontractors and equipment manufacturers comply with safety measures as well by providing safety measures for construction works to subcontractors, work safety practice guidelines, safety regulations on construction works for subcontractors. In addition, it has expedited project completion and could deliver work as specified in contracts to reduce environmental impacts on surrounding communities. In 2023, the Company was able to delivered projects according to the contracts to the satisfaction of customers and trade partners without any impact and complaint from communities within the vicinity of projects.
- It established work safety measures and considered them as practical guidelines, namely providing education on work safety to employees, procurement of safety tools, site surveys, planning the projects' environmental conditions to determine necessary safety equipment, ensuring subcontractors comply with occupational health and safety measures, inspection of devices, work safety environment, etc.
- It encouraged and educated all employees about the importance of environmental care, and the cost-effective consumption of resources. It also carried out the energy saving activities in order to control the budget as targeted such as campaigns for saving the electricity cost, office supplies, and fuel cost, and other relationship activities with surrounding communities.
- In respect with personnel development, the ESB Group formulates the annual employee training and development plan to improve skills and capability of individual employees. The training for use of project tools and equipment is regularly held for customers before delivering each project to ensure the customers' satisfaction.
- In order to respond to sustainable development with consideration for the environment, the company has entered into a memorandum of understanding with M.E.A.

Smart Energy Solutions Company Limited (M.E.A.E.I.) which is a subsidiary of the Metropolitan Electricity Authority (MEA), who is a consulting, design, installation, and investment service provider in comprehensive smart energy management systems. This collaboration aims to jointly undertake pioneering projects in the development of alternative energy management businesses and smart energy systems to meet the diverse needs of electricity users, participate in the efficient production, and use renewable energy efficiently. As well as promoting sustainable clean energy consumption, leading towards future carbon neutrality.

#### Management of Risks Which May Affect Key Operations

Most of the work of the Energy SBG are project-based, especially projects of the public sector relying on the national policies and budget expenditure. Changes in the investment policy and budgets of the public sector will significantly affect the number of projects, thereby resulting in revenue uncertainty, including the risks from project management that may not be as planned. However, as the public sector continues to allocate budgets to investment projects for national infrastructure, especially development of public utilities, combined with the Company's well-established experience in project implementation in the energy business, it therefore is the business opportunity for the Company to generate income and create works to expand into other areas of the energy business in the future.

In addition, attentiveness to major issues relating to climate change has taken great effect to business investment in energy conservation or new power technologies, e.g., Smart Grid management system. This deems a business opportunity of the Company.

Key Subsidiaries Under the Energy SBG's Operation

- Loxley Power System Co., Ltd. is an expert in power systems, project management, construction and upgrading of electrical substations and transmission line systems for the public and private sectors. Its key customers are the Electricity Generating Authority of Thailand, Provincial Electricity Authority and Metropolitan Electricity Authority. Its services are provided in the form of Engineering Procurement and Construction (EPC), from design, construction, and installation to system test.
- L Solar 3 Co., Ltd., a joint venture, is engaged in the business installing solar rooftops to sell electricity through private power purchase agreements (private PPA).

## **Network Solutions Strategic Business Group**

Network Solutions

Connecting every use case with full safety measures, covering all telecommunications services and creating comprehensive digital service innovations

## 2,593 Million Baht

Total revenue from system planning, design, installation, and maintenance of telecommunications systems and digital networks in 2023

Network Solutions SBG comprises providing system layout, designing, installing and maintaining telecommunications systems and communications services over digital networks. It also includes developing a diverse of service platforms and digital solutions to serve all type of uses, to level up quality of life and safety. Its core business involves designing and developing solutions which can be customized for specific requirements, purchasing, procuring and installing equipment, and developing software and applications. Continuous and efficient services of training and repair enable service users to enjoy a quality network that is fit for purpose.

 Procurement and provision of design and installation services for visual and audio signal transmission systems, program production equipment, and broadcasting of digital radio and television signals. The Company is licensed by the Office of the National Broadcasting and Telecommunications Commission to trade in radio communication devices or any accessories of radio communication devices.

- Contracting for designing, development and installation of toll collection systems, expressway traffic surveillance and safety control systems, building security systems, including provision of training on system maintenance to enable customers to uninterruptedly and efficiently use the systems.
- Providing services of acquisition and procurement of engineering systems related to integrated rail transport systems, from designing, manufacturing, purchasing, installing, maintaining, and training to after-sales services for the rail transport system industry, such as signaling system, communication system, safety system, and electrical power system.
- Providing service involving automatic control systems, machinery and equipment control systems for power plants, remote supervisory control and data acquisition (SCADA) systems, and telemetry systems.
- Under the responsibility of the Environmental Business Department, Network Solutions SBG also operates the business relating to the design, construction, and maintenance of water treatment system, which is handled

and cared by new technology that can be flexibly moved and installed, but helps save energy and less budget for management and maintenance. Network Solutions SBG also operates the business relating to the distribution of chemicals for the water treatment system as produced by qualified chemical manufacturers under significant standard certifications.

Products and services offered and delivered to customers of each project are based on the specified requirements and specifications. Most of them are purchased and procured from famous manufacturers with acceptable quality and standards, from both local manufacturers and suppliers, and import from other countries such as the import of products in respect with the transmitter and studio devices, and most of devices relating to TV and radio broadcasting from the USA, Europe, and Japan, etc. With respect to the design and development of systems and software, it involves designing and procuring equipment, carrying out development by using equipment and current technology together, conducting research and testing to ensure they meet the established standards and conditions, including cooperating with business partners who own the technology and who have the experience and expertise in order to develop diverse solutions that meet various need of customer, as well as to be able to efficiently provide after-sales service and ensure customer satisfaction.

The target customers of the Network Solutions SBG are corporate customers, including government agencies, state enterprises and large-scale private companies, namely the Government Public Relations Department, Royal Thai Army Radio and Television, National Assembly Radio and Television Broadcasting Station, MCOT Public Company Limited, Department of Highways, Department of Corrections, Expressway Authority of Thailand, Department of Land Transport, Bangkok Expressway and Metro Public Company Limited, State Railway of Thailand, S.R.T. Electrified Train Co., Ltd., Electricity Generating Authority of Thailand, Royal Irrigation Department, Metropolitan Waterworks Authority, Provincial Waterworks Authority, Sino-Thai Engineering & Construction Public Company Limited, Nawarat Patanakarn Public Company Limited, Italian-Thai Development Public Company Limited and CH. Karnchang Public Company Limited. Overall, nature of business of Network Solutions SBG is project-based, directly involved with corporate clients. The project coordinators or marketing teams are responsible for coordinating with customers, handling complaints and resolving problems and errors of projects which have arisen.

In 2023, major achievements of the Network Solutions SBG's are as follows :

- The equipment procurement project for efficiency of Provincial Radio Thailand in Kanchanaburi province and the Public Relations Department.
- The procurement project for renovation of sound recording and broadcasting system of MOE Radiothai.
- The procurement and installation project of non-linear editing set and devices for MCOT Public Company Limited.
- The renovation project for toll collection system of Burapha Withi Expressway.
- The installation project for Lane Control Sign at Chaloem Maha Nakhon Expressway and Chalong Rat Expressway.
- The installation project for CASS & OAIT system of Red Line train service.
- The renovation project for turbine control system, in collaboration with the Electricity Generating Authority of Thailand, at Khwae Noi Hydropower Plant.
- The installation project for remote control system, in collaboration with the Electricity Generating Authority of Thailand, at Pha Chuk Hydropower Plant in respect with the power plant control system devices.
- The procurement and installation project for Supervisory Control and Data Acquisition (SCADA) of Khlong Rangsit Prayulsak floodgate project, the Royal Irrigation Department.
- The maintenance project for Big Data Development project, the Royal Irrigation Department.
- The renovation project for Trans-Thai-Malaysia gas pipeline control system, in collaboration with Trans Thai-Malaysia Company Limited.

Other major projects which have been on process include :

- The project for design, installation, and procurement of traffic control and management system on the motorway, Bang Pa-in-Nakhon Ratchasima Route (M6), and Bang Yai-Kanchanaburi Route (M81), in collaboration with BGSR Join Venture.
- The Nakhon Si Thammarat prison construction project, in collaboration with the Department of Corrections.
- The equipment procurement project for the production of TV programs for PDR Media Center, the Public Relations Department.
- The equipment procurement and installation project for the OB HD production van, National Broadcasting Services of Thailand, SorTorTor. 11.
- The maintenance project for broadcasting network and facilities equipment, the Public Relations Department.

• The procurement and installation project for Audio Mixer devices, MCOT Public Company Limited.

#### Competition, Opportunities and Business Operation Restrictions

With respect to marketing and competition in business operations in 2023, businesses were faced with new challenges from rapid growth of the internet technology which has played an important role and brought about the change in lifestyles. The application of such technology in the business operations affected the way of use and the changing needs of service users, especially the popularity of online radio and television, digital TV, plus the expansion of the 5G telecommunications network affecting the application of technology in the operational and service provision process. This is deemed as the opportunity to develop new models of products and services to be consistent with technology and meet the customers' changing communication demands, as well as the opportunity for expanding the target customer base to cover more private business sector, namely educational institutions, program producers and small radio and television stations.

In addition, the public sector's infrastructure development plan that aims to develop the country's transport systems on an ongoing basis resulted in the growth of the overall market value of transportation engineering. The public sector's expenditure budget plan for large-scale transportation system projects, including the business opportunity for control systems are sought after in several industries. These are deemed as key business opportunities that are the driving force enabling the Network Solutions SBG to generate income in accordance with the target. Apart from the aforementioned business opportunities, the long-standing expertise and experience of personnel and teams in planning and development of systems, the good relationships with customers and their trust, together with collaboration from partners and business partners that are strong and renowned and with quality technology and recognized standards, are considered the heart and key potential, which are the Company's advantages in presenting its products and solutions to customers.

Regarding problems and obstacles in business operations in 2023, the Network Solutions SBG has still got impact of the COVID-19 pandemic and the international wars, which caused delays in projects and delayed delivery of products and devices. The problems also included the shortage of certain types of equipment, spare parts, and semi-conductors, higher transportation prices, higher freight, and rising prices of

materials due to the exchange rate volatility, these all took effect to the project cost. The shortage of skillful and specialized personnel for project works is also another important factor in managing each responsible project.

However, under the efficient risk management plan and project management plan, cash flow management, and strict cost control, the Network Solutions SBG was able to speed up the project delivery, and it is anticipated that other on-process projects would be completed as scheduled.

#### Quality Development and Key Business Innovations

With respect to the nature of products, goods and services delivered to customers of the Network Solutions SBG, most of them are offered and delivered in the format of projects under which the quality of products will be in accordance with requirements or conditions stipulated in contracts to which the Company gives importance. Apart from acquisition and procurement of quality products that meet the specifications, the Company considers it as the main responsibility to offer consultation and advice to ensure customers receive products and systems that are efficient and can be used uninterruptedly, by taking into consideration the best interest of customers.

The Company also encourages research and development by using equipment and technology together to develop systems, software, platform applications and other solutions to meet the requirements of customers in order to enhance the efficiency of systems and reduce reliance on foreign technologies, such as the automatic vehicle classification system, LED signs showing traffic information on expressways, freeflow toll collection system software, and traffic management system software.

#### Future Business Plan (3-5 Years)

The Network Solutions SBG aims to be a full-service provider of integrated solutions which customers trust and choose, to focus on providing reliable and accurate services, to be able to deliver projects on time, and gives importance to development of existing products to be efficient, updated and in line with the changing trend of technologies, by focusing on development of software products. This is to ensure that customers will receive the best service products and systems that meet their requirements while the Company would be able to approach some new customers to enhance its income stability and long-term business sustainability. Simultaneously, the Network Solutions SBG emphasizes human resources development by focusing on developing knowledge, competencies, and potential of its teams and sharing resources by adhering to cost-effective use of human resources for maximum benefits.

#### Key ESG Operations/Management of Impacts on Stakeholders

- Development of the Company's and leading partners' personnel : The Network Solutions SBG has organized training and seminars to enhance the levels of knowledge, competencies and to continuously develop the potential of internal personnel, both the knowledge and skills related to products and services currently on offer. Apart from being the joint development of personnel, it is also the establishment of a long-term relationship with customers.
- As most of the business operations of the Network Solutions SBG are project-based and are related to construction work where it is necessary to engage contractors, importance is therefore given to work safety and social responsibility. Measures were established for the selection of contractors who, apart from being a juristic person or a person engaged in construction business with experience, their key personnel must be licensed professional engineers or skilled workers. They shall have an adequately stable financial position, sufficient equipment, tools, machines, and work safety devices, and sufficient skilled workers. Additionally, if they are foreign workers, they must have a legal work permit. They shall also strictly comply with the requirements, safety practice guidelines, and other measures established by the Company or the employer.

#### Management of Risks Which May Affect Key Operations

Changes of any policies, rules and regulations, and obligations of each supervisory agency or government agency take significant effect to the business operation of Network Solutions SBG such as terms and conditions of the license, concession term in the broadcasting service, or government policy and practice guideline in encouraging small and medium-sized entrepreneurs (SMEs) to make bids, etc. Changes of these policies, and rules and regulations directly affect the formation of business strategies and opportunities, competitiveness, and profit-making. Therefore, the Management and Department executives must monitor all related changes and circumstances in order to forecast and manage potential risks, and must also carry out necessary measures to mitigate possible impacts, and to build business stability in the future. In addition, changes and advancement of technologies lead to new goods and services and alternative goods, providing customers with more choices. Moreover, new models of business structure with lower costs also emerged, which affected the Network Solutions SBG that operates businesses directly related to technologies. As a result, the Company is required to adapt to changes and handle such challenge to maintain its customer base and ensure stability for long-term income and business growth.

Based on the business model involving projects, efficient project management to ensure delivery can be made as scheduled, cost management and control of expenses of projects as planned, are therefore the significant factors in risk management apart from other external factors that are difficult to control, such as volatility of energy prices, exchange rates, changes in the demand and supply of the country's economic system, and changes in rules and regulations of government agencies. Such factors affecting the success of project work are key issues that require efficient management and resolution of circumstances and close monitoring of circumstances. The Network Solutions SBG has realized that and considered it an important policy in its operation management.

## Key subsidiaries under the operation of the Network Solutions SBG

Loxley Evolution Technology Co., Ltd. operates the business providing implementation of integrated security systems (system integrator), i.e., security systems including hardware and software, network systems, development of security applications, design for site preparation and maintenance services as well as providing advice on security by professional personnel with expertise. It offers high-quality security solutions that are designed for specific requirements of businesses that require flexibility and which can be segregated and extended based on the objectives of usage. The main customers of the company are government agencies, airport buildings, defense agencies and businesses. The Company's key projects delivered in 2023 included the sales and installation of closed-circuit television systems of the Suvarnabhumi International Airport, Don Muang International Airport, Phuket International Airport, and Phase 3 of Hat Yai Airport, the e-Service projects for provision of the service to general people, and wildlife management in accordance with the Wildlife Protection and Conservation, B.E. 2562. Moreover, the company also received the contract for operation and maintenance of the baggage handling system of the Satellite 1 Terminal (SAT-1) at Suvarnabhumi Airport.

Loxley System Integrator Co., Ltd., an expert in telecommunications system engineering, provides services including design, procurement of telecommunication equipment from leading manufacturers, installation, system test runs as well as maintenance of large-scale telecommunications networks nationwide, such as the fiber optic cable network, transmission network and submarine cable network, wireless communication network, mobile network, and satellite communication network. The Company's target customers are mostly government agencies, state enterprises and private companies providing telecommunications services. Key projects which were completely delivered in 2023 included the project for purchase of the server and storage to support the Application and Tools system, the contracted work for renovation and expansion of the regional BBIP network, B.E. 2565 of National Telecom Public Company Limited, the procurement and installation project for the IP Access Network extension in the central region for the year of 2023 by the Provincial Electricity Authority, and the procurement project for the Optical Line Amplifier of the Metropolitan Electricity Authority. The Company's projects to be delivered in 2024 include the Next Generation DWDM system devices in the central region and western region, the procurement project for expansion of transmission system capacity of the ASEAN Digital Hub to support the Asia Direct Cable (ADC) service, the turnkey project improvement and expansion of the regional BBIP network, B.E. 2566of National Telecom Public Company Limited, the repair and maintenance project for the optical fiber cable network, available for 24-hour version, for 12 areas in the southern region by the Provincial Electricity Authority, the procurement project for the Video Wall Screen system for the monitor SAP system of Control and Processing Division Infrastructure Department and the Security Center of the Metropolitan Electricity Authority, and the repair, maintenance project for the optical fiber cable network for the fiscal year of 2024 of the Office of the Higher Education Commission, etc.

## Trading Strategic Business Group

Trading Strategic Business

A well-established leader in consumer products distribution in Thailand. It imports and exports consumer products and chemical products, and product sales with distribution that covers both domestic and other countries.

## 3,332 Million Baht

Total income from Trading SBG from sales, imports, and exports of consumer products and chemicals in 2023 With relationships and trust from leading products owner, under efficient management, driven by a professional team, distribution of products can be carried out in a fast manner, covering all regions of the country for any demand which lead to stable growth and continuous development. The Trading SBG is ready to create new business opportunities and stepping into the leadership in food-related service and distribution business status, which will enable every product line to grow.

The Trading SBG operates as an agent in distribution and logistics for leading daily consumer products or fast moving consumer goods, through both retail channels and the food services segment. Services are provided in a complete cycle of product distribution including sales, marketing, inventory management and transportation with over 45 years of experiences and a nationwide network of retail partners. As a result, the company has been trusted as the distributor for both domestic and overseas manufacturers who can grow markets in Thailand, such as for "Cook" cooking oil, "Nongpho" UHT milk, "Green Nut" crispy green pea, "Tra-Chang" fish sauce and

Business Operations and Operating Results Corporate Governance

shrimp paste, "Sumaco" canned sardines, "Lee Kum Kee" seasoning sauces, "Mum Zaab" fermented fish sauces and products, and "Jordan" products. Products under its remit are distributed to consumers through retail channels comprising both modern trade and traditional retail, including Lotus's, Makro, 7-11, Big C and Tops, and nationwide traditional retail outlets. The international business group under the Trading SBG is also an agent for the distribution and sale of Castrol lubrication products in the Republic of the Union of Myanmar, by appointing local agents to cover the country's four regions. This expands the Castrol lube oil business directly to consumers and distributes to various sectors such as manufacturing, motorcycle users, fisheries, and the manufacture and sellers of Power Generator equipment.

As well as being a leading agent for the distribution of consumer goods, Trading SBG is also a representative distributor and consultant for chemicals as a Solutions Provider, in both importing products from overseas and from domestic manufacturers. The company seeks out products from leading manufacturers with high quality at suitable price points which are competitive in the market. This includes sourcing environmentally-friendly materials which have been produced with new technologies. They are alternatives for industrial factories and business partners in key industries such as food industry, personal products, ceramics and glassware, rubber, paint and coatings, and agricultural chemicals industry, which are offered directly to factories.

L Food Solutions Co., Ltd., under the Trading SBG, operates a Japanese restaurant called "WaQ Yakiniku," providing grilled dishes and Japanese-styled shabu with the highlight of sauces and dips based on a recipe from Osaka, made by the restaurant itself, and the "Tamrub Guru" brand of original Thai dishes famous for taste and deliciousness to accommodate customers who enjoy tastes and different kinds of food. It also provides catering services for parties on all occasions.

#### Competition, Opportunities and Business Operation Restrictions

The consumer goods market is the market with constant movement due to intense competition, both from goods in the same group and from other kinds of substitute goods, including external triggering factors. The 2023 overview of the consumer goods market has grown up continuously from the recovery of local consumption and tourism. However, the international conflicts, wars, and fluctuating foreign exchange rates took effect to economic circumstances and purchasing power of consumers. The Company's Trading Business was also affected by the fluctuation of agricultural products. In particular, the increasing quantity of oil palm yields caused the excessive drop of oil palm price, which directly affected the Company's revenue gained from the oil distribution from soybean products, and affected the operating performance of the Trading Business.

However, from the Company's intense marketing, especially in non-Cook products, an efficient internal management and the market expansion by adding new products to the portfolio enable the Trading Business to create the business balance, and to mitigate the impact resulted by the declining distribution of Cook products.

In 2023, the Chemicals Group was significantly impacted by fluctuation of foreign exchange rates because over 85% of goods were imported. The impact also came from the declining demand on goods when the economic expansion did not meet the anticipated forecast, which took effect to the quantity of inventory and the business cost. However, the Company has closely monitored these situations, and proceeded certain measures regarding inventory management, customer expansion to other businesses, and searching for demands in other product categories to obtain more revenues. The revenues gained from new customer base and new products accounted for 11% of total revenues of the Chemicals Group.

Apart from the long-term strategy involving planning joint operations and growth with business partners, the chemical product group has also focused on development of personnel, teams and management efficiency to support business expansion, by emphasizing the capacity and speed in responding to customers' needs. The indicator prescribed as the key goal of the chemical product group is to increase the market share of main products of the group to be in the top 5 ranks of the market and to aim for satisfaction of business partners at 90% or more. In 2023, based on the assessment of main customer in each industry satisfaction, the chemical product group received an average score of over 92% from the assessment.

In Restaurant business still affected by the rising cost of living situation that affects purchasing power and spending, resulting in the sales volumes of restaurants not meeting their targets, Simultaneously, the business was faced with the rising cost of raw materials and cost of restaurant management. Moreover, technologies, especially the online social media and delivery service, have played an important role in consumer behavior, and competition was also more intense. As a result, the Company had to adapt itself which included the model of restaurant service. However, with the outstanding and distinguished tastes and quality of raw materials of the restaurants that were different from other brands, they were not much affected by the competition.

#### **Key Business Development**

In 2023, the Trading SBG expanded its business by seeking new consumer products to add to its portfolio, and participated in investing in a fermented fish sauce production company to do integrated marketing and develop products for related product groups. The goal is to create new sources of income and expand the base to support future growth In addition, in terms of enhancing management efficiency, Loxley Trading Company Limited has collaborated with a leading financial institution to pilot test the use of a centralized financial and payment transactions. This collaboration aims to reduce business costs and increase management efficiency, as well as connect to relevant government data to make business processes fully digital.

In addition L Food Solutions Company Limited, which operates a restaurant business and provider of premium Japanese style grill buffet are expanded business by opening WaQ Yakiniku shop at Asiatique The Riverfront Branch for support additional customer needs

#### Future Business Plan (3-5 Years)

For the purpose of business expansion and growth, the Trading SBC continues to focus on recruiting a variety of products to add to the portfolio in order to create a balance of income sources, reduce dependency on just one main type of product, including looking for opportunities to seek new business partners in many forms in addition to being a distributor of goods and products and conducting marketing through distribution channels, such as an opportunity for a joint venture for joint business operation, creating cooperation with partner manufacturers to develop products together for the purpose of rapid business growth.

The Chemicals Group continues paying attention to the retention of core customers for its secure and regular revenues. Meanwhile, the Group designs its growth through the horizontal business expansion or the acquisition of new customers in other industries connected with the targeted industries such as plastic industry and pet food industry, etc. The Group also

proceeded the vertical business expansion by adding food categories to serve demands of existing core customers.

For the restaurant business, the Company focuses on growth by means of secure expansion of branches, and on online marketing to be relevant to the era and changing consumption behavior. In addition, to conform to the environmental management and operation policy and the sustainability policy, the Company plans to proceed the waste management activities with aims at reducing the quantity of waste to be landfilled, and at mitigating the impact to the environment and the greenhouse gas emission.

#### Key ESG Operations/Management of Impacts on Stakeholders

- In order to create a happy workplace, the Company has implemented a flexible work policy by allowing employees to dress casually for work and the Flexi-hour policy has been implemented.
- Business review meetings with customers have been organized quarterly to report the overview of key operations, including problems and obstacles, to customers for acknowledgement. In addition, an annual business plan has been established and direction for joint operations was determined to ensure sales volume growth.
- Meetings were held with trade partners at the team and executive levels quarterly for mutual cooperation and coordination.
- Improving the building and facilities for employees at the Pathum Thani service and distribution center to ensure work safety.

#### Management of Risks Which May Affect Key Operations

In 2023, the Trading SBG was significantly affected by positive factors which supported its operation and by negative factors which were mostly from uncontrollable external factors, such as impacts from economic fluctuations that affect product demand and purchasing power, fluctuations in agricultural crop prices and exchange rate, which occurred globally. However, close monitoring of situations and efficient management, problem solving and decision making have enabled the Trading SBG to continue operating its business and to achieve satisfactory operating results.

Apart from external factors leading to risks affecting the operating results of the business, the SBG has tried to manage the risks in its operation arising from reliance on a small number

Business Operations and Operating Results Corporate Governance

of goods and products by adding new products to its portfolio in order to create a balance of income and additional business opportunities. It has also established a strategy to find new models of business partners apart from merely being a reseller. In addition, it focuses on operational system development, enhancement of internal management efficiency, and development of teams to ensure business continuity and to accommodate future expansion.

## **Special Projects and Other**

This is a specialized business unit handling customers with specific business needs or specific groups of customers requiring specialized expertise, or projects with unique features or studies of business prototypes for the possibility of future growth and development.

## 627 Million Baht

Total income from Special Projects and other. It aims to respond to specific business needs. with expertise and special expertise in 2023

 Printing and Advanced Technology Department The Department offers cutting-edge printing technology to agencies in the public and private sectors. Its end-to-end services encompasses printing technology, printer and software related with control of printing process, quality control, analysis of printing data and anti-counterfeiting printing system including consumables. In addition, design, maintenance and consulting services are also provided to improve the client's printing system, and to capably accommodate future innovations, and to maintain and distribute any related printing supplies. In 2023, the Printing and Advanced Technology Department offered a printing system to prevent the advanced counterfeit at the level of printing the banknote, duty stamp, and passport, where such work is provided by few service providers. The Department is also a distributor of the printing design program to prevent the counterfeit of lottery machine, and of the tablet press machine, which are reliable, in order to expand the Company's business and business opportunity to generate higher income.

#### Defense Technology Department

The Department supplies specialized electronic equipment related to high-quality security technology and requiring special expertise, including providing installation, maintenance and after-sales services, by importing high-quality products, selecting and purchasing goods from standard manufacturers and assembling them into complete systems to be presented to customers.

#### Education Technology Department

The Department provides procurement and installation services of education hardware for government agencies, educational institutions and agencies under the local administrative organizations, such as experimental and skills training sets and waste incinerators.

#### Construction Product Department

The Department provides procurement, installation, and distribution services of products and equipment for construction works under the name of "LoxCons", e.g., roof product (Lox Roof), lift product (Lox Lift), landscape architecture product (Lox Green), and decoration product (Lox Paint & Décor), etc. These products cover construction works in both government and private sectors such as infrastructure projects, mass transit system, electric vehicle, Expressway Authority of Thailand, hospital, educational institute, industry plant, as well as landed and high-rise property development projects. The Department also offers solutions of construction works for customers in various industry groups where certain core customers include contractors in mega projects such as MRT Pink-line electric train, MRT Yellow-line electric train, power plant construction projects of independent power producers (IPP), etc.

Key customers under the care of the Special Project Business include government agencies with specific demands on special knowledge, expertise, and technologies different from general customers, which are considered the Company's advantage. This is because the Company has personnel with long-standing expertise and experience in provision of services as well as the well-established cooperation and relationships with trade partners who are technology owners. Major achievements under the Special Project Business, delivered in 2023, included the delivery of the special offset printer equipped with the program to prevent the advanced counterfeit for Playing Cards Factory, the Excise Department, the delivery of products for the Orange-line, Yellow-line and Pink-line electric train projects, and ongoing delivery of military equipment to the armed forces.

#### Competition, Opportunities and Business Operation Restrictions

In 2023, the Special Project Business was affected by economic slowdown, shrinkage of investment budgets in construction projects of the public and private sectors, together with politics and government policy. When the investment budget allocated by the government sector was restrained, it directly took effect to the operation of the Special Project Business because its main customers were the government agencies. Also, tougher competition and higher construction materials price resulted from energy cost, as well as the Department's adaptation to the green industry under the sustainability concept all take effect to the Department's future product and service offers.

#### Quality Development and Key Business Innovations

Overall, the Special Project Business continues offering products and services to customers with focus on serving their specific demands. However, the Department initiates the collaboration project with customers and business partners to seek for environmentally friendly products and technologies in order to support the efficient consumption of resources; namely, the development project for "White Wool by LoxCons x MicroFiber", which is the fiberglass insulation produced from recycled glass bottles that are free from Formaldehyde as carcinogen for users' health safety, and is friendly to the environment under the sustainable building standards in Thailand.

#### Future Business Plan (3-5 Years)

The business operation goals and new challenges for the Special Project Business include the addition of value to existing goods and services through digital platform technology to help with the preparation for future technologies, together with the addition of value by offering environmentally friendly innovations and products, e.g., green label product, solar roof and solar wall product, offering of solution-based products and services, and integrated consulting service with aims at transforming and adding some business opportunities to be relevant to the government sector's goals and policy which desire to reduce the greenhouse gas emissions, and to create carbon neutrality.

#### Key ESG Operations/Management of Impacts on Stakeholders

Loxley gives importance to the building and maintenance of confidence and trust with stakeholders in all sectors, including business, social and environmental aspects, which are held by the Special Project Business as the important policy for operation to achieve sustainable growth. In 2023, key operations were as follows :

- Presenting printing tools or devices that highlight conservation of electrical power and feature a system to strictly control the air pollutants
- Joining hands with the business alliance, Microfiber Industries Limited, to develop "White Wool" innovation made from recycled glass bottles and fiberglass waste materials whereas the qualification of fiberglass is free from formaldehyde as a carcinogen so this innovation is healthy for users, promotes the cost-effective use of resources, reduces the consumption of new resources and the creation of waste. This product is categorized in LoxGreen product group as an alternative for customers who care for the environment.
- Prioritizing both health and safety of the Company's employees and business partners by setting up the zero-accident goal and good health in working. The actions were also consistent with the policy formulated by the Occupational Safety, Health and Environment Committee, and with the Company's Governance Policy.
- Controlling all product and service standards as well as installation standards delivered to customers by capable teamwork, and controlled by specialized engineers.

#### Management of Risks Which May Affect Key Operations

As the operation of the Special Project Business relies upon its customers that are mostly government agencies and must heavily rely upon experts from companies that own the products overseas, it is necessary to have a plan to manage potential risks, by taking into consideration various factors that may have impacts and by finding preventive and remedial measures as follows :

- Risks from changing technologies, which may cause the cancellation of production or out-of-date goods, or the failure to deliver contracted products. Therefore, it is necessary to receive the product quality guarantee from every producer and distributor that such new products have equivalent or better qualifications than those prior to the delivery.
- Risks from price competition, especially goods and products from China and Vietnam that bear lower cost, and become more active in the market, In particular, there is a disadvantage from Free Trade Area (FTA) permitting some goods from China and Vietnam to pay low import tax or no tax; this partially impaired the Company's competitive advantage and operating profit.

Business Operations and Operating Results

## Joint Venture Business

Overview

The strong collaboration with partners and the long-standing relationships as trading partners are partial strategies adopted by Loxley to ensure business stability and growth, and key targets to drive for sustainable development in the future. Key joint ventures of Loxley are as described below.

**BP-Castrol (Thailand) Limited** a joint-venture between Loxley Joint and Hold Co., Ltd. and BP Oil UK Ltd., is incorporated for manufacturing and distribution of engine lubricants under "Castrol" and "BP" trademarks that are well recognized by consumers. BP-Castrol has manufactured quality goods as required by customers. In addition, technologies related to goods are always upgraded and developed to ensure that goods are of the highest quality and are suitable for the customers' needs. It has received Thai Industrial Standard 17025 (ISO/ IEC17025) certification, testing and calibration laboratories from Thai Industrial Standards Institute (TISI) on 5 April 2022. BP-Castrol's products cover users in groups of passenger cars, pickups, trucks, motorcycles, as well as products used in the industrial sector and cargo ships.

**Target customers and users** are general customers with vehicles for transportation and for both land and marine transportation businesses, including other industries using heavy machinery. In addition, BP-Castrol has expanded its customer base continuously with a focus on repair shops, spare parts shops and independent cars and motorcycles garages through strong relationships and development of such shops to have images, service models and platforms that are outstanding and different from competitors, and to be standard for engine oil service changing center. BP-Castrol consistently improves the quality of goods distribution channels through resellers to facilitate convenient, accurate, quick delivery and thorough manner.

In 2023 the engine lubricants market in Thailand was highly competitive. Competitors continued to use the pricing strategies, promotional campaigns and advertising on media. There were also impacts with respect to procurement and supply of raw materials for manufacturing which resulted from the pandemic, international wars, and prices of raw materials that have increased significantly. However, in 2024, BP-Castrol remains its focus on growth of core businesses, both in the consumer market and industrial market, by expediting the expansion of the network of service centers, and by increasing the income from provision of services through Castrol service centers as well as building business partnerships and new business opportunities to strengthen the brand. Additionally, it develops businesses related to future vehicles in response to emerging markets that are likely to grow in the future and in line with the net zero carbon target of BP within 2050.

In 2023, BP-Castrol (Thailand) Limited's Samut Sakhon Plant held a Zero Accident Campaign activity to minimize the accident statistics and was awarded four platinum prizes by the Thailand Institute of Occupational Safety and Health (Public Organization) (TOSH) under the supervision of Ministry of Labor. In addition, it has been receiving the Green Industry Level 3 (Green System) certificate from the Ministry of Industry since 2018 up to present. This certifies that the Company has systematic environmental management and result monitoring and review system for continuous development. It was awarded a certificate for ECO Industrial Estate - Eco Excellence Level by the Ministry of Industry in 2022, and also joined the Environmental Governance Project (Green Star Award) with Samut Sakhon Industrial Estate.

NS BlueScope (Thailand) Limited and NS BlueScope Lysaght (Thailand) Limited are jointventure companies of between Loxley Public Company Limited and a holding company of BlueScope Steel Limited, Nippon Steel Corporation and Sumitomo Metal Corporation. BlueScope Steel is an Australian leading company and a global leading company in coated steel business. Currently NS BlueSope (Thailand) Limited is engaged in the business of manufacturing and distributing zinc/aluminum alloy coated steel and pre-painted steel for the construction industry, manufacturing industry and electrical appliance industry under various brands, as well as coated steel sheets, pre-painted roll-forming steel, roofing and wall steel sheets, wall structures for industrial factory buildings, large and medium-sized commercial buildings and residential units, which are popular and sought after in the market. Its plant is located Map Ta Phut Industrial Estate in Rayong province.

Core brands of products of NS BlueScope (Thailand) Limited are COLORBOND® and ZINCALUME®, which are products for industrial factory buildings and large commercial buildings, BLUESCOPE Zacs® and JINGJOE LEK® brands of products which are for small to medium-sized (SMEs) commercial buildings and residential housing. For the manufacturing industry and electrical appliance industry, NS BlueScope (Thailand) Limited has presented products under the SuperDyma® brand to the general manufacturing industry market and the electrical appliance market and presented the VIEWKOTE<sup>™</sup> brand featuring highly corrosion resistance with aesthetic coating surface with the top pre-painted steel technology from Japan to the electrical appliance market, in order to offer products that meet the needs for use of each customer groups.

In 2023, the domestic market demand continued to grow. However, due to domestic and international economic circumstances, and high import volumes of steel from China and Vietnam resulting in more intense price competition in the market, the key strategies of improving the goods quality, expanding the distribution channels, and communicating with customers consistently were placed; as a result, the products under the joint venture of NS BlueScope (Thailand) Limited and NS BlueScope Lysaght (Thailand) Limited become acceptable and favorite in various industries, especially BlueScope roof which is efficient, strong, durable, and lighter than other roof materials in the market such as concrete roofing tiles and fiber cement roofing slates. Therefore, the profit from the operations of these 2 joint-venture companies continues to grow.

With the confidence on strong and long-term growth of Thailand's economic outlook, especially the growth of the construction industry and investment in the country's infrastructure, the third metal-coated steel plant of NS BlueScope (Thailand) located at the Map Ta Phut Industrial Estate in Rayong province has played an important role in increasing the manufacturing capacity in order to respond to the demands of the construction industry, either giant or small, in Thailand and ASEAN region, and to reduce the import of steel products in Thailand and to boot competitiveness in price. **AOT Aviation Security Company Limited** or AOT AVSEC is a joint-venture company between ASM Security Management Co., Ltd., which is a subsidiary of Loxley Public Company Limited, and Airports of Thailand Public Company Limited (AOT), Thailand's leading state enterprise, Palangruam Security Guard Co., Ltd. (PLR) and Security M A I International Co., Ltd. (MAI). It is engaged in the business of providing airport security services for six airports under AOT, namely Suvarnabhumi Airport, Don Mueang International Airport, Phuket International Airport, Chiang Mai International Airport, Hat Yai International Airport, and Mae Fah Luang - Chiang Rai International Airport, including the Free Zone at Suvarnabhumi Airport and AOT Headquarter.

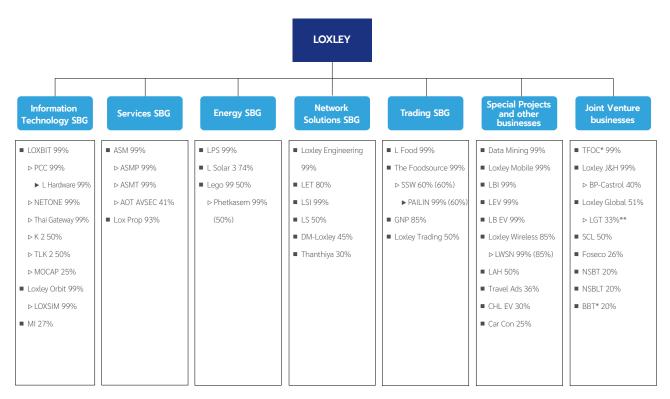

AOT AVSEC provide securities services with expertise and experience in airport and aviation security with international standards and has been certified by the Civil Aviation Authority of Thailand (CAAT). In addition, all of its passenger and baggage screening officers and airport security officers have been trained and certified as licensed security officers (Thor Por. 7). They are responsible for passenger and baggage screening to search for weapons, hazardous or prohibited substances to prevent any weapons or other hazardous items which may be used for unlawful intervention from being carried onto the aircraft to ensure that security for aviation operations will be in line with the standards of the International Civil Aviation Organization (ICAO) or other applicable laws, including the compliance with measures on liquids, aerosols and gels (LAGs) or other similar items or substances.

In addition, AOT AVSEC is responsible for airport security within the airport areas, including in the terminals and premises, both within and outside the airside, as well as providing assistance to passengers, service users and officers in the case of irregular events. These include providing security in the Free Zone of Suvarnabhumi Airport, i.e., traffic operation, security pass issuance, screening of persons and transportation vehicles, venue guarding service, patrolling service and CCTV center operation.

## 1.3 Shareholding Structure of the Group

# 1.3.1 Details of Ownership in Loxley Subsidiaries, Associates, and Joint Ventures

As of 31 December 2023, the Company holds shares in 53 other entities directly and indirectly; divided into 35 subsidiaries, 16 associates, and 2 joint ventures as follows :

## 1.5 Issuance of Other Securities

1.5.1 Convertible Securities

### 1.5.2 Securities Which are Debt Instruments

#### **Debentures**

The 2019 Annual General Meeting of Shareholders of the Company, held on 26 April 2019, resolved to grant approval for the Company to issue and offer for sale debentures within a limit of Baht 2,000 million for use in its business operations and/or investment in the Company's current and future projects, and/or for repayment of loans, and/or for other purposes.

As of 31 December 2023, the Company has the remaining obligation of debentures of Baht 300,000,000, Unsecured Debenture No. 1/2022 (LOXLEY 259A) issued on September 21, 2022, offered for sale to institutional investors and/or high net worth investors in the amount of 300,000 units with the par value of Baht 1,000 per unit, totaling Baht 300,000,000, with a fixed interest rate of 4.50% per annum. The maturity date is 21 September 2025.

Such debentures are name-registered, unsubordinated, unsecured debentures with debenture holders' representatives, which are redeemable prior to maturity date by the issuer. The credit rating of the issuer is at BBB level and the rating outlook is "stable" as rated by TRIS Rating Co., Ltd. on 2 May 2023.

#### Bill of Exchange

-None-

## 1.6 Dividend Payment Policy

#### **Company policy**

It is the Company's policy to make dividend payments of at least 40% of its net profits after corporate tax of individual financial statement and all reserves as stated in the Company's regulations and related laws. The Company considers financial status, cash flow, investment plans, business plan and other conditions and limitations (if any) as well as other administrative factors in making decision on dividend payment. The Board of Directors' resolution on dividend payment shall be approved by the shareholders' meeting, excluding interim dividend payment that the Board of Directors may resolve to occasionally pay shareholders when it is considered appropriate and should be reported in the next shareholders' meeting.

- In 2018 2019 and 2020, The Company did not pay dividend.
- In 2021, the Company paid dividends at 0.07 Baht per share, totaling 159 million Baht.
- And In 2022, The Company did not pay dividend.

## Policy of subsidiaries

In terms of subsidiaries, the Board of Directors of subsidiaries have the policy to pay dividend based on operating performance and with consideration of each company's financial position, cash flow and investment plan.

## 2 Risk Management

## 2.1 Risk Management Policy and Plan

For the purpose of corporate governance and enabling the organization to grow, expand its business stably, enjoy a secure financial position, generate an appropriate level of returns for the shareholders, the Board of Directors has considered appointing the Risk Management Committee to be responsible for formulating a risk management policy to ensure that the Company will be able to operate its business to achieve the established objectives, as well as pushing and promoting the Company's risk management to be undertaken systematically, continuously and efficiently and in accordance with the Company's strategic plan and in alignment with the risk management standards stipulated by the Securities and Exchange Commission and the Stock Exchange of Thailand.

69

The Risk Management Committee has established key risk management guidelines as follows :

- providing risk management methods, as well as overseeing and reviewing the risk management process on a regular basis to ensure that they are aligned with the changing situations and in line with generally recognized risk management standards;
- 2. pushing for risk management to be one of the core strategies of each business unit by stipulating risk management measures to be at an acceptable level and having a clear action plan, with continuous monitoring of implementation thereof, reviewing and adjusting the plan based on the changing situations, including being able to measure the progress and conduct assessment; and
- pushing for communication of risks across the enterprise to ensure everyone recognizes the importance of risk management and raise risk awareness extensively.

The Company's risk management operation structure consists of the Risk Management Committee, the Risk Committee's Secretary, and the task force consisting of representatives of each strategic business group to ensure that risk management is comprehensive for the Company's organizational structure with business diversity. Significant performance in 2023 may be summarized as follows :

1. From January to April, each unit, with coordination of the Risk Management Committee, followed the risk management methods and framework to identify the risks, assess them,

Business Operations and Operating Results Corporate Governance

and prepare their own risk management plan, including establishing key risk indicators to be proposed to their unit supervisors before summarizing key risk issues and the risk management plan and reporting them to the Risk Management Committee and the Board of Directors for consideration.

- 2. The Risk Management Committee reviewed risk management, monitored operations according to goals and key risk indicators quarterly and summarized annual risk management results, as well as planning risk management guidelines for the following year by considering what happened and lessons learned in 2023 to revise its operations to ensure continuous development.
- In Quarter 4/2023, the Risk Management Task Force and relevant units carried out actions under the risk management framework and drafted the 2024 risk management plan. Key operations are as follows :
  - A workshop on risk management was held for the Task Force to enhance its knowledge and understanding and to improve the efficiency of risk management operations on a continuous basis. The workshop was intended to enable the Task Force and relevant parties to establish the objectives of each unit, identify risks associated with operations, select risk assessment criteria in alignment with risks of each unit, specify the risk management plan clearly and in pace with the identified risks, and monitor the progress of implementation of risk management plans. Speakers from PricewaterhouseCoopers ABAS Ltd. were invited to educate 80 participants consisting of independent directors, the Risk Management Committee, the Risk Management Task Force, executives, and related parties.
  - Risks and risk management plans were prepared for 2024 under the COSO Enterprise Risk Management-Integrating with Strategy and Performance framework. The key process included identification and assessment of risks that may affect business operations, preparation of a risk management plan for each unit, as well as the Key Risk Indicators, to be proposed to the responsible unit supervisors before summarizing the major risk issues and risk management plans and proposing them to the Risk Management Committee for approval and then presenting them to the Board of Directors Meeting No. 7/2023.

## 2.2 Risk Factors on Business Operations of the Group and Risk Management

The Loxley Group consists of five strategic business groups (SBGs), namely Information Technology SBG, Services SBG, Energy SBG, Network Solutions SBG, and Trading SBG. Due to the diverse nature of its business, there are various risk factors in several dimensions that may significantly impact its business. As such, with respect to risk management, there is the Risk Management Task Force consisting of representatives from each SBG and back office to support operations. The overview of risks and the risk management plan for 2023 may be summarized as described below.

## Risk from revenue uncertainty of the project business which may prevent achievement of results as planned

As the main revenue of the Company and its subsidiaries is from projects, which are mostly projects of the government sector and state enterprises, which significantly depend on national's budget expenditure. Therefore, political stability, changes in government policies and the public sector's investment plans would significantly affect the volume of project works. In 2023, political changes from the general election and the lengthy process of forming a new government caused impacts on policies and delays in budget allocation. Moreover, project bidding competition continued to intensify, thereby causing the Company's performance to fluctuate based on the timing of being granted new work. As a result, projects are faced with risks associated with revenue uncertainty which may prevent achievement of results as planned.

The Company placed importance on such existing risk factors and required risk management on a continuous basis. Its major risk management efforts included close monitoring of the policies and budget investment plans of the public sector and state enterprises and determining business operation guidelines to expand its customer base to cover more different ministries and state enterprise agencies, including expanding its customer base to include new targets that are not government agencies to reduce the risk of overreliance on government agencies. In addition, the Company pushed for a policy on recurring revenues, especially from maintenance projects which must be carried out on a continuous basis and also promoted expansion of other SBGs, which is the main effort to reduce risk from revenue uncertainty. Upon consideration of the overall revenue structure of the Company, it can be seen that the Company still has revenue from the Trading SBG and Services SBG, considered as regular and definite revenue, including its joint venture business and other projects that can generate income and profit for the Company on a long-term and ongoing basis in order to create the balance of sources of income and minimize risk into diverse groups of businesses.

## Risk from project management that may not be as planned

Both in terms of cost management or risk from project delays. For projects with a definite completion schedule, if project management could not ensure completion as defined in the contract of each project, the Company may be subject to a fine as stipulated in the contract, as well as facing the rising project management cost due to fluctuations, such as major equipment and labor, which may cause expenses and operating costs of particular projects to be higher than estimated.

In 2023, in terms of project costs, the Company has been affected by the fluctuations in prices of materials and equipment which in turn significantly affected the project costs. In such case, the Company reduced the risk by planning project costs both from negotiations and by executing futures contracts to reduce volatility. In addition, as the Company has been in the project business for over 60 years, it has trade partners with long-term relationships thereby enabling positive negotiations on delivery of goods and prices.

Apart from the increased costs, project management may contain risk from work that has not been completed as specified in the contract, due to the shortage of some types of equipment, delays in delivery of goods or equipment, especially the equipment that must be imported, as well as operations by trade partners that were slower than scheduled. The Company has stipulated operational measures and plans to reduce such risk, by focusing on careful planning of project management, negotiations with clear mutual agreement, selection of trade partners with experience and competency, and contract management preparation, to enable operations to be carried out as planned and scheduled. In addition, in order to reduce the foregoing risks, the Company assigned the Project Investment and Evaluation Committee (PIEC) to consider and screen risks of projects before deciding to take on the projects or make any investment to ensure that each project will have the guidelines on preventing or minimizing risks which may arise at project commencement. Moreover, if there is a chance or risk that any projects may suffer any delay, the Company will form an ad hoc task force or a project steering committee to closely monitor and manage projects that encounter difficulties and report the issues to the Executive Board or Board of Directors for acknowledgement to seek solutions consistent with the circumstances and to help minimize potential impacts.

## Risks from technological changes affecting the business context

Rapid and consecutive changes due to technological advancement had affected customer demand patterns, especially the technological changes that facilitate creation of new types of service products from new service providers, new business operation formats, and new forms of requirements of markets, such as the reduction of use of conventional electronic devices, consumers may need multi-purpose equipment, or the focus may be shifted to digital, online, or Cloud services. If the Company is unable to monitor technological advancement and adapt to market requirements, the Company may not be able to maintain its existing customer base and may lose business opportunities.

Such risk affects various businesses of Loxley, in particular, the businesses related to information technology and telecommunications. As the Company is aware of the risks due to technological changes and potential impacts, it has placed emphasis on the plan to develop products and service models and personnel preparation to enable development of innovations or services that meet market demands and the changing business context. This included the increase of cooperation from partners, including research and educational institutions, or joint ventures with small and medium enterprises (SMEs) with innovation and technological expertise and readiness, to enable the Company to have the potential and to be ready to adapt to the changes in a timely manner, able to exist or become the business leader as well as being able to create confidence for its customers.

Business Operations and Operating Results Corporate Governance

Additionally, the Company has analyzed business demands of its target customers to develop products and operating systems based on the corporate strategies of customers, in order to ensure future revenue growth and to help expand the business towards sustainable growth with its customers on an ongoing basis.

#### Risks from Trading SBG with Supply Chain Impacts

With respect to risks of the Trading SBG, which required management of both demand and supply, which are the important factors in business operations and the main risks of this business, and in the past year, in terms of supply, there were still problems due to shortages of raw materials in some industries, that may cause insufficient products to meet customer demand in some periods, plus the attacks on cargo vessels in the Red Sea that resulted in disruption of global maritime transportation and higher freight costs, or in terms of demand, the requirement for each category of products would vary according to economic conditions, the proper management of demand and supply and stipulation of business operation guidelines are therefore necessary to reduce potential impacts.

The Company continues to focus on supply chain risk management, including procuring additional manufacturers to avoid overreliance on goods from certain manufacturers, continuous monitoring of goods price trends for the purpose of negotiation and appropriate pricing based on different periods. Apart from pricing strategy risk management, the Company placed importance on management of relationships with trade partners by continuously working with customers to know their needs to place orders for goods. These efforts help with inventory management to ensure there would be a sufficient supply of goods and to reduce the risk of excess stock.

## Financial risks from exchange rate volatility

With the nature of the Company's business operations, the Company needs to purchase goods and equipment from manufacturers and trade partners overseas for use in its operations, especially for various projects, including importing goods and raw materials for the Trading SBG, and such activities require the use of foreign currencies to pay for and accept payment for goods. As a result, the Company suffered the risk of exchange rate volatility. Moreover, the economic situations and cross-border conflicts in 2023 resulted in volatile exchange rates which may affect the cost of goods and project cost. Therefore, in order to prevent financial risks from exchange rate volatility, the Company considers it as one of major policies to follow to ensure smooth business operations and to reduce risks from such external factors, by having management guidelines, i.e., to determine the additional value of exchange rate risk in the project cost calculation and consider gradually trading currency futures contracts to reduce exchange rate volatility and minimize the potential impacts on projects. In addition, the Company emphasizes the importance of inventory management, execution of futures contracts and management of contracts with trade partners.

#### Risks from human resources development planning to be in alignment with the business growth wplan

In the Company's business operations, it is necessary to rely on personnel with specialized expertise and skills, especially in major positions and core executive positions of the Company that must rely on experience and expertise in businesses related to technology and complex business operation rules and regulations. If the Company loses these executives and personnel, it may affect the Company's future operating results and financial position.

The Company realized the importance of consecutive personnel development planning, including appropriate strategies for selecting, developing and managing human resources. In this regard, the Company has improved the performance evaluation process and method and pushed for a human resources management policy for each SBG that has a different work culture, in order to ensure management flexibility.

The Company has a policy to take care of its employees, creating a sense of commitment and being part of the organization. In the past, the Company has focused on developing management professionally and developing a new generation of executives for expansion systematically through a succession plan and has developed an individual development plan. Moreover, it allows the executives to express their opinions to formulate the Company's policies, business plans and business directions as well as granting them authority for making decisions in various aspects as appropriate to strengthen the understanding and develop the Company's business management potential and expertise.

### 2.3 Emerging Risk

## Risk from climate change due to greenhouse gas emission

Climate change is one of the main causes of natural disasters that have been more frequent and tend to be more severe, causing the loss of lives and assets, with the extensive economic and social impacts. Climate change also affects consumer behavior that has changed. Consumers tend to be more aware of environmental impacts and sustainability concepts. Trade partners, including the public sector, have issued measures to control, manage or stipulate them as conditions for business operations, such as the policy and measures on management and reduction of environmental impacts, green procurement policies, policies or measures related to greenhouse gas emission reduction, stricter legislation governing climate change, and future collection of tax on greenhouse gas emission. These factors affect the buying decision of customers or trade partners, or may affect the consideration of being selected to take on works, business opportunities, competition, image, and reputation of the Company, and may affect its future profitability. Therefore, it is necessary to be prepared to handle such situations.

In 2023, the Company monitored situations, assessed major climate change-related risks and opportunities, including transition risk and physical risk to establish measures to prevent and handle situations that may arise. It has also commenced the rooftop solar power generation system installation project to increase the use of alternative energy and to decrease greenhouse gas emission.

## Information technology system security risk

The Company uses information technology in its business operations to achieve efficiency, including operating its businesses in industries related to information technology and cybersecurity which must rely on networks and connection to external networks. As a result, the Company is faced with various forms of information technology and cybersecurity risk, such as malware, unauthorized attempts to access data, and other cybersecurity attacks which may cause data leakage, loss or disruption to operating systems, thereby affecting the operations, image and reputation of the Company, including affecting the services delivered to customers.

To minimize such risk, the Company has focused on system development designing process by working with customers in offering solutions and systems that have taken into account the possibility, likelihood and risks that may occur, establishment of data security measures, cybersecurity plans, including installation of other additional security devices. With respect to its internal information system, the Company has formulated an information technology system security policy and rules on information security as practical guidelines for units and employees. The Company has also educated its employees about the guidelines on the correct use of online social media and the guidelines on the prevention of cyber-attacks through the Company's communications channel and in-house training.

## **3 Driving Business towards Sustainability**

### 3.1 Sustainability Policies and Goals

Throughout the company's operations, there has always been a strong emphasis on building and maintaining trust with all our stakeholders. To that end, our interactions with all parties from the economic, social and environmental sectors has consistently followed our corporate governance policies. Despite changes and crises in a fast-changing business world, the company has overcome the obstacles and strives to continue with our vision in being "the Inspired Choice for Customers, Business Partners and Investors."

In 2021, the Board of Directors' Meeting No. 6/2021 on 20 December 2021 resolved to issue the Company's sustainability policies to reflect the intention and determination for sustainable development and takes into account all aspects mentioned as well as the wellbeing and human rights of all those involved in the entire supply chain and corporate governance. Goals and business policies under the sustainable framework are set out as follows :

**Economic Aspects** : To operate in a responsible manner; placing the customers' benefit first and foremost by offering high quality products and services suited to their needs at an appropriate price. To create a business model which helps the company develop alongside our business partners, and that helps create trust and strong relationships with our customers.

**Social Aspects** : The company places great importance on creating a positive working environment, caring for the well-being and development of employees towards professionalism and on creating more opportunities for employees with a disability. Furthermore, the Company will strive towards improving the quality of life of the surrounding communities.

**Environmental Aspects :** The Company is aware of the importance of environmental responsibility and is determined to work to reduce consumptions of natural resources and energy as well as curtailing environmental impact by promoting employee activities and participation in various projects on a continuous basis.

The Company's Sustainability Policies is displayed on its website www.loxley.co.th under the Sustainability section.

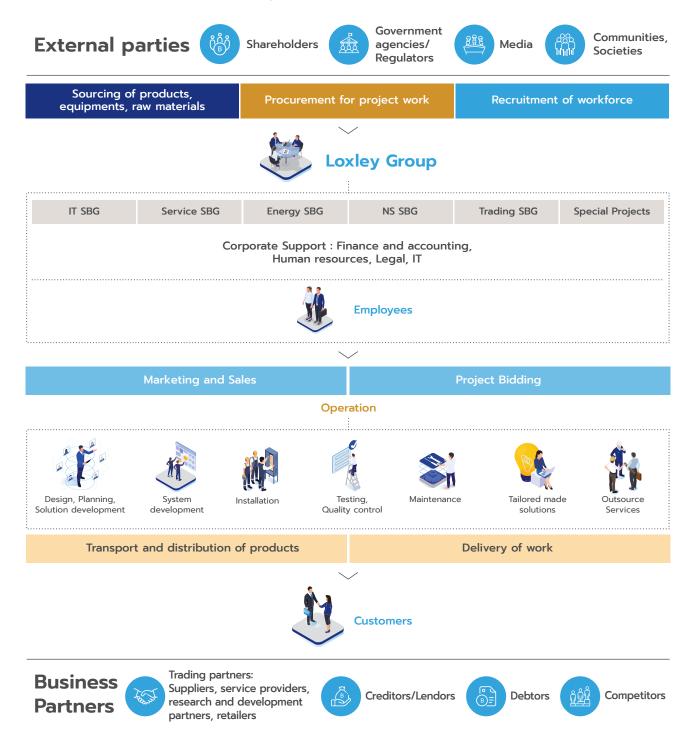

The Company has established a working group to drive its sustainability activities and ensure they are aligned with the visions of sustainable development. The working group will also monitor, follow up on such activities and directly report to the Board of Directors.

Business Operations and Operating Results Corporate Governance

Financial Statements

#### **Key Sustainability Issues**

In 2023, the Sustainable Development Working Group has analyzed the expectations of each stakeholder group in the business value chain to identify risk areas and potential impacts to both the company and stakeholders. The collected information was used to determine a direction and plan for sustainable development. Key issues were identified as follows :

**Economic Aspects** 

- 1. Corporate governance : good government principles, and corporate governance policy and procedures to ensure that the Company would be able to perform work to obtain long-term sustainable returns.
- 2. Information security : information security system and privacy.
- 3. Risk and crisis management : risk management resulted by the Company's operation, change of laws and rules, credit risk, image risk, as well as the assessment of emerging risks which may take effect to the business operation.

#### **Environmental Aspects**

- 4. Operational ecoefficiency : building of balance between the economic growth, and the increasedefficiency in using resources and the reduction of emission of pollution to the environment, which would lead to the sustainable production and consumption.
- 5. Environmental policy and management system : the organization's environmental projects that have been managed universally and systematically under written policy and plan, along with the corporate structure, planning and allocation of resources for development and operating procedures, and the Company's policy implementation with respect to the management of environmental resources.
- 6. Climate change mitigation and adaptation : effort to reduce and prevent the emission of greenhouse gases by the organization, adaptation and measures taken to respond to the effect of the climate change.

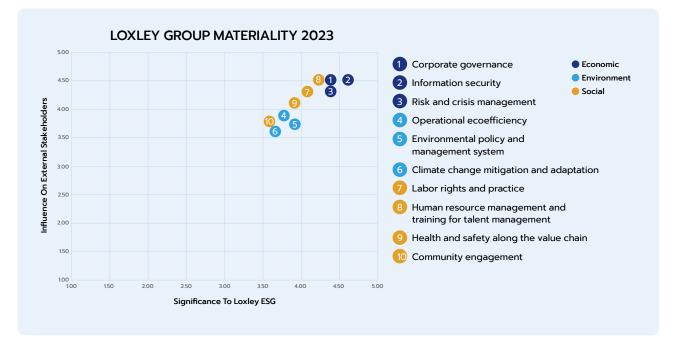

#### Social Aspects

- 7. Labor rights and practice : Treating employees by paying respect to diversity, equitable opportunity, no discrimination, fair compensation, and mechanism and channel of accepting labor complaints.
- Human resource management and training for talent management : guideline used by the organization in the human resource management to attain the organization's goals, development of talent employees, and personnel replacement.
- 9. Health and safety along the value chain : care for well-being of employees, customers, suppliers, and environment throughout every step of the production and delivery of products and services.
- 10. Community engagement: Arranging a variety of activities for communities, volunteer activities, and activities arousing the growth of community economy.

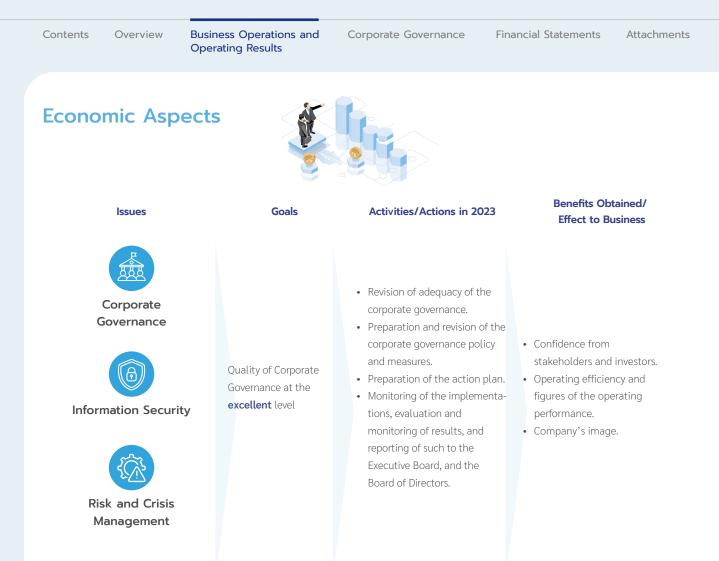

The Sustainable Development Working Group has taken key sustainability issues identified above and organized them in order of importance and urgency to facilitate decision-making. The group has taken into account business strategy, stance of other companies within the industry, international standards, business relevant issues that are receiving attention from sustainability related agencies and lastly, macro-level policies. The organized list is as follows :

The Company determines the operating guideline that is consistent with significant and urgent issues, and, then, integrates them to the Company's business operation. There are 7 issues targeted for assessment and monitoring of outcome, e.g. corporate governance, cyber safety, risk management, operating and practice in labor rights, occupational health and safety of individuals in the value chain, employee management and training of talent employees, and climate change mitigation and adaptation. The work performance shall be reported to the Sustainable Development Task Force and the Board of Directors. The reporting guideline shall be consistent with the GRI Standards 2021 as presented in the 2023 Sustainability Report. Such sustainability issues shall be assessed, monitored, and revised on the yearly basis to have the operating guideline and development goals in the future.

81

### **Environmental Aspects**

Issues

Mitigation and adaptation to cope with the climate change

#### Goals

- 2023 Quantity of carbon footprint reduced by waste separation is equivalent to 600 trees used to absorb the greenhouse gases.
- 2024 Information preparation regarding the greenhouse gas emission of the base year.
- 2030 Reductionof greenhouse gas emission for20% as compared with thebase year.

#### Activities/Actions in 2023

- Campaign for efficient
   consumption of resources.
- Campaign for waste separation.Report on the greenhouse
- gas emission, scope of work, Type 1 and Type 2 of Loxley Plc.

#### Benefits Obtained/ Effect to Business

- Participation in the environmental care, and the response to the government policy on the national greenhouse gas reduction.
- Confidence from stakeholders and investors.
- Reduction of risks and impact caused by laws and regulations that may take effect to business opportunities and investment.

### **Social Aspects**

| Issues  | Goals  | Activities/Actions in 2023   | Benefits Obtained/<br>Effect to Business  |
|---|--|--|---|
| Actions and practice<br>regarding labor rights                      | Number of incidents<br>in respect with the<br>violation of human rights is<br><b>zero.</b>   | <ul> <li>Strict compliance with<br/>related laws and<br/>regulations.</li> <li>Notification of the Code<br/>of Conduct for Business<br/>Partners.</li> </ul> |   |
| Safety and occupational<br>health of everyone in<br>the value chain | <ul> <li>Number of fatalities in<br/>employees is zero.</li> <li>Lost time injuries longer than<br/>3 days but not more than 3<br/>times</li> </ul>  | <ul> <li>Improvement of the safety and occupational health policy.</li> <li>Supplier assessment and auditing.</li> </ul>                                     | <ul> <li>Development of the quality of life, living, and competency of the personnel.</li> <li>Operating efficiency and improvement of profitability.</li> <li>Reduction of risks and impact caused by laws and regulations.</li> </ul> |
| Efficient management<br>and training for employees                  | <ul> <li>Preparation of<br/>the individual development<br/>plan for 80% of all<br/>employees, and the plan can<br/>be implemented.</li> <li>Number of<br/>training hours for employees<br/>is 12 hours per person<br/>per year.</li> </ul> | • Employee training and development is in line with the employee development plan in terms of management and necessary skills for work.                      |   |

## 3.3 Sustainability in the environmental aspect

Overview

## 3.3.1 Environmental policies and practices

The company is aware of the current environmental issues and is determined to do its due to society in reducing their extent. Therefore, the company has adjusted internal processes to reduce or mitigate the environmental impact that arises as a result of business operations. The company's sustainability policies places emphasis on implanting and cultivating a culture of resource efficiency, environmental responsibility, energy efficiency, efficient resource utilization and good waste management in our personnel. This is to play our part in taking care of the environment and conserving energy. The company has set a goal to reduce electricity consumption in lighting and air conditioning within the main head office building. With a goal of no more than 2,953,500 kilowatt-hours (kWh) of electricity consumption, which is a baseline from 2020. And to reduce water consumption to no more than 25,000 cubic meters, the baseline for 2020. Furthermore, the company has set a goal to participate in tackling climate change. In 2023, the company set targets for collecting and reporting greenhouse gas emissions data, operational scope type 1 and scope type 2, for Loxley Public Company Limited Additionally, they conducted waste segregation activities for recycling. The goal was to achieve a reduction in greenhouse gas emissions equivalent to the number of trees used for absorbing greenhouse gases, which amounted to 600 trees.

## 3.3.2 Results of work in environmental sustainability

#### **Energy management**

The company has implemented measures to utilize energy efficiently and effectively, and to promote energy conservation. Including : campaigning to reduce elevator usage and promote energy conservation through media platforms, signs in the office building and video media that aims to educate people on methods to reduce energy consumption, turning off lighting and air conditioning systems at set times and installation of solar panels on office buildings (Solar Rooftop). In 2023, the company used a total 2,418,000 kWh of electricity for lighting and air conditioning. This is a decrease of 535,500 kWh from the consumption 2,953,500 kWh in the base year of 2020, or a decrease of 18.13%. and the amount of renewable energy used is 12,839.52 kWh

#### Water management

Use of water for consumption in the office should be done in a more socially and environmentally responsible manner. The company has started projects asking for cooperation from employees to start changing small habits in the everyday life to waste less water. For example, signs asking employees to reduce usage of water in the toilet sinks. The projects then extend towards larger aspects such as efficient wastewater management. Wastewater passes through a wastewater treatment system before being released into the public drainage system to avoid negative impacts to the surrounding communities. In 2023, the company consumed 27,837 cubic meters of water, an increase of 2,837 cubic meters from the baseline of 2020, at 25,000 cubic meters and increase of 2022 at 26,918 cubic meters. Regardless, future guidelines and measures will be reviewed to address the issue more effectively.

#### Waste management

The company manages waste according to the 3Rs principle : Reduce, Reuse and Recycle. This is a concept and practice for making more efficient use of resources. It can help to reduce the amount of waste generated by decreasing the amount used, reusing the product before recycling into another useful product. For example, stopping the use of plastic bags and Styrofoam boxes in the company's canteens, supporting the use of cloth bags, campaign promotes the use of personal water glasses and separating waste into clearly separated waste streams. It includes separating paper waste for recycling into new paper and plastic waste sorting. In 2023, A total of 3,352.80 kg of waste was recycled. To compare, the reduction in greenhouse gas emissions is equivalent to the number of trees needed to absorb greenhouse gases, which is 1,746 trees. Alternatively, it can be expressed as a reduction of 15.71 tCO<sub>2</sub>eq (based on data collected in collaboration with the Stock Exchange of Thailand).

#### Reduction of greenhouse gas emissions

The company places importance on managing greenhouse gas emissions. An energy management working group has been installed to formulate energy saving plans and measures. Such as, working to replace all light bulbs with energy saving LED bulbs, campaigning for separation and recycling of plastic waste into fuel and support for alternative and clean energy includes initiatives such as installing solar panels on office buildings (Solar Rooftop) and declaring policies regarding the management of company vehicles. This involves procurement, replacement with alternatives, and periodic changes in usage and additional procurement, specifying the use of hybrid or electric vehicles exclusively. In 2023, the company had a share of alternative energy vehicles accounting for 20.37% of all company vehicles. In addition, the company has participated in the Stock Exchange of Thailand's Care the Whale project which aims to reduce waste generation at the source, as part of reducing the emission of greenhouse gases and carbon footprints, which contribute to climate change and reducing carbon footprint. From the results of the organization's greenhouse gas emissions data collection scope 1-2 for Loxley Public Company Limited during the period from January to December 2023. It was found that the amount of greenhouse gas emissions from scope 1 was 361.18 tCO<sub>2</sub>eq, and scope 2 was 1,148.43 tCO<sub>2</sub>eq. However, in the year 2024, the company aims to proceed with collecting greenhouse gas emissions data for the organization to serve as a baseline for calculating and reporting emissions. Furthermore, arrangements have been made for ongoing auditing and certification of the results.

85

## 3.4 Sustainability in society aspect

## 3.4.1 Policies and guidelines for sustainability in society

The company has policies to create a positive and happy working environment because we believe that 'people' are key in creating positive changes that bring the company forwards in a successful manner. 'People' not only covers the company's personnel but also refers to the surrounding communities and even people outside the company who provide support so that the company can grow strongly and sustainably.

The company is committed to operating with policies that comply fully with laws, rules and regulations related to social management. Including respecting human rights for everyone throughout the business value chain. Examples include : managing in a way that provides equality and fairness to all personnel, supporting the development and improvement of employees' capabilities and quality of life through various training courses in both work and life related areas and providing welfare and safety for employees.

With regards to respecting human rights principles, the company respects and treats all stakeholders fairly on the basis of human dignity without discrimination of origin, race, skin color, age, gender, etc. The company treats all employees and workers fairly; providing appropriate compensation and welfare benefits according to labor laws. In addition, the company supports employment for people with disabilities, helping to provide opportunities to create careers and better lives. Lastly, the company has set measures to protect the personal information to ensure the security and privacy of personnel.

| Subject   | Guideline  | Implementation and management   |
|---|--|---|
| 1. Transparent recruitment process.                       | An emphasis on transparency when recruiting new employees to the company.  | The company has appointed the Final Interview Committee for<br>selecting suitable personnel based on their qualifications and<br>suitability and consists of qualified senior members from various<br>departments.  |
| 2. Comply with labor laws and government policies.        | Employment is based on labor laws,<br>guidelines and policies from the<br>government.  | Employment is according to labor laws with compensation<br>appropriate to the role, education and qualifications. Overtime<br>pays for extended working hours is provided and employees are<br>given more annual holidays than that stipulated by labor laws.<br>Adjustment of the minimum wages are done according to the<br>Wages Committee. Business Operations and Operating Results Corporate Governance

In 2023, the company was awarded an "excellent level" for organizations that supports the empowerment of people with disabilities from the Department of Empowerment of Persons with Disabilities, Ministry of Social Development and Human Security.

#### Health and Safety aspects

Overview

The company complies with all laws and regulations related to safety, occupational health and the environment by maintaining a working environment that is conducive for work and safe for the wellbeing and valuables of the employees. This includes but not limited to: organizing fire evacuation training and drills to annually maintain and improve employees' preparedness, educating employees on how the security system works, campaigning for safe driving practices in the building's parking area and providing a health garden for relaxation and exercise. In 2023, the company acted to manage safety and occupational health by improving the physical wellbeing of employees, renovation buildings and installing facilities equipment, safety warning sign, improving cleanliness of the workplace to reduce pathogens, inspecting and certifying the building's electrical system and organizing a fire evacuation training and drill. In 2023, there have been no statistics of fatal accidents involving employees due to work-related incidents, and no employees have been injured to the extent of missing work for more than 1 day.

- To take care of the health and safety of employees during the epidemic situation. The company has prepared measures and procedures to support in the event of an outbreak, including preparing communication channels for reporting incidents and following up on the situation.
   By assigning the Human Resources Department to be the central unit in incident management.
- The Transport Safety Management System Task Force was established while the personnel were registered in accordance with the transport safety management system (TSM). The registered personnel must attend the training, and pass the examination organized by the Department of Land Transport. Such personnel shall be responsible for planning, controlling, and caring for the transport safety. Their duties also include the preparation of the plan for accident or emergency management and prevention to enhance the transport safety.

Note : Number of employees with disabilities fulfills requirements of the law

In 2023, the company had 55 employees who voluntarily resigned, or a turnover rate of 10.88 percent.

The company complies with human rights principles throughout the recruitment and employment process of all employees. In 2023, the company adhered strictly to labor protection laws and relevant regulations, as well as implemented personnel policies focusing on the importance of creating a happy working environment. So the company received no complaints about human rights violation and the company has had no significant labor disputes within the past 3 years.

In addition, to reduce the risk of human rights violations, The company has also announced a code of ethics for business partners. It has defined labor and human rights issues and occupational health and safety issues for business partners of the company group to study and use it as a guideline for managing the organization and working together. To ensure that business process standards between the group of companies and trading partners are aligned in the same direction throughout the business chain.

#### **Termination of Employment**

The company may consider laying off employees due to reorganization, a downsizing in workforce, discontinuation of certain positions, reduction in the employee's own work capabilities, employee's personal issues, etc. This is done according to laws and regulations related to employment. The company pays compensation to employees who terminate their employment fairly and in accordance with the criteria of relevant laws. In 2023, the company has laid off 14 employees.

#### Employee care and development

The company through its Human Resources Department provides welfare and other benefits to employees through various incentives in addition to their salaries. This is stated in the work regulations as follows :

- Provident fund To encourage employees to have savings and additional welfare when necessary due to unforeseen situations or upon leaving the company. The company pays contribution an additional amount to the employees' fund.
- Measures are in place and budget allotted to help employees who have suffered from natural disasters, accidents, or various events of emergencies.
- For employees who have worked with the company for 10 consecutive years, then every following 5 years, a souvenir and certificate are presented by the Company to express its appreciation and gratitude.
- Welfare are extended in the form of subsidies on the demise of parent(s), legitimate spouse or child of a regular employee.
- Special discount will be given to employees on purchase of products or use of the Company's or its affiliates' restaurants.
- Loxley Group Employee club's activities a way to build good work relationships, engagement, and work environment. This also acts as communication channels to listen to feedback, opinions, and suggestions from employees on various matters.

#### Customer care

The company continuously strives to deliver good products and services. It is a mission of the company to be the best choice for customers by providing products and services that meets customers' needs and expectations, and by putting great importance on the customers' benefits. Therefore, in any project, the company arranges periodic meetings with the customer before, throughout and after completion of the project. This allows the company to offer solutions that are tailored to customers' needs, track job progress, improve customer satisfaction, listen to feedback that improves the work and encouraging customer engagement. The Company has implemented personal data protection policies and privacy notices. This is to instill confidence in customers and partners that their personal and business information will be securely managed, stored, and used according to relevant data standards and regulations. In addition, the company provides channels for data owners to exercise their rights over the collected data according to the law. In 2023, the Company has not received any major complaints from customers.

Business Operations and Operating Results

#### Procurement Policy and Practice Guideline to Suppliers

The meeting of the Board of Directors, No. 5/2023 on 19 October 2023 resolved to approve the procurement policy which was revised in accordance with the good governance principles to ensure that the Company's operation relating to procurement is appropriate, efficient, proficient, and run in the same direction. The Company's procurement activities are carried out fairly, transparently, and ethically under its sustainability strategy in order to make all stakeholders trust in the Company.

The Company complies with fair trade competition frameworks. This includes complying strictly to contracts, trades at fair purchasing and selling prices, and taking into consideration all aspects of price, quality and functionality of products and services before trading. In addition, the company has a register of vendors for consumer goods, office supplies, electronic equipment and consumables to facilitate fair comparisons that is constantly updated and reviews as appropriate.

To merge the suppliers' participation in operating the business on social and environmental responsibility and morality, the Company provides the Business Ethic and Code of Conduct to guide the suppliers of the Group of Company to operate their businesses with accountability, and to grow up together sustainably throughout the value chain. Such practice guideline may be applied by the suppliers in their organizations as appropriate to make the business standards between the Group of Companies and these suppliers run in the similar way. This deems a pace of cooperation which leads to the business development along with the creation of sustainable society and environment.

#### Caring for the community and society

The Company has policies in place to take care of the surrounding communities and society. Focus is placed on contributing back to society by leveraging the resources and expertise of the organization and its employees. With this, the Company aims to respond and resolve social issues, promote community development, provide opportunities for underprivileged or disabled people, and to promote engagement with the network organizations in the area. Namely these are: the Penang market community, Duang Prateep Foundation and the Sikkha Asia Foundation., Wat Khlong Toei Nai and Wat Khlong Toei School.

#### "LOXLEY - ASM Sport Hero"

Loxley Public Company Limited and ASM Security Management Company Limited as the Company's subsidiary, have continuously given some financial support to disabled persons under care of Sport Association for the Disabled of Thailand (under the Royal Patronage of His Majesty the King) for consecutive 12 years under "LOXLEY - ASM Sport Hero" program by purchasing some sport equipment for disabled athletes, supporting disabled athletes to participate in the national and international sport competitions and so on. The Company has constantly recruited the disabled persons to be its employees. In 2023, 55 disabled athletes were recruited by the Company. Except an opportunity of work career, this is to support the use of sport competency to create reputation for themselves and Thailand.

In 2023, disabled athletes from the program participated in several international competitions such as the 12<sup>th</sup> ASEAN Para Games at Cambodia, the 2023 World Para Athletics Championships in Paris, France, the 4<sup>th</sup> Asian Para Games at Hangzhou, China, IBSA Blind Football World Grand Prix 2023 in Brazil, etc.

The Company has published and promoted the activities and achievements of athletes from the program through newspapers, TV programs, websites and other online media platforms to raise awareness and to create acceptance and inspiration for people with disabilities and underprivileged people.

The Company is committed to continuously supporting and implementing many projects for people with disabilities. In 2023, the Company was awarded for an organization supporting the employment of persons with disabilities at "Excellent" level, given by the Department of Empowerment of Persons with Disabilities, the Ministry of Social Development and Welfare.

#### "OPPY" by LOXLEY

Loxley Public Company Limited establishes the OPPY by Loxley Club to carry out various activities to improve the quality of life of the elderly. The activities include the teaching and learning of using the computer, internet, and applications to make the elderly wise to new technologies, and other health and mind promotion activities to balance life and to improve the quality of life such as the activity of improving the right cerebral hemisphere and meditation practice by watercolor painting, the slowdown of Alzheimer's Disease by Line Dance and singing, cartoon drawing, Chinese paintbrush art, etc. At present, this club is transformed to be a social enterprise with aim at being the model of longevity society to help the elderly care for themselves and live in the aging society comfortably as a kind of supporting the pace of the aging society. Up to now, this social enterprise contains over 5,000 elderly members.

Except some internal activities, OPPY in collaboration with alliances arranged many activities for the elderly and neighboring communities. For example, the Company and Advanced Info Service Public Company Limited arranged the training program for OPPY members to promote their digital skills from cyber protection devices in the subject of "Wise to Tricks, Danger on Online World" via digital learning program platform. This program aims at helping the elderly aware of the digital danger and live on the online world constructively and safely. The Company also arranged the activity educating about the maintenance and checking of cooking gas tank in the subject of "Serve Happiness, Deliver Knowledge to the Community". This activity was held for students at Prathom 5 and 6, Wat Khlong Toei School, in collaboration with Atlas Energy Public Company Limited, LPG service provider, etc.

#### Development of the Penang market community

The Company has collaborated with the Penang market community committee to prepare the "2023 Strong Community Project" while complying with strict COVID-19 measures. The project's target group is the community committee with children and youth in the community who helped drive work by putting their effort together. The goal of the project is to promote self-sufficiency by encouraging group-work in thinking, designing, planning and delegating to run various projects and activities in the community. All projects and activities are based on mutual agreement, cooperation after holding productive meetings together. Members of the working group will have the opportunity to develop their capabilities, teamwork skills and build a good relationship with others in the community. Activities are as follows :

#### Community in Photograph Activity

In 2023, the Community Committee and youth determined the subject of "Community in Photograph Activity" to create the joint learning, living, and harmony through the photograph activity. Ten children from 4 communities comprising Penang Market Community, 70 Rai Community,

Lock 1-2-3 Community, and Lock 4-5-6 Community were selected to learn about photograph taking and courtesy, and look for the community attraction to be disseminated in the online world. There were some lessons learned from this activity while the photographs were delivered to the Community for its historical record.

#### Activities to promote community relations

This activity takes place throughout the year at specific times or on important festivals. These are events or festivals that align with the culture and context of the community, such as Mother's Day or New Year's Eve. These events serve to promote good intra-community relationships and cohesion by providing opportunities for people to celebrate together with joy. The activities are organized by the community committee, BY Penang youth group and the Company's CSR activities department.

#### Dessert Cabinet Activity

This activity is organized every month to allow the Community Committee and youth to discuss and summarize their working, and to have the communication channel. Business Operations and Operating Results Corporate Governance

#### Development of Khlong Toei Community

Overview

- The Company in collaboration with Pho3nix Foundation, Switzerland, organized the Move for Life event. The event promoted the physical body skills, cognitive and emotional skills, and social skills, and educated about waste separation as well. The activity was divided into 2 levels depending on the skill level. In 2023, this activity was held 3 times; namely, on the period of February-March, and June-August at Chumchon Mooban Pattana School, attended by 25 students, and on the period of November-December at Wat Khlong Toei School, attended by 66 students. The volunteers from the Company also participated in this activity.
- The Company offered to Wat Khlong Toei School the teaching and learning materials, appliances in school, and some money to renovate the library.
- The Company in collaboration with Duang Prateep Foundation organized "Caravan Tale" project on the summer to educate about traffic discipline to children at Khlong Toei. The Caravan Tale campaign visited 10 communities, including Romklao Community, 70-Rai Community, Ta Rua Railway Community, Pattana Mai Community, Lock 1-2-3 Community, Rim Klong Phra Kanong Community, Flat 23-24 Community, Flat 11-18 Community, Nong Mai Community, and Wat Khlong Toei Nai Community.
- The Company offered its products to 33 communities in Khlong Toei, which would be further delivered to children there on the National Children Day

#### Projects for social development

#### • Blood donation activities

The Company has collaborated with the National Blood Service Center of the Thai Red Cross Society to set up blood donation activities for employees in the company since 1999. Then in 2012, the Company invited other companies in the area, namely : The Shell Company of Thailand Co., Ltd., Bangkok Post Co., Ltd. (Public Company Limited) and Colgate-Palmolive (Thailand) Co., Ltd. to participate in the blood donation activity. Coordination was rotated between each participating member company to organize a total of 4 blood donation runs per year. In 2023, The amount of blood received from donations and usable is 215 units.

#### Education activities

The Loxley Group has cooperated with the Chitralada School (vocational program) to provide on-site education since 2005. Activities were provided for students in the 3<sup>rd</sup> year of the information technology vocational program and later expanded to include students in the Bachelor's level of the Faculty of Business Administration from the Chitralada Institute of Technology. In 2023, the company received internship students at the second-year professional certificate level, totaling 2 individuals.

#### Activities for society

The Company invites its employees to donate unwanted desk calendars to make teaching materials for the Bangkok School for the Blind through a donation through the Foundation for the Blind in Thailand (under the Royal Patronage of Her Majesty the Queen).

**Projects to provide financial supports and objects to government and private agencies and institutes** In 2023, the Company has provided the financial support and materials support to many government and private agencies, foundations, and institutions in the total of Baht 22,560,369.17 as listed below.

- Monetary support for operations in the total of Baht 7,480,789.80 to many foundations, hospitals, sport clubs, temples, and agencies as follows :
  - UNICEF Thailand
  - Foundation for Khao Yai National Park Protection
  - Vajiravet College Chaloem Phrakiat Foundation
  - Suanluang Rama IX Foundation
  - Foundation for the Blind in Thailand under the Royal Patronage of Her Majesty the Queen
  - Foundation for Children with Cerebral Palsy and Intellectual Disabilities (girl)
  - Police General Pow Sarasin Foundation
  - Khlong Sam Wa Hospital
  - King Prajadhipok Institute's Society
  - Money offering in Kathin ceremony at Wat Pa Rong Than, Trad province
- Donation of stuff and products of the Company for public benefits in the total of Baht 85,332.50, e.g. support of Nongpho milk on the National Children's Day in 2023 to 33 communities in Khlong Toei District and Thung Maha Mek Police Station to arrange activities on the Children's Day, donation of teaching and learning materials to several schools located at Khlong Toei District, and donation of electronic tools to Naresuan University.

- Giving support by arranging social activities in the amount of Baht 14,994,246.87, which included Loxley-ASM Sport Hero, Move For Life sport activity arranged for Chumchon Mooban Patana School and Wat Khlong Toei School, Caravan Tale activity arranged on the summer for 10 communities located in Khlong Toei District, support for Port Futsal Club and Port F.C. Club.
- Other public benefit activities, such as donating surplus goods. In 2023, employees collected and delivered 9.5 kg of plastic straws to the Sustainable Power Foundation. Delivered 2 kg of lottery tickets and 6 kg of aluminum can lid rings for the Association of Persons with Physical Disability International. Lastly, delivered 27 kg of plastic caps to Quali Thailand Co., Ltd. for further use.

From the outcomes of the activities and projects described above, the positive impacts to society can be summarized as follows :

- Continuously provide jobs and career opportunities for athletes with disabilities. Raise awareness and acceptance for the underprivileged and for people with disabilities in society and also inspire people through publicizing the activities of these athletes.
- Children and youth groups in the Klong Toei community and the Penang market community, the Duang Prateep Foundation, the Sikkha Asia Foundation and in the Khlong Toei area show continuous growth and development. People in the communities are ready to start initiatives for their own communities and are volunteering to help in other communities as well. This is a good start for

becoming self-sufficient, and for being able to spread the culture of giving to others.

- Encourage and cultivate awareness of the importance of caring for the community and environment with a focus on sustainability through self-improvement and good problem solving.
- Build a community based on cooperation, participation and engagement from all parties within the community

Furthermore, the Company encourages employees to attend training seminars on sustainability. These include both internal and external training courses and seminars. Employees are encouraged to use the knowledge gained to contribute to the company's sustainable development operations and to act as agents of change in society.

In 2023, the Company has organized activities related to training and seminars in sustainability as follows :

Business Operations and Operating Results Corporate Governance

The revenues for the year of 2023 totaled Baht 11,235.65 million, comprising main revenues from the Trading Business Group, Information Technology Business Group, and Network Solutions Business Group in the proportion of 29.66%, 23.56%, and 23.08% respectively. If compared with revenues in 2022, the revenues of Baht 3,332.15 million earned by the Trading Business Group in 2023 decreased by Baht 1,498.87 million or a decrease of 31.03% due to pressure from the selling price and competition of the palm oil since the end of 2022 that had lower selling price. Nevertheless, the revenues in this year earned by the Energy Business Group amounting to Baht 905.83 million and by the Network Solutions Business Group amounting to Baht 2,593.61 million were better than the previous year for 23.58% and 10.81% respectively resulted by the economic recovery and delayed transportation while the supply chain became better.

The total revenues of Baht 12,638.57 million in 2022 comprised some main revenues from the Trading Business Group, Information Technology Business Group, and Network Solutions Business Group for 38.22%, 21.08%, and 18.52% respectively. If compared with those in 2021, the revenues from the Trading Business Group in 2022 totaled Baht 4.831.02 million, an increase of Baht 528.48 million or 12.28% from the previous year resulted by the relief of COVID-19 pandemic and Thailand reopening on the second half of the year which made the household consumption and services hike. The revenues of the special projects business and others Baht 1,121.72 million increased by Baht 443.33 million or 65.35% from the previous year due to the growth of printing and technology department.

As of 31 December 2023, the group and its companies counted revenues from projects and services expected in the future from as yet unfulfilled operations of Baht 7,213 million and Baht 1,597 million respectively, with most of this revenue expected to be realized between 2024 and 2029.

#### Other Income

Other income of the Company involves the dividend, quantity discount, interest, and other revenues. In 2023, the Company gained this income amounting of Baht 160.40 million, adecrease of Baht 32.12 million from the year of 2022 because, in 2022, other income of Baht 192.52 million or an increase of Baht 52.71 million from the year of 2021 came from the money returned by suppliers after the previous setting of the allowance for impairment amounting to Baht 35.5 million.

#### **Costs and Expenses**

The Company had costs and expenses in 2023, 2022, and 2021 as follows :

| Costs and Expenses of the Company<br>(Unit : Million Baht) |           | Year ended<br>31 Dec 2023 |           | Year ended<br>31 Dec 2022 |           | ended<br>2021 |
|--|-----------|---------------------------|-----------|---------------------------|-----------|---------------|
|  | Value     | %                         | Value     | %                         | Value     | %             |
| Cost of sale of goods and rendering of services            | 9,340.44  | 81.70%                    | 10,937.85 | 85.52%                    | 10,576.12 | 86.14%        |
| Distribution costs   | 622.94    | 5.45%                     | 598.13    | 4.68%                     | 517.76    | 4.22%         |
| Administrative expenses                                    | 1,275.77  | 11.16%                    | 1,154.42  | 9.03%                     | 1,132.49  | 9.22%         |
| (Gain) loss on fair value adjustment                       | 44.75     | 0.39%                     | (43.71)   | (0.34)%                   | (102.61)  | (0.84)%       |
| Finance costs  | 148.62    | 1.30%                     | 142.50    | 1.11%                     | 154.61    | 1.26%         |
| Total expenses   | 11,432.52 | 100.00%                   | 12,789.19 | 100.00%                   | 12,278.37 | 100.00%       |

#### Cost of Goods Sold and Rendering of Services

The Company's cost of goods sold and rendering of services in 2023 amounted to Baht 9,340.44 million or a decrease of 14.60% from the year of 2022 due to the declining sales sum. However, if considering the gross profit margin on 2023, 2022, and 2021 with the gross profit margin of 15.66%, 12.12%, and 9.57% respectively, the gross profit margin in 2023 was improved to stay on the normal criteria because, in 2023, the Company got no effect from the provisions of project works as compared with the year of 2023 and 2021 where the effect still existed for Baht 178 million and Baht 590 million respectively.

#### Distribution Costs and Administrative Expenses

The Group of Companies had some significant distribution costs which include the expenses relating to personnel, expenses for sales promotion, and transportation cost. The distribution costs in 2023 amounted to Baht 622.94 million or an increase of 4.15% from the year of 2022. Most costs came from some expenses in being the distributor for new products of the Trading Business Group, e.g. Nong Pho Milk, Lee Kum Kee Oyster Sauce, and Mum Sap products, etc.

Key management expenses comprised human resources, depreciation and amortization, public utilities and office expenditures. Total management expenses in 2023 were Baht 1,275.77 million, similar to 2022's figure of Baht 1,154.42 million.

| Costs and Expenses of the Company    |           | ended<br>2023 | Year ended<br>31 Dec 2022 |         | Year ended<br>31 Dec 2021 |         |

#### Gain on Fair Value Adjustment

Gain (loss) on fair value adjustment is to recognize differences of fair value of derivatives (Forward Contract), and other non-current financial assets (equity instruments that are not demanded by the market, and not categorized as subsidiary or associate and joint venture). The value of derivatives is assessed by the mark-to-market approach while the value of equity instruments is assessed by using the latest net asset value as of the reporting date. The Company had the equity instruments not in line with the market demand as of 31 December 2023 amounting to Baht 335.60 million, which mainly was an investment in the soybean oil industry with the net asset value of Baht 253.87 million. In 2023, 2022, and 2021, the Company has recognized the profit (loss) from fair value adjustment equivalent to Baht (44.75) million, Baht 43.70 million, and Baht 102.61 million respectively from the fair value adjustment of investment in equity instruments not in line with the market.

#### **Financial Cost**

The Company's financial cost in 2023 amounted to Baht 148.62 million or an increase of Baht 142.50 million from the year of 2022. This increase was derived from higher interest rates during the year.

| (Unit : Million Baht)   |             | ended<br>c 2023       | Year ended<br>31 Dec 2022 |                       |             |                       |

#### Share of Profit of Associates and Joint Ventures, Net

The share of profit from investments in joint ventures is to recognize the profit or loss from operating activities of associates and joint ventures by means of the equity method based on the investment proportion. The key investments fell in the lubricant industry and coated steel industry. The Company's share of profit of associates and joint ventures in 2023, 2022, and 2021 amounted to Baht 596.37 million, Baht 310.92 million, and Baht 500.60 million respectively. The increase of these transactions in 2023 mostly came from the improved share of profit of associates in the coated steel business group due to less fluctuation of hot rolled steel price and lower distribution price of coated steel in the market. This made the Company's gross profit margin look better, which, subsequently, gradually made the cost management better.

## Reversal of expected credit impairment loss accounting

Profit items from the reversal of losses by devaluation during 2023 2022 and 2021 were items in which the company received repayment of debt and outstanding interest, and accounts receivable from joint ventures which had been previously booked as an allowance for loss. The entire devaluations totaled Baht 30 million, Baht 91 million and Baht 771 million respectively. This was a result of the joint venture receiving payment for damages subsequent to a verdict of the Supreme Administrative Court.

#### Net Profit

The company had net profit from shareholders' equity for 2023, 2022 and 2021 of Baht 359.11 million, Baht 87.55 million and Baht 518.37 million respectively.

In 2023, the Company recorded a net profit of Baht 271.56 million or an increase over 100% from the year of 2022. This change is a positive factor from the Company's improved share of profit of associates and joint ventures as detailed stated above while there was no negative factor from the provisions of the project works in the Network Solutions Business Group.

The Company's and subsidiaries' financial status as of 31 December 2023, 2022 and 2021

As of 31 December 2023, 2022 and 2021, assets, liability and shareholder's equity of the Company are as follows :

| Unit : Million Baht                        | 31 Dec 2023 | 31 Dec 2022 | 31 Dec 2021 |
|--|-------------|-------------|-------------|
| Assets                                     | 13,570.32   | 14,349.68   | 15,072.31   |
| Liabilities                                | 7,222.31    | 8,341.35    | 9,107.78    |
| Shareholders' equity                       | 6,348.01    | 6,008.33    | 5,964.53    |
| Total liabilities and shareholders' equity | 13,570.32   | 14,349.68   | 15,072.31   |

#### Assets

The Company's total assets as of 31 December 2023, 2022 and 2021 were Baht 13,570.32 million, Baht 14,349.68 million and Baht 15,072.31 million respectively.

#### Key assets are detailed as follows : Accounts receivable

The company had total accounts receivable as of 31 December 2023, 2022 and 2021 of Baht 1,925.61 million, Baht 2,324.26 million and Baht 1,958.56 million respectively. The rate of increase (decrease) at the end of 2023 and 2022 were (17.15%) and 18.67% respectively. The company' main accounts receivable come from government agencies and state enterprises in large-scale projects in the Network Solutions and IT divisions.

The company booked allowances for credit losses expected to arise for accounts receivable during 2023, 2022 and 2021 of Baht 15.94 million, Baht 0.15 million and Baht 83.11 million respectively.

## Accounts receivable in debt restructuring agreements (long term and short term)

The company had total accounts receivable from debt restructuring agreements as of 31 December 2023, 2022 and 2021 of Baht 357.55 million, Baht 508.39 million and Baht 670.14 million respectively. This was reduced because of repayments received under the OTEP debt forgiveness plan according to details of the compromise plan, and booked as interim allowances for credit losses between 2022 and 2021.

However, due to the pandemic of COVID-19, the Company's trade receivable, OTEP, has defaulted on payments since May 2020. Up to now, the default payment amount for the additional annuity excluding the default interest on May 2022 and 2023, amounted to Baht 155 million and Baht 209 million

respectively or Baht 364 million in total. Later, the trade receivable, OTEP, submitted a letter requesting for an expansion of repayment periods which were due for the default periods mentioned above. However, Loxley Wireless Public Company Limited replied such request in writing and reserved the right to charge the default interest in accordance with the Settlement Agreement.

During Year 2022 - 2023, Loxley Wireless Public Company Limited filed a petition to the Legal Execution Department by requesting for seizure of assets of this trade receivable. Later, on May 2023, Loxley Wireless Public Company Limited filed a petition to the Civil Court by requesting for an examination of assets of this trade receivable, OTEP. Later, a portion of assets of this trade receivable was seized.

On November 2023, the Civil Court ordered to revoke the order issued by the executing officer for seizure of assets subject to the trade receivable's objection. Later, on 25 December 2023, Loxley Wireless Public Company Limited lodged an appeal to the Appeal Court against such order of revocation, and requested for considering and issuing the order of reversing the decision made by the First Instance Court. At present, the Court is on trial on this case. The Management of the Group of Companies and subsidiaries anticipate that this case would not take any material effect to the financial statements.

#### Other debtors (short term and long term)

The company had total other debtors outstanding as of 31 December 2023, 2022 and 2021 totaling Baht 391.34 million, Baht 443.51 million and Baht 638.03 million respectively. These included withholding tax, value added tax, accounts receivable for sales promotion costs, advance expenditures, accrued interest receivable, advance payments to employees and deposits. The rate of decrease as of the end of 2023 and 2022 were 11.76% and 30.49% respectively. In 2022, The big Business Operations and Operating Results Corporate Governance

debtors which were reduced, comprised accrued interest receivable from joint venture companies totaling Baht 42.79 million. This was the result of the joint venture receiving compensation for damage from the Government Lottery Office as mentioned above, which was fully paid up mid-year.

## Assets arising from contracts (short term and long term)

Overview

Assets arising from contracts comprise accounts receivable not yet collected, and debtors providing performance guarantees. The company's total uncollected accounts receivable is the value of work in process according to work completion ratio which is expected to be collected from the customer. In this, the company has complied with the hiring contract, but has not yet specified a schedule of delivery tranches to collect income from various different projects. The reason for total uncollected accounts receivable being so high was because that in some cases, the disbursement of money according to the contract was conditional on completing the installation of the work and passing a Final Acceptance Test. Meanwhile, the company was booking income from the project according to successful milestones of the work according to financial reporting standards. This may not be consistent with tranches of issuing invoices. However, after the company has fulfilled the terms and conditions of the contract and the tranche in the schedule of financial disbursement, the company can issue invoices to the customer and book the account as normal accounts receivable.

Liabilities from performance guarantees are liabilities on projects in which the company was deducted installments by the hirer to an amount agreed in the contract as a performance guarantee. Approximately 1-2 years after the work has been delivered, the company will be refunded this money from the customer.

The company had assets arising from contracts as of 31 December 2023, 2022 and 2021 of Baht 1,338.66 million, Baht 1,461.55 million and Baht 2,234.81 million respectively. The rate of decrease as of the end of 2023 and 2022 were 8.41% and 34.60% respectively. The main reason for reductions in 2022 was the collection of money following the schedule for tranche payments on large projects.

#### Inventory

The Company's inventory as of 31 December 2023, 2022, and 2021 amounted to Baht 513.78 million, Baht 750.87 million, and Baht 684.18 million respectively whereas the increase (decrease) rates at the end of 2023 and 2022 were (31.58)% and 9.75% respectively. The decline of the inventory was mainly resulted by the installation and delivery of project devices, and the management of products available for sale by the Trading Business Group. The Company's main inventory involved tools and equipment for project works and project works in process of the Information Technology Business Group and the Network Solutions Business Group. The products available for sale included the consumption goods and chemical product. The Company recorded the allowance to reduce inventory to net realizable value for the year of 2023, 2022, and 2021 amounting to Baht 5.44 million, Baht 7.36 million, and Baht 3.88 million respectively.

## Advance expenses for products and services (short term and long term)

The company had advance expenses for products as of 31 December 2023, 2022 and 2021 totaling Baht 853.50 million, Baht 764.36 million and Baht 786.25 million respectively. The rate of increase (decrease) as of the end of 2023 and 2022 were 11.66% and (2.78%) respectively. The increase (decrease) of advance payments for goods and services was mostly the result of project operations and booked as costs during the year.

#### Investment in Associates and Join Ventures

The Company's investment in associates and joint ventures as of 31 December 2023, 2022, and 2021 amounted to Baht 2,819.07 million, Baht 2,915.30 million, and Baht 3,143.96 million respectively. Most changes came from the recognition of increasing share of net profit from investments (decrease) from the deduction of dividend whereas the rates of change were not so high. At the end of 2023 and 2022, the rates of change dropped by 3.30% and 7.27% respectively.

#### Other current assets

Other current assets, or temporary investments, are items of cash on deposit and short-term promissory notes from financial institutions. The company and its subsidiaries had temporary investments as of 31 December 2023, 2022 and 2021 of Baht 435.08 million, Baht 514.93 million and Baht 475.26 million respectively. Movements in temporary investment were the result of normal changes to the management of working capital.

#### Other non-current assets

Other non-current assets comprise money on one-year fixed deposit, debt instruments and capital instruments for which there is market demand, and for which there is not market demand. Other non-current assets as of 31 December 2023, 2022 and 2021 totaled Baht 512.79 million, Baht 526.88 million and Baht 502.95 million respectively. The rate of increase (decrease) at the end of 2023 and 2022 was (2.67%) and 4.76% respectively. The increase (decrease) was mainly due to fair value adjustments compliance with financial reporting standards in tools of capital instruments which were not in market demand.

#### **Investment Property**

Investment property of the Group of Companies consists of the contemporary land and structure which, at present, have not yet been specified for objectives of uses in the future, and the right-of-use assets under the main lease agreement (building for rent) in which the Group of Companies aims to lease out them to the third parity. As of 31 December 2023, the fair value amounted to Baht 467.47 million. Such fair value was appraised by an independent appraiser approved by the SEC by taking account of the current value of the net cash flow obtained from such assets. The fair value was similar to the fair value in 2022 amounting to Baht 479.08 million. In addition, there was the recognition of the unrealized loss from the fair value adjustment of Baht 7.43 million, Baht 1.10 million, and Baht 3.31 million in 2023, 2022, and 2021 respectively.

#### Land, buildings and equipment

Land, buildings and equipment comprise land and buildings and adjustments, fixtures and fittings, office equipment, tools, leased equipment, vehicles and work under construction which the company has used in its operations. As of 31 December 2023, 2022 and 2021, these had a total value of Baht 1,008.20 million, Baht 999.20 million and Baht 1,008.34 million respectively.

#### **Right-of-use assets**

Right-of-use assets comprise the right to control assets according to the terms of agreements to lease land, buildings and adjustments, office equipment and vehicles. As of 31 December 2023, 2022 and 2021 these totaled Baht 152.24 million, Baht 147.49 million and Baht 147.25 million respectively.

#### Other intangible assets other than goodwill

Other intangible assets other than goodwill comprise software licenses. Intangible assets as of 31 December 2023, 2022 and 2021 totaled Baht 54.04 million, Baht 64.38 million and Baht 75.21 million respectively. The rate of decrease as of the end of 2023 and 2022 were 16.06% and 14.40% respectively.

#### Liabilities

The company had total liabilities as of 31 December 2023, 2022 and 2021 totaling Baht 7,222.31 million, Baht 8,341.35 million and Baht 9,107.78 million respectively. The rate of decrease at the end of 2023 and 2022 was 13.42% and 8.42% respectively.

#### Key liabilities are detailed as follows :

#### Overdraft Account and Short-term Loans from Financial Institutions

The Company had the overdraft account and short-term loans from financial institutions as of 31 December 2023, 2022 and 2021 amounting to Baht 1,147.77 million, Baht 1,404.46 million, and Baht 1,593.66 million respectively. These changes were in line with the demand of working capital in each year. At the end of 2023 and 2022, these changes have declined for 18.28% and 11.85% respectively. Such overdraft account and short-term loans from financial institutions involved the overdraft account, short-term loans, and liabilities under trust receipt. The shot-term loans in 2023 were mainly the short-term loans from the credit line of project works, which would be repaid according to the money collection period.

#### Trade account payables

The company had trade payables as of 31 December 2023, 2022 and 2021 totaling Baht 1,710.63 million, Baht 2,289.35 million and Baht 2,315.68 million respectively, with a rate of decrease at the end of 2023 and 2022 of 25.28% and 1.14% respectively. Most of this was trade creditors in projects from the Network Solutions division, Trading division and IT division.

#### Other Payables (short term and long term)

The company had other payables as of 31 December 2023, 2022 and 2021 totaling Baht 1,085.79 million, Baht 1,011.65 million and Baht 943.78 million respectively. The rate of increase at the end of 2023 and 2022 was 7.33% and 7.19% respectively. As of 31 December 2023, the company's other payables comprised unpaid project costs, allowances of guarantees for damage and other unpaid expenses.

Business Operations and Operating Results Corporate Governance

## Liabilities arising from contracts (short term and long term)

The company had liabilities arising from contracts (advance payments from customers) as all 31 December 2023, 2022 and 2021 totaling Baht 601.30 million, Baht 482.32 million and Baht 757.74 million respectively. The rate of increase (decrease) at the end of 2023, 2022 was 24.67% and (36.35%) respectively. In 2023, this was increased from money received in advance from customers in the IT division, for which gradually installed and recognize income during the year.

#### Loan from Related Parties (short and long terms)

The Company had a loan from related parties as of 31 December 2023, 2022, and 2021 respectively amounting to Baht 81.43 million, Baht 80.73 million, and Baht 92.73 million respectively with the rates of increase (decrease) at the end of 2023 and 2022 for 0.87% and (12.94)% respectively. At the end of 2023, the Company had a loan from related parties amounting to Baht 80 million. This loan has been granted to the Company's subsidiary and the partial amount has been granted by the financial institution to purchase the investment property since 2016 in the total of Baht 265.47 million. The remaining amount is the loan from related parties, which would be gradually repaid. The loan granted by the financial institution was completed repaid.

#### Long-term liabilities

| Unit : Million Baht   | 31 Dec 2023 | 31 Dec 2022 | 31 Dec 2021 |
|---|-------------|-------------|-------------|
| - Current portion of lease liabilities                                  | 91.12       | 85.65       | 78.88       |
| Current portion of long-term loans from financial institutions          | 130.58      | 118.68      | 375.53      |
| - Loan under debt restructuring agreement and accrued interest expenses | 393.43      | 538.87      | 686.77      |
| Current portion of Long-term debenture                                  | -           | -           | 700.00      |
| Lease liabilities   | 102.40      | 136.00      | 170.68      |
| Long-term loans from financial institutions                             | 640.81      | 753.10      | 171.34      |
| Long-term debenture   | 300.00      | 300.00      | -           |
| Total Long-term liabilities   | 1,658.34    | 1,932.30    | 2,183.20    |

The Company had the long-term liabilities as of 31 December 2023, 2022, and 2021 amounting to Baht 1,658.34 million, Baht 1,932.30 million, and Baht 2,183.20 million respectively with the rate of decrease at the end of 2023 and 2022 for 14.18% and 11.49% respectively. As of 31 December 2023, such long-term liabilities included the liabilities from debt restructuring and accrued interest payable of a subsidiary of the Company amounting to Baht 393.43 million. The installment plan would be based on the debtor's cash flow

according to the Debt Restructuring Agreement for a period of 6 years, commencing on 2017 as explained in the subject of "Debtor under the Debt Restructuring Agreement" The long-term liabilities amounting to Baht 300 million would be repaid in September 2025. For the long-term loan from financial institutions amounting to Baht 630 million, the principle would be repaid on every six months on June and December of each year up to Year 2029.

| Unit : Million Baht  | Payment terms |           |              |          |  |
|--|---------------|-----------|--------------|----------|--|
| Unit : Million Bant  | Within 1 year | 1-5 years | Over 5 years | Total    |  |
| Lease liabilities  | 91.12         | 79.35     | 23.05        | 193.52   |  |
| - Long-term loans from financial institutions                            | 130.58        | 447.85    | 192.96       | 771.39   |  |
| - Loans under debt restructuring agreement and accrued interest expenses | 393.43        |           |              | 393.43   |  |
| Long-term debenture  | -             | 300.00    |              | 300.00   |  |
| Total long-term liabilities as of 31 December 2023                       | 615.13        | 827.20    | 216.01       | 1,658.34 |  |

The following table shows the remaining maturity period of long-term liabilities.

## Provisions for employee benefits (short term and long term)

The company had provisions for employee benefits as of 31 December 2023, 2022 and 2021 totaling Baht 719.23 million, Baht 700.72 million and Baht 725.63 million respectively. The rate of increase (decrease) at the end of 2023 and 2022 was 2.64% and (3.43%) respectively. The company assessed provisions for employee benefits using the Projected Unit Credit Method, applied by an independent expert.

#### Shareholders' equity

Shareholders' equity as of 31 December 2023 was Baht 6,348.01 million comprising paid-up capital of 2,264.95 million, consisting of 2,264.95 million paid-up ordinary shares with a par value of 1 THB. Retained earnings appropriated as legal reserves and unappropriated earnings were Baht 166.58 million and Baht 1,403.13 million respectively. There were changes in shareholdings by subsidiary companies of Baht 1,301.45 million and other components of shareholders' equity were Baht 439.45 million

### Cash flow of the company and its subsidiaries at the end of 2023, 2022 and 2021

The company had net cash flow from (used in) operations in 2023, 2022 and 2021 of Baht 350.81 million, Baht 412.51 million and Baht (647.40) million respectively. This net cash flow is positive (negative) from business operations. There are causes of change to the working capital every year, and the key change making net cash flow positive in 2023 was important changes to operating assets and liabilities, which were a decrease in trade payables of Baht 404.12 million, trade account receivables from debt restructuring agreement reduced by Baht 165 million, assets from contracts reducing by Baht 585.41 million, liabilities from contracts increased by Baht 118.98 million, and payments of tax income and withholding tax in 2023 of Baht 170.91 million.

The company had net cash flow from investments in 2023, 2022 and 2021 of Baht 576.19 million, Baht 626.22 million and Baht 811.31 million respectively. The company had net cash from key activities in 2023, 2022 and 2021 of dividends of Baht 683.43 million, Baht 574.71 million and Baht 372.85 million respectively, an (increase) decrease of borrowings of Baht 4.61 million, Baht (0.34) million and Baht 482.63 million respectively, and Interest income of Baht 13.31 million, Baht 150.51 million and Baht 180.15 million respectively.

The company had net cash flow from (used in) fundraising activities in 2023, 2022 and 2021 of Baht 753.12 million, Baht (819.78) million and Baht (578.96) million respectively key fundraising activities in 2023, 2022 and 2021 were a reduction in overdrafts and short term borrowings from financial institutions of Baht 256.70 million, Baht 188.87 million and Baht 99.32 million respectively. Repayments of long term borrowings and debentures were Baht 373.60 million. Baht 1,386.61 million and Baht 558.02 million respectively. Long term borrowings from financial institutions and debentures increased by Baht 21.00 million, Baht 1,067.00 million and Baht 200.00 million respectively. Payment of costs on borrowing were Baht 139.37 million, Baht 128.56 million and Baht 142.41 million respectively.

Therefore, in 2023, 2022 and 2021 the Company's increase (decrease) in net cash and cash equivalents was Baht 173.88 million, Baht 218.95 million and Baht (415.05) million respectively.

### The Company's financial ratio analysis

#### **Liquidity Ratio**

| Liquidity Ratio                     | 2023   | 2022   | 2021   |
|-------------------------------------|--------|--------|--------|
| Current ratio (times)               | 1.59   | 1.36   | 1.16   |
| Quick ratio (times)                 | 1.23   | 1.08   | 0.88   |
| Flow liquidity (times)              | 0.06   | 0.06   | (0.09) |
| Account receivable turnover (times) | 2.76   | 2.76   | 2.33   |
| Collection period (days)*           | 130.55 | 130.52 | 154.26 |
| Inventory turnover (times)          | 14.80  | 15.23  | 15.02  |
| Inventory turnover period (days)    | 24.32  | 23.64  | 23.96  |
| Account payable turnover (times)    | 4.67   | 4.75   | 4.13   |
| Payment period (days)               | 77.08  | 75.78  | 87.16  |
| Cash cycle (days)                   | 77.79  | 78.37  | 91.06  |

Note \* Period of debt-collection is calculated on the aggregate total of trade accounts receivable and contract assets.

The Company's overall liquidity for three years, i.e., 2021-2023, was in the normal range, at over 1.00 times, without any substantial change.

#### **Profitability Ratio**

| Profitability Ratio                | 2023    | 2022    | 2021    |
|------------------------------------|---------|---------|---------|
| Gross profit margin (%)            | 15.66%  | 12.12%  | 9.57%   |
| Operating profit (loss) margin (%) | (0.44)% | (0.07)% | (2.46)% |
| Net profit (loss) margin (%)       | 3.20%   | 0.69%   | 4.38%   |
| Return of equity (%)               | 6.09%   | 1.53%   | 9.59%   |

#### **Efficiency Ratio**

| Efficiency Ratio           | 2023   | 2022   | 2021   |
|----------------------------|--------|--------|--------|
| Return on assets (%)       | 2.57%  | 0.60%  | 3.38%  |
| Return on fixed assets (%) | 50.67% | 23.33% | 70.24% |
| Asset turnover (times)     | 0.80   | 0.86   | 0.77   |

The Company had better profitability and efficiency ratio if compared with the previous year due to the improved share of profit of associates and joint ventures, and no negative factors from recording estimated liabilities from loss of project works in the Network Solutions Business Group as stated in the sales cost and service cost.

104

#### **Financial Policy Ratio**

| Financial Policy Ratio     | 2023 | 2022 | 2021   |
|----------------------------|------|------|--------|
| Debt to equity (times)     | 1.14 | 1.39 | 1.53   |
| Dividend payout ratio* (%) | N/A  | _    | 53.80% |

Note \* Dividend ratios calculated from the balance sheet of each business

The company's debt to equity ratios in 2023, 2022 and 2021 were 1.14, 1.39 and 1.53 respectively. These ratios were reduced as a result of the repayment of long-term borrowings and debentures, and a reduction in overdrafts and short term borrowings from financial institutions to manage projects. These gradually reduced as each project was completed.

# 4.2 Factors with potential future impacts on operations and financial status

Most factors with the potential to impact operations and financial status in the future are external factors, as follows :

#### **Revenue structure**

- Revenue structure in the group as of 31 December 2023 was 40% from the government sector and state enterprises. Therefore, the company's revenues have a relationship with national budget expenditures, including political security and economic conditions, and changes in policy from the state sector may impact the revenues of this group.
- 2. The revenue structure mostly comes from projects whose value and completion schedule is definitively determined by contracts. They require performance guarantees as stipulated in the contract. In the cases of equipment cost overruns, the company is at risk of shouldering these excess costs, with no recourse of demanding compensation from the customer as agreed. The company also has risk factors which may delay projects such as importation and delivery of product from suppliers, bringing things to the site, as well as verification, acceptance and handover of the project to the customer.

#### **Financial risk factors**

Financial risk factors include volatile foreign exchange rates, and market interest rates. As of 31 December 2023, the group had liabilities subject to interest totaling Baht 2,780.36 million. Thus, if market rates increased, the company's finance costs also increased. However, as the structure of the company's debt to equity ratio is not very high, this resulted in finance costs in 2023 remaining at a manageable level, calculated at 1.32% of revenues.

## Strategy and Guideline of Business Operation of the Company

The Company is determined to gain growth under a long-term goal to be a company that undertakes businesses and makes investment through the organic expansion and new S-curve investment in 5 main businesses in where the Company has been specialized. The corporate strategy, business strategy, and operational strategy are defined. The implementation results are regularly and tangibly monitored in terms of the operating performance, customers and products, operations, and potential development of personnel, along with the appropriate risk management in the business operation. These are to boost strength and added value to the Company's business model, and to shift the business operation potential through the organization synergy.

ESG is an important issue taking effect to the Company's business operation because the consumers are more likely to concern about the impact to the environment, and to think of sustainability. Other business alliances and government agencies place more management measures that are formulated as conditions when considering the business operation such as the policy and measures on reducing the environmental impact, green procurement policy, policy or measures relating to greenhouse gas emission, more stringent laws on climate change control, measures on tax collection for greenhouse gas emission in the future, etc. These all take effect to the decision-making in any purchase or to the consideration in awarding any project work, business opportunities, competition, image, and reputation of the Company, as well as profitability of the Company in the future. However, the Company took actions to mitigate such risks by applying the ESG issues as the criteria of selecting the suppliers, and by presenting new technologies to the customers to support the use of clean energy, and to reduce the use of unnecessary resources.

Corporate Governance

The Company monitors the situation and evaluates all risks and changes relating to the climate change including the transition risk and physical risk to define the precise plan and measures to cope with such situation. The Company determines that the operating activities must reduce the greenhouse gas emission for 20% from the quantity of greenhouse gas emission in the normal case by Year 2030. Such an attempt implies the Company's determination to be a part of operating the business under sustainability and responsibility to the environment. Regarding the employee care and development, the Company focuses on developing the employees who deem the valuable resource. The individual development plan is provided; meanwhile, the employees have been developed by various forms including training, coaching, self-learning, and others. The succession plan is also defined to systematically prepare the employees to have necessary knowledge and skills to cope with any business challenges that are changing rapidly.

### 4.3 Key financial data

#### **4.3.1 Financial Statements**

4.3.1.1. Summary of audit reports of Loxley Public Company Limited and its subsidiaries

| Year    | Auditor                       | CPA No. | Audit Firm                   |
|---------|-------------------------------|---------|------------------------------|

## 6. Corporate Governance Policy

### 6.1 Overview of Corporate Governance Policies and Practices

It is the intention of the Company's Board of Directors to conduct its operations under the principles of Good Corporate Governance as encouraged by the Stock Exchange of Thailand to be adhered to by listed companies in order to reinforce its organization with an efficient management system that forms the base for sustainable growth. The full version of its Corporate Governance Policy and Business Code of Ethics are on display on company website www.loxley.co.th under Corporate Governance category, which are intended to be clearly understood and implemented by the Board of Directors, executives, and employees in the same way, whether Loxley or its subsidiaries. The summary of the Corporate Governance policy are as follows:

### 6.1.1 Policies and Guidelines for Directors

With full awareness of the importance and the duty of its Board of Directors to supervise and take care of operations in the Company's best interest, directors and executives, therefore, must discharge their duties responsibly with care and integrity such that the structure, role, and duties of the Board have been clearly defined and other committees set up on the basis of Corporate Governance, which are separated into the following sub-headings :

## Composition and qualifications of the Board of Directors

The Board of Directors shall consist of not less than five but shall not exceed 21 members. At least half of all directors shall reside in Thailand, and at least one-third of the total number of directors, but not less than three directors, shall be independent directors. Not less than half of all members of the Board shall be non-executive directors. The Board of Directors shall not possess qualifications contrary to the Public Limited Companies Act, B.E. 2535 (and as amended), the Securities and Exchange Act, B.E. 2535 (and as amended) or any other applicable laws, including requirements of the Stock Exchange of Thailand (SET) and the Office of the Securities and Exchange Commission (the Office of the SEC) as well as the Company's regulations, and shall not operate any business similar to or in competition with the business of the Company or its subsidiaries, unless the shareholders' meeting has been informed thereof prior to the appointment resolution. Each director may hold office as a director in no more than five listed companies.

In addition, the Board of Directors shall consist of directors with qualifications, skills, experience, specific expertise in various fields beneficial to the Company, regardless of gender, race, religion or age.

The Board Chairman shall not be the same person as the President, and shall not be the Company's employee or executive. The Board Chairman shall act as chairman of the Company's Board of Directors. The President shall act as chairman of the Executive Board, and financial executives shall oversee financial, accounting and investment matters of the Company. Each of the Company's independent directors shall be independent in expressing their opinions, providing advice or warning, shall not be involved with or have any financial interest and shall not be involved in the management of the Company's business. For the purpose of transparency, the Company therefore does not authorize any independent director to jointly sign to undertake any juristic act with executive directors.

New directors will attend orientation where they will be introduced to their roles, duties, responsibilities, nature of business, and business operation guidelines, by the Company Secretary. Overview

Corporate Governance

All members of the Board of Directors and the Executive Board will be given the director's handbook to be used as guidance for discharging their duties as legally required. In addition, the handbook contains information related to the Company's business operations which will be updated periodically.

### Independence of the Board of Directors

The Company encourages all directors to express their views independently, especially the independent directors and other external directors, to exercise their discretion independently in establishing strategies, administration, use of resources, appointment of directors and establishment of standards for business operations, as well as making objection to act of other directors or the management if there is any disagreement on matters affecting the equality of all shareholders. Therefore, it is assured that the Company's Board of Directors has appropriate checks and balances in place. They can also discharge their duties as representatives of shareholders independently without giving any person or group unlimited power.

## Qualifications of the Company's independent directors shall be as described below.

- They shall hold no more than 0.5 (zero point five) percent of the total number of voting shares of the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest, including the shareholding by related persons of such independent directors.\*
- 2. They shall neither be nor have been a director involved with management, employee, staff member, advisor with a regular salary or person with controlling power of the Company, its parent company, subsidiaries, associated companies, same-tier subsidiaries or juristic persons with possible conflicts of interest, unless such foregoing status has ended at least two years prior to their appointment.
- 3. They shall not be a person related by blood or legal registration as father, mother, spouse, sibling and child, including spouse of any children of an executive, major shareholder, controlling person or person likely to be nominated as executive or controlling person of the Company or its subsidiaries.
- 4. They shall neither have nor have had business relationship such as engaging in normal business transactions to operate a business, rental or lease of immovable property, transactions related to assets or services, or granting or receipt of financial assistance, including other similar circumstances, resulting in indebtedness payable to the other party in the amount of three (3) percent or more of
- Note : \* The Company's requirement is stricter than the requirement of the Capital Market Supervisory Board which specifies that shareholding shall not exceed one (1) percent.

the net tangible assets of the Company or Baht 23 million or more, whichever is lower, with the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest, in the manner that may prevent the exercise of their discretion independently. Moreover, they shall neither be nor have been a major shareholder, non-independent director or executive of any person with a business relationship with the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest, unless such foregoing status has ended at least two years prior to their appointment.

5. They shall neither be nor have been an auditor of the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest and shall not be a major shareholder, nonindependent director, executive or managing partner of an audit firm that employs the auditor of the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest, unless such foregoing status has ended at least two years prior to their appointment.

6. They shall neither be nor have been a provider of professional services, including providing services as legal or financial advisor who receives an annual service fee exceeding Baht 2 million from the Company, its parent company, subsidiaries, associated companies or juristic persons with possible conflicts of interest. If the professional service provider is a juristic person, it shall include being a major shareholder, non-independent director, executive or managing partner of such professional service provider, unless such foregoing status has ended at least two years prior to their appointment.

- They shall not be a director appointed as representative of the Company's directors, major shareholder or shareholders related to the Company's major shareholder.
- 8. They shall not be a director assigned by the Company's Board of Directors to make decisions in relation to the business operations of the Company, its parent company, subsidiaries, associated companies, same-tier subsidiaries or juristic persons with possible conflicts of interest.
- 9. They shall not operate a business with the same nature as and in significant competition with the business of the Company or its subsidiaries or be a partner or executive director, employee, staff member, advisor who receives a regular salary or holds shares exceeding one percent of the total shares with voting rights of another company operating a business with the same nature as and in significant competition with the business of the Company or its subsidiaries.

10. They shall not possess any other characteristics that prevent them from expressing independent opinions on the Company's operations.

Upon being appointed as independent directors, they may be assigned by the Board of Directors to make decisions regarding the business operations of the Company, its parent company, subsidiaries, associated companies, same-tier subsidiaries or juristic persons with possible conflicts of interest. In this regard, collective decisions may be made.

If the appointed independent director is the person who has or once had a business relationship, or provision of professional services at a value exceeding the specified amount under clause 5 or 6 above, the Company shall be granted an exemption from such prohibition of having or having had a business relationship or provision of professional services at such excessive value, provided that the Company has obtained an opinion of the Board of Directors indicating that upon consideration pursuant to Section 89/7 of the Securities and Exchange Act, the appointment of such person does not affect the performance of duties and provision of independent opinions, and that the relevant information is also disclosed in the notice of shareholders' meeting under the agenda of the appointment of an independent director.

### **Terms of Office**

One-third of directors are required to retire at the annual general shareholders' meeting. Retired directors may be re-elected. An independent director can continue to hold his position for no more than nine years from the date of his first appointment as an independent director. If an independent director is appointed to continue his position, the Board should consider his necessity reasonably.

#### **Board of Directors Meetings and Quorum**

The schedule of the Board of Directors meeting will be set annually in advance and must be held at least once every three months, and not less than six times per year unless there is a special agenda Chairman or the number of directors as prescribed by law, can call for additional meetings as necessary. Chairman or chairman of the meeting will adhere to the policy to encourage transparent consideration of various issues; allocate sufficient time to present details and answer inquiries. The notice of the shareholders' meeting, including supporting documents for a meeting should be submitted by the Company Secretary to the Board of Directors at least five business days before a meeting takes place, except in urgent cases to preserve the right or interest of the Company, the notice of the meeting and supporting documents may be sent electronically or any other methods as prescribed under law or regulations. At a meeting, there must be at least one-half

of the total number of directors to constitute a quorum. The decision of the meeting shall be made by a majority of votes. Each director shall have one vote but any director who has an interest in any matter shall not be eligible to vote on that matter. In the case of an equality of votes, the chairman of the meeting shall cast an additional vote as a casting vote. The minimum number of quorums at the time the Directors will vote at the Board of Directors' meeting must be no less than two-thirds of the total number of directors.

Each director is required to attend at least 75% of the total number of Board of Directors Meetings held each year, unless there is a reasonable cause and necessity.

There should be a meeting between non-executive directors (without the management team) held as regularly as necessary. In 2023, Meeting No. 1/2023 of independent directors and non-executive directors was held on 18 July 2023.

The Company's secretary is responsible for preparing and sending the minutes of the meeting to the Chairman of the Board of Directors for consideration and signature to verify accuracy. A director is allowed to voice opinions and recommend that a minute of the meeting shall be revised and amended. The minutes of the meeting approved by the meeting will be systematically stored in the form of electronic confidential documents for the convenience of searching for references. There is an auditor to review the report quarterly, for other sub-committees, there will be a separate meeting and act according to the aforementioned.

### Approval Authority of the Board of Directors

The Board of Directors has the authority to approve matters as required by laws, regulations, charters and shareholders' meeting resolutions, including the delegation of authority that are set.

## Roles, Duties and Responsibilities of the Board of Directors

The Company has realized the importance of its Board of Directors' performance with responsibilities and honesty. Therefore, the Corporate Governance policy guideline has been delivered to the Board to help them manage their operation as expected by law and regulatory agencies. The guideline includes vital information related to the business operations, which will be updated periodically. The Board of Directors and other sub-committees have an important role to lead the team and have responsibilities based on hierarchy while having a full right to raise their opinions towards Company's vision, strategies, goals, and main business conduct guidelines, Contents

Overview

Business Operations and Operating Results Corporate Governance

as well as the proposed budget. The Company has a mechanism to ensure executives carry out tasks as planned and to assess performance under the policy on a regular basis. The Company has publicized a clearly written manual of Company's Corporate Governance for directors, executives and employees at all levels as a mutual guideline. This is to ensure that all employees will continue their duty with honesty, integrity, and morality not only to the Company, but also to all stakeholders and other related parties. The Company frequently communicates with the employees and monitors their behavior in order to ensure that they strictly comply with such policy on a regular basis.

### Scope of Authority and Responsibilities of the Company's Board of Directors are as described below.

- Discharges its duties in line with the laws, Company Objectives and its Articles of Association as well as resolutions adopted by general meeting(s) of shareholders and exerts care in safeguarding the Company's interests.
- 2. Sets out policies, objectives, strategies, and directs the Company's course of action as well as supervises and monitors the management's activities to ensure that they are effectively implemented pursuant with the policies that had been laid down.
- 3. Gives approvals on issues of substance such as policies, business plans, major projects and investment, appoints or nominates persons as directors of subsidiaries and any other items as prescribed by the law unless such matters are subject to resolutions from general meeting(s) of shareholders as required by law.
- 4. Nominates director(s) duly authorized to sign to bind the Company, appoints Chairman of the Board and Deputy Chairman or else assigns one or several directors or any other person(s) to carry out any action on behalf of the Board.
- 5. Appoints the company secretary to be responsible for any operations abide by law.
- 6. Convenes shareholders meetings, Board of Directors meetings and ensures that there are preparations for financial reports which shall be presented in conjunction with the Licensed Auditor's report, report on the Board of Directors' responsibility for financial statements in the annual report covering major issues pursuant with the Stock Exchange of Thailand's policy and as prescribed by the law.
- 7. Establishes the internal control, risk management, and regulation according to the corporate governance guidelines as well as transparent, accurate, and timely disclosure of information for shareholders, investors, and stakeholders.
- 8. Reports its own interest or interest of other people related to management of business or holding of shares or debentures of the Company or its subsidiaries annually and immediate reports any transaction upon occurrence to the person designated by the Board of Directors.

9. Considers and approves any acquisition or disposal of significant assets, related-party transactions of the Company or subsidiaries with related parties according to the criteria prescribed by the Securities and Exchange Commission, the Stock Exchange of Thailand and other relevant laws, and considers and approves principles related to commercial terms which are general commercial conditions in conducting transaction with related parties under the prescribed criteria.

### The Role and Duty of Chairman of the Board

The Board Chairman takes the role of the Board's leader in overseeing the following matters :

- Ensuring that the Board performs effectively by giving its support, advice and help to the Management to carry out work under its jurisdiction as assigned by the Board in order to achieve the corporate's objectives and targets.
- 2. Ensuring that every Board member takes part in promoting Corporate Culture based on good business ethics and corporate governance.
- 3. Reviewing/ approving items of agenda for the Board Meeting on consultation with the CEO & President and the Managing Director with measures in place to ensure that items of materiality are included in the agenda.
- 4. Allot adequate time for the management to submit items on the agenda which should be enough for major issues to be duly discussed in general. Support will be readily given for directors to exercise their discretion in making frank and well thought-out opinion.
- 5. Build up good relations between executive and nonexecutive directors as well as between the Board and the Management.
- 6. Serve with efficiency as Chairman of the Board's Meeting as well as at Shareholders' Meeting.
- 7. Cast the decisive vote in the case of tie-votes at a Board Meeting.
- 8. Promoting/ensuring that Board members discharge their duties within the parameters of their power and responsibility towards shareholders, stakeholders and in line with the principles of Good Governance.

### The Role and Duty of the President

- 1. Monitor and supervise work undertaken by the management to ensure that they are implemented in accordance with policies laid down by the Company's Board of Directors.
- 2. Conduct the operations and approve a variety of issues in the normal course of the Company's businesses to ensure undisrupted continuity.

- 3. Duly authorized to look after, manage, undertake and carry out regular work in the normal course of business in the Company's interest and to ensure that they are in compliance with Company's Objectives and Charter as well as rules, resolutions, policies, plans and budgets that have been duly authorized or approved by the Company's Executive Board or Board of Directors or which have been assigned by either of them to be performed under the framework of the relevant laws.
- 4. With the power to approve procurement, participation in tenders, purchase of goods, execution of contracts or any juristic acts as well as undertaking the Company's various operations which are normal conduct of businesses or in relation to its normal course of operations pursuant to the Company's objectives, as follows :
  - 4.1 Participate in a tender for a project, execute any contract or juristic act in connection with the Company's businesses or in relation to the Company's normal course of business within a line not exceeding Baht 500 million for each project or each tender.
  - 4.2 Provide or accept financial aid to/from any party, subsidiary, associated company or any other juristic person that is not a financial institution, including provision of a guarantee, creation of encumbrances, investment, joint venture, new business, and juristic acts in relation to such matter within a maximum limit of Baht 10 million per transaction.
  - 4.3 In case that specific project details are clearly stated in business plan or budget already approved by the Board of Directors, the President can take action as allowed by the Board of Directors' resolution.
- Approve transactions of acquisition and disposal of assets and related-party transactions as prescribed by the policy and relevant notifications and according to the Company's Delegation Authority.
- 6. For transactions with related persons which may be considered as related parties' transaction, the President has to propose to the Executive Board prior to propose to the Board of Directors for approval with presence of independent directors or the Audit Committee and the persons with conflict of interest shall not attend the meeting and do not vote, except for normal items with regular trade terms and conditions allowed by the Company's policy and criteria that are earlier approved. In addition, the President will have to strictly follow the SET's regulations on related parties' transactions.

On this matter governing the normal signing of approval for various matters for the Company and its subsidiaries, the Company normally has a policy in place which sets out the scope of authority concerning the signing for approval of such matters which are in a form that will be decentralizing power by setting out the line and matters for which an executive at any specific level will be authorized to approve. Review, improvement and changes will also be made appropriately in accordance with the circumstances. As for other matters which are of material importance to the Company, the Company has prescribed that two directors signing jointly, with the Company's seal affixed, will have the authority to act on its behalf.

### **Establishment of Sub-Committees**

To achieve the ultimate corporate objectives, the committee should have specific skills suitable for the Company business, vision, and help the Board for consideration in significant matters for best benefit of the Company. With clear separate roles and responsibilities, the Sub-Committee includes the Audit Committee, Nominating & Remuneration Committee and Risk Management Committee.

To ensure efficient operation and the sub-committees can closely monitor all progresses, the Company has appointed working groups, namely the Project Investment and Evaluation Committee, the Personal Data Protection Working Group (PDPA) and the Sustainability Working Group to support the operation of the sub-committees, ensure concrete implementation of policies, and report operation outcomes to the Board of Directors.

The Company provides opportunities for independent directors or non-executive directors to hold the meetings as necessary to discuss various problems and giving suggestions to the management without the presence of the management.

In the event that the Audit Committee deems that there are any issues that should be reported, the secretary of the Audit Committee can send a notice of the meeting results to the Chief Executive Officer and the President for acknowledgment.

### Evaluation of the Boards' Performance

The Company assigns the Nomination and Remuneration Committee to conduct the evaluation of the entire Board, Sub-committees and also the performance of the Chief Executive Officer and the President to enable them to review problems and obstacles occurred during the past year. Evaluation results are used to improve and develop performance of directors according to the guidelines recommended by the Stock Exchange of Thailand (SET) and Thai Institute of Directors (IOD). Contents

Overview

Business Operations and Operating Results Corporate Governance

Evaluation process consists of the Secretary of the Nominating & Remuneration Committee sending performance evaluation forms on the Board and the President to every member of the Board member to make their annual performance evaluation. The evaluation forms will then be sent back to the Secretary of the Nominating & Remuneration Committee who will collate the scores and make a summary before sending the results to the Nominating & Remuneration Committee for their consideration and further submission to the Company's Board of Directors for action.

### Remuneration

The Nominating & Remuneration Committee is responsible for considering director remuneration and present to the Board of Directors and shareholders' meeting approval. The Nomination and Remuneration Committee shall compare the Company's remuneration against other businesses in the same industry and ensure that the remuneration is not unnecessary high but attractive enough to attract and maintain quality directors. Remunerations for the directors are unveiled in the annual report as required by the Securities and Exchange Commission.

### **Company Secretary**

The Company appointed a Company Secretary in accordance with the Section 89/15 in the Securities and Exchange Act (No. 4) B.E. 2551. The Company Secretary shall prepare and keep the Company's significant documents as required by law and is responsible for ensuring that the Board of Directors and Executives activities fully comply with the legal framework. Roles and responsibilities of the Company Secretary are clearly stated in the Company's Corporate Governance Policy and in other related documents announced by the Capital Market Supervisory Board.

#### **Development of Directors**

In the furtherance of knowledge and skills, it is the Company's policy to promote development of knowledge for its directors and executives to ensure that they are constantly updated to support the discharge of their duties with appropriate adjustment of work strategies befitting the conditions of operations. Training, seminars and brainstorming sessions, therefore, were held periodically to encourage a forum for exchanges of opinion which will be beneficial to the corporate governance of the company.

### **Directorship in Other Companies**

The Company disclosed information about Directorship of individual director in the Information of Company Executives Section. In case a director holds position in other companies, a director shall ensure that such position does not obstruct his/her ability to perform duty as the Company's Director.

And to enable the Company's directors and President to devote their time adequately and efficaciously in the discharge of their duties for the Company, the Board determines their terms of office in other listed companies as follows :

- Company Directors shall not hold more than 5 posts as directors in SET listed companies.
- The President shall not hold more than 2 posts as director in SET listed companies

### Supervision and Monitoring of Operations of Subsidiaries, Associated Companies and Joint Ventures

In order to look after its investment interests, there are mechanisms in the Board to supervise and monitor operations of its subsidiaries and other ventures in which the Company has invested which include :

- Appointment of the Company's high-level executive(s) as manager(s) or executive(s) proportionately to the Company's equity, who will be appointed by the Board or assigned by Chairman of the Executive Board or appointed by the President depending on the size of the business the Company has invested in.
- Setting out lines of action concerning supervision/monitoring of companies in which the Company has invested which shall be adhered to by its representative director(s) to ensure that operations by the subsidiary, associated companies and joint venture are conducted in the same direction and in keeping with the Company's policy.
- Support given to have an appropriate and adequately reliable internal control system in place and to ensure that various transactions are made properly in line with the law and applicable criteria/rules.
- Supervision over disclosure of financial standing and operating results including major transactions to ensure proper compliance with the Company's criteria.

126

## Charter of the Nomination and Remuneration Committee

The Nomination and Remuneration Committee's duties involve stipulating the criteria and procedures for nominating persons with appropriate qualifications to be appointed as the Company's directors and top management, including selecting the Company's directors to act as members in sub-committees, considering the form and criteria for payment of remuneration, and selecting persons according to the stipulated nomination procedure to be proposed to the Board of Directors and/or the shareholders' meeting for consideration and approval as required by law.

In addition, it has been specified that the Nomination and Remuneration Committee shall consist of at least three members, and one member who is an independent director shall be selected to be the chairman of the Nomination and Remuneration Committee. At least three meetings a year shall be convened. Members of the Nomination and Remuneration Committee shall receive remuneration as approved by the shareholders' meeting.

### Charter of the Audit Committee

The Audit Committee acts as an independent organization that supports and performs work on behalf of the Board of Directors to audit financial information presented to shareholders and other related parties, to audit the internal control system established by the management and the Board of Directors, as well as the internal audit process, including communicating with the Company's auditor.

The Audit Committee has duties as assigned by the Board of Directors, i.e., to consider and approve the Charter of the Audit Committee prior to presenting it for approval from the Board of Directors and ensure the suitability of the Charter is reviewed annually, to ensure the accuracy and adequacy of the Company's financial reporting, to ensure there is an appropriate and effective internal control system and internal audit system, and to review the independence of the internal audit unit, to approve the appointment, transfer, and dismissal of the head of the internal audit unit or any other units responsible for internal audit, to ensure the Company complies with the securities and exchange law, the requirements of the Stock Exchange of Thailand, the Public Limited Companies Act, the Accounting Act or the laws applicable to the Company's business, to ensure that the Company has a suitable risk management system, as well as to consider, select or nominate the engagement of an independent person as the auditor of the Company, and propose remuneration for such person, as well as considering terminating the engagement of the auditor, and to attend at least one meeting a year with the auditor

without the presence of the management, to consider and ensure connected transactions or transactions with possible conflicts of interest will comply with law and requirements of the Stock Exchange of Thailand, to ensure that those transactions are reasonable and for the best interest of the Company, to consider and approve the annual internal audit plan, and the Audit Committee Chairman or a committee member designated by the Chairman must attend the Company's shareholders meeting to give clarification on matters related to the Audit Committee or the appointment of the auditor, to prepare and disclose the report of the Audit Committee in the Company's annual report, and to undertake any other acts as designated by the Board of Directors with approval from the Audit Committee. The Audit Committee directly reports to the Board of Directors.

In addition, the Charter of the Audit Committee specifies that the committee shall convene at least four meetings a year. The Audit Committee shall receive remuneration as approved by the shareholders' meeting.

#### Charter of the Risk Management Committee

The Risk Management Committee's duties include driving and promoting risk management activities of the Company to be systematic, continuing, efficient and in accordance with the Company's strategic plan and in conformity with risk management standards stipulated by the Securities and Exchange Commission and the Stock Exchange of Thailand. The committee has the authority to establish a system, provide risk management procedures, as well as supervise and review the risk management process on a regular basis. The committee shall also review risk management policies and frameworks to be proposed to the Board of Directors for approval, present risk management strategies and determine the risk appetite, support the drive for internal risk management, consider and approve corporate risk management plans, and to report the risks and the plans for management of risks that are material to and affect the business operations and significant recommendations to the Board of Directors.

The Charter of the Risk Management Committee stipulates that the committee shall convene at least one meeting per quarter. The Risk Management Committee shall receive remuneration as approved by the shareholders' meeting.

## 6.1.2 Policies and Guidelines Related to Shareholders and Stakeholders

Policies and guidelines in this section have been established for various groups of stakeholders to support the Company in building and maintaining long-term business relationships for sustainable growth.

Contents

**Operating Results** 

Corporate Governance

### Shareholders' rights

As shareholders are highly important to business organizations as they are considered legal owners of businesses, the Company considers their importance and appropriately take care of basic rights that shareholders should be entitled to as legally prescribed and other rights as described below.

1. Ensuring that all shareholders are provided with basic rights :

- The right to receive share certificates and transfer rights and to receive information adequately and timely and in an appropriate form for making decisions that will affect the Company and themselves;
- The right to attend and cast their votes in the shareholders' meeting to make decisions regarding major policy changes of the Company and the shareholders' rights for which the Board of Directors must seek approval from the shareholders' meeting, such as consideration and approval of remuneration for members of the Board of Directors;
- The right to elect and remove directors and approve appointment of the auditor; and
- Profit share/dividend entitlement.
- The date for the shareholders' meeting has been notified 2. 30 days prior to the meeting and the invitation to the meeting, together with, 2022 Annual Report (Form 56-1 One Report) in QR Code, both in Thai and in English, have been delivered, and the hard copy thereof has been distributed to shareholders who requested it. Prior to the meeting, the Company has publicized the meeting invitation, including its agenda on the Company's website to enable shareholders to explore the meeting agenda in advance. Each item of the agenda is accompanied by the opinions of the Board of Directors. A proxy form, containing clarifications on documents required for proxy granting, has also been attached to facilitate vote casting by shareholders. In addition, a phone number has been provided for inquiries for more details should there be any further questions. The notice of the meeting has been published in a newspaper for three consecutive days and at least three days prior to the date of the meeting.
- With respect to the agenda item on election of directors, 3. shareholders may elect individual directors, with each shareholder having one vote per share. The Company shall attach a profile summary of each of the directors to be nominated for appointment, which contains information such as educational background, work history, directorship in other entities, and stakeholding.
- The Chairman, directors and relevant executives are 4. responsible for attending the shareholders' meeting to answer questions raised by shareholders. Before the meeting commences, the attendees will be informed of the procedure, including how votes of shareholders on

each agenda item requiring a resolution are counted. During the meeting, the Company has allowed attendees to express their opinions and recommendations and to raise questions on each agenda item, and given them sufficient time for discussion. The Chairman, directors, executives and relevant sub-committees would give importance to all questions and then answered them clearly and then concluded each agenda item with a resolution and vote counting before ending each agenda item.

After the shareholders' meeting, the shareholders may 5 access the minutes of the meeting and voting results on the Company's website within 14 days after the date of the meeting. The meeting is also recorded on video and disclosed on the Company's website.

### Equitable treatment of shareholders

The Company has a policy to preserve the rights and benefits of all groups of shareholders, whether they are major, minor, individual or institutional shareholders, with equality. The Company provides an opportunity for shareholders to propose meeting agenda items, nominate candidates for directorship, and submit their questions at least four months prior to the date of the Annual General Meeting. Such invitation is publicized electronically through the system of the Stock Exchange of Thailand and on the Company's website. Issues will be presented based on the agenda notified in the notice of the meeting and any agenda item that has not been notified in advance will not be added. Shareholders will adequately and equally, in advance, receive clarification and information regarding the shareholders meeting, as well as all information related to matter on which shareholders must decide in the meeting. Shareholders who are unable to attend the meeting in person may appoint an independent director, the President, Company Secretary, or any other person as their proxy to attend the meeting and cast votes on their behalf based on the number of shares held by the shareholders. The Company shall grant the proxies the rights and treat them as if they are the shareholders. The shareholders may select to use a proxy form that is attached to the notice of the meeting, which is as prescribed by the Department of Business Development, or e-proxy voting. In the proxy form, the shareholders may specify whether they vote form vote against or abstain their vote on each agenda item, or allow their proxy to vote on their behalf during the meeting. The Company grants the shareholders one vote per share.

In addition to the foregoing meeting, the Company offers equality in the aspect of obtaining accurate and timely news and information of the Company by normal disclosure through the system of the Stock Exchange of Thailand first and then through other mass media to comply with rules and regulations and to

make the news and information available to shareholders or investors as well as the general public as supporting information for further investment decisions.

The Company also has a corporate governance policy to prevent executives from using insider information for their own benefits or benefits of related parties, which is considered taking advantage of other shareholders. The Company's executives must disclose their interest or interest of related parties where they have interest in transactions carried out with the Company and shall not be involved in such decision. This is to enable other executives to make decisions for the Company's interest as a whole. Additionally, legal measures are applied; for example, directors and executives are required to report any change in their securities holding to the Office of the Securities and Exchange Commission pursuant to section 59 of the Securities and Exchange Act, B.E. 2535 (and as amended) by reporting every purchase, sale, transfer or acceptance of transfer of securities of the Company within three days from the date of such purchase, sale, transfer or acceptance of transfer.

The Company also prohibits the management or units with insider information from disclosing such insider information to third parties or persons who do not have relevant duties, and they must keep undisclosed significant information confidential and must not trade securities of the Company during the one-month period prior to the disclosure of quarterly and annual financial statements and within 24 hours after the disclosure of such financial statements to the general public. In addition, the Company has established a rule prohibiting all directors and employees from abusing their authority or work opportunity to seek personal benefits or benefits for others. Violation of such rule will result in immediate disciplinary action.

#### Consideration of roles of stakeholders

The Company recognizes the importance of operating its business based on the principle of responsibility towards all groups of stakeholders, namely shareholders, the Company's employees, customers, trade partners/creditors and competitors, including towards the community, society and environment. By taking into account the rights of each group of stakeholders as appropriate, which will in turn help the Company to build and maintain positive long-term relationships. The Company has established the guidelines on the treatment of stakeholders in its Code of Conduct which is published under this report's Code of Conduct topic and published on the Company's website.

## 6.1.3 Corporate management policy and practices

### Disclosure and transparency

The Company is determined to comply with the Stock Exchange of Thailand's disclosure regulations in disclosing accurate, complete, transparent and extensive information covering financial data, operating results and other information equally to shareholders and related parties, through the following disclosure channels and media :

- The Company's information is disclosed on the Company's website, www.loxley.co.th, as one of the channels for investors or interested persons to access the Company's information from anywhere and anytime. The Company regularly updates and completes the information on its website.
- 2. The Company has assigned the Company Secretary Office to disclose significant information of the Company, report major transactions, report the Company's operating results and financial position (the Company's quarterly and annual financial statements) in conformity with the requirements of the Office of the Securities and Exchange Commission and the Stock Exchange of Thailand.
- 3. The Company shall disclose its financial information and report the responsibility of the Board of Directors for the financial report together with the auditor's report, the Management Discussion and Analysis (MD&A), general information and key information in the annual report and in Form 56-1 One Report completely, accurately, timely and in compliance with the requirements of the Office of the Securities and Exchange Commission and the Stock Exchange of Thailand.
- 4. The Company shall disclose roles and duties of the Board of Directors, committees, number of meetings and the number of attendances of each director.
- 5. The Company has disclosed the remuneration for directors and high-level executives that reflected the duties and responsibilities of each person, including the form or nature of the remuneration. In this regard, the Nomination and Remuneration Committee has compared the remuneration for directors with those of listed companies in the same industry with the similar business size and viewed that they are comparable.
- 6. Apart from disclosing information as required by law and relevant agencies, the Company has established the Investor Relations (IR) unit to communicate with shareholders, investors, analysts, mass media and all related parties to ensure they correctly understand the Company's information, especially the operating results and progress of projects.

Opportunities for meeting with the Company's management are also provided as appropriate so that inquiries about the Company may be made. These activities are the channels through which all related parties can directly and explicitly contact the Company. Moreover, the Company can improve its operations and provision of various services based on comments and recommendations received. The IR Department may be contacted on Tel. No. 0-2348-8468, 0-2348-8613 or this e-mail address : ir@loxley.co.th. The Company has also announced the contact information for general investors on its website.

## Policy on the respect for law and human rights

The Company shall establish a policy on the respect for human rights of all stakeholders within the Company's supply chain. In this regard, the Company shall encourage its personnel to respect human rights and basic freedom of individuals, to comply with international human right principles, i.e. not using child labor, equal treatment without discrimination against any person on the grounds of gender, race, religion or culture, as well as avoiding any act unfair to its employees and providing an opportunity for its employees and stakeholders to file complaints due to grievances or injustice to seek proper solutions.

### Oversight of use of insider information and securities holding by directors and executives

#### 1. Prevention of use of insider information

The Company has an oversight policy to prevent executives from using insider information of the Company for their own benefits, including trading of securities, by applying legal measures such as requiring directors and executives to report any change in their securities holding to the Office of the Securities and Exchange Commission pursuant to section 59 of the Securities and Exchange Act, B.E. 2535, by reporting every purchase, sale, transfer or acceptance of transfer of securities of the Company within three business days from the date of such purchase, sale, transfer or acceptance of transfer. Furthermore, the directors and executives must also report their interest and holding of the Company's securities as at the end of the previous year to the Company through the Board of Directors' meeting. Additionally, executives or units with insider information are prohibited from disclosing such insider information to third parties or persons with no relevant duties and they must keep the undisclosed significant information confidential. Such information is limited for the knowledge of relevant high-level executives only. For example, they shall not purchase, sell, or offer to purchase or sell, or persuade others to purchase, sell or offer to purchase the Company's securities, directly or indirectly, within a one-month period prior to the release of the quarterly and annual financial statements and within 24 hours after disclosure of such financial statements to the general public. In addition, the Company has established a rule to prohibit all of its directors and employees from abusing their authority or work opportunity to seek personal benefits or benefits for others. Violation of such rule will result in immediate disciplinary action.

Additionally, the Company requires its directors to report the sale of the Company's shares by the directors, executives, their spouse and underaged children to the Board of Directors for acknowledgment at least every quarter and notify the Company Secretary of any change in their holding of the Company's securities.

#### 2. Prevention of conflicts of interest

The Board of Directors has stipulated a policy on prevention of conflicts of interest based on the principle that connected transactions with any persons with possible conflicts of interest are not encouraged. Where such transactions are required, they shall be conducted in accordance with the normal course of business as if such transactions are conducted with third parties. If any transactions are not conducted in accordance with the normal course of business, the approval procedure for connected transactions must be followed and the interested persons in such transactions shall not have any right to vote on the transactions. Directors, executives, and employees of the Company are obligated to disclose their interest and interest of related parties by reporting them to the Company Secretary for submission of information on interest to the Board Chairman, Audit Committee Chairman, and the Board of Directors within seven business days from the date of receipt of such report.

The Board of Directors has assigned the duty of overseeing operations to the Executive Board and the Company's high-level executives. The Executive Board has ensured that there is an efficient internal control system, regular monitoring and evaluation. If any irregularities are detected, thorough investigation will be immediately conducted and the matters will be promptly resolved. The internal control system is deemed as a significant administration mechanism that helps reduce business risks, thereby enabling the business operations to be stable and to achieve the established goals. It helps protect the Company's property from loss and also helps protect the investment of shareholders from loss of benefits.

### Internal Control and Audit Charter

The Internal Audit Department is an independent unit that provides support and performs work on behalf of the Audit Committee. It conducts audit, analyses and assessments of efficiency of risk management, internal control and corporate governance, including evaluation of efficiency and effectiveness of operations, provides recommendations on improvement of risk management, internal control and corporate governance to ensure operations will achieve the established objectives and goals, reviews the operational system with significant impacts on operations and reporting, reviews accuracy and reliability of financial information and reviews the suitability of the asset management system and use of resources to ensure they are efficient, effective, economical and cost-effective, including providing advice regarding risk management and internal control to ensure compliance with corporate governance principles. The Director of the Internal Audit Department is responsible for preparing the annual internal audit plan to be proposed to the Audit Committee for approval, conducting audit work, reviewing, and adjusting the audit plan as necessary, monitoring the audit results, and reporting them directly to the Audit Committee, and reporting the general administration to the President of the Company.

### Anti-fraud and Anti-corruption Policy

The Board of Directors' Meeting No. 1/2015 on 2 March 2015 resolved to issue a written anti-corruption policy as the practice for the employees for performing their work, together with the existing corporate governance policy and business code of conduct. The Company has communicated with and educated its employees about policies and practices in fighting corruption, including relevant policies, on a continuous basis. Employees of every level can access the policies through internal communication and the Company's website to ensure that all employees acknowledge and strictly adhere to those policies.

In executing transactions with the public sector, the Company has signed the Integrity Pact of Cooperation on Prevention and Suppression of Corruption in Public Procurement to promote transparent and fair procurement. The Company has also signed integrity pacts with trade partners and business partners in other sectors to jointly conduct transactions.

The Company has issued an announcement to communicate to all employees to refrain from giving/receiving all types of gifts (No-gift Policy) resulting from performance of duties with customers, trade partners and related parties during the New Year festival or any other occasions.

### **Personal Data Protection Policy**

The Board of Directors approved the Privacy Policy and the Privacy Notice. To ensure that the Company will have legally explicit and appropriate personal data oversight and management rules, mechanisms and measures, the Company has appointed a task force on personal data protection and personal data protection officers to oversee and ensure compliance with policies, evaluate and review the standards and practices so that they will be in conformity with law and policies established by the Board of Directors.

#### Sustainability Management Policy

The Company has the intention and determination to develop its business sustainably in the economic, social and environmental aspects on a continuous basis, covering the respect for human rights of stakeholders in the Company's supply chain and corporate governance principles. The Company's targets and guidelines for operating the business under the sustainable development framework are as follows :

- 4. The appointment and transfer, including granting of rewards and punishment of employees shall be carried out equitably and in good faith and based on the knowledge, skills, and suitability as well as behavior or performance of such employees.
- 5. The Company shall promote development and encourage employees to attend both internal and external training and seminars to enhance their skills and potential, as well as encouraging employees to utilize their knowledge and abilities for individual career advancement.
- 6. The Company shall provide an internal communication channel accessible by all employees for information of the Company equally and shall support establishment of groups or clubs of employees within the Company with the aim to promote relations, share knowledge among employees and hold activities promoting relationships between employees and external community agencies.
- 7. The Company shall promote quality of life at work for employees and promote safety and occupational health, as well as ensuring the workplace and work environment are safe for life and property of employees.
- 8. The Company shall welcome comments and recommendations from its employees by providing a channel for employees to submit a whistleblower report or file a complaint upon finding inappropriate behavior contrary to the code of conduct or any other matters that may cause damage to the Company or may lead to violation of work regulations, rules, requirements, orders, notifications, or laws.

### 3. Customer Code of Conduct

The Company is determined to be the best alternative for its customers by delivering quality products and services that meet the needs of and for the benefit of its customers. The Company also aims to maintain good relationships with its customers for mutual sustainable growth.

- 1. The Company shall responsibly provide services and deliver quality products and services that meet the requirements of its customers and in accordance with commercial terms, set appropriate and fair prices based on the levels of quality of products and services.
- 2. The Company shall consider commercial terms and conduct business negotiation in a fair and cautious manner, without taking any advantage, and shall strictly comply with conditions with customers. If the Company is unable to comply with them, the Company shall notify

its customers in advance to jointly find solutions.

- 3. Product and service information shall be disclosed accurately, completely and without distortion of facts.
- 4. The Company shall safeguard customers' confidential information as if it is the Company's information and shall not disclose or use such information for the benefit of the Company or other parties.
- 5. The Company shall provide a communications channel to receive recommendations, comments, and complaints from its customers and third parties to prevent or resolve problems for its customers with speed and use such information to upgrade or enhance products and services.
- 6. The Company shall treat customers with courtesy and honesty and equally provide care to all customers, to maintain good and sustainable relationships between customers and the Company.
- 7. The Company shall not demand or accept assets or items from customers or give any benefits to those with dishonest intention towards customers.

### 4. Supplier and Creditor Code of Conduct

The Company considers equality, fairness, and integrity in operating its business and safeguarding interest with suppliers and creditors by strictly complying with laws and conditions mutually prescribed.

- 1. The Company shall treat suppliers and creditors with equality and on the basis of fair returns for both parties.
- 2. The Company shall prepare a fair contract and strictly comply with terms and conditions agreed with suppliers and creditors. If there is any event expected by the Company that will prevent compliance therewith, the Company shall immediately negotiate with suppliers or creditors to jointly find solutions and prevent any damage.
- 3. The Company shall establish a transparent and fair method for selecting suppliers. All bidders shall receive the same written details, information, and conditions.
- 4. The Company shall avoid purchasing goods or services from suppliers with illegal behavior, such as violation of human rights or intellectual property infringement.
- 5. The Company shall treat all financial institution creditors equally and report the Company's financial position and information to the creditors accurately and punctually.
- 6. The Company shall not demand and accept gifts, gratuities, and hosted meals except on appropriate occasions according to custom and shall refrain from showing favoritism which may cause other parties to think there may be injustice, especially causing other suppliers to misunderstand and do not want to participate in bidding and it may be talked about to the extent that the

Company's image is tarnished.

7. The Company shall keep suppliers' secrets confidential and shall not use suppliers' information for benefit of the Company or other parties.

### 5. Competitor Code of Conduct

The Company shall comply with a good and fair competition framework.

- 1. The Company shall comply with a good competition framework and encourage free and fair competition. The Company shall not ruin the reputation of business competitors by making accusations or slandering without truth.
- 2. The Company shall focus on competition in terms of prices and the performance of products and services by taking into consideration the best interest of customers and preservation of the overall business image.
- The Company shall not infringe intellectual property of other parties and shall not seek confidential information of business competitors by dishonest or inappropriate methods.

### 6. Community, Social and Environmental Code of Conduct

The Company shall operate its business with community, social and environmental responsibility to build confidence and trust among all groups of stakeholders, encourage and cultivate the Company's personnel's awareness of using resources cost-effectively and being environmentally responsible, and promote social equality.

 The Company shall establish a specific unit to take charge of corporate social and environmental activities and sustainable development. It shall establish a policy and a plan to implement projects beneficial to communities to enable them to be sustainably self-sufficient and contribute to resolving social and environmental problems for sustainable development.

Overview

- 2. The Company shall operate its business based on legal provisions, standards, rules and regulations, and guidelines, and shall offer or develop environmentally-friendly products and services to prevent and minimize environmental impacts.
- 3. The Company shall, with transparency, disclose sustainability operations in the economic, social, and environmental aspects through different channels as appropriate.
- 4. The Company shall promote knowledge and cultivate a sense of community, social and environmental responsibility among executives, employees, and relevant stakeholders through various means as appropriate, and organize activities that benefit communities and society on a regular basis, as well as providing opportunities for families of executives and employees to participate in such activities.
- The Company shall encourage executives and employees to use the Company's assets and natural resources for maximum benefit by realizing the importance of the environment and both short-term and long-term impacts.
- 6. The Company shall build good relationships, coordinate with agencies in both private and public sectors, as well as community leaders, supervise corporate socia responsibility activities by focusing on implementing projects that benefit surrounding communities and environment to ensure sustainable development of better living conditions.

## 7. Code of Conduct for Executives and Employees

All employees are expected to perform their duties to the best of their ability, with responsibility towards stakeholders, achieve sustainable growth, develop their potential, and contribute to a positive work atmosphere, taking into account equality and business ethics.

- 1. The executives and employees shall perform their work to the best of their abilities, with responsibility for their assigned tasks, carefully, reasonably, and honestly. They shall be committed and dedicated to achieving success and shall comply with work regulations, relevant laws, rules, requirements, notifications, and policies, considering the best interest of the Company, shareholders, and the society.
- 2. The executives and employees shall honestly professionally perform their work, refrain from illegally seeking profits from their positions or reputation of the Company, have a positive work attitude to ensure they work more efficiently and effectively.
- 3. The executives and employees shall be punctual, safeguard the Company's interest and use the Company's

assets economically, cost-effectively, and carefully as a reasonable person would safeguard his/her own assets from harm or wastage, and shall not use the Company's assets for their personal use.

- 4. The executives and employees shall be responsible for performing their work, cooperate, provide proper assistance to their own work unit and the Company, in terms of comments, help with work and mutual problem resolution, promote unity in the discharge of duties for common benefits, as well as treating colleagues and stakeholders with politeness and kindness and having positive human relations.
- 5. The executives and employees shall be eager to gain knowledge and experience to enhance their capabilities in performing work and develop themselves in such a way that benefit themselves and the Company, share their knowledge with their colleagues to develop knowledge, skills, and abilities, and create new knowledge beneficial to the Company's further development.
- 6. The executives and employees shall keep undisclosed information confidential and shall not use the Company's insider information for their own benefit or disclose it to other persons.
- 7. The executives and employees shall adhere to morality and ethics, refrain from all vices and addictive substances, and refrain from engaging in any behavior that may harm their reputation and the Company's reputation.
- 8. The executives and employees shall take care of subordinates in terms of performance of work, moral support, and welfare, and shall welcome comments of subordinates as well as supervising their subordinates based on ethical principles and reasons.
- 9. The executives and employees shall not conceal any mistake or action that may seem lead to wrongdoing or may cause wrongdoing and shall immediately report the matter to supervisors according to the chain of command, or to the internal audit department, or the Audit Committee, or through channels for receiving complaints upon finding any action that seems to be fraud or misconduct, to seek solutions and prevention measures.

All employees of Loxley Public Company Limited or juristic entities owned by, or in which Loxley Public Company Limited, holds shares with voting rights exceeding 50%, whether directly or indirectly, or over which the Company has control, shall have a duty to comply with principles and practical guidelines stipulated in the Business Code of Conduct. They shall consult or ask their supervisors when they are unsure of or have any doubts regarding the guidelines and communicate to other parties or stakeholder the guidelines on performance of work based on the Code of Conduct, as well as submitting whistleblower reports upon any wrongdoing through channels prescribed by the Company. Non-compliance with the policies and practical guidelines prescribed in the Code of Conduct may be subject to disciplinary or legal action as the case may be, and may be subject to penalty based on the specified rules. In addition to the non-compliance with the Code of Conduct, supporting others to violate the Code of Conduct, ignoring the failure to comply with the Code of Conduct, obstructing the investigation process and unfair treatment of witnesses, are also deemed as non-compliance with the Code of Conduct.

### 6.3 Major changes and Developments in policies, practices and corporate governance schemes in the previous year

### 6.3.1 Major changes and developments in relation to the review of policies, practices and corporate governance schemes or charters of committees in the previous year

In 2023, the Board of Directors reviewed corporate governance policies, measures, and guidelines, as well as revising the business operation guidelines to develop and enhance corporate governance standards to ensure continuous efficiency, in alignment with the economic, social, and environmental changes, including expanding business for sustainable growth. Key achievements include :

- The Board reviewed and approved amendment of the Company's articles of association to comply with the Public Limited Companies Act (No. 4), B.E. 2565 (2022) which had been amended, and to comply with the criteria, rules and regulations of regulators, to be proposed to the 2024 Annual General Meeting accordingly;
- The Board reviewed the suitability and adequacy of the Company's corporate governance policy and business code of conduct by granting approval for the amendment of the corporate governance policy and business code of conduct to be consistent with law, rules, guidelines, and comments from stakeholders, as well as in alignment of the business formats that had changed. It has also approved the procurement policy and the business partner code of conduct that had been additionally stipulated;
- During 2023, the Board of Directors approved the organizational management policy and regulations to ensure consistency with the corporate governance

principles, i.e. the policy on information technology system security and information security regulations, to be used as guidelines on operational procedures for units and employees; and

• The Audit Committee approved the charter of the internal audit department which had been amended at the Audit Committee's Meeting No. 4/2023, held on 9 November 2023, and presented it to the Board of Directors for acknowledgment.

In 2023, the Company has encouraged provision of other rights than the voting right to shareholders, namely the right to submit questions prior to the 2023 Annual General Meeting to express their opinions and inquire the Company about matters on the agenda. The Company provided convenience for shareholders that will attend the meeting in person and by proxy by delivering Proxy Form B to shareholders together with the meeting invitation. Moreover, shareholders may download the form from the Company's website. The right for the shareholders to propose agenda items and nominate persons for directorship prior to the 2023 Annual General Meeting has been provided during 3 October 2022 - 31 December 2022 and the provision of such right was publicized on the Company's website and the Stock Exchange of Thailand's channel.

The Company has provided online communication channels to provide communication convenience and disclose the Company's news and information, namely the disclosure of the annual report digitally on the Company's website and the Stock Exchange of Thailand's website, including communicating with investors, analysts and related government agencies by phone, e-mail and online meetings, i.e., communicating with investors, analysts and interested persons by e-mail and/or phone on a quarterly basis, and participating once in the SET Opportunity Day activity organized by the Stock Exchange of Thailand. In addition, in 2023, the Company issued the Company Snapshot to disseminate its quarterly operating results to investors and analysts.

### 6.3.2 Application of Corporate Governance Code

The Board of Directors realizes the roles and duties under the Corporate Governance Code (CG Code) and has at least once a year considered and reviewed the application of the CG Code in accordance with the Company's business context. However, some of the practices could not be applied by the Company due to reasons and necessity based on the nature of business operations of the Company, with the following material details :

1. The Company's Board Chairman should be an

Overview

Business Operations and Operating Results Corporate Governance

Attachments

independent director and at least half of the members of the Board of Directors shall be independent directors.

The Board of Directors has not elected an independent director to be the Board Chairman because it views that the current Board Chairman (Mr. Dhongchai Lamsam) is a qualified and experienced person who best understands the diverse nature of the Company's business and always has adequate time to offer his recommendations and opinions to the management for the utmost benefit of the Company. For independent directors of the Company, although the number is less than half of the total number of the Board members, it is higher than the criteria set by the Office of the SEC, i.e., more than one-third of the total number of Board members shall be independent directors. All of the Company's independent directors possess the knowledge and experience appropriate for the Company's business and can offer independent opinions. The Company allows independent directors to freely contribute to the determination or proposal of agenda items for the Board of Directors' meeting.

2. The majority of the Nomination and Remuneration Committee should be independent directors.

The Company's Nomination and Remuneration Committee consists of independent directors and non-executive directors, being responsible for considering payment criteria and the form of remuneration for members of the Board of Directors and members of sub-committees to be proposed to the Board of Directors and the shareholders' meeting for consideration and approval in accordance with the explicitly specified procedures and criteria, before submitting it to the Board of Directors for consideration prior to presenting it to the shareholders for approval at the shareholders' meeting. With respect to the consideration of the payment criteria and the form of remuneration for high-level executives, evaluation shall be linked to the targets, the Company's operating results and the performance by each executive. It can be deemed that there are clear, transparent and fair criteria and practices

3. The Board of Directors shall arrange for the performance of each Board member to be evaluated on an individual basis.

The Company shall consider appropriate criteria and procedures for further evaluation of the performance of each Board member.

4. The Board of Directors has considered the appointment of its CG Committee of which more than 50% of its members shall be independent directors and the appointment of the Sustainability Committee consisting of at least one Board member.

The Board of Directors has not considered appointing such CG Committee and the Sustainability Committee. However, the Company appointed the task force on sustainable development responsible for driving towards stipulation of sustainable strategies and goals covering all aspects, including economic, social and environmental aspects, and business operations in line with corporate governance principles. The task force is also responsible for presenting policies and operation guidelines related to sustainable development, reviewing and determining the sustainability direction and goals of the Company. The efforts shall be driven through corporate strategic management planning, coordination with the responsible agencies to implement action plans to achieve sustainability targets, including monitoring results and efficiency of the operations and reporting them to the Board of Directors, to be prepared before the appointment of such committee in the future.

### 6.3.3 Other practices under corporate governance principles

The Company's corporate governance in 2023 has continuously progressed and evolved from the previous year. As a result, the Company received positive assessment results regarding corporate governance and was granted awards as described below.

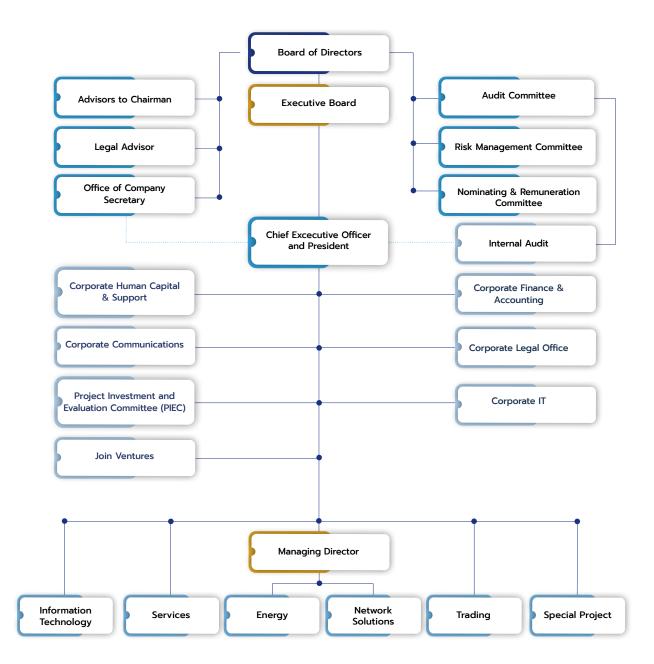

- The Company was awarded the Excellent Score or five stars from the assessment under the Corporate Governance Report of Thai Listed Companies 2023 (CGR) survey project by the Thai Institutes of Directors (IOD);
- The Company scored 100 out of 100 points from the assessment of the quality of the arrangement of the 2023 Annual General Meeting (AGM Checklist) by the Thai Investors Association;
- The Company was awarded a certificate of recognition in the Low Emission Support Scheme (LESS) at the Climate Care Forum 2023 : Time to Reduce "Reduce-forthe-World" event from its concrete operations through the Care the Whale project, the collaboration between the Stock Exchange of Thailand and the Greenhouse Gas Management Organization (Public Organization); and
- The Company was selected as a distinguished organization that promotes employment of people with disabilities in 2023 at the International Day of Persons with Disabilities 2023 event, by the Department of Empowerment of Persons with Disabilities, Ministry of Social Development and Human Security.

### 7. Structure of Corporate Governance and Major Information on its Board of Directors, Sub-Committees, Employees and Others

### 7.1 Structure of Corporate Governance

The Company's management structure in 2023 consisted of the Board of Directors and Sub-Committees, namely the Audit Committee, the Nominating & Remuneration Committee, the Risk Management Committee, the Executive Board, and working groups, namely the Project Investment and Evaluation Committee, the Personal Data Protection Working Group and the Sustainable Development Working Group.

### **Organization Structure 2023**

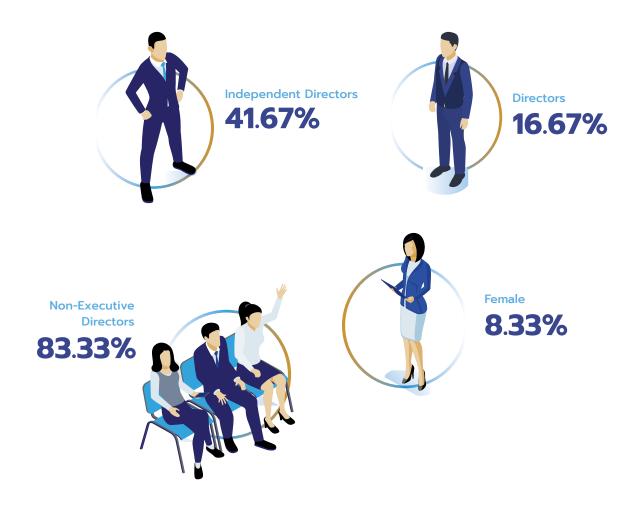

Overview

### 7.2 Information on the Board

### 7.2.1 Components of the Board

As of 31 December 2023, the Board of Directors with 12 members, of which two directors are executives, representing 16.67% of all directors, and 10 non-executive directors, representing 83.33% of all directors. Among the non-executive directors, five are independent directors, representing 41.67% of all directors, which are more than one-third of the total number of directors and more than 3 persons. There is no gender discrimination as there is one female director, representing 8.33% of the total number of directors. The Board Chairman had no involvement in management and is not the same person as the Chief Executive Officer and President, in order to ensure clarity in the segregation of duties and performance. Independent directors shall not hold more than 0.5% of the total number of voting shares of the Company, its parent company, subsidiaries, affiliated companies or juristic persons with possible conflicts of interest, and these shall include the shares held by related persons of such independent directors. As a result, the shareholding requirement as prescribed by the Company is stricter than the regulation specified in the notification of the Capital Market Supervisory Board.

## 7.2.2 Information on the Board of Directors and Controllers of the Company

- For transactions with related persons which may be 6. considered as related parties' transaction, the Executive Board has to propose to the Board of Directors for approval with presence of independent directors or the Audit Committee. Persons with conflict of interest shall not attend the meeting and do not vote, except for normal items with regular trade terms and conditions allowed by the Company's policy and criteria that are earlier approved. In addition, the Executive Board will have to strictly follow the SET's regulations on related parties' transactions.
- 7. The Executive Board may sub-assign the authority to the Chief Executive Officer, any executive or individual to take action on any one or several matters as it deems fit which, however, shall not be involved with an approval of an inter-related transaction, an issue which may be one with

conflict of interests or a transaction in which the Executive Board is a party with vested interest under criteria defined by a regulatory authority unless such is an issue that is in line with the policy and criteria already approved by the Company's Board of Directors.

8. Takes action on various matters as assigned by the Company's Board or shareholders or as required by the laws or the Company's Articles of Association which includes screening various matters for submission to the Company's Board.

# 7.4.2 The Policy on Remuneration for Executive Directors and Executives

Executives receive remuneration in the form of a monthly salary and a bonus (if any) which build motivation in working to achieve the organization's goals. Such remuneration has been prescribed to be at the comparable level with those adopted by the industry. The criteria for considering the rate of remuneration for executive directors and executives will be based on the performance in line with their duties and responsibilities and implementation of policies as assigned by the Board of Directors, the business development ability, the Company's operating results, the overall improvement of operational efficiency, and economic and social conditions, to create both short-term and long-term motivation. For executives, KPIs are applied to evaluate their performance and remuneration is linked to their performance.

The Board of Directors has ensured that the performance of the Chief Executive Officer & President is evaluated annually through fair and careful consideration using the evaluation criteria recommended by the Stock Exchange of Thailand. The Board of Directors assigned the Chairman to report the evaluation results to the Chief Executive Officer & President.

#### 7.4.3 Total amount of remuneration for executive directors and executives

The total remuneration for a total of seven executive directors and executives pursuant to the definition of "executive" of the Office of the SEC was Baht 30,820,800 (as compensation in the form of a monthly salary, the return on performance, and other benefits).

#### Total remuneration of the Executive Board, including compensation received from subsidiaries

Four executive directors or executives of the Company received compensation from three subsidiaries in the total amount of Baht 1,040,000 (as compensation in the form of meeting allowance and bonus) and there was no outstanding compensation.

# 7.5 Information on employees

# 7.5.1 Personnel

As of 31 December 2023, the Company had 486 employees in total. It had 444 permanent employees and 42 contract employees. Employees are divided according to strategic business groups and employee levels as follows :

| Segment                    | As at 31 December 2023 (Personnel) | As at 31 December 2022 (Personnel) |
|----------------------------|------------------------------------|------------------------------------|
| Information Technology SBG | 0                                  | 0                                  |
| Services SBG               | 0                                  | 0                                  |

The Company has disclosed information on employment where equality was provided, without discrimination, and persons with disabilities and other underprivileged persons were included, as detailed in this report's section covering the topics of driving the business towards sustainability, human rights management and equality.

Number of employees in the company and subsidiaries divided according to strategic business groups

# Total Employees 2,020 Personnel

147

# 7.5.2 Significant change in the number of employees in the past three years

Over the past year, the Company's change in the number of employees is as shown in the following table.

| Number of<br>Employees as of<br>date | Personnel | Increase<br>(Decrease) | Percentage |
|--------------------------------------|-----------|------------------------|------------|
| 31 December 2023                     | 486       | (39)                   | (7.43)     |
| 31 December 2022                     | 525       | 5                      | 0.96       |
| 31 December 2021                     | 520       | (41)                   | (7.31)     |

As of 31 December 2023, the number of employees decreased by 39 persons from the number in 2022, significantly due to corporate restructuring and end of employment contract.

## 7.5.3 Employee Remuneration

The Board of Directors has a policy to provide employees with remuneration and benefits that are suitable as well as in alignment with the short-term and long-term operating results which are linked to the business performance, employee performance and other economic and environmental conditions. Importance is also given to the welfare of employees to ensure that the employees are working in a secure and safe environment. Additionally, support necessary for operations under different conditions is provided.

The Company established a structure for employee remuneration that is consistent with the Company's short-term and long-term operating results through the Performance Management System (PMS) which is a continuous and systematic operating process to ensure the targeted operating results are achieved and in conformity with the organization's business direction strategy. The Company annually considers raising employees' salaries based on individual performance. The key performance indicators (KPIs), including competency, are applied in the individual performance evaluation to consider the employee remuneration and corporate development. The indicators are divided into Corporate KPIs and Functional and Individual KPIs. The determination of these KPIs must be linked to all four aspects of the organization's operational strategies (financial, customer, operational and developmental aspects) to ensure consistency with current operating results (short-term) and the Company's strategic plan to be implemented in the long term which will sustainably lead to the established goals, such as business expansion, profit growth rate, ongoing enhancement of operational efficiency, and sustainable development performance.

The Company has determined that there will be payment of an annual bonus based on profitability of each year and a variable bonus (performance-based from PMS) which is consistent with the results of evaluation of KPIs for executives and employees of each unit to motivate them to achieve the goals of their unit and of the organization in each year.

For the fiscal year ending on 31 December 2023, the Company paid compensation to employees in the form of monthly salary, wages, overtime pay and bonuses, in the total amount of Baht 321 million (exclusive of the provident fund). The average compensation ratio of female employees to male employees was 1.09 : 1.

To provide long-term welfare for employees and promote good quality of life, the Company has established a provident fund for its employees. Employees are entitled to apply for membership of the provident fund. They can select an investment plan and can choose to contribute 5-15% of their monthly salary to the fund and the Company will match such contribution, up to a maximum of 5%. Currently, 90.12% of employees of the Company is member of the provident fund managed by MFC Asset Management Public Company Limited.

# 7.5.4 Labor Disputes

The Company have had no labor disputes that are significant to their business operations in the past three years.

However, in 2021 and 2022, ASM Security Management Company Limited, a subsidiary of the company, had some of its employees transferred to Thai Airport Security Co., Ltd. They filed a petition with Labor Court Section 1 and Section 8, claiming compensation and indemnity for advance notice. As of 31 December 2023, the subsidiary received a certified letter from Labor Court Section 1 and Section 8, stating that the case had been finalized. Thus, the subsidiary is not liable to pay damages from the aforementioned lawsuit

### 7.5.5 Employee Engagement Assessment

The Company has a policy to conduct the Employee Engagement Survey every two years and arranges an assessment on employees' satisfaction towards activities of the Company as appropriate. In addition, the Human Resources Department has conducted an assessment on the employee engagement based on resignation of employees. In summary, in 2023, the resignation rate was at 10.88% which is lower than the average rate of general companies which have an approximate resignation rate of 12%. Based on the exit interview for the purpose of listening to opinions and reasons for resignation, it was found that most employees resigned because the salary structure for some positions is not attractive when compared with the labor market, or because they wanted to run their own business, and family-related reasons. Therefore, in order to attract and retain personnel, the Human Resources Department has included the exit interview findings in its review of the employment policy and determination of remuneration, especially for the positions that require specialized skills and are highly competitive in the labour market, namely information technology-related positions and programmers. Additionally, the department has improved the evaluation system and process, setting of personal performance goals and goals of units to be in line with the corporate goals to reflect the efficiency and effectiveness of operations and to help the organization achieve its established goals, as well as promoting development of potential of the employees and taking the performance evaluation results into consideration as criteria for appropriate and fair payment of remuneration and financial rewards.

The Company encouraged the establishment of the Loxley Group Staff Club and provided a supporting budget for carrying out activities with the focus on promoting the importance of the three pillars-nation, religion and the monarchy, as well as activities aimed at creating unity among the employees, including supporting other activities of the Company as assigned. Its goal is to oversee and build relationships among employees, to encourage participation, create the culture of assisting and sharing among employees, and to forward assistance to surrounding communities and society. The club also acts as a channel for communicating and acknowledging what employees expect and require from the organization, in order to build organizational commitment and cooperation among employees pursuant to the Company's mission aimed at creating a happy society and workplace. In 2023, the Loxley Group Staff Club organized activities which included an event to offer alms to monks on the occasion of the Company's anniversary, offering of alms to monks every Tuesday and Thursday morning, health-related activities in collaboration with Theptarin Hospital, distribution of food coupons in the Canteen, providing free meals to employees working at the warehouse in Pathum Thani, a Buddha image bathing activity on important days, providing employee welfare by arranging evening shuttle bus services from the office to mass transit stations, futsal and golf competitions to strengthen relationships, and granting scholarships to children of employees. The Company plans to hold employee engagement activities through the club on regular basis as to provide care and create a bond between the employees and the organization.

## 7.5.6 Employee Development Policy

The new normal way of doing business resulted in the change in work styles. Therefore, it is necessary to make changes in human resources management and personnel development accordingly and to be able to handle the realized changes, in order to enhance work efficiency and, in particular, to formulate standards to ensure the personnel in the organization have the concepts and behavior in the direction desired by the organization to enhance work values and create consistent inspiration to the extent that they become the corporate culture. These include encouraging the ongoing knowledge and skill development for personnel to improve their potential as well as increasing the organization's long-term capabilities.

- Building good corporate culture is necessary for driving the organization to achieve its vision and to be in line with the established business strategies. The Human Resources Department has been planning and implementing clear core values that are in alignment with the organization's core vision and mission, including stipulation of core competencies for those holding certain positions, especially senior executives, as the guidelines on succession plans and further development of personnel.
- The Company places importance on development of knowledge and abilities of personnel, including providing necessary training to develop management skills and specialized skills for operations through in-house training, participation in training arranged by external institutions, and online training, as well as other forms of learning, i.e. on-the-job training and delegation of tasks.

Business Operations and **Operating Results** 

- 3. Development of skills, knowledge, and abilities of employees is emphasized to ensure they are aligned with the business operation direction by determining basic necessary knowledge and competencies of executives and employees at each level to clearly formulate training courses and guidelines on development. The Company established the Leadership Development Program for executives as follows :
  - Upper Management Development Program, aimed at developing management skills and necessary competencies of high-level executives, as well as executive development according to the succession plan.
  - Leadership Development for Middle Management Program which is the preparation and foundation of leadership towards high-level executives in the future where programs and courses were organized. They consisted of Strategic Management via Balance Scorecard, Job Design and Job Redesign Approach, PMS Coaching and Feedback, Informal Learning and Individual Development Plan, and Business Transformation programs.
  - Development of employees in the supervisory level of units, consisting of Critical Thinking for Business Decision Making Workshop and Work Better with Collaborative Negotiation Course, for assistant managers and supervisors. In 2023, 20 employees in the supervisory level joined the training.

Apart from the Leadership Development Program for employees, the Company has established a plan for staff training and development in other areas. These included Functional Training for each position and training courses in line with laws and regulations, such as project management programs, programs for salespersons, and programs for work safety officers of the supervisory level

4. All units were encouraged to develop Skill Gap Analysis to formulate a core competency development plan and an individual employee development plan, both in the form of training and learning, to be in conformity with the organization's business operation direction and the unit's goals, as well as expected tasks to be undertaken by employees in their daily work. Apart from being the development of employees' skills, it is the development of leadership of executives and promotion of internal communication.

- 5. The Company encourages its employees to achieve excellent performance along with ensuring the employees work happily to retain and develop high performers. As a result, the Company has a policy to select high-performing employees and plan to develop them individually to be prepared for succession of positions especially among senior executives.
- 6. Importance was placed on the performance evaluation process to support and push the employees to perform their work efficiently and effectively A process was established to appraise work and to review and monitor performance during the year, in order to measure the work success according to the specified individual goal and the overall goal of the unit, as well as to offer advice to subordinates, to encourage discussions and exchange of opinions with subordinates on a regular basis to ensure targets will be achieved as expected by the supervisors.
- 7. Exchange of knowledge both internally and among business unit is encouraged to create the learning culture and environment, namely publicizing knowledge through the Company's internal online communication channels, and organizing special lectures by executives and members of the Board of Directors.

In summary, in 2023 the Company organized a total of 58 training courses for employees to enhance their skills and potential in performing their work, which were divided into 10 in-house training courses, both online and on-site training, and 48 training courses, attended by the employees, which were organized by external institutions. The number of hours of training or knowledge development activities was 16 hours on average per employee per year compared with the targeted 12 hours per employee per year, or equivalent to a total of 1,026,432 hours of work of employees. The budget for training and development of employees totaled Baht 1,271,624.

# 8. Reports on Significant Corporate Governance Performance

# 8.1 Summary of Performance of the Board of Directors in the Previous Year

Under the principles of good corporate governance for listed companies to create confidence among shareholders, investors, and stakeholders, including providing support to achieve positive business operating results for the Company and strengthening long-term competitiveness and sustainable growth in 2023, the Board of Directors reviewed the policies, measures and guidelines by performing duties under the principles of good corporate governance as follows :

- The Company appointed a task force to determine the corporate strategies, with the aim of establishing corporate strategies and business planning guidelines for 2024-2026 to ensure they are consistent with the operational guidelines aimed at professional, stable, and sustainable growth.
- The Board of Directors reviewed and amended the Company's articles of association to comply with the Public Limited Companies Act (No. 4), B.E. 2565 (2022), as amended, and the Notification of Department of Business Development Re : Criteria for Delivery of Letters or Documents via Electronic Means and Advertising via Electronic Media, B.E. 2565 (2022), to ensure it is updated and in pace with current situations. The Board of Directors Meeting No. 5/2023, held on 19 October 2023, passed a resolution approving the Company's amended articles of association and stating that the amended articles of association shall be proposed to the shareholders meeting for consideration and approval accordingly.
- The Board of Directors reviewed the Company's corporate governance policy and code of conduct to ensure they are in alignment with the Company's business operation guidelines, including the principles of good corporate governance for listed companies. The Board of Directors passed a resolution approving the amended corporate governance policy and code of conduct at its Meeting No. 5/2023, held on 19 October 2023, as detailed under the Corporate Governance Policy topic of this report.
- The Board of Directors considered and approved the additional purchase and procurement policy and trade partner code of conduct to be used as practical guidelines for directors, executives and employees based on the principles of good corporate governance, taking into consideration sustainable development and mutual growth of stakeholders throughout the business chain, at the Board of Directors Meeting No. 5/2023, held on 19 October

2023, as detailed under the Corporate Governance Policy topic of this report.

- The Board of Directors approved the 2024 Risk Management Plan which was approved by the Risk Management Committee at the Board of Directors Meeting No. 7/2023 on 21 December 2023.
- The Audit Committee approved the charter of the Internal Audit Department which had been reviewed and amended, at the Audit Committee Meeting No. 4/2023 on 9 November 2023, and had been proposed to the Board of Directors Meeting for acknowledgment.
- The Board of Directors provided an opportunity for shareholders to appropriately be granted the rights and to be able to exercise them equally. These rights include the right to attend a shareholders meeting to jointly make a decision on important matters of the Company by exercising their voting right on each item as detailed in the letter of invitation to the shareholders meeting, the right to receive information and news of the Company quickly, comprehensively and adequately through easily accessible channels within a period suitable for decision making, which has been publicized by the Company through its website and channels of the Stock Exchange of Thailand pursuant to the required time frame and in accordance with the corporate governance criteria, and the right to receive dividend.
- Shareholders were treated equally. All shareholders are given a chance to propose items for consideration to be included as agenda items and to nominate persons with suitable qualifications to be considered for appointment as directors in the Annual General Meeting of Shareholders. In this regard, criteria are clearly specified and published on the Company's website. Shareholders may propose the list of persons for appointment as directors and submit questions in advance through the specified channels.
- The Board of Directors has promoted and encouraged the use of technology in holding shareholders meetings to provide convenience and promote transparency of the meetings by using a QR code to facilitate submission of application for attending the meeting, submission of questions prior to the meeting, downloading of documents, annual reports, proxy forms and other forms, including casting votes through the E-Voting system.

152

- The 2023 Annual General Meeting of Shareholders was held on 25 April 2023 which was an electronic meeting (E-AGM) in line with the Emergency Decree on Electronic Meetings, B.E. 2563 (2020), with Inventech Systems (Thailand) Co., Ltd. as electronic shareholders meeting management system provider that complied with the electronic meeting standards of the Electronic Transactions Development Agency (ETDA). To provide convenience for shareholders, starting from the registration to attend the meeting, asking questions via video conference, to vote casting and vote counting, the Company has prepared details and procedures for the appointment of a proxy, submission of a request/registration to join the meeting, and procedures for attending the meeting via electronic means for the shareholders' information prior to the meeting, which had been delivered to the shareholders together with the notice of the meeting to ensure the meeting would be conducted with speed, accuracy and transparency. The Company has prepared three different proxy forms, as prescribed by the Department of Business Development, Ministry of Commerce, for shareholders to choose, i.e., Proxy Form A, Form B and Form C. The conditions and documents required are clear and do not cause difficulty for the shareholders in appointing their proxy to attend the meeting on their behalf. For the 2023 shareholders meeting, the Company delivered Proxy Form B, together with the meeting invitation letter and has offered choices to shareholders by nominating four independent directors and specifying how their interest in the agenda items to be considered is different from the interest of other directors (if any) to be appointed as their proxy to attend the shareholders meeting on their behalf. In this meeting, the Company's 12 directors were all present, representing 100%. With measures and preparation undertaken with care, attention and respect for shareholders, the Company received a full score of 100 for its quality of meeting organization pursuant to the AGM Checklist assessment by the Thai Investors Association.
- At the Board of Directors Meeting No. 3/2023 on 12 May 2023, the Board of Directors approved the Information System Security Policy to ensure the use of services and provision of services of the Company could be carried out uninterruptedly, appropriately and in line with the Company's business policy and to prevent potential issues from unauthorized use of the information system, by users and threats which may affect its business, and to ensure that the Company's information system is operated under the efficient, secure, and reliable management framework, in compliance with the criteria and guidelines under the information system security guidelines and other applicable laws.

- In 2023, the Company organized a meeting of independent directors and non-executive directors without the presence of management on 18 July 2023. The key agenda item was to acknowledge the schedule and operations to determine the corporate strategies and provide opinions to the management, as well as offering other recommendations for sustainable business growth. The meeting results together with the recommendations had been proposed to the Board of Directors Meeting and the Chief Executive Officer & President for consideration and action accordingly.
- The Board of Directors considered and appointed an independent director and member of the Audit Committee to replace the director who resigned, based on the opinion of the Nomination and Remuneration Committee. The Board of Directors Meeting No. 7/2023, on 21 December 2023, passed a resolution appointing Mr. Chatmongkol Peetathawatchai,Ph.D as independent director and member of the Audit Committee of the Company, for the remaining term of the director whom he replaced, and a resolution appointing Mrs. Nattaporn Phan-Udom,Ph.D as Chairwoman of the Audit Committee, effective 21 December 2023.

### 8.1.1 Nomination, Development and Evaluation of Performance of the Board of Directors

The nomination, development and evaluation of performance of the Board of Directors are highly important as the Board of Directors plays an important role in formulating strategies and approaches for business operations towards sustainable growth. The summary of details regarding the policy on determination of qualifications of the Board of Directors appears under the Corporate Governance topic herein. Details on the process of nomination, development and evaluation of performance of the Board of Directors may be summarized as follows :

#### Nomination and Appointment of Directors and Top Executives

The nomination of members of the Board of Directors, independent directors, the President, as well as members of committees must undergo consideration, selection and screening by the Nominating & Remuneration Committee before presentation thereof to the Board of Directors and/or the shareholders meeting for consideration and approval. With respect to the nomination of members of the Board of Directors, directors and shareholders are allowed to nominate persons with suitable qualifications in addition to the use of Director Pool of the Institute of Thai Directors (IOD), the list of directors of companies listed on the Stock Exchange of Thailand, or other public channels in support of consideration and nomination of new directors.

Overview

Business Operations and Operating Results

#### Screening and Selection of Independent Directors

With respect to the screening and nomination process for independent directors, the Nominating & Remuneration Committee would consider the qualifications and prohibited characteristics of directors pursuant to the Public Limited Companies Act, the Securities and Exchange Act, the notifications of the Capital Market Supervisory Board, including the Company's articles of association, and/or applicable regulations, including the requirements on qualifications of independent directors of the Company which have been disclosed on the Company's website, and then select independent directors from qualified persons with the characteristics, knowledges, skills and experience required by the Company based on the Board Skill Matrix consistent with the business direction strategy before presenting the selected list to the Board of Directors and/or the shareholders meeting for consideration and appointment as independent directors. The Company has a policy requiring that the number of independent directors shall at least be one-third of the total number of directors and shall not be less than three persons. In addition, according to the Company's policy, any independent director may not serve as independent director for longer than nine consecutive years from the date of his/ her first appointment as independent director. If such independent director is to be appointed to continue holding his/her position, the Board of Directors should consider the reasons and necessity for that appointment to be proposed to the Annual General Meeting of Shareholders for consideration and election of such person as director of the Company.

As of 2023, the Company has five independent directors out of the total of 12 directors. Such composition of the Board of Directors is in accordance with the requirement of the Office of the SEC, i.e., independent directors shall account for at least one-third of the total number of directors but shall not be less than three persons. One independent directors are Mr. Supavud Saicheua, Ph.D., who has been serving as independent director longer than nine consecutive years. The Nominating & Remuneration Committee and the Board of Directors have considered and reviewed the reasonable necessity based on the principle of trust and the performance of their duties with responsibility, due care and loyalty (fiduciary duties) pursuant to section 89/7 of the Securities and Exchange Act B.E. 2535 (1992) (and as amended), and found that appointing director as independent director will not hinder the free expression of opinions in any respect. The knowledge, competency, experience and specialized skills of the directors will be beneficial to the determination of the Company's strategic direction of business operations and will enhance the efficiency of the performance of duties of the Board of Directors. The decision would be proposed to the shareholders meeting to consider appointing them as directors of the Company.

# Process and Methods of Nomination and Selection of Directors

- The Company allows minor shareholders/major shareholders/ directors to nominate persons suitably qualified as the Company's directors to the Company. The Company will post the announcement thereof on its website. If no share holders nominate any person to be appointed as a director of the Company, the Board of Directors will report the result to the shareholders meeting for acknowledgment through a channel of the Stock Exchange of Thailand and announce the result on the date of the Annual General Meeting of Shareholders.
- The qualifications of the nominated persons shall be considered to ensure they are in line with laws and stipulated requirements and that such persons possess leadership qualities with a broad vision, are moral and ethical persons, have transparent work background, are able to devote their time as directors, are able to express their opinions freely, and have the characteristics, knowledge, skills and experience required by the Company based on the Board Skill Matrix in line with the direction of business operation strategies, without including differences in terms of gender, ethnicity, race, nationality or origin as qualification restrictions (Board Diversification).
- The composition of the Board of Directors shall be considered to ensure it is suitable for the organizational structure and is diverse in alignment with the business operation strategies
- The independence of directors and potential conflicts of interest with the Company shall be emphasized.
- The Nominating & Remuneration Committee shall consider and select persons with qualifications consistent with applicable rules and regulations and suitable for the Company's business operation as directors, and shall provide opinions and present them to the Board of Directors to seek agreement and/ or approval.
- The Board of Directors shall consider approving the list of directors to be proposed for approval at the Annual General Meeting of Shareholders.

#### Appointment and Retirement of Directors

The shareholders' meeting is entitled to elect directors according to the rules and procedures prescribed in the Company's articles of association by majority vote. Each shareholder has one vote per share and directors may be elected individually. The persons receiving the highest votes in a descending order will be elected as directors up to the number of directors required or who shall be elected at that time. In case the number of persons, who are elected in a descending order, and received equal votes, exceeds the number of directors required or who shall be elected at that time, the Chairman shall have a casting vote. At every annual general meeting of shareholders, one-third of the number of the directors shall vacate office. If the number is not a multiple of three, then the number nearest to one-third shall retire. The directors to retire during the first and second years following the registration of the Company shall, unless otherwise agreed, be determined by drawing lots. In subsequent years, the director who has been in office for the longest term shall retire. A retiring director is eligible for re-election.

Apart from retirement by rotation, a director shall vacate his/ her office upon death, resignation, lack of qualifications or having prohibited characteristics under the law on public limited companies and the law on securities and exchange, removal by a resolution of the meeting of shareholders pursuant to the law on public limited companies, or removal by a court order.

In the event that there is a director vacancy, occurring otherwise than by rotation, the Board of Directors shall elect a person who has the qualifications and does not have any prohibited characteristics under the Company's articles of association as a replacement director at the subsequent meeting of the Board of Directors, unless the remaining duration of the director's term of office is less than two months. The resolution of the Board of Directors shall be supported by a vote of not less than three-fourths of the number of the remaining directors. The replacing director shall hold office only for the remaining term of office of the director whom he/ she replaces. In 2023, the 2023 Annual General Meeting of Shareholders, held on 25 April 2023, re-elected four existing directors, namely Mr. Suebtrakul Soonthornthum, Professor Rawat Chamchalerm, Mr. Surapol Srangsomwong and Mr. Suroj Lamsam as directors for another term as proposed by the Board of Directors. Professor Rawat Chamchalerm and Mr. Surapol Srangsomwong are an independent director who have been re-elected as director. All these four directors are persons with qualifications under applicable laws and consistent with the Company's Board Skill Matrix.

#### **Development of Directors**

In 2023, skills and knowledge related to the roles and duties assigned to members of the Board of Directors and the Executive Board were enhanced on a continuous basis and constantly updated, both through training and seminars organized by external agencies and institutions and training and seminars carried out internally by qualified speakers and special lectures by directors to exchange information and opinions as well as dissemination of beneficial information to the performance of duties as the Company's directors.

The Company's directors and executive directors who attended seminars organized by external agencies and institutions are as follows :

| Name                               | Directorship              | Seminars and Special Lectures   | Agency/Institution   |

Business Operations and Operating Results Corporate Governance

In addition, the Company organized special lectures by its directors with the knowledge and expertise to exchange information and opinions. All of the Company's directors attended the special lectures and discussed their opinions extensively, as well as providing recommendations to the management to consider implementing them. In 2023, one special talks were held, namely The economic trends of Thailand and the global economy in the second half of 2023, given by Mr. Supavud Saicheua,Ph.D.

Currently, all 12 directors of the Company have been trained in courses regarding performance of directors' duties, namely the Director Certification Program (DCP) and/or Director Accreditation Program (DAP), representing 100% of the entire Board of Directors. The details thereof are shown under this report's topic of details of directors, executives, controllers, the person assigned as the Chief Financial Officer, the person assigned to be directly responsible for the Company's accounting, and the Company Secretary.

# Evaluation of Performance of Duties of the Board of Directors

In 2023, the Nominating & Remuneration Committee conducted an evaluation of performance of duties of the Board of Directors and all sub-committees on an individual basis, and the Chief Executive Officer & President, to apply the evaluation findings in the enhancement of efficiency of performance of duties of the Board of Directors. The evaluation was conducted pursuant to the criteria recommended by the Stock Exchange of Thailand and the Thai Institute of Directors (IOD). The evaluation of the Board of Directors was divided into six topics, namely the Composition and Qualifications of the Board of Directors; Roles, Duties and Responsibilities of the Board of Directors; Board of Directors Meetings; Performance of Duties of Board Members; Relations with the Management; and Self-Development of Directors and Development of Executives. The evaluation of sub-committees on an individual basis was divided into four topics, namely Composition and Qualifications of Committees; Meetings of Committees; Roles, Duties and Responsibilities of Committees; and Reports on Performance of Committees, including evaluation of performance of committees as a whole and additional recommendations.

The results of the assessment of performance of the Board of Directors and Committees can be summarized as follows :

| Board of Directors/<br>Sub-Committees  |      | essment results of<br>Board/Committees (%) |      |  |
|--|------|--|------|--|
| Sub-Committees                         | 2023 | 2022                                       | 2021 |  |
| Board of Directors                     | 89.0 | 88.6                                       | 89.4 |  |
| Audit Committee                        | 96.9 | 96.9                                       | n/a  |  |
| Nomination &<br>Remuneration Committee | 88.0 | 91.9                                       | n/a  |  |
| Risk Management<br>Committee           | 84.8 | 84.2                                       | n/a  |  |

#### Assessment results of the performance of the

#### **Chief Executive Officer & President**

The Board of Directors has assessed the overall performance of the Chief Executive Officer & President (Mr. Suroj Lamsam) with an average score of 87.7 percent. The Board of Directors has assigned the Board Chairman to inform the result of the assessment to the Chief Executive Officer & President.

#### Preparation of Succession Plans for Executives and Chief Executive Officer

The Company has a policy on planning, selecting and considering high-performing employees based on their characteristics, knowledge and competencies that meet the requirements and are suitable for the business direction plan, the qualifications align with the necessary core competencies required for the position as well as consistent with the corporate values and corporate goals, together with the plan to develop individual personnel, both in terms of functional development and management skills and leadership to prepare and develop personnel for succession of positions in advance, especially among senior executives.

With respect to the succession plan for the Chief Executive Officer of the Company and its subsidiaries, the Human Resources Department shall specify the qualifications of the holder of that position that are consistent with the business operation direction through interview and discussion with the Chairman and/or the President, prepare a list of candidates together with their characteristics, knowledge and competencies in support of the preparation of the succession plan, formulate a development plan for the prospective successor, including working with the consulting firm in the consideration and nomination of a qualified third party for comparison and selection of the successor accordingly.

The Human Resources Department has reviewed the succession plan for executives and regularly and annually reported the progress thereof to the Board of Directors.

# 8.1.2 Attendance of Meetings and Remuneration for Individual Directors

In 2023, the Board of Directors held seven meetings, with one non-management meeting of non-executive directors as described below.

|   | Attendance<br>(Number of meeting attendance/Number of meeting held) |            |              |   |                              |                      |  |
|---|---|------------|--------------|---|------------------------------|----------------------|--|

Note : Remuneration for the Risk Management Committee was not inclusive of compensation of Baht 240,000 for Mr. Saknarong Saengsangapong who is not in the list of members of the Board of Directors.

\* Mr. Harit Sutabutr,Ph.D. resigned from all position, effective from 30 November 2023. And Mr. Chatmongkol Peetathawatchai,Ph.D. assumes the position of Independent Director and Audit Committee member, from 21 December 2023. (the compensation payments begin from 1 January 2024 onwards.)

#### 2) Other compensation

-None-

The Company did not pay other compensation and benefits to members of the Board of Directors in addition to those approved by the shareholders' meeting as per the aforementioned details.

### 8.1.3 Supervision and Monitoring of Operations of Subsidiaries, Affiliates and Joint Ventures

The Board of Directors has a mechanism to oversee the operations of its subsidiaries and affiliated companies operating core businesses of the Company to maintain the benefits of the Company's investment. Core operations are as listed below.

- Appointment of the Company's senior executives or nomination of persons as directors or executives in subsidiaries or affiliated companies at least in proportion to their shareholding, shall be carried out by the Board of Directors, or the Executive Board Chairman or the President shall be assigned to make the appointment. This depends on the scale of the business in which the Company invests, to ensure that the business operations of subsidiaries, affiliated companies or joint ventures will be in the same direction and in line with the Company's policy.
- Encouraging an appropriate and prudently adequate internal control system and ensuring that transactions correctly comply with applicable laws and regulations.
- Subsidiaries must disclose information on their financial position, operating results and related-party transactions, including acquisition and disposal of property and/or significant transactions to the Company in a comprehensive and accurate manner and within reasonable timeframe and consistent with the Company's rules.

### 8.1.4 Ensuring Compliance with Corporate Governance Policy and Guidelines

The Board of Directors has formulated the Company's corporate governance policy in writing since 2013 which is a guideline for all directors, executives, and employees to follow. The policy is reviewed annually. At Board of Directors No. 5/2023, on 19 October 2023, the Board of Directors passed a resolution approving the corporate governance policy and code of conduct that had been amended to comply with laws and rules related to corporate governance of listed companies, as detailed under the Corporate Governance topic in this report. The Company gathered the corporate governance policy, including other relevant policies, and the code of conduct to make a manual on corporate governance as practical guidelines for directors, executives, and employees. It has also organized an orientation session for new employees on such guidelines and published them on the Company's website for easy access by employees and for the general public's knowledge. Monitoring is also carried out to ensure compliance with the corporate governance policy and guidelines as follows :

#### **Prevention of Conflicts of Interest**

The Board of Directors has established a policy on conflicts of interest on the principle that it does not support related-party transactions with persons who may have conflicts of interest. The policy is included in the corporate governance policy and code of conduct, under which it is specified that directors, executives, and employees must report their interest and the interest of related parties to avoid seeking personal benefits. The related-party transactions must be approved by the Audit Committee before proposing them to the Board of Directors Meeting or the Shareholders Meeting according to the procedures. In the event that such transactions are required, they shall be in accordance with normal business practices as if they are transactions with third parties. If any transactions do not comply with normal business practices, they shall comply with the procedure for approving related-party transactions, and the persons with interest in such transactions shall not be entitled to cast a vote. The Company has publicized its policy and provide knowledge through its website and internal communication channels. Based on the monitoring results in 2023, no transactions falling into the scope of conflicts of interest were found.

# Prevention of Use of Insider Information to Seek Benefits

The Company supervises the use of insider information which refers to information that has not been disclosed publicly, and the materiality of which affects the change in prices or value of securities. The Company has a governance policy to prevent executives from using the Company's insider information to seek personal benefits by implementing legal measures to be followed by directors, executives, and employees.

The directors, executives as well as those in management positions in finance or accounting functions, including their spouses and underaged children, must not buy or sell securities of the Company, directly or indirectly, within a period of one month prior to the disclosure of annual and quarterly financial statements to the public. The Office of the Company Secretary shall announce the blackout period for trading securities to directors and executives in advance through email and online communication channels to ensure that no insider information will be used to seek personal benefits, including reporting in the meetings of the Board of Directors and Executive Board every time sensitive information is disclosed apart from publicizing the policy and providing knowledge through website and internal communication channels. Based on the monitoring results in 2023, no violation of such policy was found.

#### Reports on Change of Securities Holding of the Board of Directors and Executives

The Company requires that changes in securities holding of directors and executives shall be reported. The Company Secretary will collect information and report changes in securities holding to the Board of Directors meeting for acknowledgement by specifying it as an item in the agenda of the Board of Directors meeting. The information on securities holding of directors, executives and the Company Secretary is as follows :

|     | Name  | Number c                | of Shares               | Number of Shares         | Percentage of    |

Note :\* Director No. 3, Mr. Harit Sutabutr, Ph.D., resigned as director, effective 30 November 2023, and was replaced by Director No. 8, Mr. Chatmongkol Peetathawatchai, Ph.D. on 21 December 2023.

Business Operations and **Operating Results** 

Corporate Governance

In 2023, there was no insider trading by any directors and executives of the Company, and regulatory agencies, such as the Securities and Exchange Commission or the Stock Exchange of Thailand, did not impose any fine on, or make any accusation or take any civil action against the Company regarding insider trading by the Company's directors or executives.

#### Anti-Corruption

After the Board of Directors Meeting No. 1/2015, held on 2 March 2015, resolved to approve the issuance of the anti-corruption policy in writing to be the guideline for operation for employees along with the existing corporate governance policy and code of conduct. The Company has communicated to and educated its directors, executive and employees regarding the anti-corruption policy and guidelines, including relevant policies, on a continuous basis. All levels of employees can access policies through internal communication and such policies are disclosed on the Company's website for all employees to acknowledge and follow. In addition, the Company has announced its No-Gift Policy to refrain from receiving/giving all types of gifts, resulting from performance of duties with customers, trade partners and related parties during the New Year festival or any other occasions. This policy has been communicated to its employees for acknowledgment and strict compliance.

In 2023, the Company still has and adheres to its No-Gift Policy to strengthen the transparent corporate culture, to remain ethical and to prevent corruption.

The Company has signed the Integrity Pact of Cooperation on Prevention and Suppression of Corruption in Public Procurement in executing transactions with the public sector, to promote transparent and fair procurement.

The Company has provided a channel for acceptance of complaints and whistleblowing for reporting cases of violation of laws, rules and the Company's articles of association and code of conduct. In 2023, no violation of the Anti-Corruption Policy was found.

In this regard, in order to be ready for the announcement of the Company's intention to join the Thai Private Sector Collective Action Against Corruption (CAC), the Company has arranged for its personnel to be trained in the Road to Certify with THAI CAC course and the Road to Join CAC & SME Briefing course, organized by the Thai Institute of Directors (IOD) to ensure understanding of procedures of certification and self-assessment before applying for certification and guidelines on developing a standard anti-corruption system.

#### Whistleblowing/Acceptance of Complaints

The Company allows the general public to file a complaint upon finding any behavior of directors, executives and employees, that is inappropriate or in conflict with the Company's code of conduct or any other matters that may cause damage to the Company or the Board of Directors. The complaints/whistleblowing may be reported through independent directors or members of the Audit Committee to :

#### The Secretary to the Audit Committee

Loxley Public Company Limited 102 Na Ranong Road, Khlong Toey, Khlong Toey, Bangkok 10110 Or E-mail address : ac@loxley.co.th

The Company shall consider all requests and complaints and take appropriate action in equitable, transparent and justly to all related parties within the appropriate timeframe, and keep the information as confidential to protect the complainant. The independent directors or Audit Committee will investigate and directly report to the Board of Directors.

In 2023, no complaints regarding any behavior of directors, executives and employees that is inappropriate or in conflict with the Company's code of conduct as mentioned above were made.

#### Information Technology Security Policy and Violation of Intellectual Property/ Copyrights

The Company has established a policy and rules for use of the computer system, including connection to the Internet through the Company's network for the employees to strictly follow. The Company also oversees and ensures that the use of computers and information technology will be in compliance with applicable laws and guidelines.

In 2023, the Company updated its Information Security Management System (ISMS) policy. The Board of Directors Meeting No. 3/2023, on 12 May 2023, passed a resolution approving the Information System Security Policy to ensure the use of services and provision of services of the Company could be carried out uninterruptedly, appropriately, and in line with the Company's business policy and to prevent potential issues from unauthorized use of the information system, by users and threats which may affect its business, and to ensure that the Company's information system is operated under the efficient, secure, and reliable management framework, in compliance with the criteria and guidelines under the information system security guidelines and other applicable laws. In addition, the Company has established regulations on information system security as guidelines on operational

procedures for units and employees. Such regulations were published and communicated to directors, executives, and employees to follow, through the Company's website, intranet, and other internal communication channels. In 2023, training sessions were organized to summarize the ISMS policy for employees and educational videos on such topic were made and publicized on the Company's channel.

In addition, the Company has developed the Private Cloud System for storing the Company's important information in compliance with the information security policy and regulations and the Personal Data Protection Policy. Moreover, it has organized training on the use of the Private Cloud System for employees, in which 73 employees participated. The Company sent 2 employees also joined the Cyber Risk 2023 seminar, organized by the Thai Listed Companies Association. The practices regarding prevention of cyber threats were communicated to all employees via the Company's email.

In addition, to prevent and minimize business impacts from potential risks, the Company has reviewed its Business Continuity Plan (BCP) regarding information technology to prescribe procedures and guidelines to ensure that its business can be operated continuously.

In 2023, based on the monitoring of compliance with the policy on non-infringement of intellectual property/copyrights, two software copyright infringement incidents were found. The Company has conducted an investigation into the incidents, uninstalled the software, purchased the software license, and taken disciplinary action as prescribed by the Company's work regulations, including educating its employees about the intellectual property policy and law.

#### Income Tax Expenses for 2023

The Company and its subsidiaries realize that taxes are important for the overall sustainable development of the country, therefore attach importance to accurate and complete tax management. It is based on the provision and responsibilities, organize working systems in accordance with accounting system standards, tax laws and related regulations, payment of taxes in full within the specified period along with operations that are transparent and verifiable. In 2023, the company and its subsidiaries pay taxes to the government for national administration and development, which is an investment in social and economic development as a whole, with a total value of 56 million baht.

|  | Unit:                                       | million baht |

### 8.3.2 Committee'Performance of Duties Assigned by the Board of Directors

# Performance of the Nominating & Remuneration Committee

The Board of Directors approved the establishment of the Nominating & Remuneration Committee, consisting of three members, i.e., one independent director and two non-executive directors. The Nominating & Remuneration Committee Chairman is an independent director.

The Nominating & Remuneration Committee has performed duties as assigned by the Board of Directors with due care, prudence, transparency and fairness. It has also revised the operational guidelines to be comprehensive and in line with the current situation and the Company's business strategies and in the best interest of shareholders and stakeholders. In 2023, the Nominating & Remuneration Committee held three meetings and considered important issues as follows :

• It summarized and acknowledge the results of the 2022 evaluation of performance of the Board of Directors

Sub-Committee and the Chief Executive Officer & President in Meeting No. 1/2022 to be presented to the Board of Directors and to be published in the annual report accordingly.

- Considering nominating candidates to replace retiring directors in 2023 based on the qualifications of directors pursuant to the Securities and Exchange Act, B.E. 2535 (1992), knowledge, proficiency, competencies, and experience in the businesses related to the Company's business operations (Board Skill Matrix) and in alignment with applicable requirements, to be presented to the Board of Directors and the 2023 Annual General Meeting of Shareholders for consideration and appointment.
- Considering the list of individuals nominated for appointment of an independent directors and an Audit Committee member to replace the resigning committee member based on the qualifications of directors pursuant to the Securities and Exchange Act, B.E. 2535 (1992), qualifications of independent directors under law, articles of association, knowledge, proficiency, competencies, experience in the businesses related to the Company's business operations, who shall be able to express opinions freely and in line with the applicable requirements, to be presented to the Board

of Directors for consideration and appointment.

- Considering the determination of remuneration for the Board of Directors and Sub-Committees in 2023, based on the operating results and business scale of the Company, and practices of the listed companies in the same industry and leading companies in the country. The Committee proposed such remuneration to the Board of Directors for approval to be presented to the 2023 Annual General Meeting of Shareholders accordingly.
- Considering self-assessment results for the Board of Directors, each Committee, and the President. The comments obtained from self-assessment results would be used to improve the work efficiency of the Committees, and further proposed to the Board of Directors for acknowledgement.
- Considering and defining the bonus payment policy for the year of 2023 which would be further proposed to the Board of Directors for approval.

#### Work Performance of the Risk Management Committee

The risk management structure of the Company consists of the Risk Management Committee, and the Secretary to the Risk Management Committee. The Risk Management Committee comprises of at least 3 members appointed from the directors and executives of the Company whereas at least one of them must be an independent director. The Risk Management Task Force is also appointed, which comprises the risk officers who are the representatives of each core business to ensure that the risk management would cover the corporate structure of the Company with business diversity. In 2023, the main performance included :

- Providing the conceptual framework for the year of 2023, and revising all related criteria to be consistent with the Charter of the Risk Management Committee. In 2023, the main mission involved :
  - Driving the risk management to be a core strategy of each office.
  - Valuing the preparation of the risk management plan to respond to and mitigate potential risks, building flexibility in the business and the organization when they encounter risks or crisis by educating about the preparation of risk management plan, driving for the tangible implementation of the risk management plan, adjusting the risk management plan in accordance with changing circumstances, and measuring the progress of such risk management plan.
  - Driving for communicating the risk management throughout the organization so that every employee at

all levels realizes the importance of risk management, sources of risk management, and mutual responsibility. The risk recognition culture must be built up through regular communications.

- Implementing the risk management framework of COSO as integrated with the strategy and performance measurement. The important steps included :
  - Indicating and assessing risks which might affect the business operation.
  - Preparing the risk management plan of every office, fixing key risk indicators to be proposed to the Management of the parent department before summarizing important risks and risk management plan, which would be further reported to the Risk Management Committee, and the Board of Directors.
  - Reviewing the risk management, monitoring the result on the quarterly basis, summarizing the annual risk management result to be proposed to the Board of Directors, and planning for the risk management in the next year. What occurred and learnt from 2023 would be considered for further improvement and revision of work to have the unstopped development.
- 3. The workshop seminar on corporate risk management was organized for the Task Force. This aimed that the Task Force and other related persons would be able to specify the objectives of each office, indicate risks relating to the operation of each office appropriately, select the risk assessment criteria to be consistent with risks of each office, identify the risk management plan precisely and consistently to the specified risks, and be able to follow up the progress of the implementation of the risk management plan. The Company invited the lecturer from PricewaterhouseCoopers ABAS Ltd. to educate 80 attendants in the workshop seminar, which included the Company's directors, executives, task forces, and related persons.

In 2023, the Risk Management Committee had 6 meetings in total.

#### Work Performance of the Project and Investment Screening Committee

The working structure consists of the Project and Investment Screening Committee and the Task Force. The members of the Project and Investment Screening Committee were appointed from the representatives of each related business and some experts. The Task Force has duties of supporting and

Business Operations and Operating Results Corporate Governance

coordinating with each business line under the established mission. The key performance of the Project and Investment Screening Committee in 2023 is summarized below.

- 1. Joint meetings between the Project and Investment Screening Committee and the Management to review the related criteria, and defining the supervision framework of the Project and Investment Screening Committee by relying on the work performance in 2022.
- 2. The Task Force has coordinated and monitored the information of projects and investment of the offices on the monthly basis. The Taks Force shall preliminarily screen the information before proposing it to the Project and Investment Screening Committee.

In 2023, the Project and Investment Screening Committee had 13 meetings in total. It has considered 97 projects with the total value of Baht 16,673 million. There were only 2 projects valued Baht 20 million that were appropriate for investment/ capital reduction.

#### Work Performance of the Personal Data Protection Task Force

The key mission of the Personal Data Protection Task Force in 2023 was to encourage each office to have the practice and working procedures in compliance with the Personal Data Protection Act, B.E. 2562, which must also be consistent with the personal data protection policy announced in 2023. The key actions included :

- Revising the personal data protection policy, and the privacy notice of the Company in accordance with the Personal Data Protection Act, B.E. 2562, which would be used as the guideline of managing and protecting the business data and personal data of related persons.
- 2. Establishing a data center to promote knowledge and understanding about the principle and intent of this law as well as the practice guideline in accordance with the Personal Data Protection Act, B.E. 2562; and shaping the implementation guideline for related persons who would place the practice measures for their responsible tasks further.
- 3. Coordinating continuously between the Personal Data Protection Task Force, Personal Data Protection Officers, and Personal Data Control Officers, who were the representatives of each office. In 2023, the Personal Data Protection Task Force had 4 meetings in total to ensure that each office would have the practice in conjunction with the personal data protection policy defined by the Company.

From monitoring the performance result, there was no petition against the operating that did not comply with the personal data protection policy.

#### Performance of Duties of the Sustainable Development Working Group

The Company announced the establishment of the Sustainable Development Working Group on 1 October 2022 and announcement of the revised appointment of the working committee on 9 August 2023. It is responsible for encouraging the determination of strategies and goals for sustainable development, establishing relevant policies and operational guidelines, reviewing and determining the Company's sustainability directions and goals. These are driven through the process of planning the management of organizational strategies, coordinating with the responsible agencies in implementing the plan to achieve the sustainability goals of the organization, as well as monitoring the results and efficiency of operations to be reported to the Board of Directors.

In 2023, the Sustainable Development Task Force had 6 meetings in total to define the working guideline, define the policy and guideline of driving the sustainable development of the Company. Various activities were done; for example, the training for the Company's executives and employees of related offices to educate them about sustainability, risks, practice guideline, and guideline of reporting the sustainable activities. The training was attended by 30 persons, accounting for 150 ManDay. The Sustainable Development Task Force also communicated with the stakeholders to identify key sustainable issues for placing the policy and guideline of propelling the sustainable development of the Company. It also prepared the report on the emission of greenhouse gases, and gathered the information about sustainable development activities in the environmental and social domains, and corporate governance carried out by the Company to prepare the sustainability report.

#### Work Performance of the Business Continuity Task Force

In 2023, the Business Continuity Task Force revised and updated the list of the action team in accordance with the business continuity plan of each office so that it is consistent with the change of personnel.

# **Independent Auditor's Report**

## **Independent Auditor's Report**

#### To the Shareholders of Loxley Public Company Limited

#### Opinion

I have audited the consolidated and separate financial statements of Loxley Public Company Limited and its subsidiaries (the "Group"), and of Loxley Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2023, the consolidated and separate statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2023 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

#### Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

| Recognition of contract revenue, related receivables and provisions for project loss   |  |  |
|--|--|--|
| Refer to Note 3(f), 3(o), 3(q), 20 and 24  |  |  |
| The key audit matter   | How the matter was addressed in the audit  |  |
| <ul> <li>The Group's major revenue is rendering of services related to information technology, services, energy and network solutions businesses. Some of these service contracts account for revenue and margin based on the stage of completion of individual contracts, assessed by reference to the proportion of costs incurred to the reporting date compared to the estimated final costs of the contract at completion including possible losses.</li> <li>The accurate recording of contract revenue, and related receivables is highly dependent on the following key factors: <ul> <li>The cost incurred;</li> <li>The engineers' surveys of work performed;</li> <li>The estimated final costs of the contract at completion including possible losses; and</li> </ul> </li> <li>Revision for certain events or condition that occur or expected to occur to complete the contract including variations result in adjustments of these estimates that could give rise to variances in the amounts recognised.</li> <li>I focused on this area as a key audit matter due to the estimation events over the course of the contract life, the wide variety of unique contract conditions, leading to complex and highly judgmental revenue recognition from contracts.</li> </ul> | <ul> <li>I evaluated the controls designed and implemented and tested the operating effectiveness of relevant controls regarding review of contract, cost estimate and provision for contract loss. I then selected a sample of contracts using a variety of quantitative and qualitative factors in order to assess and challenge the most significant and more complex contract positions. In this area, my audit procedures included:</li> <li>testing the details of costs incurred by verifying with supporting documents;</li> <li>challenging competency of the Group's engineers in respect of estimation the stage of completion of individual projects;</li> <li>inspecting key terms in the contracts relating to estimates made and revenue recognition in the financial statements;</li> <li>obtaining detailed estimated final costs of the contract at completion including possible losses from the management and assessing the reasonableness of estimates by reviewing the result of estimates in historical year and current surrounding factors;</li> <li>testing mathematical accuracy of contract revenue, related receivables and provisions for project loss and comparatively analysing the stage of completion of the costs incurred up to the end of reporting period and the estimated final costs of the contract at completion and the stage of completion by the engineer;</li> <li>assessing the Group's ability to deliver contracts within budget by analysing the relationship of cost versus billing on contracts;</li> </ul> |  |
|  | • considering the adequacy of disclosures in accordance with Thai Financial Reporting Standards.   |  |

| Valuation of investments in subsidiaries, associates and joint ventures  |  |  |  |  |
|--|--|--|--|--|
| Refer to Note 3(b), 3(m), 10 and 11  |  |  |  |  |
| The key audit matter   | How the matter was addressed in the audit  |  |  |  |
| The Group held a number of investments in<br>subsidiaries, associates and joint ventures. In<br>considering the investment in each project, the<br>Group has policy in place to consider the future<br>possibility of the project, the returns expected to<br>be recovered from the investment, and other<br>factors that might impact to the investment. In<br>addition, the Group determines whether there is<br>any indication of impairment on a regular basis.<br>This area involves management's judgment,<br>therefore, I focused on as a key audit matter. | <ul> <li>My audit procedures included:</li> <li>inspecting the design and implementation of relevant controls;</li> <li>considering the profitability of the investee, historical financial information and other information to assess the sufficiency of allowance for impairment of investment;</li> <li>assessing the Group's budgeting procedures which is the source of discounted future cash flow model;</li> <li>challenging the key assumptions by comparing against the historical and external information regarding key inputs such as the revenue, the cost, the capital and operating expenditures, and the discount rate;</li> <li>testing mathematical accuracy; and</li> <li>considering the adequacy of disclosures in accordance with Thai Financial Reporting Standards.</li> </ul> |  |  |  |

Valuation of trade accounts receivable, other receivables, and receivable under debt restructuring agreement

Refer to Note 3(f), 7, 8 and 30

| The key audit matter   | How the matter was addressed in the audit  |  |
|--|--|--|
| The Group's accounts receivable mainly comprise<br>of private companies, government agencies and<br>state enterprises. Certain Group's accounts<br>receivable have significant outstanding balances<br>and expose the Group to additional credit risk by<br>given the age profile and high debt levels.<br>The Group measured expected credit losses on<br>trade receivables, other receivables and receivable<br>under debt restructuring agreement are based on<br>management's estimate of the lifetime expected<br>credit loss, which is estimated by taking into<br>account the historical credit data, the current and<br>future market environment and customer-specific<br>conditions. | <ul> <li>My audit procedures included:</li> <li>testing the design and implementation and the effectiveness of controls over credit approval process and monitoring of receivables and over the collection process;</li> <li>testing the historical default data by assessing the segmentation on receivables by risk characteristics with management analysis report and Group's historical experience;</li> <li>testing the default data by assessing the categorisation in the receivables aging report by comparing a sample with the relevant underlying documents and inspecting, on a sample basis, cash receipts from debtors subsequent from 31 December 2023;</li> </ul> |  |

| I identified the measurement of expected credit<br>losses as a key audit matter because receivables<br>are material to the Group and the recognition of<br>expected credit loss requires the exercise of<br>significant management judgement. | • | evaluating the reasonableness of the economic factors<br>used by management in the models to adjust losses rate<br>based on current economic conditions and forward-<br>looking information by comparing them to relevant<br>market information; |
|---|---|--|
|   | • | developing own estimates of loss rates for ECL by using<br>a point estimate for the ECL and examining whether the<br>point estimate is consistent with management's<br>estimate;   |
|   | • | assessing overall data and assumptions used in<br>management estimation whether the assumptions<br>used in making the accounting estimate are<br>reasonable, including interdependent and internally<br>consistent for that accounting estimate; |
|   | • | testing the calculation of expected credit losses on receivables, and  |
|   | • | considering the adequacy of disclosures in accordance with Thai Financial Reporting Standards.   |

# Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

# Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Overview

Business Operations and Operating Results

Corporate Governance

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

# Auditors' Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Notes to the Financial Statements

For the year ended 31 December 2023

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 29 February 2024.

# **1** General information

Loxley Public Company Limited, the "Company", is incorporated in Thailand and was listed on the Stock Exchange of Thailand in January 1994. The Company's registered office at 102 Na Ranong Road, Klong Toey, Klong Toey, Bangkok, 10110, Thailand.

The Company's major shareholder during the financial year was Ekpavee Company Limited (26% shareholding) which was incorporated in Thailand.

The principal businesses of the Company are trading and turnkey contract sales of telecommunication equipment, rail transport engineering and other systems including installation. Active subsidiaries mainly engage in their core businesses of trading, sales and services of information technologies and automated customer services machines for financial transactions, sales of consumer products, providing food service and other services. Details of the Company's subsidiaries as at 31 December 2023 and 2022 are given in note 11.

# **2** Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standards ("TFRS"), guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The financial statements are prepared in Thai Baht which is the Company's functional currency. All financial information has been rounded in the notes to the financial statements to the nearest million, unless otherwise stated.

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Group's/Company's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions that are described in each note are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

# **3** Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

# (a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates and joint ventures.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

# Notes to the Financial Statements

For the year ended 31 December 2023

At the acquisition date, the Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree. In addition, when there is a change in the Group's interest in a subsidiary that do not result in a loss of control, any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received from the acquisition or disposal of the non-controlling interests with no change in control are accounted for as other surpluses/deficits in shareholders' equity.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities, any related non-controlling interests and other components of equity of the subsidiary. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

The Group recognised investments in associates and joint ventures using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, Group's dividend income and share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated on consolidation. Unrealised gains arising from transactions with associates and joint ventures are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

# Business combinations

The Group/Company applies the acquisition method when the Group assess that the acquired set of activities and assets include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The acquisition date is the date on which control is transferred to the Group/Company, other than business combinations with entities under common control. Expenses in connection with a business combination are recognised as incurred.

The Group/Company elect to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is an assets rather than a business acquisition when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

Goodwill is measured as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less net fair value of the identifiable assets acquired and liabilities assumed. Any gain on bargain purchase is recognised in profit or loss immediately.

Consideration transferred includes assets transferred, liabilities incurred by the Group/Company to the previous owners of the acquiree, any contingent consideration and equity interests issued by the Group/Company.

Any contingent consideration is measured at fair value at the date of acquisition, and remeasured at fair value at each reporting date. Subsequent changes in the fair value are recognised in profit or loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

# Notes to the Financial Statements

For the year ended 31 December 2023

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Business combination under common control are accounted for using a method similar to the pooling of interest method, by recognising assets and liabilities of the acquired businesses at their carrying amounts in the consolidated financial statements of the ultimate parent company at the transaction date. The difference between the carrying amount of the acquired net assets and the consideration transferred is recognised as surplus or deficit from business combinations under common control in shareholder's equity. The surplus or deficit will be written off upon divestment of the businesses acquired. The results from operations of the acquired businesses will be included in the consolidated financial statements of the acquirer from the beginning of the comparative period or the moment the businesses came under common control, whichever earliest date, until control ceases.

# (b) Investments in subsidiaries, associates and joint ventures

Investments in subsidiaries, associates and joint ventures in the separate financial statements are measured at cost less allowance for impairment losses. Dividend income is recognised in profit or loss on the date on which the Group's/Company's right to receive payment is established. If the Company disposes of part of its investment, the deemed cost of the part sold is determined using the weighted average method. Gains and losses on disposal of the investments are recognised in profit or loss.

# (c) Foreign currencies

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to the respective functional currencies of each entity in the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date.

Foreign currency differences are generally recognised in profit or loss.

# Foreign operations

The assets and liabilities of foreign operations are translated to Thai Baht at the foreign exchange rates ruling at the reporting date. The revenues and expenses of foreign operations are translated to Thai Baht at rates approximating the exchange rates at the dates of the transactions.

Foreign exchange differences are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity until disposal of the investment, except to extent that the translation difference is allocated to non-controlling interest.

When a foreign operation is disposed of in its entirety or partially such that control the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interests.

# Notes to the Financial Statements

For the year ended 31 December 2023

### (d) Financial instruments

### (d.1) Classification and measurement

Debt securities issue by the Group/Company are initially recognised when they are originated. Other financial assets and financial liabilities (except trade accounts receivables (see note 3(f)) are initially recognised when the Group/Company becomes a party to the contractual provisions of the instrument, and measured at fair value plus or minus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI); or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group/Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified prospectively from the reclassification date.

On initial recognition, financial liabilities are classified as measured at amortised cost using the effective interest method or FVTPL. Interest expense, foreign exchange gains and losses and any gain or loss on derecognition are recognised in profit or loss.

Financial assets measured at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, expected credit loss and any gain or loss on derecognition are recognised in profit or loss.

Debt investments measured at FVOCI are subsequently measured at fair value. Interest income, calculated using the effective interest method, foreign exchange gains and losses and expected credit loss are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments measured at FVOCI are subsequently measured at fair value. Dividend income is recognised as income in profit or loss on the date on which the Group's/Company's right to receive payment is established, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

# (d.2) Derecognition and offset

The Group/Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group/Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group/Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group/Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

The difference between the carrying amount extinguished and the consideration received or paid is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group/Company currently has a legally enforceable right to set off the amounts and the Group/Company intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

# Notes to the Financial Statements

For the year ended 31 December 2023

### (d.3) Derivatives

Derivative are recognised at fair value and remeasured at fair value at each reporting date. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

# (d.4) Impairment of financial assets other than trade accounts receivables

The Group/Company recognises allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, debt investments measured at FVOCI, and loan commitments issued which are not measured at FVTPL.

The Group/Company recognises ECLs equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition or credit-impaired financial assets, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are a probability-weighted estimate of credit losses based on forward-looking and historical experience. Credit losses are measured as the present value of all cash shortfalls discounted by the effective interest rate of the financial asset.

The Group/Company considers a financial asset to have low credit risk when its credit rating is equivalent to the globally understood definition of 'investment grade'. The Group/Company recognises ECLs for low credit risk financial asset as 12-month ECLs.

The Group/Company assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due, significant deterioration in credit rating, significant deterioration in the operating results of the debtor and existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group/Company.

The Group/Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Group/Company in full, without recourse by the Group/Company takes action such as realising security (if any is held).

(d.5) Write offs

The gross carrying amount of a financial asset is written off when the Group/Company has no reasonable expectations of recovering. Subsequent recoveries of an asset that was previously written off, are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(d.6) Interest

Interest income and expense is recognised in profit or loss using the effective interest method. In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

# (e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and highly liquid short-term investments which have a maturities of three months or less from the date of acquisition. Bank overdrafts that are repayable on demand are a component of cash and cash equivalents for the purpose of the statement of cash flows.

# Notes to the Financial Statements

For the year ended 31 December 2023

# (f) Trade and other accounts receivable

A receivable is recognised when the Group/Company has an unconditional right to receive consideration. A trade receivable is measured at transaction price less allowance for expected credit loss. Bad debts are written off when incurred.

The Group/Company estimates lifetime expected credit losses (ECLs), using a provision matrix to find the ECLs rates. This method groups the debtors based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date.

# (g) Inventories

Inventories comprise of raw materials, merchandise inventories and project equipment.

Inventories are measured at the lower of cost and net realisable value. Cost of raw material is calculated using first-in first out principle. Cost of merchandise inventories is calculated using first-in first out and weighted average cost principle. Cost of project equipment is calculated using specific costs by individual project. Cost comprises of direct cost related to cost to obtain inventories.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

Group's/Company's allowance is made for all deteriorated, damaged, obsolete and certain slow-moving inventories.

# (h) Investment properties

Investment properties are properties that held as right-of-use assets, as well as properties that are owned by the Group/Company. Investment properties are held to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are measured at cost on initial recognition and subsequently at fair value, with any change recognised in profit or loss. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials, direct labour, and other costs directly attributable to bringing the investment property to a working condition for its intended use and capitalised borrowing costs. When the use of a property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

Differences between the proceeds from disposal and the carrying amount of investment property are recognised in profit or loss. When investment property that was previously classified as property, plant and equipment measured at revalued amounts is sold (see note 3(i)), the amounts included in the revaluation reserve are transferred to retained earnings.

# (i) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses except for land which are measured at their revalued amounts. The revalued amount is the fair value determined on the basis of the property's existing use at the date of revaluation less any losses.

# Notes to the Financial Statements

For the year ended 31 December 2023

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes capitalised borrowing costs and the costs of dismantling and removing the items and restoring the site on which they are located including transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Differences between the proceeds from disposal and the carrying amount of property, plant and equipment, and are recognised in profit or loss. When there is a disposal of revalued assets, the amount recognised in revaluation reserve is reclassified to retained earnings.

### Revalued assets

Revaluations are performed by independent professional valuers with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from that which would be determined using fair values at the reporting date. Any increase in value, on revaluation, is recognised in other comprehensive income under the presented in "revaluation reserve" in other components of equity unless it offsets a previous decrease in value recognised loss in profit or loss in respect of the same asset, the increase is recognized in profit or loss. A decrease in value is recognised in profit or loss to the extent it exceeds an increase previously recognised in other comprehensive income in respect of the same asset. Upon disposal of a revalued asset, any related revaluation surplus is transferred directly to retained earnings and is not taken into account in calculating the gain or loss on disposal.

# Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, that is measured at fair value, the Group/Company shall remeasure the property is remeasured to fair value and reclassified as investment property. Any gain arising on remeasurement is recognised in profit or loss to the extent the gain reverses a previous impairment loss on the specific property, with any remaining gain recognised in other comprehensive income and presented in "revaluation surplus" in other components of equity. Any loss is recognised in other comprehensive income and presented in "revaluation surplus" in other components of equity to the extent that an amount had previously been included in the revaluation reserve relating to the specific property, with any remaining loss recognised immediately in profit or loss.

### Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group/Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

### Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of each component of an asset and recognised in profit or loss. No depreciation is provided on freehold land and assets under construction.

The estimated useful lives are as follows:

| Buildings and improvements                    | 2 - 25 | years |
|---|--------|-------|
| Furniture, fixtures and office equipment      | 3 - 10 | years |
| Tools, equipment and equipment held for lease | 1 - 10 | years |
| Vehicles                                      | 5      | years |

# Notes to the Financial Statements

For the year ended 31 December 2023

# (j) Goodwill

Goodwill is measured at cost less accumulated impairment losses. In respect of equity-accounted investee, the carrying amount of goodwill is included in the carrying amount of the investment.

# (k) Intangible assets

Intangible assets are measured at cost less accumulated amortisation and impairment losses. Subsequent expenditure is capitalised only when it will generate future economic benefits. Amortisation is calculated on a straight-line basis over the estimated useful lives of intangible assets and recognised in profit or loss.

The estimated useful lives are as follows:

Software license and others

3 - 10 years

# (l) Leases

At inception of a contract, the Group/Company assesses that a contract is, or contains, a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

### As a lessee

At commencement or on modification of a contract that contains a lease component, the Group/Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group/Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group/Company recognises a right-of-use asset and a lease liability at the lease commencement date, except for leases of low-value assets and short-term leases which are recognised as expenses on a straight-line basis over the respective lease terms.

Right-of-use asset is measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurements of lease liability. The cost of right-of-use asset includes the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of restoration costs, less any lease incentives received. Depreciation is charged to profit or loss on a straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group/Company by the end of the lease term or the cost of the right-of-use asset reflects that the Group/Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment.

The lease liability is initially measured at the present value of all lease payments that shall be paid under the lease. The Group/Company uses the Group's/Company's incremental borrowing rate to discount the lease payments to the present value. The Group/Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a lease modification, or a change in the assessment of options specified in the lease. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

# Notes to the Financial Statements

For the year ended 31 December 2023

### As a lessor

At inception or on modification of a contract, the Group/Company allocates the consideration in the contract to each component on the basis of their relative standalone selling prices.

At lease inception, the Group/Company considers to classify a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to lessees as a finance lease. A lease that does not meet this criteria is classified as an operating lease.

When the Group/Company is an intermediate lessor, the Group/Company classifies the sub-lease either as a finance lease or an operating lease with reference to the right-of-use asset arising from the head lease. In case of a head lease is a short-term lease, the sub-lease is classified as an operating lease. Those right-of-use assets are presented as investment properties.

The Group/Company recognises finance lease receivables at the net investment of the leases, which includes the present value of the lease payments, and any unguaranteed residual value, discounted using the interest rate implicit in the lease. Finance lease interest income reflects a constant periodic rate of return on the Group's/Company's net investment outstanding in respect of the leases.

The Group/Company recognises lease payments received under operating leases in profit or loss on a straight-line basis over the lease term as part of revenue from sale of goods and rendering of services/other income. Initial direct costs incurred in arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue from sale of goods and rendering of services/other income in the accounting period in which they are earned.

The Group/Company estimates lifetime expected credit losses (ECLs), using a provision matrix to find ECLs rate. This method groups the lease receivables based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date. The Group/Company derecognises the lease receivables as disclosed in note 3(d).

# (m) Impairment of non-financial assets

The carrying amounts of the Group's/Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised in profit or loss if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount, unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

### Calculation of recoverable amount

The recoverable amount is the greater of the asset's value in use or fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses of assets recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed. An impairment loss is reversed only to the extent that the asset's carrying amount does not

# Notes to the Financial Statements

For the year ended 31 December 2023

exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

# (n) Employee benefits

# Defined contribution plan

Obligations for contributions to the Group's/Company's provident funds are expensed as the related service is provided.

# Defined benefit plans

The Group's/Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligations is discounted to the present value, which performed regularly by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Group/Company determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group/Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Termination benefits are expensed at the earlier of when the Group/Company can no longer withdraw the offer of those benefits and when the Group/Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group/Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

# (o) Provisions

A provision is recognised if, as a result of a past event, the Group/Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

# Warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

# Provision for onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group/Company from a contract are lower than the unavoidable cost of meeting the Group's/Company's obligations under the contract. The provision is measured at the present value of the lower of the

# Notes to the Financial Statements

For the year ended 31 December 2023

expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group/Company recognises any impairment loss on the assets associated with that contract.

# (p) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group/Company has access at that date. The fair value of a liability reflects its non-performance risk.

When measuring the fair value of an asset or a liability, the Group/Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are based on unobservable input.

The Group/Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group/Company measures assets and asset positions at a bid price and liabilities and liability positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Group/Company determines that the fair value on initial recognition differs from the transaction price based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value adjusted for the difference between the fair value on initial recognition and the transaction price and the difference is recognised in profit or loss basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

# (q) Revenue from contracts with customers

# (1) Revenue recognition

Revenue is recognised when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Group/Company expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and is after deduction of any trade discounts and volume rebates.

Revenue from sales of goods is recognised on the date on which the goods are delivered to the customers. For the sales that permit the customers to return the goods, the Group/Company estimates the returns based on the historical return data, does not recognize revenue and cost of sale for the estimated products to be returned.

Revenue for rendering of services is recognised over time based on stage of completion/as the services are provided. The stage of completion is assessed based on cost-to-cost method/surveys of work performed. The related costs are recognised in profit or loss when they are incurred.

For bundled packages, the Group/Company recognises revenue from sales of products and rendering of services separately if a product or service is separately identifiable from other items and a customer can benefit from it or the multiple services are rendered in different reporting periods. The consideration received is allocated based on their relative stand-alone selling prices.

# Notes to the Financial Statements

For the year ended 31 December 2023

# (2) Contract balances

Contract assets are recognised when the Group/Company has recognised revenue before it has an unconditional right to receive consideration. The contract assets are measured at the amount of consideration that the Group/Company is entitled to, less allowance for expected credit loss. The contract assets are classified as trade receivables when the Group/Company has an unconditional right to receive consideration.

Contract liabilities are the obligation to transfer goods or services to the customer. The contract liabilities are recognised when the Group/Company receives or has an unconditional right to receive non-refundable consideration from the customer before the Group/Company recognises the related revenue.

# (3) Contract cost assets

Contract cost assets are the incremental costs to obtain a contract with a customer. The Group/Company expects to recover these costs. However, the incremental costs of obtaining a contract are expensed when incurred, if the expected amortisation period is one year or less.

Contract cost assets are measured at cost less accumulated amortisation and impairment losses. Amortisation is charged to profit or loss on systematic basis over the term of the contract it relates to, consistent with the related revenue recognition.

# (r) Other income

Other income, which comprises dividend, interest income and others is generally recognised based on accrual basis, except for dividend income which is recognised in profit or loss on the date on which the Group's/Company's right to receive payment is established.

# (s) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries, associates and joint venture to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group/Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the separate financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

# Notes to the Financial Statements

For the year ended 31 December 2023

# (t) Earnings per share

Basic earnings per share (EPS) is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

# (u) Related parties

A related party is a person or entity that has direct or indirect control, or has significant influence over the financial and managerial decision-making of the Group/Company; a person or entity that is under common control or under the same significant influence as the Group/Company; or a person or entity over which the Group/Company has direct or indirect control or has significant influence over the financial and managerial decision-making.

# (v) Segment reporting

Segment results that are reported to the Group's chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly gain on sales of investments, share of profits of associates and joint ventures accounted for using the equity method, dividend income and central expenses.

# 4 Acquisitions and disposals of subsidiaries and non-controlling interests

# (a) Subsidiaries increased in share capital

# <u>2022</u>

In April 2022, Loxley Trading Company Limited, a subsidiary of the Company, increased its registered share capital from Baht 50 million to Baht 100 million, which had been fully paid up. The Company paid up the increase in share capital according to percentage of shareholding of 50%, amounting to Baht 25 million.

In August 2022, Loxley Power Systems Co., Ltd., a subsidiary of the Company, increased its registered share capital from Baht 50 million to Baht 100 million, which had been fully paid up. The Company paid up the increase in share capital according to percentage of shareholding of 99%, amounting to Baht 50 million.

In November 2022, Loxley Evolution Technology Co., Ltd., a subsidiary of the Company, increased in registered share capital from Baht 40 million to Baht 50 million, which the Company did not exercise the right to increase the share capital, resulting in the decrease in percentage of holding in subsidiary from 99% to 80%. The Group has loss on change in percentage of holding in consolidated financial statements amounting to Baht 1.6 million which was recorded under "change in percentage of holding in subsidiary in subsidiaries" in other surpluses of equity.

# Notes to the Financial Statements

For the year ended 31 December 2023

# (b) Disposal of interest in subsidiary with a change of control

# <u>2022</u>

In May 2022, a subsidiary disposed its entire investment in ProProve Rojana Joint Venture Company Limited, an indirect subsidiary of the Company, to a non-related party amounting to Baht 1.4 million, resulting in a loss of control in the said subsidiary. The Group recognised an increase in non-controlling interest of Baht 0.06 million and has gain from disposal of investments in consolidated financial statements amounting to Baht 0.2 million, which was recorded in consolidated statements of income in full. The deconsolidation of such entity does not have any material impact on the consolidated financial statements.

# **5** Related parties

Relationships with subsidiaries, associates and joint ventures are described in notes 10 and 11. Other related parties that the Group/Company had significant transactions with during the year were as follows:

| Name of entities<br><i>Major shareholder</i>                 | Nature of relationships  |
|--|--|
| Ekpavee Company Limited                                      | A major shareholder, 26% shareholding of the Company, common director  |
| Key management personnel                                     |  |
| Key management personnel                                     | Persons having authority and responsibility for planning,<br>directing and controlling the activities of the entity, directly or<br>indirectly, including any director (whether executive or<br>otherwise) of the Company. |
| Other related parties  |  |
| Thanakorn Vegetable Oil<br>Products Co., Ltd.                | Shareholding by the major shareholder, subsidiary, common director   |
| Zin Suapah Company Limited                                   | Shareholding by the major shareholder, common director   |
| L Business Process Outsourcing<br>Co., Ltd.                  | Shareholding by the major shareholder  |
| Loxley International Company<br>Limited                      | Shareholding by Company's director, common director  |
| Other related parties  |  |
| Muang Thai Life Assurance<br>Public Company Limited          | Common director  |
| The Lamsam Estate Co., Ltd.                                  | Shareholding by Company's director, common director  |
| Mainstay Property Solutions &<br>Security Services Co., Ltd. | Shareholding by the major shareholder  |
| Phatra Leasing Public Company<br>Limited                     | Common director  |
| Phuket Smart Bus Co., Ltd.                                   | Shareholding by Company, common director   |
| Kasikornbank Public Company<br>Limited                       | Common director  |

The above related parties were incorporated in Thailand.

Loss rates are based on actual credit loss experience over the past 5 years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's/Company's view of economic conditions over the expected lives of the receivables.

# 8 Receivable under debt restructuring agreement

- a) In December 2017, Loxley Wireless Public Company Limited ("Loxley Wireless") and Office of the Welfare Promotion Commission for Teachers and Educational Personnel ("OTEP") entered into a compromise agreement. The said debtor agrees to pay the amount of Baht 1,294 million as follows;
  - Repayment as textbooks amount of Baht 165 million, which will be delivered to Loxley Wireless within 60 days from the agreement date (Loxley Wireless received textbooks from OTEP in full amount).
  - 2) The remaining amount of Baht 1,129 million is repayable within 6 years. The first installment is due within 25 January 2018 and the last installment is due within 25 December 2023.
    - 2.1) Monthly payment of not less than Baht 5 million, the first installment within 25 January 2018 and within 25<sup>th</sup> of the following month until the end of the agreement but not later than 25 December 2023.
    - 2.2) Additional payment as follows;
      - Additional payment within May 2019 amounting to not less than Baht 120 million
      - Additional payment within May 2020 amounting to not less than Baht 120 million
      - Additional payment within May 2021 amounting to not less than Baht 120 million
      - Additional payment within May 2022 amounting to not less than Baht 200 million
      - The rest of payment will be made within May 2023

As at 31 December 2023, Loxley Wireless received payment according to clause 2) as above amount of Baht 765 million (*31 December 2022: Baht 600 million*). However, due to the impact from COVID-19 outbreak, OTEP made default additional payment according to clause 2.2) of May 2022 and 2023, amount of Baht 155 million and Baht 209 million, respectively, in total amount of Baht 364 million. Subsequently, OTEP has issued a letter to Loxley Wireless requesting to delay the payment of the default payment. However, Loxley Wireless has submitted a response letter denying and reserving the right to claim interest for late payment in accordance with the compromise agreement.

During the year 2023, Loxley Wireless proceeded to file a petition for asset seizure against the debtor to the Enforcement Department. Subsequently, in May 2023, Loxley Wireless filed a petition for the civil court investigation into the operations and assets of OTEP, as well as a request for debtor summons and document witnesses. The debtor filed objections and requested the court to withdraw the enforcement officer's order.

In November 2023, the civil court ordered the withdrawal of the enforcement officer's order, dated 12 September 2023, to release the seizure of the debtor's assets (OTEP). Then, on 25 December 2023, Loxley Wireless appealed against the aforementioned withdrawal order to the court of appeal for consideration and issuance of an order to reverse the original court order. Currently, the litigation proceeding in the Court was underway and the outcome was yet to be determined. However, the Group's/subsidiary's management expected no materially significant impact on the financial statements.

Receivable under debt restructuring agreement has been pledged as collateral for the loan restructuring agreement with the financial institution (note 17).

# Notes to the Financial Statements

- b) A receivable of the Group entered into the business rehabilitation process under the order of the Central Bankruptcy Court according to bankruptcy law. The Group has outstanding receivable under business rehabilitation from the said company which consist of trade account receivable amounting to Baht 46 million and lease receivable amounting to Baht 13 million (net of the transfer of the right to receive money from such debtor to a leasing company in the amount of Baht 7 million). In June 2021, the Central Bankruptcy Court granted an order to approve the said business rehabilitation plan with the repayment plan as follows;
  - 1) Pay 100% of outstanding principal receivable by the cash flow from the normal operation of the said receivable. The payment is made on a semi annual basis for a period of 7 years, the first payment start from second half of the third year at the rate of 12.5%.
  - 2) The remaining debt from 1) shall be deemed settled and/or discharged immediately on the date the court granted the approval.

From those circumstance, the Group classified trade account receivable and lease receivable amounting to Baht 59 million and allowance for expected credit loss amounting to Baht 21 million to receivable under debt restructuring agreement in 2021. The Group's management recognised allowance for expected credit loss for the whole default amount that entering into the business rehabilitation process amounting to Baht 38 million in the year 2021.

### <u>2023</u>

In June 2023, the Company purchased shares of Thai Fiber Optic Co., Ltd., an associate of the Company from the shareholders in the amount of 600,000 shares, amounting to Baht 60 million. The purchase of the said investment resulted in the shareholding in the associated company increased from 40% to 99%, resulting in the said associated company change to a subsidiary of the Company. The Group has prepared the consolidated financial statements for the year ended 31 December 2023. However, after investing the Company received an offer to purchase the said investment in full amount from other party. Therefore, the Company is in the process of considering the proposal and classified the said investment as held for sale and recorded at carrying amount amounting to Baht 108 million and Baht 100 million in the consolidated and separate financial statements, respectively.

In December 2023, the Company restructured its equity holdings in Campana Group Pte. Ltd. (Campana), an investment of Loxley and AIT Holding Limited (LAH), a joint venture of the Company, in which the Company holds 50%. The purpose was for both companies to directly invest in Campana due to LAH stopping its core operations over the past several years. LAH sold its investment in Campana to both joint ventures, with each company amounting to Baht 54 million according to their respective shareholdings, based on Campana's book value, resulting in a change in Campana's investment classification from a joint venture to a non-marketable equity security (Note 30). Subsequently, LAH reduced its registered share capital from Baht 200 million to Baht 83 million, receiving a capital return of Baht 59 million and recognising an equity profit of Baht 4 million in the consolidated financial statements.

However, the above restructuring had no impact on the fair value of Campana, as the investments were previously fully impaired in 2022 due to credit risk, liquidity issues, and the inability to generate profits for the Company in the foreseeable future.

### <u>2022</u>

In May 2022, a subsidiary disposed its entire investment in Wisdom Vast Co., Ltd., an indirect associate of the Company, to a non-related party amounting to Baht 2 million. The Group has loss from disposal of investments in consolidated financial statements amounting to Baht 2.9 million, which was recorded in consolidated statements of income in full.

### 216

## Notes to the Financial Statements

For the year ended 31 December 2023 Impairment testing

Management of the Group/Company performed an impairment test of carrying amount of investment in associate and joint venture. The recoverable amount was based on its value in use, determined by discounted future cash flows to be generated from the continuing operations of CGU according to the business plan and discount rate which is calculated by weighted average cost of capital. Assumptions were derived from the Group/Company's management judgements, and were based on business plan taking into account past experience as well as the future prediction that is believed to be reasonable in the present situation. Any change or clarification in information arises in the future might create effect to the estimated recoverable amount.

# Notes to the Financial Statements

For the year ended 31 December 2023

### Investment in the 3-digit and 2-digit online lotteries project

Loxley GTECH Technology Co., Ltd., an associate of the Company, has entered into an agreement with the Government Lottery Office (GLO) of Thailand on 29 July 2005. However, the associate filed a complaint to the Administrative Court against GLO and on 27 May 2021, the Supreme Administrative Court judged GLO to pay total of Baht 1,654.6 million plus interest at the rate of 7.5% per annum of such principal amount from the lawsuit filing date until 10 April 2021 with interest of 3% per annum plus an additional payment of 2% per annum until the payment is settle, to be completed within 60 days. Later on, GLO and the associate has negotiated on the payment which reached an agreement that GLO will pay Baht 2,099.3 million and signed the compromise agreement on 23 July 2021, to repay principle amounting to Baht 1,654.6 million within August 2021 and interest amounting to Baht 444.7 million within the budget of fiscal year 2022. The interest payment will be divided into 4 equal installments, both parties entered into the compromise agreement and submitted it to the Administrative Court, the court issued notification letter to acknowledge the settlement according to the compromise agreement on 5 August 2021. In 2021, the associate has divided the said settlement balance to pay off the outstanding liabilities according to preferential rights and the debt proportion of each creditor. The Company will receive the repayment amounting to Baht 771 million. As at 31 December 2022, the Company received payment in full amount.

In 2023 and 2022, the associate has divided an additional settlement to each creditor which company will receive the repayment amounting to Baht 32 million and Baht 95 million, respectively. The Company recognised the said transaction as part of the reversal of impairment loss in the statements of income for the year ended 31 December 2023 and 2022.

Details of balance as at 31 December 2023 are as follows;

### Impairment testing

Management of the Company performed an impairment test of carrying amount of investment in subsidiaries. The recoverable amount was based on its value in use, determined by discounted future cash flows to be generated from the continuing operations of CGU according to the business plan and discount rate which is calculated by weighted average cost of capital. Assumptions were derived from the Company's management judgements, and were based on business plan taking into account past experience, as well as the future prediction that is believed to be reasonable in the present situation. Any change or clarification in information arises in the future might create effect to the estimated recoverable amount.

## Notes to the Financial Statements

For the year ended 31 December 2023

Overview

### Valuation technique Commercial properties

Discounted cash flows; The valuation model considers the present value of net cash flows to be generated from the property, taking into account expected rental growth rate, void periods, occupancy rate lease incentive costs such as rentfree periods and other costs not paid by tenants. The expected net cash flows are discounted using riskadjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality and lease terms.

### Significant unobservable inputs

- Expected market rental growth 5% -10% for 1-3 year period
- Occupancy rate 100%
- Discount rates 10% (2022: 9%)

### Inter-relationship between key unobservable inputs and fair value measurement

The estimated fair value increase (decrease) if:

- Expected market rental growth were higher (lower);
- The occupancy rate were higher (lower); or
- The discount rate were lower (higher).

Form 56-1 One Report 2023 • Loxley Public Company Limited

## Notes to the Financial Statements

For the year ended 31 December 2023

The fair value of land was determined by independent professional valuers, at open market values on an existing use basis. The fair value of land has been categorised as a Level 3 fair value.

| Valuation techniqu | e uno |
|--------------------|-------|

### Significant unobservable inputs

• Land price of neighborhood areas

### Inter-relationship between key unobservable inputs and fair value measurement

The estimated fair value increase (decrease) if land price of neighborhood areas were higher (lower).

*Current replacement cost;* The valuation model considers the characteristics of land, compared to market prices of similar properties. The market value of land was analysed considering the relevant factors including zoning, surrounding environment, transportation facilities, size, shape and land features, and current use of land.

### 15 Leases

As a lessee

# Notes to the Financial Statements

For the year ended 31 December 2023

### Long-term loans from financial institutions

As of 31 December 2023, long-term loans from financial institutions bear interest at the rates 1.99% to 6.10% p.a. (2022: 4.25% to 4.85% p.a.) and are repayable in installments up to December 2029. The Group/Company is subject to certain terms and conditions of the long-term loans from financial institutions, including the maintenance of certain financial ratios.

In April 2017, Loxley wireless was granted the approval from a financial institution to extend the repayment period of short-term loan amounting to Baht 1,023 million from repayment within April 2017 to April 2020 and in June 2018, the Loxley wireless was additionally granted the approval to extend the repayment period from repayment within April 2020 to within December 2023 according to the loan restructuring agreement with the financial institution. Consequently, the said receivable OTEP (note 8), which has been transferred the right according to the loan restructuring agreement with the financial institution, has defaulted payment start from May 2020. This makes the Loxley wireless being unable to repayment debt in amount and schedule as specified in the loan restructuring agreement. As a result, as at 31 December 2022, the financial institution has the right to call for repayment the long-term loan in full amount under the original loan agreement. The Group has classified the Loxley wireless's whole amount of such long-term loan as part of debt restructuring agreement and accrued interest expenses. And in December 2023, Loxley wireless was additionally granted the approval to extend the repayment period to within July 2024. As at December 2023, loans under debt restructuring agreement and accrued interest expenses remaining Baht 393 million (accrued interest expenses amounting to Baht 107 million) in the consolidated financial statements.

In December 2022, the Company withdraw an unsecured long-term loan with a financial institution amounting to Baht 700 million for the purpose of repaying the long-term debentures due. The long-term loan has a term of 7 years until 2029 and repayable every 6 months in June and December. As at 31 December 2023, loan with a financial institution remaining Baht 630 million and bear interest at the floating rates 6.10% p.a. (2022: 4.85% p.a.) Interest will be payable every month.

### Long-term debenture

In September 2022, the Company has issued debenture amounting to Baht 300 million (300,000 units with a face value of Baht 1,000 per unit) for the purpose of repayment of long-term loan from financial. Debenture has due in September 2025. The debenture bears interest at the rates 4.5% per annum. Interest will be payable every 6 months in March and September.

The Company has to comply with the conditions of the debenture including maintaining certain financial ratios.

As at 31 December 2022, provisions for project loss mostly occur from a project of Network Solutions Business Group with a state enterprise. The said loss is caused by a necessary change in construction plan, significant changes in main equipment of the project and installation of work in the operating area of some systems to allow work in connection with other utilities and building structures completely including the delay of the delivery of the construction area due to the problems of the construction of other contractors and COVID-19 outbreak which are external factors that cannot be controlled and affects the operation of the project resulting in increasing the project's operation costs and expenses. However, the Company has been approved the period extension and the Construction Supplies Acceptance Committee has approved to decrease penalty, with charge of 0% ended at 28 April 2023.

On 28 April 2023, the Company has tested the operation and other equipment. Including the commissioning test of the systems completed according to the activity requirements. The Company received the letter of Substantial Completion on 7 June 2023, effective since 28 April 2023 which was the contract due date. Subsequently, on 11 August 2023, the Company has received the Final Acceptance Certificate from the employer as specified in the contract. There are remaining obligations of warranty for 2 years and 5 years according to the circumstances from 28 April 2023.

### 21 **Provisions for employee benefits**

The Group and the Company operate a defined benefit plan based on the requirement of Thai Labour Protection Act B.E. 2541 (1998) to provide retirement benefits to employees based on pensionable remuneration and length of service. The defined benefit plans expose the Group/Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk.

Assumptions regarding future mortality have been based on published statistics and mortality tables.

At 31 December 2023, the weighted-average duration of the defined benefit obligation for Group was 14 - 26 years (2022: 14 - 26 years) and for the Company was 19 years (2022: 19 years).

### Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

|  | <b>Consolidated financial statements</b> |           |               |            |  |  |  |  |

### Share premium

22

Section 51 of the Public Companies Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). Share premium is not available for dividend distribution.

### 23 Legal reserves and others

Reserves comprise:

### Appropriations of profit and/or retained earnings

### Legal reserve

Section 116 of the Public Limited Companies Act B.E. 2535 (1992) requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, if any, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

### **Other surpluses**

### Change in percentage of holding in subsidiaries

Change in percentage of holding in subsidiaries within equity comprises of effect from dilution of percentage of holding of the Company in subsidiaries and difference from changes in parent's ownership interest in subsidiaries that do not result in a loss of control.

# Notes to the Financial Statements

For the year ended 31 December 2023

### Other components of equity

### **Translation reserve**

The translation reserves comprise all foreign currency differences arising from the translation of the financial statements of foreign operations.

### Fair value reserve

The fair value reserve comprise:

- the cumulative net change in the fair value of equity securities designated at FVOCI;
- the cumulative net change in fair value of debt securities at FVOCI until the assets are derecognised or reclassified. This amount is adjusted by the amount of loss allowance.

### **Revaluation reserve**

The revaluation reserve comprises the cumulative net change in the valuation of assets included in the financial statements at valuation until such assets is sold or otherwise disposed of.

### **Movements in reserves**

Movements in reserves are shown in the statements of changes in equity.

### 24 Segment information and disaggregation of revenue

The Group has six reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately because they require different technology and marketing strategies. The following summary describes the operations in each of the Group's reportable segments.

- Segment 1 Information Technology Business Group
- Segment 2 Services Business Group
- Segment 3 Energy Business Group
- Segment 4 Network Solutions Business Group
- Segment 5 Trading Business Group
- Segment 6 Special project and other businesses

None of other segments meets the quantitative thresholds for determining reportable segments in 2023 or 2022.

Each segment's performance is measured based on segment profit before finance costs and income tax expense, as included in the internal management reports that are reviewed by the Group's CODM. Segment profit before finance costs and income tax expense is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

| Material movement Year ended 31 December |                       |             |                                  |      |  |
| Transfer to trade accounts receivables   | 1,290                 | 1,499       | 508                              | 589  |  |

The contract assets primarily relate to the Group's/Company's rights to consideration for work completed but not billed at the reporting date. The Group's and the Company's contract asset amounted to Baht 44 million and Baht 31 million, respectively, are expected to be recognized as revenue when the products are delivered after 12 months from the reporting date (2022: Baht 29 million and Baht 25 million, respectively).

| Contract Liabilities                          | Consolidate<br>stater |             | Separate financial statements |      |  |
|---|-----------------------|-------------|-------------------------------|------|--|
|   | 2023                  | 2022        | 2023                          | 2022 |  |
|   |                       | (in millior | 1 Baht)                       |      |  |
| Advance consideration received from customers | 601                   | 482         | 71                            | 94   |  |

The contract liabilities primarily relate to the advance consideration received from customers. The Group/Company recognises such contract liabilities as revenue when transferring control of the goods to the customers and consideration allocated to unsatisfied service-type warranty, for which revenue is recognised on a straight-line basis over the term of the service-type warranty.

The Group's and the Company's contract liabilities at 31 December 2023 amounted of Baht 323 million and Baht 87 million, respectively, and have been recognized as revenue in 2023 (2022: Baht 577 million and Baht 142 million, respectively).

# (e) Revenue expected to be recognised in the future related to performance obligations that are unsatisfied

As at 31 December 2023, the Group and the Company have revenue expected to be recognised in the future related to project and service performance obligations that are unsatisfied amounting to Baht 7,213 million and Baht 1,597 million, respectively, which expected to be recognised in 2024 to 2029.

As at 31 December 2022, the Group and the Company have revenue expected to be recognised in the future related to project and service performance obligations that are unsatisfied amounting to Baht 7,839 million and Baht 3,162 million, respectively, which expected to be recognised in 2023 to 2028.

|                                  | 2023                                 | 2022  | 2023                            | 2022 |  |
|                                  | (in million Baht)                    |       |                                 |      |  |
| Deductible temporary differences |                                      | ·     |                                 |      |  |
| - Provisions                     | 548                                  | 595   | 311                             | 371  |  |
| - Others                         | 2                                    | 2     | 2                               | 2    |  |
| Loss carry forward               | 641                                  | 598   | 663                             | 620  |  |
| Total                            | 1,191                                | 1,195 | 976                             | 993  |  |

The tax losses expire in 2023 - 2027. The deductible temporary differences do not expire under current tax legislation. The Company and some of subsidiary has not recognised these items as deferred tax assets because a part of the Company and some of subsidiary's income is dividend income which is income tax exempted it is not probable that the Company and some of subsidiary will have sufficient future taxable profit to utilise the benefits therefrom.

### 28 Basic earnings per share

Profit of basic earnings per share for the years ended 31 December 2023 and 2022 were based on the profit for the years attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding during the years as follows:

|  | Consolidated financial statements |                | Separate<br>financial statements |          |
|--|-----------------------------------|----------------|----------------------------------|----------|
|  | 2023                              | 2022           | 2023                             | 2022     |
|  | (i.                               | n million Baht | / million share                  | es)      |
| Profit for the year attributable<br>to ordinary shareholders<br>of the Company (basic) | 359.11                            | 87.55          | 181.66                           | 20.15    |

# Notes to the Financial Statements

For the year ended 31 December 2023

### Financial instruments measured at fair value

| <b>Type</b><br>Forward exchange contracts   | <b>Valuation technique</b><br><i>Forward pricing</i> : The fair value is determined using quoted<br>forward exchange rates at the reporting date and present value<br>calculations based on high credit quality yield curves in the<br>respective currencies. |
|---|---|
| Investments in marketable unit<br>trusts classified as financial<br>assets measured at fair value | The net asset value as of the reporting date.   |
| Non-marketability of the equity securities  | The net asset value as of the reporting date (using financial information of investees as unobservable inputs).   |

# (b) Movement of debt and equity securities

# Notes to the Financial Statements

For the year ended 31 December 2023

### (c) Financial risk management policies

### **Risk management framework**

The Group/Company board of directors has overall responsibility for the establishment and oversight of the Group/Company risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group/Company risk management policies. The committee reports regularly to the board of directors on its activities.

The Group/Company risk management policies are established to identify and analyse the risks faced by the Group/Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group/Company activities. The Group/Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group/Company audit committee oversees how management monitors compliance with the Group's/ Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group/Company. The Group/Company audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

### (c.1) Credit risk

Credit risk is the risk of financial loss to the Group/Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's/Company's receivables from customers and investments in debt securities.

(c.1.1) Trade and other receivables, Lease receivables and Contract assets

The Group's/Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Detail of concentration of revenue are included in note 24(b) and 24(c).

The management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's/Company's commercial terms and conditions are offered. The Group's/Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from management committee.

Allowance for expected credit loss for trade and other receivables are given in note 7.

(c.1.2) Receivable under debt restructuring agreement and loans to related and other parties

The following table presents the exposure to credit risk for receivable under debt restructuring agreement and loans to related and other parties at amortised cost. It indicates whether assets measured at amortised cost were subject to a 12-month ECL or lifetime ECL allowance and, in the latter case, whether they were credit-impaired.

(c.1.3) Investment in debt instruments, cash and cash equivalent, and derivative

The Group's/Company's exposure to credit risk arising from investment in liquid debt securities, cash and cash equivalents and derivative are limited because the counterparties are banks and financial institutions which the Group/Company considers to have low credit risk.

### (c.2) Liquidity risk

The Group/Company monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's/Company's operations and to mitigate the effects of fluctuations in cash flows.

The following table shows the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments and exclude the impact of netting agreements.

# Notes to the Financial Statements

For the year ended 31 December 2023

### (c.3) Market risk

The Group/Company is exposed to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is as follows:

(c.3.1) Foreign currency risk

The Group/Company is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies. The Group/Company primarily utilizes forward exchange contracts with maturities of less than one year to hedge such financial assets and liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases and sales, denominated in foreign currencies, for the subsequent period.

### Sensitivity analysis

A reasonably possible strengthening (weakening) of Thai Baht against all other foreign currencies at the reporting date would have affected the measurement of financial instruments denominated in a foreign currency. This analysis assumes that all other variables, in particular interest rates, remain constant.

Fair value sensitivity analysis for fixed-rate instruments

The Group/Company does not account for any fixed-rate financial assets or financial liabilities, at FVTPL. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable-rate instruments

A reasonable possible change of 1% in interest rates at the reporting; This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

## 32 Contingent liability

(a) A subsidiary has entered into a sale contract with a state enterprise, amounting to Baht 89 million. A subsidiary has partially delayed to deliver the product. As a result, in September 2019, the subsidiary received a notice to reserve the right to claim penalty of Baht 41.7 million according to the contract. During October 2019, the subsidiary sent a letter to the contractor requested them to reconsider the penalty according to the contract as the amount of the penalty informed is disproportionately high which is inconsistent with the interpretation and penalty calculation according to the contract and inconsistent with the penalty calculation according to the regulations of the Ministry of Finance regarding Government Procurement and Supplies Management Act B.E. 2560 (A.D. 2017). Therefore, the subsidiary calculated the maximum expected delayed penalty at Baht 9 million, which was recognised in the consolidated financial statements.

On 30 May 2022, the subsidiary filed a complaint to the Civil Court against a state enterprise to consider and adjudicate the state enterprise to refund the penalty a total of Baht 41.7 million plus interest at the rate of 3% per annum of such principle amount from 1 May 2018 until the payment to the subsidiary. At the reporting date, the litigation proceeding in the Civil Court was underway and the outcome was yet to be determined. However, the Group's/subsidiary's management reasonably be thought that the said subsidiary has no obligation to pay compensation from the lawsuit.

(b) In 2021 and 2022, a subsidiary has been filed by a group of employees who were transferred to AOT Aviation Security Co., Ltd. requesting the Labour Court of Region 1 and Region 8 for the compensation and fine for the late notification. The Labour Court of Region 1 and Region 8 dismissed the plaintiff's lawsuit, then the plaintiff made an appeal against the judgment and a subsidiary has made a defend of the appeal to the Court of Appeal for Specialized Cases. Subsequently, the Court of Appeal for Specialized Cases in affirmance with the Courts of First Instance's judgment. As at 31 December 2023, a subsidiary has received the letter of case terminations from the Labour Court of Region 1 and Region 8 notify the final judgement, the said subsidiary has no obligation to pay compensation and fine from the lawsuit.

# Notes to the Financial Statements

For the year ended 31 December 2023

(c) A subsidiary has entered into an agreement relating to the co-operation project for managing book stores with a public organisation.

Subsequently, in October 2023, a subsidiary was sued by a public organisation to the Civil Court for damages for breach of contract of Baht 31 million. The subsidiary objected to all allegations and claimed damages for breach of Baht 77 million in December 2023. The litigation proceeding in the Civil Court was underway. However, the management of the group and its subsidiaries believes that the subsidiary has no obligation to pay such damage, therefore, no provision has been made in the consolidated financial statements as at 31 December 2023.

# 33 Reclassification of accounts

Certain accounts in the 2022 financial statements have been reclassified to conform to the presentation in the 2023 financial statements as follows:

|  | fir      | <b>Consolidated</b><br>nancial statement<br>2022 |          |
|--|----------|--|----------|
|  | Before   |  | After    |
|  | reclass. | Reclass.<br>(in million Baht)                    | Reclass. |
| Statement of financial position              |          |  |          |
| Other payables                               | 1,094    | (98)   | 996      |
| Current portion of long-term loans from      |          |  |          |
| financial institutions                       | 559      | (441)  | 118      |
| Loans under debt restructuring agreement and |          |  |          |
| accrued interest expenses                    | -        | 539  | 539      |
| Total  |          |  |          |

The reclassifications have been made because, in the opinion of management, the new classification is more appropriate to the Group's business.

Mrs. Preeyanuch Paiboonsithiwong is the secretary to the Audit Committee

Note : \* Mr. Harit Sutabutr, Ph.D. resigned from a Company's Director, effective from 30 November 2023.

\*\* The Board of Directors Meeting No. 7/2023 on 21 December 2023, resolved to appoint Mr. Chatmongkol Peetathawatchai, Ph.D. as Independent Director and Audit Committee member to replace the director who resigned, Effective from 21 December 2023, and Mr. Chatmongkol Peetathawatchai,Ph.D didnot attended in The Audit Committee Meeting 2023.

\*\*\* The Board of Directors Meeting No. 7/2023 on 21 December 2023, resolved to appoint Mrs. Nattaporn Phan-Udom,Ph.D. as Chairman of the Audit Committee

The Audit Committee has reported the outcome of each meeting to the Board of Directors to implement matters as deemed appropriate. Its core missions may be summarized as described below.

- 1. The committee reviewed the consolidated and separate financial statements of Loxley Public Company Limited, both quarterly and annual financial statements reviewed and audited by the auditor. It was found that the Company's consolidated and separate financial statements have been prepared in accordance with the financial reporting standards and information has been sufficiently disclosed.
- 2. The Company's auditor was invited to meet with the Audit Committee quarterly to listen to clarifications about the auditor's report, the outcome of the audit and review of financial statements, issues from the audit and review and recommendations regarding the internal control system and the directions of Thai financial reporting standards. The Audit Committee held one meeting with the Company's auditor without the presence of Company's management.
- 3. The committee reviewed the disclosure of connected transactions quarterly according to the Notification of the Securities and Exchange Commission Re : Disclosure of Information and Other Acts of Listed Companies concerning the Connected Transactions to ensure accuracy and completeness.
- 4. In meetings regarding administration of various aspects, the management of the Company and related subsidiaries had been invited to the meetings based on agenda items as appropriate, to present data, acknowledge observations, listen to opinions and recommendations which enhance the management efficiency for the Group.

- 5. The committee ensured that the Company complies with the law governing securities and exchange, regulations of the Stock Exchange of Thailand and laws applicable to the Company's business operation.
- 6. The committee considered, selected and nominated an independent person as the Company's auditor, and proposed remuneration for such person in 2023 before presentation thereof to the Board of Directors to seek approval from the Company's shareholders accordingly.
- 7. The committee reviewed and evaluated the adequacy of the Company's internal control system, provided advice to the Company to establish an effective internal control system and appropriate internal audit, as well as encouraging more efficient operational control, including encouraging systematic risk management in the Company's operations.
- 8. The committee approved the annual internal Audit plan, acknowledged audit findings and ensured monitoring of rectification according to the internal audit report, especially the significant issues, to ensure corporate governance.
- 9. The committee reviewed the suitability of the Audit Committee's Charter on a regular basis.

The Audit Committee performed its work in the previous year independently and received positive cooperation from all related parties. The Audit Committee viewed that the Company has prepared its financial reports and information was adequately disclosed in accordance with the financial reporting standards and regulations and laws related to its business operations, and found no significant issues that may affect the effectiveness of internal control, risk management and corporate governance. The Audit Committee has reported this opinion to the Board of Directors.

Hennes

(Mrs. Nattaporn Phan-Udom,Ph.D.) Chairman of the Audit Committee

# Attachment 7 Report on Responsibilities of the Board of Directors for Financial Statements

The Board of Directors of Loxley Public Company Limited is responsible for consolidated financial statements of the Company and its subsidiaries that are provided in this Annual Report. The financial statements are prepared in accordance with Thai Financial Reporting Standards, using appropriate accounting policies that are applied on a consistent basis. The financial statements are also prepared after careful consideration and, when applicable, use of appropriate estimates and judgments. All significant information related to the accounting policies and the financial statements, including the conventions and practices used for the preparation of these financial statements, are adequately disclosed in the notes to the financial statements. The financial statements have been audited by independent certified public accountants whose unqualified opinions are stated in the audit report.

The Audit Committee, entirely comprising independent directors, has been appointed by the Board of directors, to be responsible for overseeing the quality of the Company's financial reports, internal control system and Internal audit. In this respect, the Audit Committee's opinion regarding such matters is stated in the Annual Report under the Audit Committee's Report.

The Board of Directors is of the view that the Company's overall internal control system is adequate and appropriate and can provide reasonable assurance that the financial statements of the Company, including the consolidated financial statements of the Company and its subsidiaries for the year ended 31 December 2023, are reliable pursuant to applicable financial reporting standards, and are correct, complete, and accurate according to accounting standards, relevant laws and regulations which have been reviewed by the certified public accountant.
